## **Governor's Message**

**PHILIP MURPHY  
GOVERNOR OF NEW JERSEY  
TRANSMITTED TO THE FIRST ANNUAL SESSION  
OF THE TWO HUNDRED AND TWENTIETH LEGISLATURE  
March 5, 2019**

Lieutenant Governor Oliver. Senate President Sweeney, Speaker Coughlin, Majority Leaders Weinberg and Greenwald, Minority Leaders Kean and Bramnick, and members of the 218th Legislature.

Former Governors. Chief Justice Rabner. Judge Grant. Members of the Cabinet.

Faith leaders. Honored guests. Friends and fellow New Jerseyans.

Our license plates say, "New Jersey, the Garden State." But even more than that, New Jersey is the middle-class state. We are all in this together. And, coming together is how we succeed.

So, today I am presenting a budget that is a blueprint for how we continue to build a more secure and inclusive middle class in New Jersey.

This budget is how we make real the promise of a stronger and fairer state that works for every family. And, it builds on the progress we have already made.

Together, we are paving the way for countless families – like the family I grew up in – who want nothing more than to move into the middle class, and we are smoothing the path for those already there.

Together, just a month ago, we put our state on a path to a \$15 an hour minimum wage. This path is the on-ramp that more than one million New Jerseyans will use to ultimately move into the middle class. The economic activity they will power will make those already in the middle class more secure.

But it's about more than just economics. The New York Times said it best, "The \$15 minimum wage doesn't just improve lives. It saves them."

It goes further, "A living wage is an antidepressant. It is a sleep aid. A diet. A stress reliever. It is a contraceptive, preventing teenage pregnancy. It prevents premature death. It shields children from neglect."

If anyone in this chamber ever questions whether what we do matters, simply think of the families striving to join the middle class, those whose paths have been blocked because of a yawning racial wealth gap, and the ALICE families working hard but falling behind -- and then look to this achievement.

Or, to this one. Two weeks ago, we expanded paid family leave to make an even greater difference for families who need time off from work to welcome a new baby, or care for a sick loved one. And, one week ago today, workers who had never before had the ability to take a paid sick day finally began to enjoy this basic benefit so many of us take for granted.

Together, we are beginning to properly fund our public schools, strengthening a public education engine that is the foundation for the middle class – and, at the same time, providing much needed property tax relief.

Together, we are fundamentally redefining public education with greater access to pre-K and by beginning to make community college tuition-free. These are landmark achievements in strengthening the middle class and making New Jersey a national leader.

Together, we are making health insurance more affordable and finally funding Planned Parenthood, steps that take some of the edge off the high costs of health care.

Together, we are rebuilding NJ TRANSIT, directly benefiting everyone who commutes to work and school, and making our state more competitive.

Together, we are making real differences in the everyday lives of millions of people. Together, we are making New Jersey stronger and fairer.

For all of this, I thank you.

But, we must be clear where this journey started. This Administration, and this Legislature, inherited a state hollowed out by eight years of wrong-headed and short-sighted decisions.

# GOVERNOR'S MESSAGE

---

It was eight years of shutting-out middle-class New Jersey families and shutting the door on those struggling to get there.

New Jersey lagged the nation in economic growth and in creating jobs. Eleven credit downgrades drove up costs and pushed down our reputation. Critical infrastructure projects were abandoned, NJ TRANSIT was gutted, and commuters were literally left behind. Public schools and pensions were underfunded year after year.

Again and again, New Jersey's middle class paid the price.

Of course, we heard the word "affordability" a lot over those eight years. But as with so many things over those years, the rhetoric and the reality didn't connect. Affordability was only defined in narrow, partisan terms.

For eight long years, the politics of division failed New Jersey. Just as the politics of division are today failing our nation.

Today, in New Jersey, we are climbing our way out of a deep hole. But in New Jersey, we don't give up, we just work harder. So, together, let's get to work.

In this budget, affordability is about the smart and honest investment of our resources where they will do the most good ... where they can create broad opportunity for many as opposed to just rewarding a privileged few ... where they can rebuild our middle class, rather than milk it.

And, affordability is about being good stewards of every taxpayer dollar and working together to find savings that no one had thought possible.

That is why this budget is rooted in over \$1.1 billion in real and sustainable savings -- including nearly \$800 million in public employee health benefit cost savings and another \$200 million-plus in departmental savings.

You heard that number right – over \$1.1 billion in real and sustainable savings.

Much of these significant savings were achieved through cooperation with our public employees rather than through confrontation. These savings were achieved through the power of working together.

These savings will allow us to take the steps we need to move New Jersey forward. Growing up in our family, the only way we could spend money is if we saved money. I know a lot of New Jerseyans understand that.

Of course, no one, especially not me, questions that taxes are a big piece in New Jersey's affordability puzzle.

That is why slowing the growth of property taxes to a record low matters. That is why our expansion of the Earned Income Tax Credit matters. That is why restoring the homestead property tax benefit matters. That is why tax fairness for middle-class families, seniors, and small and medium-sized businesses matters.

This budget continues us down this path.

But, growing our economy, and investing in the things that will make life better for our middle class and those who aspire to join it, are equally important.

Each of us came here to make things better, to meet our responsibilities, and to serve our constituents. This is a chamber filled with good people with good intentions.

Yet, here we are, paying the price for past years of pushing problems down a broken road.

That is why this blueprint for the middle class matters.

This budget is built upon four elements.

One: Doing the hard work to realize over \$1.1 billion in sustainable savings.

Two: Stabilizing New Jersey's credit-worthiness through responsible fiscal stewardship.

Three: Maintaining and growing our investments in education, infrastructure – in particular NJ TRANSIT – and an innovation-driven economy that reaches deep into every neighborhood.

Four: Ensuring tax fairness for our middle class.

We must remember that each number we write into the budget is a face – the face of one of millions of New Jerseyans looking to us to put aside our differences to overcome our challenges.

Several of these faces are here with us today, guests of the Lieutenant Governor and the First Lady. They are committed to being part of a better future, and they are the people this budget invests in.

Among them are Tawana Watkins, of East Orange, who is part of the new class of NJ TRANSIT engineers, and who will play a big part in once again making NJ TRANSIT the envy of the nation.

Lindenwold's Aurelio Sotelo is a finance student at Rutgers-Camden thanks, in part, to the Educational Opportunity Fund. Because of the EOF, Aurelio is well on his way to achieving his dream of owning his own clothing company.

And, Stacey Barrio-Lothrop and Jans Heinsohn of Carbon22, an innovative medical-device manufacturer which is taking root at the Kearny Point incubator space. Carbon22 is also the very first company to take advantage of the investment we are making in our startup culture through NJ Ignite, the EDA's collaborative workspace rent initiative. In our work to reclaim our dominance in the innovation economy, people like Stacey and Jans, and companies like Carbon22, will lead the charge.

Their faces, those of the other special guests with us today, and the millions of others like them across our state, are why the most important investment in this budget is in the middle class, and in those who dream to join its ranks.

We are as committed to them as we are to our principles, but as I have said before we can compromise on policy without compromising either our principles or our commitment to our people.

I understand the budget I am proposing today will not be identical to the one I will ultimately sign. We will talk, we will negotiate, and we will compromise. That is as it should be. That is how our system works best.

We will have to make hard choices, but that is different from false choices. We need to be stronger and fairer. We can't have economic progress without social progress and we can't have social progress without economic progress.

Because when we remember that success and fairness are not mutually exclusive, we can do big things.

Last year, our Administration worked with our public employees to strike an agreement that is saving state and local taxpayers \$500 million across two years while protecting the health care of the men and women of state and local government, our educators, and our police, fire, and EMS first responders.

But, that was not an end, it was just a beginning, and our conversations never stopped.

We continued to present new ideas, to hear theirs, and to talk as partners, instead of as adversaries.

Negotiations and progress flow from mutual trust. They go nowhere when there is only mutual suspicion. That's the old way. That's the failed way. And, those days are over.

In total, our budget contains roughly \$800 million in real and lasting savings in the delivery of public employee health care in the coming fiscal year – a 16 percent year-over-year decrease from the current budget.

Importantly, the reforms we have agreed upon – and those we continue to work toward in good faith – will allow our taxpayers to keep hundreds of millions of dollars in their pockets. Their impact on local and school budgets is also expected to deliver more than \$400 million in property tax relief.

And, it will save money for those who serve our state, our communities, and our schools, while maintaining the high-quality health care they deserve.

It will make New Jersey more affordable across the board. Half of these savings we will be able to implement administratively, while others will be realized through collective bargaining and the work of the Plan Design Committees that craft the policies available to our public workforce.

Our public workers are not the enemy, they are our neighbors. They are also taxpayers. They are the heart of our middle class. It is not pandering to stand with them -- it is doing our jobs.

We accomplished this with the same mindset in which we worked to save residents an average of more than nine percent on individual health care policies by protecting the Affordable Care Act. The aim isn't to offer lesser care – it's to provide high-quality care at a lower cost. And, we are doing that.

We are doing it without yelling, threatening, or calling people names.

And, I will continue to work in partnership, and in good faith, with our partners in the public workforce on ways we can, collectively, ensure greater progress, and greater relief, for our taxpayers.

## GOVERNOR'S MESSAGE

---

As I mentioned we have also identified another \$200 million-plus in departmental savings opportunities throughout the budget, which we will apply this year.

I thank Treasurer Liz Muoio and her team for their hard work – work that has added up to over \$1.1 billion in savings. By anybody's standard, over \$1.1 billion in sustainable savings is real and substantial.

I also thank Human Services Commissioner Carole Johnson for her knowledgeable leadership in finding an additional quarter-of-a-billion dollars in recoverable Medicaid funds, plus millions more in other efficiencies that will allow us to maximize our federal dollars while protecting beneficiaries.

We are building a stronger fiscal house for New Jersey. We are replacing gimmicks with stability.

For example, the projected surplus of the budget I signed last year was \$765 million – a vast improvement over prior budgets. But, through careful management and keeping an eye on every dollar, we have grown our surplus by one-third over the year and are now set to close Fiscal 2019 with a surplus of over \$1 billion.

This budget will grow our surplus even more in Fiscal 2020, to nearly \$1.2 billion.

I ask you to find the last time we had consecutive years of billion-dollar-plus surpluses.

Last year, I proposed a budget that significantly cut back on the use of one-shots, and this budget once again maintains that example. One-shot revenues are down to only 1.7 percent, a decrease of one-third over the current budget, and half the average yearly amount across the prior administration.

And, in this budget, we are significantly curtailing fund diversions. We are eliminating entirely the diversion from the Affordable Housing Trust Fund, so Lieutenant Governor Oliver and her team at DCA can do more to ensure the accessibility of safe and affordable housing. And, through the Clean Energy Fund, we will put more than \$70 million back to work to make critical investments in our clean-energy economy.

This shows how far we have already come in fixing the structural problems that years of past fiscal decisions had created. And, we know there's still work to do.

Especially with our surplus, we must remain vigilant to safeguard these funds, and not to view them as just extra cash laying around to be raided for any number of programs or projects, no matter how well-intentioned.

Reducing our reliance on one-shots and diversions means greater year-over-year fiscal predictability and reliability.

But the real value is that they allow us to make the investments we need, to make New Jersey a stronger and fairer state for every family.

And, reaching these fiscal mileposts will not go unnoticed by the rating agencies, with whom I will visit later this week, and whose decisions greatly impact our future sustainability.

Because, with a more sustainable fiscal future, we can make more sustainable investments in our future.

Last year, we began the process of finally fulfilling our obligations to our public schools, increasing our investment in K-through-12 classrooms by more than \$350 million.

Let there be no doubt, this investment is one reason why 2018 saw the lowest increase in the average statewide property tax bill not just in the last nine years – but on record.

And, the work to modernize our formula to meet the on-the-ground needs of districts today, led by Senate President Sweeney, is ensuring that school funding dollars are more efficiently and effectively following our children.

We also increased investment in high-quality pre-K programs. Today, in 64 additional school districts, more than 4,400 three- and four-year-olds now have access to pre-K they lacked just one year ago.

This budget maintains this commitment to our kids and our public schools – starting with an additional \$206 million to ramp-up to the full K-through-12 formula funding. There is \$68 million more to not only maintain, but to expand, pre-K. These commitments mean we can continue to be a national leader in the delivery of high-quality public education.

And, our budget continues our Computer Science for All initiative. This gives more high school students, especially minority students, access to an advanced computer science course, so they can earn college credits and industry credentials -- and go on to increase the diversity of our innovation economy.

Our budget includes \$5 million more for Tuition Aid Grants, and an additional \$2.25 million to support the Educational Opportunity Fund.

This is the 50th year in which accomplished students, like Aurelio, are benefitting from EOF. It is the greatest legislative legacy of former Governor Tom Kean, who sponsored the original bill. Let's ensure it continues to write new chapters for our students.

Last year, we inaugurated a grant program that – in concert with EOF and TAG, and other available aid – is helping 13,000 qualified students to pursue an associate's degree tuition-free at one of 13 community colleges.

This budget will grow our investment in Community College Opportunity Grants to reach a total of 18,000 students in the 2019-2020 academic year at every community college – and more of them will be pursuing a degree full-time.

And, our budget looks to a new way to help our four-year public colleges and universities. We propose \$20 million in new formula-driven aid, based on what is needed to ensure the best outcomes for all students and reflect the diversity of our state. This is a first step in funding higher education through fairness, and not politics. It is part of the broader state plan which Higher Education Secretary Zakiya Smith-Ellis will be releasing in the near future.

Last year, we enhanced and refocused our investment in workforce development and apprenticeship programs. We awarded grants expanding opportunities for thousands more to learn and master the skills that will lead them into good-paying, family-supporting careers. This budget continues this commitment.

Our blueprint for the middle class, through its investments in education and workforce development, will continue to make a more competitive and more affordable New Jersey.

In our current budget, we restored direct property tax relief to thousands of middle-class families who were cut off by the prior Administration. I thank Speaker Coughlin for leading the fight to restore this relief, and this budget maintains our commitment with \$283 million in direct property tax relief for our middle-class families and seniors.

In a state with an unmatched location and a regional economy built on moving people and goods, there is no higher priority than fixing NJ TRANSIT. We owe our commuters a transportation system that makes their lives smoother rather than harder. They deserve a system that is safer, more reliable, and customer-oriented.

Our current budget began the long process of turning around an agency that had been hollowed-out by years of disinvestment and mismanagement, leaving customers as second-class citizens and hurting our economic well-being.

Last year, commuters were spared a fare hike. And, if we pass this budget's investment, there won't be one this year, either.

Through our current investment, NJ TRANSIT has moved ahead with procurement of new rail cars and buses to build capacity and relieve overcrowding. We are rebuilding the gutted ranks of rail engineers and bus operators needed to keep the lines running – and I cannot wait to welcome our first class of new train engineers later this spring.

Because of our investment, NJ TRANSIT was able to push forward to meet the federal government's December 31, 2018 deadline on Positive Train Control – a feat almost no one outside our Administration, and I mean almost no one, thought possible.

On Friday, I signed legislation that expands a commuter tax cut, allowing more commuters to directly benefit from pre-tax savings accounts to pay for their rail or bus fares. This can keep hundreds of extra dollars a year in their pockets.

NJ TRANSIT has also reached agreement with Amtrak on millions of dollars' worth of back payments. They are now working together on joint investments in infrastructure and renovations at New York Penn Station that will improve the customer experience.

This budget maintains all of this progress. It will provide \$407 million in General Fund support to NJ TRANSIT. This \$100 million increase will replace \$75 million in fund diversions in addition to providing \$25 million in new direct funding. This keeps NJ TRANSIT on the path to being the turnaround story of the nation, it keeps rebuilding the ranks of professionals needed to keep our system running, and, most importantly, it keeps improving service to our commuters.

It's this simple – an investment in NJ TRANSIT is a direct investment in our economy, our business environment, and our commuters. It's an investment in hard-working people like Tawana, and in the people she will take to-and-from work every day.

## GOVERNOR'S MESSAGE

---

And, we will responsibly invest in meeting our pension obligation and continuing the progress to bringing the pension funds back to health with a second-straight record-setting payment – this year's totaling \$3.8 billion.

Our pension obligation, like many of our challenges – NJ TRANSIT and school funding, among others – did not spring up overnight. It grew because decisions made by both parties allowed it to grow.

I know this particular challenge well, perhaps better than many. I studied it in-depth more than a decade ago when Governor Codey asked me to chair the first pension and benefits task force.

But, the message our Task Force put forward nearly a decade-and-a-half ago is just as true today – we cannot look for quick outs or easy fixes, because they simply don't exist. It took us years to get to this point, and it will take years of good-faith efforts – efforts that must include our public employees, our educators, and our first responders – to successfully get past it.

And, that is why we are making this record \$3.8 billion pension contribution – to keep our promises and to meet our fiscal challenges head-on.

We must ensure that our commitment to affordable, high quality health care and evidence-based policymaking remains as strong as ever. Our current budget restored funding for Planned Parenthood and women's health care. As a result of that investment, over 10,000 more patients – both women and men – were served in 2018 compared to 2017.

At the national level, President Trump and his administration are continuing their assault on Title X, putting the health of millions of women across the country at risk for starkly partisan and political reasons. In New Jersey, we're showing the better way forward.

Last year, four clinics were added where residents could receive family planning services, and an entirely new health clinic opened at Rutgers-Newark. Patients gained access to 8,000 additional hours to receive vital services – including potentially life-saving cancer screenings.

More than 40 critical staffing roles were filled. More than 80,000 STD tests were provided free-of-charge, and today, more women have access to Long Acting Birth Control.

This budget maintains our commitment, so we can continue to build upon this progress.

Over the past year, the First Lady has taken on the growing racial disparity in maternal health, alongside twelve of our commissioners, leaders in our health care and faith communities, legislators, and many others. I want to give a special shout-out to Health Commissioner Dr. Shereef Elnahal, Children and Families Commissioner Christine Norbut Beyer, and Human Services Commissioner Carole Johnson.

The facts are jarring. New Jersey ranks 45th in the nation – yes, 45th – in maternal death rate, nearly double the national average. Even worse, 60 percent of new mothers who die because of complications from childbirth are women of color.

A black baby in New Jersey is three times more likely to die in his or her first year of life than a white baby – the widest racial disparity in the nation.

To combat this, the First Lady and our administration inaugurated the NurtureNJ campaign to raise awareness of our maternal and child mortality crisis and to develop a comprehensive interagency plan. This budget will support these efforts, to bring together more experts and residents in the search for lasting solutions.

And, our budget will provide \$1 million through our Medicaid program for doulas who play a critical role in reversing these statistics. Medicaid covers 40 percent of all childbirths in New Jersey – and these babies deserve a chance as much as any other.

These babies are far from the only vulnerable New Jerseyans this budget seeks to help.

While we will maintain our commitment to emergency aid for homeless residents, this budget also recognizes that money, alone, is not an answer to this vexing problem.

We'll take a broader approach through the creation of an Office of Homelessness Initiatives, in the Department of Community Affairs, to act as a hub for more strategic and coordinated efforts, where we use data and analytics to create and implement solutions to address people's housing needs – especially among our veterans -- from prevention, to emergencies, to permanency.

And, our budget will provide critical resources to allow individuals with both developmental disabilities and mental health challenges to thrive in their communities.

In addition, we will do more to alleviate the costs pushed onto our Medicaid system by large employers who leave workers to rely on Medicaid, instead of offering a health care plan. This budget will ask employers with 50 or more employees on Medicaid to pay a small Corporate Responsibility Fee of \$150 for each one of these employees.

They should share in the burden of paying for their employees' care, rather than leaving it to the rest of us.

And, our budget will maintain our commitment to working families in other ways, including continuing the Child and Dependent Care Tax Credit we passed together last year, which is benefitting more than 74,000 New Jersey families.

We are continuing to support smart, compassionate and just prisoner reentry efforts. I commend Governor McGreevey and our faith-based communities for all their great work on the front lines. Our budget this year will increase investments in programs proven to decrease rates of recidivism, and will support the ability of incarcerated individuals to continue their education, so they can find second chances when they come back to our communities.

In every respect, we commit to reforming our criminal justice system for the better.

In our current budget, we set aside \$100 million to directly combat our opioid epidemic through carefully designed programs and thoughtful, data-driven analysis to put resources where they are most-needed. We are ever-mindful that the opioid epidemic was ravaging our cities long before it made headlines.

This budget maintains our commitment, and proposes increasing fees on opioid drug distributors and manufacturers to help support our fight against the opioid epidemic.

Other states, red and blue alike, are taking similar steps. Let's join them. Let's send a clear message that we should be working together to end our national addiction to opioids, not to continue feeding it.

As we look to building the New Jersey of the future, we must be mindful of our ability to continue these investments well into our future.

In my Budget Address one year ago, I called for us to enact a new way in which we provide the tax incentives that help us attract and retain businesses. I spoke directly to it in October, when I released my economic master plan. And, I reiterated this call in my State of the State Address seven weeks ago.

There are many opinions on our current system of open-ended corporate tax breaks. But, here is a simple fact – the potential impact of past corporate tax breaks on corporate business tax collection, in the coming fiscal year, surpasses \$1 billion. And, it will remain over \$1 billion annually for at least the next three fiscal years.

The simple fact is that we are currently obligated – I repeat, obligated – to corporate tax breaks totaling \$11 billion through at least Fiscal Year 2031.

And, lest we forget, for all of these incentives, before this Administration took office, New Jersey was 42nd in job growth and 49th in wage growth, while key investments in education and infrastructure, like a tunnel under the Hudson River, never happened.

Even under a capped program, yes, we would see some loss in corporate business tax revenues. But, it would be predictable and sustainable.

We can provide strategic incentives without hurting our ability to reinvest in the things that bolster our economy and help our businesses, like education and property tax relief, workforce development, and NJ TRANSIT.

That tunnel to New York would be nice, too.

Tax incentives, transparent and accountable, smartly devised and strategically deployed, have a vital role to play in a focused economic growth plan. They are a needed step in undertaking structural fiscal reform and restoring middle-class affordability.

I am a pro-growth progressive. I want the world's biggest and best technology, clean energy, and life-sciences companies to come and expand here – but I am even more committed to the next generation being born and growing here. Reforming how we jumpstart job creation needs to be about both creating jobs and more wisely investing taxpayer money.

The companies dreaming of making it big in New Jersey, like Carbon22, deserve our support. We must be smart and strategic about how we encourage new startups and entrepreneurs ... about how we nurture more businesses owned by women, by persons of color, and by veterans ... and about how we lead the world in clean energy solutions, like offshore wind.

## GOVERNOR'S MESSAGE

---

We can reclaim and dominate all aspects of the innovation economy. That's why we need innovative incentive programs. To be pro-business in the 21st century you need to be agile and creative – just like the businesses we want to grow.

Our current programs expire June 30, along with the current budget.

I ask you to join me now, with renewed purpose, in creating the new suite of smart, focused, and capped incentive programs we need to boost our people and our economy, without compromising our ability to invest in our people and our economy.

We can do this on a parallel track as we work on our final budget, and we can enact them together. In fact, we must.

Because, together, we enacted a responsibly balanced budget that invests in our people and our infrastructure, and which stands for fairness for our middle class, New Jersey's priorities stand proudly in contrast with those of President Trump and his administration.

Right now, across the state, countless middle-class families are doing their taxes and wondering where the tax cuts they were promised by President Trump and his enablers went.

Many barely felt the impact in their take-home pay, and now they're getting less back in their refunds. Many others, because of their now-limited state and local tax deduction, are actually paying more.

Our new Congressional delegation, along with those from our neighboring states, Democrats and Republicans alike, announced legislation to restore the full middle-class SALT deduction by, in part, simply asking the wealthiest to go back to paying what they paid in 2017.

I commend their efforts and give them my full support.

And, ten days ago, I joined with governors from other states adversely impacted by the SALT cap to announce our concerted efforts to have it reversed.

But while those efforts are ongoing, and while our middle class is trying to figure out where their tax relief went, those at the very top are shouldering less and less of their fair share of the tax burden. That's the opposite of tax fairness.

Let's work together to apply the millionaire's tax to every millionaire. By doing so, we can do more to relieve the burden on middle-class taxpayers and senior citizens who are taking it on the chin from the Trump Administration's tax scam.

Let's be absolutely clear – this is not a tax that will be paid by anyone in the middle class. Period. Full stop.

But, it is revenue that is necessary to strengthen and expand the middle class. As I have underscored, we have done a great deal of work to save money – \$1.1 billion – in this budget in order to address our fiscal challenges and we must have the same commitment to support the middle class, and those aspiring to get there.

Our taxpayers overwhelmingly support this, across party lines and across the state. We should listen to them and do this together.

And, we know they also support our work to legalize and regulate adult-use marijuana. I thank Senate President Sweeney, Speaker Coughlin, and Senator Scutari for their partnership. I know we're not across the finish line yet, but we are closer than ever before.

Most importantly, this is the right step for eliminating decades-old and persistent racial and social inequities. But it is also our chance to create an entirely new state-based industry with the potential to create thousands of good-paying jobs, expand opportunities for minority business owners, and jumpstart billions of dollars in new economic activity.

I will only sign this if it expunges the records of those who have been put through our criminal justice system for prior marijuana offenses.

This is an unfinished item from last year's to-do list. Let's commit to completing this effort, together.

And, I renew my call for us to increase the fees for gun licenses and handgun permits. It was long past time we did this last year, when we took so many steps to restore our standing as a national leader in gun safety, and it's even more past time today.

Our gun fees were set in 1966 – when Governor Richard Hughes worked in this building. It's now 2019. It is actually cheaper to get a permit to purchase a handgun – \$2 – than it is to get a dog license in many of our communities.

This is what's needed to support the efforts of Attorney General Gurbir Grewal, our State Troopers, and county and local law enforcement, to fight crime and track gun violence, and to combat the trafficking of illegal guns into our state. In 2018, roughly 80 percent of guns used in the commission of a crime came from out of state.

As with our other efforts, I know the people of New Jersey will support us.

This budget isn't about getting us through the next year. It's about putting ourselves on a trajectory to be that New Jersey we want to be in ten years.

We all must be part of this. No one should be pointing from the sidelines and leaving the hard work of governing to others. We must all find ourselves with some dirt on our uniforms.

It was one of our greatest presidents, Teddy Roosevelt, who told us the credit goes to those, "actually in the arena, whose face is marred by dust and sweat and blood."

I am proud of everyone who, over the course of this past year, has joined me in rolling up their sleeves and jumping into the arena to help with the hard work of restoring New Jersey -- Senate President Sweeney and Assembly Speaker Coughlin, many of you seated here in this Chamber, our Cabinet and team led by Lieutenant Governor Oliver, elected officials all across our state -- mayors, council members, boards of education, county officials -- faith leaders, the men and women of organized labor, first responders, our active-duty military and our veterans, our LGBTQ community, business leaders, educators, communities of color, countless advocates, and the thousands of everyday New Jerseyans I have met all across our state.

This really is about achieving big things by working together, and I thank you.

This budget continues our work to invest in the single most consequential asset in New Jersey -- our people. This budget doubles down on the middle class and all those dreaming to get there, just as my family was when I was growing up.

This budget is the blueprint for building this New Jersey. It is about value for our middle class. It is about our middle-class values.

We are the middle-class state, and when we listen to both the dreams and the concerns of our middle-class families, we can find the answers that help all of New Jersey move forward.

Because when people prosper, New Jersey prospers. When families can move forward, New Jersey moves forward. When seniors are more secure, New Jersey is more secure.

When we foster a better future for young people, young people will build their future here. When we open our doors to innovative new businesses, those businesses will power our economy.

My vision for New Jersey has never wavered -- we need to continue to build an economy that works from the middle class out and from the bottom up. We need an economy that embraces the future but stays true to the values of rewarding hard work, creating opportunity, and providing the tools people need to succeed.

Thank you. May God continue to bless the great people and state of New Jersey, and the United States of America.

## THE STATE BUDGET PROCESS

The State Budget Process is designed to produce budget decisions based on performance, with a focus on furthering agency core missions. The State budget cycle is on a fiscal year basis, extending from July 1 to June 30 of the following year.

New Jersey's budget process is comprehensive and inclusive, involving every department and agency in the Executive Branch, the Legislature, the Judicial Branch, and through a series of public hearings, the citizens of the state. The budget process begins in the summer prior to the following fiscal year with preliminary projections of revenues and expenditures, which are the basis for development of budget and performance targets for each branch, department and agency. Individual departments and agencies are required to prepare a funding plan or strategy for operating within the established preliminary budget level in the following fiscal year, which funding plan or strategy includes an analysis of the costs, benefits and priorities of every program. The funding plans and strategies are the foundations for revenue and spending decisions that are ultimately incorporated into the Governor's budget recommendations.

The New Jersey Statutes contain provisions concerning the budget and appropriations process. On or before October 1 in each year, each Department, Board, Commission, Office or other Agency of the State must file with the Director of the Office of Management and Budget (Budget Director) a request for appropriation or permission to spend specifying all expenditures proposed to be made by such spending agency during the following fiscal year. The Budget Director then examines each request and determines the necessity or advisability of the appropriation request. On or before December 31 of each year or such other time as the Governor may request, after review and examination, the Budget Director submits the requests, together with his or her findings, comments and recommendations, to the Governor. It is then the responsibility of the Governor to examine and consider all requests and formulate his or her budget recommendations.

The Governor's budget message is presented by the Governor during an appearance before a joint session of the State Legislature which, by law, is convened on or before the fourth Tuesday in February in each year. The Governor's budget includes the proposed complete financial program of the State government for the next ensuing fiscal year, and sets forth in detail each source of anticipated revenue and the purposes of recommended expenditures for each spending agency (N.J.S.A. 52:27B-20). The financial program included in the Governor's budget is then subject to a process of legislative committee review. After completion of the legislative committee review process, the budget, in the form of an appropriations bill, must be approved by the Senate and Assembly and must be submitted to the Governor for review.

Upon submission of the appropriations bill enacted by the State Legislature, the Governor may approve the bill, revise the estimate of anticipated revenues contained therein, delete or reduce appropriation items contained in the bill through the exercise of his or her line-item veto power, or veto the bill in its entirety. As with any gubernatorial veto, such action may be reversed by a two-thirds vote of each House of the State Legislature. In addition to anticipated revenues, the annual Appropriations Act also provides for the appropriation of non-budgeted revenue, including primarily federal funds, to the extent such revenue may be received and permits the corresponding increase of appropriation balances from which expenditures may be made.

During the course of the fiscal year, the Governor may take steps to reduce State expenditures if it appears that revenues have fallen below those originally anticipated. There are additional means by which the Governor may ensure that the State does not incur a deficit. Under the State Constitution, no supplemental appropriation may be enacted after adoption of an Appropriations Act except where there are sufficient revenues on hand or anticipated, as certified by the Governor, to meet such appropriation.

If a general appropriation law is not enacted prior to the July 1 deadline, under Article VIII, Section 2, para. 2 of the State Constitution, no monies can be withdrawn from the State Treasury.

### Capital Budgeting Process

The annual review process for capital spending requests and recommendations, which runs somewhat parallel to the process described above, has several stages. All State departments requesting capital funding must submit a seven-year Capital Improvement Plan to the New Jersey Commission on Capital Budgeting and Planning. Each capital project request must include an operating impact statement. The Commission schedules public hearings, analyzes the capital requests and recommends projects to the Governor. The Governor, in turn, recommends projects in the proposed budget.

More detailed information may be found on the Office of Management and Budget (OMB)'s website at [www.state.nj.us/treasury/omb/](http://www.state.nj.us/treasury/omb/).

## STATE FINANCIAL POLICIES

### **Basis of Budgeting**

The basis of budgeting in New Jersey is in accordance with generally-accepted accounting principles (GAAP) for governments as it applies to fund financial statements prescribed by the Governmental Accounting Standards Board (GASB). The State's budgetary basis differs from that utilized to present financial statements such as the State's audited Comprehensive Annual Financial Report (CAFR) in that encumbrances are recognized as expenditures and transactions are only for the current fiscal year. In accordance with Governmental GAAP, revenues are estimated and recognized when they can be accrued; that is, when they become both measurable and available to finance expenditures of the fiscal period for governmental funds. Appropriations are recommended at a level sufficient to recognize all accrued expenditures applicable to the fiscal period.

### **Budgetary Control**

Pursuant to Article VIII, Section II, para. 2 of the State Constitution, no money may be drawn from the State Treasury except for appropriations made by law. In addition, all monies for the support of State government and all other State purposes, as far as can be ascertained or reasonably foreseen, must be provided for in one general appropriations law covering one and the same fiscal year. No general appropriations law or other law appropriating money for any State purpose may be enacted if the amount of money appropriated therein, together with all other prior appropriations made for the same fiscal year, exceeds the total amount of revenue on hand and anticipated to be available for such fiscal year, as certified by the Governor.

Budgetary control is maintained at the item of appropriation level, meaning the spending authority associated with an organization, appropriation source and program classification. Internal transfers within programs are permitted subject to certain constraints, while transfers between programs or above designated levels require the approval of the Legislature. When appropriations are based on anticipated revenues, spending authority is reduced by the amount of any deficiency in actual revenues. Other budget changes not authorized by specific language provisions must be approved by the Legislature.

Appropriations are authorized for expenditures during the fiscal year and for a period of one month thereafter. Unencumbered appropriations lapse at year end, unless otherwise specified. Non-lapsing balances are considered automatically reappropriated as authorized by statute or by the Appropriations Act.

### **Balanced Budget**

A balanced budget must be established at the start of the fiscal year (July 1) and be maintained at the end of the fiscal year. New Jersey's Constitution states in Article VIII, Section II, para. 2: "No general appropriation law or other law appropriating money for any State purpose shall be enacted if the appropriation contained therein, together with all prior appropriations made for the same fiscal period, shall exceed the total amount of revenue on hand and anticipated which will be available to meet such appropriations during such fiscal period, as certified by the Governor."

The determination of a balanced budget is based on the revenues and expenditures for all funds according to GAAP. The official revenue estimate for the fiscal year is established and certified by the Governor. If the Appropriations Act enacted by the Legislature exceeds the revenue estimates plus any available surplus, the Governor has the authority and the duty either to veto the entire appropriations bill or to reduce the amount of appropriations to produce a budget that is balanced against the total resources available.

The long term goal is to achieve a structural balance between ongoing operating expenditures and revenues. The rate of growth in direct services provided by the State should be constrained, both in total appropriations and in its relative portion of the State budget. The overarching goal is to identify the most efficient way to provide current services or to expand services within the current budgeted resources. Fund balances may be used to support unforeseen or unpredictable expenditures that require supplemental appropriations. If budget adjustments are necessary to maintain balance during a fiscal year, actions are typically implemented by OMB acting at the direction of the State Treasurer and the Governor.

## HOW THE BUDGET IS ORGANIZED

The budget is divided into major sections as described below:

The **Governor's Budget Message** describes in general terms the policies and new initiatives, as well as the reductions and efficiencies in the Governor's budget. The Governor's Message generally includes a description of the state's economic situation and the expected impact of projected economic trends on the state's fiscal condition. The Governor's Message may also include broad programmatic goals for each of the individual State departments or major segments of the government, as well as policy directions for the upcoming fiscal year.

The **Summaries of Appropriations** section includes a selection of tables and charts designed to summarize the Governor's recommendations.

The **Summaries of Revenues, Expenditures and Fund Balances** section provides information on the revenue and expenditure assumptions incorporated in the Governor's budget recommendations, and the resulting fund balances for all funds maintained by the State.

The **Department and Branch Recommendations** section is the largest section of the budget and includes the greatest detail on proposed appropriations. It is divided into categories based on the source and use of appropriations, which is then organized by governmental branch and sorted in alphabetical order by agencies or executive departments. The major subdivisions of this section are described in detail in the Reader's Guide to the Budget, found at [www.state.nj.us/treasury/omb](http://www.state.nj.us/treasury/omb).

The **Capital Construction and Debt Service** section of the budget depicts the amounts necessary to pay principal and interest due on capital projects financed by general obligation bonds of the State. The primary method for financing capital projects is through the sale of bonds. No debt can be issued by the State without approval by a majority of the legally qualified voters. This section also includes a brief description of the active bond issues financed by current debt service appropriations.

The **General and Federal Funds Language Provisions** subdivision of the budget establishes authority beyond the specificity of the detailed line-item budgets for both general and federal funds. These provisions apply to broad areas of the budget, such as entire funds or appropriations in general, and in some cases mandate additional administrative requirements related to the enactment of the budget. These Language provisions also authorize adjustments for reorganizations and corrections to the Appropriations Act after its enactment.

## **Summaries of Appropriations**

This section includes tables and charts that summarize the Governor's Budget recommendations and highlight significant changes and policy initiatives.

## **Summaries of Revenues, Expenditures and Fund Balances**

This section provides information on the revenue and expenditure assumptions incorporated in the Governor's Budget recommendations, and the resulting fund balances for all funds maintained by the State.

# REVENUES, EXPENDITURES & FUND BALANCES

## SUMMARY OF ALL FUNDS AND FUND BALANCES

The schedules and exhibits contained in this section provide both summary and detailed financial information for all funds maintained by the State. Funds are grouped into General State Funds, Other Governmental Funds and Proprietary Funds.

### GENERAL STATE FUNDS

Revenues and expenditures for General State Funds (or “State Funds”) are captured in the following Schedules 1-4. State Funds are classified as either budgeted or not budgeted. Budgeted State Funds include the five funds that comprise the State budget: General Fund, Property Tax Relief Fund, Casino Revenue Fund, Casino Control Fund and Gubernatorial Elections Fund. Revenues for budgeted State Funds are detailed in Schedule 1 and summarized herein:

- **General Fund** is the fund into which all State revenues, not otherwise restricted by statute, are deposited and from which appropriations are made. The largest part of the total financial operations of the State is accounted for in the General Fund. Revenues received from most taxes, federal revenues and certain miscellaneous revenue items are recorded in the General Fund. The major categories of anticipated revenue for the General Fund are as follows:
  - The **Major Taxes** category is composed of fifteen taxes or fees, which are levied within the State and deposited in the General Fund. The majority of this revenue is generated from the sale and use of goods and services, general business taxes, motor vehicle fees and other excise taxes.
  - The **Miscellaneous Taxes, Fees and Revenues** category includes various revenues received by State agencies. Typical items include license and inspection fees, recreation and boating fees, institutional and patient fees, investment earnings and other similar items.
  - The **Interfund Transfers** category includes resources from Other Governmental Funds and Proprietary Funds that are transferred into the General Fund as anticipated revenue for expenditure purposes. Included in these types of revenue is the funding received by Unclaimed Property, Universal Services Fund, Urban Enterprise Fund and interest earned on investment of bond funds.
- **Property Tax Relief Fund** accounts for revenues from the New Jersey Gross Income Tax and one half-cent of the Sales and Use Tax. These revenues are dedicated by the State Constitution for the purpose of reducing or offsetting property taxes. Annual appropriations are made from the fund, pursuant to formulae established by the Legislature, to individuals, counties, municipalities and school districts.
- **Casino Revenue Fund** accounts for the taxes imposed on the casinos, internet gaming, sports betting and other related activities. Appropriations from this fund must be used for reductions in property taxes, utility charges and other specified expenses of eligible senior citizens and individuals with disabilities.
- **Casino Control Fund** accounts for fees from the issuance and annual renewal of casino licenses, work permit fees and other license fees. Appropriations are made to fund the operations of the Casino Control Commission and the Division of Gaming Enforcement.
- **Gubernatorial Elections Fund** is used to account for receipts from the one dollar designation on New Jersey Gross Income Tax returns. When indicated by the taxpayer, one dollar of the tax is reserved from gross income tax revenue (Property Tax Relief Fund) and credited to the Gubernatorial Elections Fund. These funds are available for appropriations pursuant to the New Jersey Campaign Contributions and Expenditures Reporting Act, as amended.

In addition to the budgeted State Funds described above, certain dedicated, federal and revolving fund revenues, which are not part of the State budget, are also considered part of General State Funds and support specific purposes. These are detailed in Schedule 2, “Other Revenues.” Schedules 3 and 4 summarize expenditures supported by resources on Schedules 1 and 2, respectively.

### OTHER GOVERNMENTAL FUNDS

Other Governmental Funds account for other resources legally restricted to expenditure for specific purposes. The funds include general obligation bond funds, non-major special revenue funds, and capital project funds.

### PROPRIETARY FUNDS

Proprietary funds are used to report any activity for which a fee is charged to external users for goods and services. Activities are required to be reported as proprietary funds if laws or regulations require that the activity’s cost of providing services be recovered with fees and charges. The Unemployment Insurance Fund is a proprietary fund.

# REVENUES, EXPENDITURES & FUND BALANCES

## FUND BALANCES

Fund balance exhibits report undesignated and designated fund balances for State Funds, Other Governmental Funds and Proprietary Funds. These exhibits follow Schedules 1-4. Fund balances are reflected on a budgetary basis and thus do not include funds reserved for encumbrances in General State Funds. Also excluded are certain Other Governmental Funds and State authority balances. Undesignated fund balance is defined as fund equity that is unrestricted and available for appropriation in succeeding fiscal years. Designated fund balance is defined as unexpended and unencumbered appropriations that are authorized to continue into the subsequent fiscal year.

As can be seen in the exhibit, “Summary, Estimated Revenues, Expenditures and Undesignated Fund Balances – Budgeted State Funds,” the projected undesignated ending fund balance in General State Funds for fiscal year 2020 is estimated to be \$1.2 billion, up \$0.1 billion from the adjusted projected undesignated fund balance for fiscal year 2019 of \$1.1 billion, or a 5.7% increase. While total resources for fiscal year 2020 are expected to increase by \$0.7 billion or 1.8%, total expenditures are estimated to increase by \$0.7 billion, or 1.7%, resulting in the slight increase in fund balance. Expenditure growth is driven primarily by the State’s required public employee pension contribution, which represents an increase of \$545.6 million over the fiscal year 2019 appropriation of \$2.2 billion after deducting the Lottery Enterprise contribution of approximately \$1.0 billion in both years. This growth, when combined with an increase in debt service and a reduction in health benefits costs, represents 29.8% of the total growth in projected expenditures from fiscal year 2019 to fiscal year 2020.

Total fund balance for General State Funds, including designated fund balances, is estimated to be \$3,415.9 million at the end of fiscal year 2020. Details may be found in the exhibit “Summary Revenues, Expenditures and Fund Balances – General State Funds.”

Fund balance for All Funds, including General State Funds, Governmental Funds, and the Proprietary Funds is estimated at \$12,524.5 million for fiscal year 2020, an increase of \$72.8 million, or 0.6 % over the fiscal year 2019 estimated balance of \$12,451.7 million.

Statements of revenues, expenditures, and fund balance for each individual Other Governmental Fund and Proprietary Fund may be found in the Supplementary Information to the budget, posted online at [www.state.nj.us/treasury/omb](http://www.state.nj.us/treasury/omb).

# NOTES

## Department and Branch Recommendations

This section of the Budget includes appropriations, expenditures, core missions and programmatic evaluation data for the Legislature, State Departments and the Judiciary. A single unified presentation provides a comprehensive view of all of a department's operations across all fund categories (Direct State Services, Grants-In-Aid, State Aid and Capital Construction) and funds (General Fund and Dedicated Funds). The four major dedicated funds included are Property Tax Relief Fund, Casino Control Fund, Casino Revenue Fund and the Gubernatorial Election Fund.

Direct State Services support the operation of State programs. Grants-In-Aid represent funds allocated to various public, private and non-profit agencies for State-supported services. State Aid comprises recommendations for payments by the State to or on behalf of a local unit of government, including school districts, municipalities and counties. Capital Construction includes funds for various equipment, renovation and construction of facilities, and infrastructure projects such as roads, bridges and wastewater treatment systems.

OVERVIEW

**Mission and Goals**

The Legislature is the State’s highest lawmaking body. It is one of the three separate and independent branches of government that make up the system of checks and balances created by the New Jersey Constitution and is empowered to appropriate funds for the operation of state government. The 40 members of the Senate are elected for a term of four years, except after the decennial census. The 80 members of the Assembly are elected for a term of two years. The Office of Legislative Services, a nonpartisan agency that provides legislators with economic and budget analyses required for making legislative decisions, is also a part of the legislative branch. Legislative commissions assist in the legislative process by providing in-depth studies, holding public hearings and making recommendations on select issues as they arise.

**Budget Highlights**

The fiscal year 2020 budget for the Legislature totals \$89.6 million, a decrease of \$500 thousand or 0.5% under the fiscal 2019 adjusted appropriation of \$90.1 million. It provides \$16.7 million to the Senate and \$23.2 million to the Assembly. The recommendation also provides \$33.6 million to the Office of Legislative Services and \$16.1 million to the various legislative commissions.

The proposed budget recommends line-item appropriations to five legislative commissions:

The Intergovernmental Relations Commission provides funding that

permits the State of New Jersey to participate as a member of national and regional organizations.

The Joint Committee on Public Schools provides an ongoing study of the system of free public schools - its financing, administration and operations.

The State Commission of Investigation probes organized crime and improprieties in the conduct of publicly-funded programs. The Commission has repeatedly demonstrated its ability to uncover and document waste, fraud and abuse at all levels of government via investigations that have recouped millions of dollars in tax revenues.

The Law Revision Commission simplifies, clarifies and modernizes New Jersey statutes. It conducts an ongoing review of the statutes in order to identify areas that require revision and considers suggestions and recommendations from the American Law Institute, the National Conference of Commissioners on Uniform State Laws and other learned bodies as well as from judges, public officials, bar associations, members of the bar and the general public. The Commission recommends the correction of inconsistent, obsolete and redundant statutes and comprehensive modifications of select areas of the law.

The State Capitol Joint Management Commission ensures the artistic, historical and architectural integrity of any restoration or preservation project at the State House, the State House Annex and adjacent environs, and also manages the Capitol Complex, including security and janitorial services.

## PROGRAM CLASSIFICATIONS

01. **Animal Disease Control.** The Division of Animal Health is responsible for maintaining animal disease surveillance and control programs to protect the health and well-being of livestock and poultry by setting standards, issuing licenses to livestock dealers, auctions, and biologic manufacturers and distributors, and conducting epidemiological investigations of livestock and poultry diseases as well as drug residues. These efforts are supported by the Animal Health Diagnostic Laboratory, which provides valuable disease surveillance and detection capabilities.

In the area of emergency management, the Department responds to agricultural impacts from disasters and is a primary support agency in the care of pets and livestock. The Department is responsible for providing foods from the United States Department of Agriculture (USDA) to sheltering sites for congregate feeding and overseeing plant and/or animal diseases that may impact the state's agricultural operations.
02. **Plant Pest and Disease Control.** The food crop, forests and other plant resources of the state are protected against injurious plant insects and diseases. Surveillance programs identify new or introduced plant pests. Significant infestations are managed with careful chemical treatment and/or biological control programs. The beneficial insect rearing laboratory mass produces and releases insects into the agricultural or forest environment which feed upon insect pests or invasive weeds. Honeybees are inspected to control the spread of disease and improve colony health. Plant nurseries are inspected to ensure plants sold are free from insects and disease. Certification programs facilitate the interstate and foreign trade of plants and plant products.
03. **Agricultural and Natural Resources.** The Division of Agricultural and Natural Resources is charged to maintain, conserve and enhance New Jersey's rural and agricultural resources and to control erosion, sedimentation and nonpoint sources of water pollution. The primary objective is to improve agricultural productivity and viability while maintaining environmental quality. The Division administers the Food, Agriculture and Natural Resources Education/Future Farmers of America program, the Office of Aquaculture Coordination, the Farmland Assessment program in coordination with the Division of Taxation, agricultural recycling and building code assistance programs related to agriculture, regulatory and land use planning issues, and the Soil Conservation Districts through the State Soil Conservation Committee.
05. **Food and Nutrition Services.** The Division of Food and Nutrition includes Child Nutrition programs and USDA Food Distribution programs.

The Division administers federal Child Nutrition programs in public and nonpublic schools, residential and non-residential childcare institutions, day care centers, recreation centers and other agencies that are eligible to participate. Division responsibilities include developing, disseminating, evaluating and approving pertinent program documents required for participation; providing technical assistance in the areas of implementation, facilities improvement and food service methods; on-site monitoring of programs for compliance with State and federal regulations; and providing financial assistance through a reimbursement system.

The USDA Foods Distribution Program receives, handles, stores, and distributes USDA foods to State, county and municipal institutions, schools and emergency feeding organizations. It also facilitates the processing of some of the USDA foods into products that meet federal meal pattern requirements. Inspections are conducted in all organizations and institutions for compliance. The Emergency Food Assistance Program (TEFAP) distributes USDA foods to needy citizens through a network of food centers, food banks and food pantries.
06. **Marketing and Development Services.** The Division of Marketing and Development provides an array of marketing and regulatory services that benefit the agricultural community and the public. The Bureau of Market Development and Product Promotion and the Economic Development section help farmers access new markets, as well as work to improve bottom-line efficiencies on the farm. The Jersey Fresh program, aimed at domestic and foreign consumers, assists New Jersey farmers in expanding their market share. Individual product promotions are also conducted by nine agricultural commodity councils.

Programs for the promotion of the New Jersey horse industry are conducted with funds derived from a small percentage of the pari-mutuel handle at both the Thoroughbred and Standardbred racetracks. Growth of the horse breeding industry is encouraged through monies awarded in the form of stakes purses and breeders' awards.

The Agricultural Chemistry program determines compliance with the stated contents of animal feeds, fertilizers and liming materials offered for sale for farm and non-farm use.

The dairy program is responsible for fostering a stable and competitive dairy industry, including the regulation and enforcement of the production, processing, distribution and sales of fluid dairy products. In addition, this program licenses all outlets that sell or distribute milk in New Jersey. Also, this program handles all laboratory evaluations relevant to the testing of milk for antibiotics, components, quality and bacteria to ensure that the lab is operating in accordance with

Food and Drug Administration (FDA) regulations of the Pasteurized Milk Ordinance.

The voluntary Third Party Audit program, operated in conjunction with the USDA, allows growers, packers and shippers of fresh produce to verify to buyers that they are growing, harvesting, packing and shipping their product in a safe and sanitary manner by using standardized agricultural and handling practices.

The Department is coordinating with the Department of Health, the FDA and the National Association of State Departments of Agriculture to implement the FSMA, which will increase inspections at food processing facilities and, for the first time, require farms to have food safety plans that will be available for inspection as well.

As an accredited certifying agent under the USDA National Organic Program, the State Department of Agriculture's Organic Certification Program certifies handlers and producers to sell agricultural products under the organic designation.

08. **Farmland Preservation.** The State Agriculture Development Committee (SADC) administers New Jersey's Farmland Preservation program and promotes innovative approaches to maintaining the viability of agriculture.

The SADC coordinates with participating counties, municipalities and nonprofit organizations to purchase non-agricultural development rights from farm owners in order to permanently deed restrict farms for agricultural uses. Eight-year preservation programs offer participating farm owners certain benefits of the permanent program, but no monetary compensation. The SADC provides cost-share grants to assist owners of preserved farms in undertaking projects that conserve soil and water resources and offers

other programs to promote stewardship of preserved farmland and foster long-term agricultural viability. The SADC also administers the New Jersey Right to Farm Program that protects responsible farming operations against public and private nuisance actions and local regulations that unreasonably constrain farming.

29. **Preserve New Jersey Farmland Preservation.** Since 1996, the revenue annually derived from the tax imposed by the Corporation Business Tax Act (P.L.1945, c.162) has been dedicated for environmental purposes. A portion of the dedication provides funding for the preservation, including acquisition, development and stewardship, of lands for recreation and conservation purposes.

99. **Administration and Support Services.** The State Board of Agriculture consists of eight farmer members, and is empowered to establish programs, regulations and policies that it deems essential towards the sustainability of agriculture in the state. In addition to serving as the Secretary to the Board and Chief Executive of the Department, the Secretary of Agriculture, also a member of Governor's cabinet, serves as Chair of the State Agriculture Development Committee, State Soil Conservation Committee, Aquaculture Advisory Council and the Transfer of Development Rights Bank and is an ex-officio member of the Sire Stakes Board of Trustees.

The Secretary's office provides overall planning, coordination and logistical support for the Department's programs, policies and plan development. Department-wide general administrative services are provided, including services related to personnel and employee relations, fiscal control, information technology, management systems, facilities and other administrative functions.

### Notes:

Actual payroll counts are reported for fiscal years 2017 and 2018 as of December and revised fiscal 2019 as of January. The budget estimate for fiscal 2020 reflects the number of positions funded.

- The decrease in fiscal 2018 was due to inconsistent testing results that had been received from a contracted laboratory. The NJ Department of Agriculture has since switched to an in-house laboratory.
- In fiscal 2018, there was an increase in the number of applicants that relocated into the NJ Department of Agriculture's inspection area.
- The introduction of a trotting sire in fiscal 2017 and three new stallions in fiscal 2018 and 2019 resulted in an increase to the estimates.
- Reflects the shift of positions from the bond and trust fund supported Farmland Preservation program class to the CBT supported Preserve New Jersey Farmland Preservation program class.

**OVERVIEW**

**Mission and Goals**

The mission of the Department of Banking and Insurance is to regulate the banking, insurance and real estate industries in a professional and timely manner. Its aim is to protect and educate consumers and promote the growth, financial stability and efficiency of the industries it regulates.

The Department’s goals are to ensure the solvency of financial institutions and insurance companies through regular examinations and analysis; protect the public from unlawful practices by insurers, insurance producers, financial institutions and real estate licensees; promptly provide assistance to consumers with banking insurance and real estate inquiries; investigate complaints filed by consumers and aggressively prosecute when violations of State laws have occurred; issue licenses to qualified individuals and companies to provide banking, insurance and real estate services to New Jersey citizens; review the rates, rules and policy forms used by insurance companies; enforce the New Jersey Insurance Fraud Prevention Act; and apply technology to more effectively interact with the public and regulated industries.

The Department consists of two main divisions: The Division of Banking is responsible for supervising, regulating and monitoring the safety and soundness of the 64 State-chartered banks and 8 credit unions. Within the Division, the Office of Consumer Finance regulates 2,877 consumer finance licensees and 14,800 residential mortgage licensees, and the Real Estate Commission oversees 84,000 real estate licensees. The Division of Insurance regulates over 216,305 insurance licensees. Within the Division, the Office of Solvency Regulation monitors 3,331 insurance companies licensed in New Jersey, including 148 domestic companies selling insurance products to New Jersey citizens. The Office of Captive Insurance

regulates 24 captive insurance companies. The Offices of Life & Health and Property & Casualty oversee the rates, rules and policy forms issued by insurers for life, health, automobile, homeowners, medical malpractice, workers compensation, and other regulated personal and commercial lines of insurance. The Office of Consumer Protection Services responds to consumer inquiries, investigates complaints of licensee misconduct, takes enforcement actions for any violations of State law, conducts market conduct exams of insurers, and licensees over 216,305 insurance producers and public adjusters. The Bureau of Fraud Deterrence investigates allegations of civil insurance fraud and pursues monetary penalties against and restitution from violators of the New Jersey Insurance Fraud Prevention Act. The Bureau also is charged with implementing programs to prevent insurance fraud and abuse, and cooperating with the Attorney General in the investigation and prosecution of criminal violations.

Additionally, the Individual and Small Employer Health Coverage Program Boards are independent boards created by statute that are considered in-but-not-of the Department. The Boards jointly regulate with the Division of Insurance. Further, there are independent associations, boards and commissions created by statute with which the Division of Insurance interacts, such as the Property Liability Insurance Guaranty Association (PLIGA), the Life and Health Insurance Guaranty Association (LHIGA), and the Compensation Rating and Inspection Bureau (CRIB).

# NOTES

OVERVIEW

**Mission and Goals**

In collaboration with state and local government agencies, and in partnership with New Jersey’s non-governmental organizations and community members, the Department of Children and Families (DCF) administers programs and services that help families stay safe, healthy and connected.

With a staff of over 6,650 employees, DCF includes: Child Protection and Permanency; Children’s System of Care; Family and Community Partnerships; the Office of Education; the Division on Women; Adolescent Services; Training and Professional Development; Performance Management and Accountability and the Centralized Child Abuse/Neglect Hotline.

DCF focuses its efforts on strengthening communities, empowering families and protecting children by promoting and utilizing best practice standards and strategies to achieve positive outcomes. Current priorities involve: reducing the incidence of child abuse and neglect; supporting permanency for children; managing outcomes with data; continuing the integration of a system of care for children with behavioral, intellectual and developmental disabilities and co-occurring disorders, and supporting programs and services for women and for adolescents in the transition to adulthood.

Child Protection and Permanency (CP&P), DCF’s largest operating unit, is a federally mandated entity with a vision and mission to support the health and well-being of New Jersey’s families in order to prevent instances of abuse and neglect and, when that is not possible, to promote permanency for children with relatives and other trusted caregivers.

Children’s System of Care (CSOC) serves families of children and adolescents with developmental disabilities, emotional and behavioral health challenges and substance use disorders. CSOC serves children and families in the least restrictive, most clinically appropriate model of care available, with particular effort made to

keep children in their own homes, in their own schools and in their own communities.

Family and Community Partnerships (FCP) support the prevention of child abuse and neglect by empowering families through a statewide network of Family Success Centers, home visiting initiatives and school-based youth programs. The strong emphasis on primary prevention is intended to reduce the need for protective services.

The Division on Women (DOW) is the state’s primary resource on issues critical to women and provides leadership in the formulation of public policy in the development, coordination and evaluation of programs and services for women. DOW strives to reduce the incidence of domestic violence and sexual assault and provides support to survivors through a statewide network of county-based agencies. Additionally, DOW supports educational and awareness opportunities for New Jersey’s women through a network of displaced homemaker programs.

The Office of Education (OOE) helps children and young adults, ages 3 to 21, with disabilities or behavioral health diagnoses, as well as other at-risk students. It provides 12-month education programs and services that focus on the goal of mainstreaming and integrating children in school and community life.

Adolescent Services is responsible for coordinating service delivery to support youth who are aging out of the DCF system and transitioning into adulthood. This includes: financial assistance with higher education; independent living opportunities; job training and life skills.

**Budget Highlights**

The fiscal year 2020 budget for the Department of Children and Families totals \$1.153 billion, a decrease of \$22.0 million or 1.9% under the fiscal 2019 adjusted appropriation of \$1.175 billion.

---

CSOC's single point of entry model, which matches the correct intervention services to the needs of individual youth and families.

15. To continue transforming the State's child abuse prevention, family support, outreach and early intervention systems into an integrated network of community-based, family-centered and culturally-responsive services.
16. To demonstrate improved outcomes for children and families who have benefited from critical primary, secondary and tertiary prevention and family support services.
17. To strengthen families by providing grants and technical assistance to community groups and agencies, increasing their capacity to support and serve families, building on these families' strengths to prevent family crises.
18. To implement a statewide plan to prevent child abuse and neglect and to promote family success by collaborating with the Division of Family and Community Partnerships and the New Jersey Task Force on Child Abuse and Neglect.
19. To collaborate with State departments such as Human Services, Health, Education, Corrections, Labor and Workforce Development and other State and local agencies to leverage resources and deliver prevention services.
20. To empower girls and women across New Jersey through targeted, coordinated programs and services, and to provide planning for the development of opportunities and policies that advance women's rights and equality.
21. To administer a statewide network of agencies to prevent domestic violence and sexual assault and to support survivors of both.
22. To administer and deliver educational programs and services to eligible students in State-operated and contracted facilities and to provide educational funding and oversight to students referred by the Department of Education.
23. To ensure staff with casework receive in-service training through the DCF Office of Training and Workforce Development in partnership with New Jersey's colleges and universities and to continue delivering cross-departmental, equal employment opportunities along with new worker, supervisor and investigator training.

## PROGRAM CLASSIFICATIONS

01. **Child Protection and Permanency.** CP&P investigates allegations of abuse or neglect, responds to voluntary requests for family services and provides services to children found to have been abused or neglected.

New Jersey continues to invest in and value the State Central Registry, the statewide child protection hotline that operates 24-hours a day, 7-days a week, taking calls from the public regarding child safety. The hotline also receives calls about the well-being of families and requests for family social services.

Family Support Services provide wrap-around assistance to families and children in their own homes as well as to foster and adoptive families and children in out-of-home placement. About 85% of the CP&P caseload receive services in their homes. These are provided to the children individually, to parents separately and/or to the family as a whole. Family support includes a wide variety of assistive services to preserve and strengthen families and communities or to help families in crisis. They work to reduce the need for more intensive interventions and to promote independence and self-sufficiency. Support includes homemaker services, transportation assistance, psychological/therapeutic services,

day treatment, companionship, and legal and health related services.

DCF's goal is to achieve safety and permanency for every child it serves. The majority of children in New Jersey who cannot remain in their homes can often find comfort with kin or familiar caregivers. For others who enter foster care and are declared by the courts to be available for adoption, DCF must identify a new "forever family." Supporting a child can be expensive and many families willing to assume responsibility face financial challenges impeding their ability to adopt or assume guardianship of a child. New Jersey's Kinship Legal Guardianship and adoption subsidy programs represent a best practice across the country and help to support families who step forward to provide loving, permanent homes.

Placement services is the umbrella term for the out-of-home placements available to children in CP&P custody. (Note: this section does not include placements for CP&P children with behavioral, intellectual or developmental disabilities who are served by CSOC.) Research consistently demonstrates that community and family-based placements produce better outcomes for most children. Family-based placements include resource family and treatment homes. Congregate care settings provide services for children with special needs, such as substance use disorders, developmental disabilities or complex health challenges. A small number of older youth live in independent situations. Children in crisis may be placed in temporary emergency settings while permanent homes are identified.

DCF is focusing on facilitating the transition to adulthood for aging-out and adolescent youth by providing a comprehensive array of services and initiatives that support their personal growth and independence.

New Jersey has made substantial investments in caseworker staff to sustain reduced caseloads as a best practice and as required by a federal class action lawsuit against New Jersey's child welfare system. Sufficient staffing is critical to CP&P's ability to provide quality investigatory, protective and permanency services.

02. **Children's System of Care.** CSOC enables any family to access behavioral health care separate and apart from DCF's child protection services. CSOC has integrated the provision of substance use disorder services and services for children and youth with intellectual and developmental disabilities into its system of care, responsive to the needs of families utilizing its services.

CSOC contracts with community agencies to provide statewide Mobile Response and Stabilization Services, which provide face-to-face crisis intervention within one hour of notification, stabilizing the child's behavior and avoiding family disruption or loss of placement. It operates 24-hours a day, 7-days a week.

Family Support Organization services provide direct family-to-family peer support, education, advocacy and other services to family members of children with special needs, including emotional and behavioral challenges, substance use disorders, and intellectual and developmental disabilities. Family-run, county-based Family Support Organizations are not case management agencies; they provide support and management information to families so they can self-manage their children's care.

In-community services are therapeutic services delivered in a child's home or community that help to stabilize the child, reducing the need for out-of-home treatment services, such as

residential treatment. Services are flexible and can be individualized to the needs of the child and family.

**03. Family and Community Partnerships.** FCP services focus on primary prevention in key areas: early childhood services, family support services and school-linked services.

Child welfare requires a robust commitment to supporting family success and strengthening communities by creating conditions that prevent abuse and neglect and allow children to flourish. FCP funds primary and secondary child abuse prevention efforts across New Jersey, focusing resources on the unique needs of families before child maltreatment occurs. Essential programs FCP supports include: (1) home visitation services for new mothers, ensuring families with the most need access the parenting and coping skills necessary for successful parenthood; (2) strengthening families through early care and education; (3) family support initiatives such as community-based Family Success Centers and Kinship Navigator Services to keep children with families, to enhance local services for families in need and to divert lower-risk families from CP&P; and (4) school-based services that allow students and families to receive social, health and wrap-around services on school campuses, as well as the Teen Helpline to promote healthy youth development by providing immediate interactive, empathetic and respectful services for adolescents with direct links to information and services that address the social and health needs of youth.

The Division on Women (DOW) administers grant programs for displaced homemakers, domestic and sexual violence programs, information hotlines and women’s shelters and carries out planning for multiple activities that expand rights and opportunities for all New Jersey women. The DOW has a successful outreach program to statewide women’s organizations, including an information distribution service on issues and programs pertinent to women, community-based organizations and the general public.

**04. Education Services.** The Office of Education (OOE) administers and delivers educational programs and services to students in DCF Regional Schools, as well as other DCF and Department of Human Services operated and contracted facilities. Students have severe cognitive, emotional and behavioral disabilities, or are pregnant or parenting teens or are otherwise deemed “at-risk.” OOE also maintains school district responsibility for providing educational funding and services to students with no New Jersey District of Residence, as determined by the Department of Education.

**05. Child Welfare Training Academy Services and Operations.** The New Jersey Child Welfare Training Academy delivers pre-service training for new recruits, investigator training for intake staff, supervisory training for all new supervisors, and new staff training. Instruction balances classroom training, practicum and training units in the field. DCF has partnered with a consortium of New Jersey’s colleges and universities to deliver required in-service training needs focused on these three critical areas.

**06. Safety and Security Services.** DCF provides funding to the Department of Human Services for shared use of its Police Department to provide escort and intervention services for staff and clients. Safety and Security Service funds also support enhanced security measures at local offices throughout the State.

**99. Administration and Support Services.** Administration and support services in each program classification directs and supports DCF’s divisions and offices, including CP&P area and local offices, the Child Welfare Training Academy, and the other operations and facilities administered by CP&P, CSOC, FCP, DOW and OOE. Included is the administration of service contracts to ensure compliance with DCF policies and requirements; human resources administration; planning, control and evaluation of internal operations; technological support; facilities management; legal, legislative and communication services; and technical expertise in fiscal operations.

OVERVIEW

**Mission and Goals**

The Department of Community Affairs’ (DCA) organizational purpose is perhaps the broadest of all the executive agencies. It functions in a variety of ways to help communities to be safe, healthy and economically viable as well as attractive to residents and visitors alike. The DCA offers its resources to local officials, nonprofit community organizations, businesses and individuals. The DCA helps municipalities contend with the mandates of change that are critical to sustaining and improving the quality of life in the state. The DCA delivers administrative guidance, financial support, technical assistance and other services to address ongoing issues of public concern including fire and building safety, housing assistance, community planning and development, local government management and finance, and recovery from Super Storm Sandy.

The DCA is divided into five divisions designed to ensure safe, affordable housing and sustainable, environmentally conscious development to address the long-term needs of New Jersey’s residents and communities, and to provide resources for local governments. The divisions within the DCA are: the Division of Codes and Standards, the Division of Fire Safety, the Division of Housing and Community Resources, the Division of Local Government Services, and the Sandy Recovery Division.

Organizationally, the DCA also includes the following in-but-not-of affiliate agencies : the New Jersey Historic Trust and the Government Records Council. Other DCA affiliates include the New Jersey

Housing and Mortgage Finance Agency and the New Jersey Redevelopment Authority. These authorities do not rely on any direct funding from the State Treasury to operate, administer or fund capital projects.

**Budget Highlights**

The fiscal year 2020 budget for the Department of Community Affairs totals \$870.6 million, a decrease of \$3.3 million or 0.4% under the fiscal 2019 adjusted appropriation of \$873.9 million.

**Municipal Aid**

The fiscal 2020 budget provides over \$1.5 billion in municipal aid to New Jersey’s 565 municipalities, about \$760 million of which is budgeted in the DCA. In fiscal 2020, \$646.7 million is recommended for Consolidated Municipal Property Tax Relief Aid (CMPTRA). In addition, a portion of the CMPTRA appropriation will support municipal aid provided by the Energy Tax Receipts Property Tax Relief Aid appropriation of \$788.5 million in the Department of the Treasury. Combined, these two programs provide over \$1.4 billion to municipal governments.

This budget also recommends \$104.6 million for the Transitional Aid to Localities program. The DCA awards Transitional Aid through a competitive application process and requires recipient municipalities to submit to additional State oversight as well as implement cost controls and reforms that will reduce their reliance on this aid in the future.

“Best Practices Inventory” established by the Director of the Division of Local Government Services and shall receive at least a minimum score on such inventory as determined by the Director of the Division of Local Government Services; provided, however, that the director may take into account the particular circumstances of a municipality. In preparing the “Best Practices Inventory”, the director shall identify best municipal practices in the areas of general administration, fiscal management, and operational activities, as well as the particular circumstances of a municipality, in determining the minimum score acceptable for the release of the total annual amount due for the current fiscal year.

The Director of the Division of Local Government Services may permit any municipality that received Regional Efficiency Aid Program funds pursuant to the annual appropriations act for fiscal year 2010, P.L.2009, c.68, to use a portion of its Consolidated Municipal Property Tax Relief Aid or Energy Tax Receipts Property Tax Relief Aid, or both Consolidated Municipal Property Tax Relief Aid and Energy Tax Receipts Property Tax Relief Aid, to provide “Regional Efficiency Aid Program” benefits pursuant to P.L.1999, c.61 (C.54:4-8.76 et seq.).

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for Consolidation Implementation shall be allocated to provide reimbursement to local government units that consolidate pursuant to any law, including but not limited to P.L.2007, c.63 (C.40A:65-1 et seq.) and P.L.2009, c.118 (C.54:1-86 et seq.), or to a municipality that is wholly annexed by another municipality pursuant to N.J.S.40A:7-1 et seq., for non-recurring costs that the Director of the Division of Local Government Services, or in the case of a school district consolidation the Commissioner of Education, determines to be necessary to implement such consolidation or annexation, subject to the approval of the Director of the Division of Budget and Accounting; provided, however, that in addition to the amounts hereinabove appropriated, there are appropriated such additional amounts as are determined to be necessary for reimbursement of non-recurring costs associated with local government unit consolidations, subject to the approval of the Director of the Division of Budget and Accounting; provided further that there are appropriated such additional amounts, not to exceed \$15,000,000, as the Director of the Division of Budget and Accounting, in consultation with the Commissioner of Community Affairs and the Director of the Division of Local Government Services, shall determine to be necessary to design and implement a voluntary county-based demonstration project to achieve efficiencies and future cost savings in the provision of services at the local level.

Of the amount hereinabove appropriated for Transitional Aid to Localities, an amount may be allocated by the Director of the Division of Local Government Services to provide short-term financial assistance to a local government unit that is determined by the director to be experiencing financial distress caused by the destruction or loss of a major local business ratable. For purposes of this paragraph, a “major local business ratable” means one or more related parcels of property owned by a single business entity, classified as commercial or industrial, which comprised the largest assessed valuation of any one or more line items of taxable property in a municipality, or generated an annual PILOT payment in excess of 10% of the total municipal levy, or is otherwise determined by the director to be of such significance to a municipality that its destruction or loss has resulted in financial distress; provided, however, that notwithstanding the provisions of any law or regulation to the contrary, the Director of the Division of Local Government Services may direct that part of any such allocation be paid to an affected school district or county, or to both, in the same manner as if the award of Transitional Aid were raised as revenue from the municipal tax levy; and provided further that a local government unit determined to be experiencing financial distress because of the loss or destruction of a major local business ratable shall not be required to be subject to any additional conditions, requirements, orders, or other operational efficiency or oversight measures authorized pursuant to P.L.2011, c.144 (C.52:27D-118.42a), except as determined to be appropriate by the Director of the Division of Local Government Services.

The amount hereinabove appropriated for Transitional Aid to Localities is subject to the following condition: notwithstanding the provisions of R.S.43:21-14, or any other law or regulation to the contrary, the Commissioner of Labor and Workforce Development, in consultation with the Commissioner of Community Affairs, is authorized to enter into individualized payment plan agreements with municipalities that receive Transitional Aid for the reimbursement of unemployment benefits paid to former employees of such municipal government units, at reasonable interest rates based on current market conditions, and on such other terms and conditions as may be determined to be appropriate by the Commissioner of Labor and Workforce Development. Any municipality that enters into an individualized payment plan agreement pursuant to this section shall be required to expend all funds budgeted for this activity remaining as of the last day of its budget year for the repayment of outstanding obligations under the plan.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for Transitional Aid to Localities shall be allocated to provide short-term financial assistance where needed to help a municipality that is in serious fiscal distress meet immediate budgetary needs and regain financial stability. A municipality shall be deemed to be eligible for transitional aid if it is identified by the Director of the Division of Local Government Services as experiencing serious fiscal distress where the director determines that, despite local officials having implemented substantive cost reduction strategies, there continue to exist conditions of serious fiscal distress, which may include but shall not be limited to: substantial structural or accumulated deficits; ongoing reliance on non-recurring revenues; limited ability to raise supplemental non-property tax revenues; extraordinary demands for public safety appropriations; and other factors indicating a constrained ability to raise sufficient revenues to meet budgetary requirements that substantially jeopardizes the fiscal integrity of the municipality. Municipalities seeking transitional aid shall file an application on a form prescribed by the director, which application, among other things, shall set forth the minimum criteria that must be met in order for an application to be considered by the director for a determination of eligibility. The director shall determine whether a municipality which files an application meeting such minimum criteria is in serious fiscal distress, and, if so, what amount of transitional aid should be provided to address the municipality’s serious fiscal distress. The transitional aid shall be provided to the municipality subject to the provisions of subsection a. of section 1 of P.L.2011, c.144 (C.52:27D-118.42a); provided, however, that an amount of Transitional Aid to Localities as determined by the Director of the Division of Local Government Services for a municipality may be deemed to constitute Consolidated Municipal Property Tax Relief Aid in an amount not in excess of the amount of Transitional Aid to Localities such municipality received in the previous fiscal year and shall not reduce the amount of Consolidated Municipal Property Tax Relief Aid such municipality shall receive for the current fiscal year. Provided, however, if the Director of the Division of Local Government Services deems an amount of Transitional Aid to Localities for a municipality as

constituting Consolidated Municipal Property Tax Relief Aid pursuant to this provision, that municipality is not relieved from compliance with the requirements for transitional aid.

Notwithstanding the provisions of subsection d. of section 29 of P.L.1999, c.152 (C.13:8C-29) or subsection d. of section 30 of P.L.1999, c.152 (C.13:8C-30), or any law or regulation to the contrary, all payments to municipalities in lieu of taxes for lands acquired by the State and non-profit organizations for recreation and conservation purposes shall be retained by the municipality and not apportioned in the same manner as the general tax rate of the municipality.

Notwithstanding the provisions of any law or regulation to the contrary, payments to municipalities in lieu of taxes for lands acquired by the State and non-profit organizations for recreation and conservation purposes shall be provided only to municipalities whose payments received in fiscal year 2010 exceeded \$5,000 and shall be provided at two-thirds of the payment amount provided in fiscal year 2010.

Notwithstanding the provisions of any law or regulation to the contrary, any qualifying municipality, as defined in section 1 of P.L.1978, c.14 (C.52:27D-178) for the previous fiscal year, shall continue to be a qualifying municipality thereunder during the current fiscal year.

Notwithstanding the provisions of any law or regulation to the contrary, whenever funds appropriated as State Aid and payable to any municipality, which municipality requests and receives the approval of the Local Finance Board, such funds may be pledged as a guarantee for payment of principal and interest on any bond anticipation notes issued pursuant to section 11 of P.L.2003, c.15 (C.40A:2-8.1) and any tax anticipation notes issued pursuant to N.J.S.40A:4-64 by such municipality. Such funds, if so pledged, shall be made available by the State Treasurer upon receipt of a written notification by the Director of the Division of Local Government Services that the municipality does not have sufficient funds available for prompt payment of principal and interest on such notes, and shall be paid by the State Treasurer directly to the holders of such notes at such time and in such amounts as specified by the director, notwithstanding that payment of such funds does not coincide with any date for payment otherwise fixed by law.

The State Treasurer, in consultation with the Commissioner of Community Affairs, is empowered to direct the Director of the Division of Budget and Accounting to transfer appropriations from any State department to any other State department as may be necessary to provide a loan for a term not to exceed 180 days to a local government unit faced with a fiscal crisis, including but not limited to a potential default on tax anticipation notes and on such other terms and conditions as may be required by the commissioner.

Notwithstanding the provisions of N.J.S.40A:4-39 or any other law or regulation to the contrary, a county that assumes responsibility for the provision of local police services in one or more municipalities utilizing a new or expanded county police force may display the anticipated revenues and appropriations associated with such county police force in its annual budget by annexing to that budget a statement describing the sources and amounts of anticipated dedicated revenues and appropriating those dedicated amounts for the purposes of the county police force.

# NOTES

## OVERVIEW

**Mission and Goals**

The mission of the New Jersey Department of Corrections (DOC) is to protect the public by operating safe, secure and humane correctional facilities. The mission is realized through effective supervision, proper classification and appropriate treatment of offenders, and by providing services that promote successful re-entry into society.

The DOC consists of three major program areas: Operations, Programs and Community Services, and Administration. County jails, community treatment programs and State correctional facilities, which are diverse and unique in their operations, house approximately 20,000 inmates in minimum, medium and maximum security levels. The Adult Diagnostic and Treatment Center operates a rehabilitative program for habitual sex offenders. The Edna Mahan Correctional Facility, New Jersey's only correctional institution for women, houses inmates at all security levels and offers licensed substance use disorder treatment services. The Mid-State Correctional Facility is dedicated for the treatment of male inmates with substance use disorders. The substance use disorder treatment program is licensed by the Division of Mental Health and Addiction Services within the Department of Human Services. Additionally, the DOC is responsible for housing civilly committed sex offenders with treatment provided by the Department of Human Services.

The Division of Operations is responsible for security, management and operations of all State prisons and correctional facilities. The Division of Programs and Community Services provides institutional program opportunities for offenders, including academic and vocational educational programs, substance use disorder treatment and transitional services. Additionally, the Division contracts with private and nonprofit providers throughout the state to provide community-based residential treatment programs for offenders under community supervision. The Division of Administration is responsible for managing a budget of approximately \$1 billion and employing nearly 8,000 staff. Also, within the DOC are the Office of Public Information, Office of Regulatory and Legal Affairs, Special Investigations Unit and the Office of Policy and Planning.

**Budget Highlights**

The fiscal year 2020 budget for the Department of Corrections totals

\$1.077 billion, an increase of \$4.7 million or 0.4% over the fiscal 2019 adjusted appropriation of \$1.072 billion.

The fiscal 2020 budget recommendation for State prison facilities totals \$794.1 million, an increase of \$298,000 or 0.03% over the fiscal 2019 adjusted appropriation of \$793.8 million. The increase is attributable to increased program costs as a result of raising the State's minimum wage rate.

The fiscal 2020 budget recommendation for System-wide Program Support totals \$170.4 million, an increase of \$6.1 million or 3.6% over the fiscal 2019 adjusted appropriation of \$164.2 million. The increase is primarily due to increased inmate healthcare costs and increased program costs as a result of raising the State's minimum wage rate.

The fiscal 2020 budget recommendation for Central Planning, Direction and Management totals \$17.3 million, a decrease of \$1.4 million or 8.0% under the fiscal 2019 adjusted appropriation of \$18.7 million. The reduction is due to lower debt services payments in fiscal 2020.

**State Parole Board**

The State Parole Board's mission is to promote the effective and efficient assessment of inmates prior to parole and the efficient supervision of parolees after they have attained parole status. The Division of Parole is responsible for monitoring parolee compliance with special release conditions imposed by the State Parole Board and the collection of fines, penalties and restitution payments owed by parolees.

The fiscal 2020 budget for the State Parole Board totals \$94.7 million, a decrease of \$328,000 or 0.3% under the fiscal 2019 adjusted appropriation of \$95.1 million. This reduction is due to reduced Grants-In-Aid program costs and is netted with growth to support increased debt service payments and increased program costs as a result of raising the State's minimum wage rate.

Funding supports various alternative programs to incarceration including the Re-Entry Substance Abuse Program, the Stages to Enhance Parolee Success Program and the Community Resource Centers. Funding also supports the Electronic Monitoring/Home Confinement program, the Sex Offender Management Unit and the Satellite-Based Monitoring of Sex Offenders Program (GPS).

Actual payroll counts are reported for fiscal years 2017 and 2018 as of December and revised fiscal 2019 as of January. The budget estimate for fiscal 2020 reflects the number of positions funded. Position ratios and per capita costs do not include the Civilly Committed Sexual Offender Program.

Daily per capita rate calculations are based on 366 days for fiscal 2020 and 365 days for the other fiscal years.

Operational Capacity is the number of inmates that can be accommodated based on a facility's available beds, budgeted staff, programs and services. It does not include beds temporarily closed.

(a) Mid-State Correctional Facility was depopulated at the end of fiscal 2014 to undergo capital renovations and reopened in April 2017 as a correctional facility dedicated to drug treatment.

(b) Participants are now calculated by using the official academic census day in order to be consistent with the Department of Education's census calculations and to avoid pupil count duplication.

## PROGRAM CLASSIFICATIONS

03. **Parole.** This program provides supervision and investigates parole plans for all adult parolees from State and county institutions and those entering New Jersey from other states. It

manages several unique community programs designed to support the re-entry and effective supervision of parolees and promotes pro-social behavior for those re-entering our communities. Executive clemency investigations are performed for the Executive Office. Treatment is obtained and the progress of parolees and offenders is monitored through the general and specialized caseload officers.

05. **State Parole Board.** The Parole Board establishes parole eligibility for young adult State inmates and monitors parole eligibility for adult inmates of State and county facilities. The Parole Board also monitors cases, conducts parole hearings, approves community parole plans for the parolee, receives and evaluates the input of victims of crime, complies with court ordered procedures for parole revocation or parole rescission, approves discharge from parole earlier than maximum sentences, processes executive clemency petitions, provides pre-parole information to prosecutors, and conducts furlough investigations as a courtesy to the Department of Corrections. The Board exercises a quasi-judicial decision-making function to determine when and under what conditions inmates are released on parole. In addition, the Board hears parole revocation cases to consider alleged parole violations.

99. **Administration and Support Services.** The Chairman and supporting staff are responsible for conducting all Agency programs by developing and maintaining an efficient administration of programs, operations and services by identifying, defining and delegating authority where appropriate; by interpreting and enforcing statutes and administrative regulations of the Agency, the Civil Service Commission and the Department of the Treasury; by seeking and providing opportunities for interested agencies, individuals and groups to receive information so as to enhance public interest, awareness and participation in the parole process; and by increasing efficiency and effectiveness by providing leadership and overall supervision of parole and community programs.

**PROGRAM CLASSIFICATIONS**

Note: In fiscal year 2020, certain school aid calculations described below are modified or authorized by the provisions of budgetary language.

01. **General Formula Aid.** The School Funding Reform Act (SFRA) of 2008 established the basis for the aid that ensures the provision of a thorough and efficient (T&E) system of education.
  - a. **Equalization Aid** - Aid is provided to a district whose adequacy budget exceeds the local fair share tax effort. The measure of fiscal capacity is determined by applying statewide multipliers to the equalized value of property and personal income in the district. The local fair share represents the local resources a district would have to appropriate in order to spend at the level of its adequacy budget. A district may spend above its adequacy budget level under a variety of circumstances, but its Equalization Aid would not increase. A district may appropriate less than its fair share without its Equalization Aid being reduced. However, all districts are required to appropriate a minimum local levy.
  - b. **Adjustment Aid and Stabilized Aid Growth Limit** - P.L.2018, c. 67 amended SFRA such that Adjustment Aid will no longer be recalculated for school districts (N.J.S.A. 18A:7F-68 d and e).
  - c. **Preschool Education Aid** - Aid is provided to districts that received Early Childhood Program Aid (ECPA), Early Launch to Learning Initiative aid (ELLI), Preschool

Expansion Aid (PSEA) in 2007-2008, or Preschool Education Expansion Aid (PEEA), or the federal Preschool Expansion Grant in 2018-2019. Funding is also provided, as determined by the Commissioner, to districts, who, based on preschool readiness standards, are ready to expand or start preschool programs.

d. **Per Pupil Growth Aid** - Provided aid to districts calculated at a rate of \$10 per pupil multiplied by the district's 2014-2015 projected enrollment.

e. **PARCC Readiness** - Provided aid to districts to procure the technology necessary to offer the online Partnership for Assessment of Readiness for College and Careers (PARCC) assessments.

f. **Professional Learning Community Aid** - Provided aid to districts to support the development of learning communities within and across districts, in order to help teachers and administrators analyze and use the data they collect.

g. **School Choice Aid** - Aid is provided as the local fair share per pupil amount for each choice student in an approved School Choice district. For the purposes of calculating other forms of State Aid, choice students are included in the School Choice district's resident enrollment.

h. **Security Aid** - Aid is provided as a base amount for every student plus an additional allocation that varies based on the district's concentration of at-risk designated students.

i. **Supplemental Enrollment Growth Aid** - Provided aid to districts that experienced enrollment growth greater than 13% from October 2008 to October 2011.

j. **Vocational Expansion Stabilization Aid** - County Vocational school districts will receive this aid in an amount necessary to ensure the district does not receive less than the aid amount it received in the 2017-2018 school year.

k. **Under Adequacy Aid** - Provided up to \$500,000 to regular districts that spent more than 10% below their adequacy budget in fiscal 2014.

02. **Nonpublic School Aid.** Various types of assistance are available to Boards of Education in public school districts in New Jersey to reimburse such districts for expenses they are required to incur on behalf of students who are enrolled in grades K-12 in a nonpublic school within the district, which complies with compulsory school attendance requirements and with the requirements of Title VI of the Civil Rights Act of 1964. The following aid programs are included:

a. **Nonpublic Textbook Aid** - Supports the purchase and lending of textbooks upon individual request (N.J.S.A. 18A:58-37.1 et seq.). State aid is paid in an amount equal to the state average budgeted textbook expense per public school pupil for the prebudget year for all students enrolled in grades K-12 in a nonpublic school on the last school day prior to October 16 of the prebudget year.

b. **Nonpublic Auxiliary Services Aid** - Aid for compensatory education, English as a second language and home instruction (N.J.S.A.18A:46A-1 et seq.) is provided upon consent of the parent or guardian. State aid is paid for providing services to nonpublic pupils equivalent to the services provided to pupils enrolled in the public schools.

c. **Nonpublic Handicapped Aid** - Provides identification, examination, classification, supplemental and speech correction services (N.J.S.A.18A:46-19.1 et seq.) for each student

## EDUCATION

---

who is enrolled full-time. State aid is paid to each school district in an amount sufficient to provide examination, classification, supplemental and speech correction services to nonpublic pupils.

d. **Nonpublic Auxiliary/Handicapped Transportation Aid** - Provides for transporting nonpublic pupils to public schools or neutral sites, for auxiliary/handicapped services that cannot be provided constitutionally in sectarian schools.

e. **Nonpublic Nursing Services Aid** - Provides funds for Boards of Education to provide nursing services for nonpublic school pupils who are enrolled full-time in nonpublic schools within the school district (N.J.S.A.18A:40-25).

f. **Nonpublic Technology Initiative** - Provides funds for Boards of Education to provide technology to nonpublic school students. The goal of the nonpublic technology initiative program is to provide nonpublic school pupils with computers, educational software, distance learning equipment and other technologies that can improve their education by meeting their specific educational needs and to give nonpublic school teachers the skills, resources and incentives to use educational technologies effectively to improve teaching and learning in the classroom.

g. **Nonpublic Security Aid** - Provides funds for Boards of Education to provide security services, equipment, or technology to ensure a safe and secure school environment for nonpublic school pupils who are enrolled full-time in nonpublic schools within the school district (N.J.S.A.18A:58-37.8 et seq.).

03. **Miscellaneous Grants-In-Aid.** The following programs are included:

a. **Charter School Aid** - Provides direct State aid to charter schools for first year charter school students who attended nonpublic schools prior to enrolling in the charter school. Charter School Aid is also provided to ensure that charter schools with enrollments greater than 2007-2008 receive no less aid than the amount they received in 2007-2008, on either a total or per pupil basis. Districts with declining enrollments will receive no less than they received in 2007-2008, on a per pupil basis. In addition, Charter School Aid is provided to ensure that no charter school receives less aid than they received in 2018-2019, both on a total revenue and per pupil basis.

b. **Payments for Institutionalized Children-Unknown District of Residence** - Provides for the payment of State aid for educational services to students in grades K-12 who are homeless or a resident in an institution of the Department of Corrections, the Department of Human Services, the Department of Children and Families or the Juvenile Justice Commission, and for whom a local school district of residence has not been identified.

07. **Special Education.** The School Funding Reform Act of 2008 supports the additional costs incurred by districts in providing individualized educational programs to students with disabilities in public and private school settings. The Act funds two-thirds of the special education cost through the Equalization Aid formula and one-third through Special Education Categorical Aid. Pupils are aided via a census method, which applies the state average excess cost for special education and the state average classification rate to

district enrollments. Pupils classified solely for speech-language services are also aided based on the census method, which applies the excess cost for speech and the state average speech classification rate to district enrollments. Additional support is provided for high-cost students through Extraordinary Special Education Costs Aid.

36. **Student Transportation.** Monitors, analyzes and evaluates local districts' transportation systems and records in order to increase the safety, cost-effectiveness and accountability of transportation operations. Develops safety education programs and provides technical assistance to local boards of education to promote safety and to efficiently administer transportation services. The Department trains county and local district personnel to administer transportation services according to statute and code. Transportation Aid is provided to local school districts for students who are required to be transported according to N.J.S.A.18A:39-1 et seq. and N.J.S.A.18A:46-23 as amended, based on the efficient costs of transporting pupils. The costs are based on per pupil allocations for students with and without special transportation needs and adjusted for the average distance pupils reside from school and an efficiency incentive factor.

38. **Facilities Planning and School Building Aid.** Approves architectural review, master plans and site acquisitions; evaluates facilities for educational adequacy, health and safety; and periodically surveys public school buildings. Reviews and approves long-range facilities plans, as well as applications for school facilities projects. Project review includes the determination of consistency with the district's long-range plan and compliance with facilities efficiency standards and area allowances per FTE student derived from those standards. Based on that review, the preliminary eligible costs for State financing are calculated. School Building Aid provides State support for debt service on projects approved prior to the enactment of the Educational Facilities Construction and Financing Act of 2000 (EFCFA). The School Construction and Renovation Fund provides for State debt service for school construction projects approved under the provisions of EFCFA. School Construction Debt Service Aid provides aid for local debt for EFCFA projects.

42. **School Finance.** Responsible for the calculation and distribution of Education State aid in accordance with the applicable statutes; provides leadership in the development of uniform school district accounting and administrative practices; provides support for research and consulting services for start-up requirements needed for reorganization under N.J.S.A. 18A:7A-1 et seq., including an analysis of school business practices, dissemination of modern budgeting materials and further design of reporting requirements.

Regional Schools for the Disabled are authorized by the State Facilities for the Handicapped Bond Fund (Chapter 149, Laws of 1973). Funds were used for the construction of 11 regional schools to provide educational services to children with severe disabilities. The first schools opened in the fall of 1981, and by September 1984 all schools were serving children. There are currently eight schools in operation that are managed by local school districts, county educational services commissions and/or vocational school districts, under contract, and are funded primarily by receipts from the sending school districts.

**Notes -- Direct State Services - General Fund**

(a) The fiscal year 2019 appropriation has been adjusted, where relevant, for the allocation of salary program.

**Notes -- State Aid - Property Tax Relief Fund**

(b) Appropriations data has been adjusted to reflect the consolidation of Preschool Education Expansion Aid into Preschool Education Aid.

**Language Recommendations -- State Aid - General Fund**

Of the amount hereinabove appropriated for Equalization Aid, an amount equal to the total earnings of investments of the Fund for the Support of Free Public Schools first shall be charged to such fund.

Of the amounts hereinabove appropriated for Nonpublic School Aid, such amounts as determined by the Commissioner of Education may be transferred between such accounts to address changes in enrollments and services, subject to the approval of the Director of the Division of Budget and Accounting.

Receipts from nonpublic schools handicapped and auxiliary recoveries are appropriated for the payment of additional aid in accordance with section 17 of P.L.1977, c.192 (C.18A:46A-14) and section 14 of P.L.1977, c.193 (C.18A:46-19.8), subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of section 14 of P.L.1977, c.193 (C.18A:46-19.8), for the purpose of computing Nonpublic Handicapped Aid for pupils requiring the following services, the per pupil amounts for the 2019-2020 school year shall be: \$1,326.17 for an initial evaluation or reevaluation for examination and classification; \$380 for an annual review for examination and classification; \$930 for speech correction; and \$826 for supplementary instruction services, provided, however, that the Commissioner of Education may adjust the per pupil amounts based upon the nonpublic pupil population and the need for services.

Notwithstanding the provisions of section 9 of P.L.1977, c.192 (C.18A:46A-9), the per pupil amount for compensatory education for the 2019-2020 school year for the purposes of computing Nonpublic Auxiliary Services Aid shall equal \$995.33 and the per pupil amount for providing the equivalent service to children of limited English-speaking ability shall be \$1,015, provided, however, that the Commissioner of Education may adjust the per pupil amounts based upon the nonpublic pupil population and the need for services.

Notwithstanding the provisions of section 9 of P.L.1991, c.226 (C.18A:40-31), the amount hereinabove appropriated for Nonpublic Nursing Services Aid shall be made available to local school districts based upon the number of pupils enrolled in each nonpublic school on the last day prior to October 15, 2018 and the rate per pupil shall be \$97.

From the amount hereinabove appropriated for Nonpublic Security Aid, the Commissioner of Education shall provide State aid to each school district in an amount equal to \$150 multiplied by the number of nonpublic school students within the district identified by the district on or before November 5 for security services, equipment, or technology to ensure a safe and secure school environment for nonpublic school students.

Items purchased for the use of nonpublic school students with Nonpublic Technology Initiative funds in previous budget cycles shall remain the property of the local education agency; provided, however, that they shall remain on permanent loan for the use of nonpublic school students for the balance of the technologies' useful life.

Notwithstanding the provisions of any law or regulation to the contrary, Nonpublic Technology Initiative Aid shall be paid to school districts and allocated for nonpublic school pupils at the rate of \$36 per pupil in a manner that is consistent with the provisions of the federal and State constitutions.

Such amounts received in the "School District Deficit Relief Account," established pursuant to section 5 of P.L.2006, c.15 (C.18A:7A-58), including loan repayments, are appropriated, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of P.L.2006, c.15 (C.18A:7A-54 et seq.) or any law or regulation to the contrary, in the event that a school district owes an amount greater than 50 percent of its annual general fund budget attributable in substantial part to loans made to the district from the "School District Deficit Relief Account" established pursuant to P.L.2006, c.15 (C.18A:7A-54 et seq.), such debt, as reduced by the liquidation of all available assets of the school district, may be forgiven upon the school district's merger with another district if the Commissioner of Education determines that such debt represents an impediment to consolidation, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of P.L.1999, c.12 (C.54A:9-25.12 et seq.), there is appropriated from the Drug Abuse Education Fund, the amount of \$50,000, to be used for the NJSIAA Steroid Testing program.

In addition to the amount hereinabove appropriated for the School Construction and Renovation Fund account to make payments under the contracts authorized pursuant to section 18 of P.L.2000, c.72 (C.18A:7G-18), there are appropriated such other amounts as the Director of the Division of Budget and Accounting shall determine are required to pay all amounts due from the State pursuant to such contracts.

The unexpended balance at the end of the preceding fiscal year in the School Construction and Renovation Fund account is appropriated for the same purpose.

**Language Recommendations -- State Aid - Property Tax Relief Fund**

Notwithstanding the provisions of any law or regulation to the contrary, in the event that an "SDA district" sells district surplus property, the proceeds from such sale shall be applied as follows, subject to the approval of the Director of the Division of Budget and Accounting: the Commissioner of Education, in his discretion, may direct that the proceeds be used by the SDA district upon a showing of financial need for a capital maintenance project or for a school facilities project if such project is consistent with the district's Long-Range Facilities Plan (LRFP) and the project cost does not exceed \$500,000. If the project cost exceeds \$500,000, the commissioner may direct all or a portion of the proceeds to the New Jersey Schools Development Authority (SDA) for use in projects identified in that district's LRFP. In the case of capital maintenance projects, the SDA may forward the specified aid amount directly to the district for completion of the projects. If the commissioner is not satisfied that there is a sufficient showing of financial need for a capital maintenance project or for a school facilities project or if the commissioner is not satisfied that the proposed project is consistent with the district's LRFP, the proceeds shall be returned to the SDA for use by the SDA for school facilities projects in that SDA district which are consistent with the SDA district's LRFP. For the purposes of this provision, "surplus property" means property which is not being replaced by other property under a grant agreement with the SDA.

Notwithstanding the provisions of any law or regulation to the contrary, "non-SDA" districts that received their State support for approved project costs through the New Jersey Schools Development Authority shall be assessed an amount equal to the 2013-2014 assessment. District allocations shall be withheld from 2019-2020 formula aid payments and the assessment cannot exceed the total of those payments.

Notwithstanding the provisions of any law or regulation to the contrary, the preschool per pupil aid amounts set forth in subsection d. of section 12 of P.L.2007, c.260 (C.18A:7F-54) shall be adjusted by the geographic cost adjustment developed by the Commissioner of Education pursuant to P.L.2007, c.260.

Notwithstanding the provisions of any law or regulation to the contrary, amounts hereinabove appropriated for Preschool Education Aid shall be allocated as follows: 1) in the case of a district that received Early Launch to Learning Initiative aid in the 2007-2008 school year, an amount equal to the district's 2007-2008 allocation of Early Launch to Learning Initiative aid; 2) in the case of a school district that received a 2008-2009 allocation of Preschool Education Aid based on its 2007-2008 Early Childhood Program Aid allocation, an aid amount equal to the district's 2018-2019 per pupil allocation of Preschool Education Aid inflated by the CPI and multiplied by the district's projected preschool enrollment, except in the case of a school district that participated in the federal Preschool Expansion Grant in 2018-2019 and districts that received an allocation of Preschool Education Expansion Aid in 2017-2018 and 2018-2019; 3) in the case of any other district with an allocation of Preschool Education Aid in the 2018-2019

Notwithstanding the provisions of any law or regulation to the contrary, of the amounts hereinabove appropriated for Preschool Education Aid, an amount not to exceed \$25 million shall be allocated by the Commissioner to districts in total additional preschool funding for the purpose of expanding free access to full-day preschool for resident three- and four-year old children in accordance with the preschool quality standards issued by the Commissioner and based on a district's demonstration of its readiness to operate a preschool program consistent with those standards.

Notwithstanding the provisions of any law or regulation to the contrary, a district's 2019-2020 allocation of the amounts hereinabove appropriated for School Choice Aid shall be 90% of the amount calculated pursuant to the provisions of P.L.2007, c.260; provided, however, in the event that School Choice enrollment reflected on the October 2018 Application for State School Aid is less than projected School Choice enrollment reflected on the 2018-2019 State Aid notice, such district's 2019-2020 School Choice Aid allocation shall be adjusted to reflect actual prebudget year enrollment as of October 2018, as set forth in the March 2019 State Aid notice issued by the Commissioner of Education. A district's 2019-2020 School Choice enrollment shall not exceed the district's maximum funded choice student enrollment as determined by the Commissioner of Education.

Notwithstanding the provisions of any law or regulation to the contrary, following notification to the Joint Budget Oversight Committee there are appropriated to the Emergency Fund account such additional amounts as may be required to fund approved applications for emergency aid following district needs assessments conducted by the Department of Education, subject to the approval of the Director of the Division of Budget and Accounting. The commissioner shall determine the repayment terms, if any, that will be assessed.

Notwithstanding the provisions of any law or regulation to the contrary, a charter school's 2019-2020 allocation of the amount hereinabove appropriated for Charter School Aid shall be as set forth in the March 2019 State Aid notice issued by the Commissioner of Education, and shall be adjusted based on the October 15th and the end of the school year actual pupil counts in each of the following cases: 1) in the case of a charter school with higher enrollment in the 2019-2020 school year than in the 2007-2008 school year, to provide that in the 2019-2020 school year, the charter school receives no less total support from the State and the resident district than the sum of the total 2007-2008 payments from the resident district and the 2007-2008 payments of Charter School Aid and Charter Schools -- Council on Local Mandates Aid and to ensure that such total payments provide a 2019-2020 per pupil amount that is no less than the 2007-2008 per pupil amount based on average daily enrollment; and 2) to provide amounts pursuant to section 12 of P.L.1995, c.426 (C.18A:36A-12).

Notwithstanding the provisions of section 3 of P.L.1971, c.271 (C.18A:46-31), a portion of the district tuition amounts payable to a county special services school district operating an extended school year program may be transferred to the county special services school district prior to the first of September in the event the board shall file a written request with the Commissioner of Education stating the need for the funds. The commissioner shall review the board's request and determine whether to grant the request after an assessment of whether the district needs to spend the funds prior to September and after considering the availability of district surplus. The commissioner shall transfer the payment for the portion of the tuition payable for which need has been demonstrated.

Notwithstanding the provisions of any law or regulation to the contrary, of the amount hereinabove appropriated for Extraordinary Special Education Costs Aid, such amounts as the Director of the Division of Budget and Accounting determines shall be charged to the Property Tax Relief Fund instead of receipts deposited into the Extraordinary Aid Account.

Notwithstanding the provisions of section 1 of P.L.1997, c.53 (C.18A:39-11.1) districts shall not be reimbursed for administrative fees paid to Cooperative Transportation Service Agencies.

For any school district receiving amounts from the amount hereinabove appropriated for Transportation Aid, and notwithstanding the provisions of any law or regulation to the contrary, if the school district is located in a county of the third class or a county of the second class with a population of less than 235,000, according to the 1990 federal decennial census, transportation shall be provided to school pupils residing in this school district in going to and from any remote school other than a public school, not operated for profit in whole or in part, located within the State not more than 30 miles from the residence of the pupil.

Notwithstanding the provisions of section 2 of P.L.1981, c.57 (C.18A:39-1a) or any other law or regulation to the contrary, the maximum amount of nonpublic school transportation costs per pupil provided for in N.J.S. 18A:39-1 shall equal \$1,000.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for Family Crisis Transportation Aid shall be paid to districts based on applications approved from the prior year in accordance with the provisions of section 1 of P.L.2013, c.231 (C.18A:38-1.1), subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, an eligible district's allocation of the amounts hereinabove appropriated for School Construction Debt Service Aid and School Building Aid shall be 85% of the district's approved October 9, 2018 application amount.

Notwithstanding the provisions of any law or regulation to the contrary, of the amounts hereinabove appropriated for School Building Aid, a district's district aid percentage calculated for purposes of the provisions of section 10 of P.L.2000, c.72 (C.18A:7G-10) shall equal the percentage calculated for the 2001-2002 school year.

Notwithstanding the provisions of any law or regulation to the contrary, when calculating a district's allocation of the amount hereinabove appropriated for School Construction Debt Service Aid, the provisions of subsection d. of section 9 of P.L.2000, c.72 (C.18A:7G-9)

shall also be applicable for a school facilities project approved by the Commissioner of Education and by the voters in a referendum after the effective date of P.L.2000, c.72 (C.18A:7G-1 et al.) and prior to the effective date of P.L.2008, c.39 (C.18A:7G-14.1 et al.). Notwithstanding the provisions of section 9 of P.L.2000, c.72 (C.18A:7G-9) or any other law or regulation to the contrary, for the purpose of calculating a district's State Debt Service Aid, "M", the maintenance factor, shall equal 1.

In addition to the amount hereinabove appropriated for the School Construction and Renovation Fund account to make payments under the contracts authorized pursuant to section 18 of P.L.2000, c.72 (C.18A:7G-18), there are appropriated such other sums as the Director of the Division of Budget and Accounting shall determine are required to pay all amounts due from the State pursuant to such contracts.

The unexpended balance at the end of the preceding fiscal year in the School Construction and Renovation Fund account is appropriated for the same purpose.

Notwithstanding the provisions of section 4 of P.L.1997, c.72 (C.26:2H-18.58g), section 17 of P.L.2000, c.72 (C.18A:7G-17), or any law or regulation to the contrary, of the amount hereinabove appropriated to the School Construction and Renovation Fund such amounts as the Director of the Division of Budget and Accounting may determine first shall be charged to the Property Tax Relief Fund.

Notwithstanding the provisions of P.L.2007, c.260 (C.18A:7F-43 et al.) or any other law to the contrary, the amount hereinabove appropriated for Transportation Aid, in addition to the amount calculated pursuant to section 4 of P.L.2018, c.67 (C.18A:7F-68), shall include an amount calculated as follows: in the case of a school district in which the total number of nonpublic pupils eligible for transportation pursuant to P.L. 1968, c. 29 (C. 18A:39-1) exceeds 20,000, the school district shall receive \$290 for each nonpublic pupil as reported on the October 2018 District Report of Transported Resident Students.

Notwithstanding the provisions of P.L.2007, c.260 (C.18A:7F-43 et al.) or any other law to the contrary, for any school district where the October 2017 resident enrollment exceeds 5,000 and the share of approved applications for students eligible for extraordinary aid pursuant to P.L. 2007, c. 260 (C. 18A:7F-55) in the 2017-2018 school year exceeds 5% of the district's October 2017 resident enrollment, the amount hereinabove appropriated for Special Education Categorical Aid, in addition to the amount calculated pursuant to section 4 of P.L.2018, c.67 (C.18A:7F-68), shall include \$10,000 times the school district's projected 2019-2020 special education enrollment as used to calculate Special Education Categorical Aid pursuant to P.L. 2007, c.260 (C.18A:7F-55). This provision shall not impact the calculation of payments made to charter schools pursuant to P.L. 1995, c.426 (C.18A:36A-12).

Notwithstanding the provisions of any law or regulation to the contrary, the allocation of the amount hereinabove appropriated for Provisional Stabilization Aid shall be calculated as follows: for any school district that receives additional Transportation Aid and additional Special Education Categorical Aid calculated in accordance with the provisions hereinabove, the school district shall receive Provisional Stabilization Aid in the amount of \$15,000,000.

Notwithstanding the provisions of P.L.2016, c.22 (C.18A:39-1d et al.) or any section of law to the contrary, in the case of any school district that receives nonpublic transportation aid hereinabove appropriated from Transportation Aid and meets the criteria for an "eligible district" as defined in subsection a of section 1 of P.L.2016, c.22 (C.18A:39-1d), in accordance with guidelines issued by the Commissioner, the board of education shall distribute to the consortium, as defined in subsection a of section 1 of P.L.2016, c.22 (C.18A:39-1d), an amount to be determined by the Commissioner for each nonpublic school pupil who is attending a nonpublic school which is a part of the consortium and who is required to be transported by the eligible district pursuant to P.L.1968, c.29 (C.18A:39-1). In accordance with guidelines issued by the Commissioner, the consortium shall assume the responsibilities of the eligible district under P.L.1968, c.29 (C.18A:39-1) for transporting to and from school the pupils for whom the consortium received the aid in-lieu-of transportation amount. If the per pupil cost of the lowest bid received exceeds the aid in-lieu-of transportation amount, then the parent or guardian of the student shall be eligible to receive the aid in-lieu-of transportation amount from the consortium for that school year. If after providing the required pupil transportation any of the disbursed funds remain unspent, the consortium, as it deems appropriate, may provide courtesy busing to pupils who are residents of the eligible district and are attending the nonpublic schools of the consortium. The consortium shall refund to the school district after the completion of the school year any unexpended funds received pursuant to this provision. The State monitor appointed pursuant to section 2 of P.L.2006, c.15 (C.18A:7A-55) shall enter into a contract with an independent entity to audit the consortium. The audit for the 2019-2020 school year shall be submitted to the State monitor no later than December 1 of the subsequent school year, and the State monitor shall transmit a copy of the audit to the Commissioner of Education. There shall be established an oversight committee to oversee the operations of the consortium, which shall consist of five members including: one member appointed by the State monitor; and four members appointed by the Commissioner, one of whom shall represent a nonpublic school which is part of the consortium.

**30. EDUCATIONAL, CULTURAL, AND INTELLECTUAL DEVELOPMENT  
33. SUPPLEMENTAL EDUCATION AND TRAINING PROGRAMS**

**OBJECTIVES**

1. To provide quality educational programs that further develop the academic and technical skills of career and technical education students through high standards.
2. To provide quality programs to New Jersey students to assist them in clarifying career goals, exploring career possibilities, experiencing career applications of academic knowledge and skills, developing employability skills and obtaining other skills necessary to function in a technological society.
3. To facilitate the planning, implementation and expansion of transition programs, activities or services for career and technical education students to support linkages between secondary and postsecondary career and technical programs, including two-year and four-year collegiate programs.
4. To provide students strong experience in and understanding of all aspects of an industry, including the academic, technical and technological requirements for career development and lifelong learning.
5. To provide professional development and technical assistance to career and technical educators.

**PROGRAM CLASSIFICATIONS**

**20. Career Readiness and Technical Education.** To assist the State in attaining the objectives stated above in providing individuals with the knowledge and skills to keep the U.S. competitive, the federal government provides funds to conduct State career and technical education administrative activities. To be eligible for these funds under the Strengthening Career and Technical Education for the 21st Century (Perkins V) Act, the State must match the administrative funds of this federal grant award on a dollar for dollar basis (P.L. 115-224).

In order for the State to qualify to receive federal grant money under the Perkins Act, New Jersey is required to provide a maintenance of effort equal to, or greater than, the amount of effort in the prior fiscal year. Failure to provide such maintenance of effort will reduce the amount of a State's allocation of funds in exact proportion by which the State has failed to meet the maintenance of effort requirement.

These combined funds allow the State to maintain, in cooperation with business, industry and labor, quality career and technical education programs, by providing consultation, technical assistance and regulatory services to public and private educational agencies.

# EDUCATION

The Department also develops new and innovative career and technical education programs; provides in-service training for career and technical education teachers; conducts program evaluations; provides administrative services for the Office of Career Readiness Programs; maintains liaison with agencies and personnel on the local, State, and federal levels; and develops the annual revisions of the State Plan for Career and Technical Education. These activities maximize educational opportunities and minimize costly duplication of effort.

Vocational Education - Aid (N.J.S.A.18A:58-34 et seq.) is paid on the following criteria: (a) the State may grant up to 100% of approved expenditures for new and innovative projects, and (b) expenditures for the improvement of career and technical education programs conducted under Public Law 115-224, subject to federal mandates requiring that special populations be given full opportunity to participate in career and technical education programs.

## OVERVIEW

### Mission and Goals

As a national leader in environmental protection, the New Jersey Department of Environmental Protection (DEP) uses the best available science to protect public health, support the state's diverse natural resources, and create vibrant and sustainable communities that provide economic opportunity.

The DEP has seven major divisions: Air Quality, Energy and Sustainability; Compliance and Enforcement; Engineering and Construction; Land Use Management; Natural and Historic Resources; Site Remediation and Waste Management; and Water Resource Management. The DEP also includes three in-but-not-of agencies that receive State appropriations: the Palisades Interstate Park Commission, the Highlands Water Protection and Planning Council, and the Pinelands Commission.

The DEP has five priorities: reduce and respond to climate change, protect New Jersey's water, revitalize our communities and protect public health, manage and promote thriving natural and historic resources, and strengthen the DEP.

It operates on five principles for achieving its mission and priorities: follow the law, use the best available science, listen to all sides, find the best balance, and be transparent and honest with the public.

The DEP was founded on the first Earth Day in 1970, making New Jersey the third state to consolidate its various environmental protection and conservation agencies into a unified agency.

### Budget Highlights

The fiscal year 2020 budget for the DEP, excluding Debt Service, totals \$319.4 million, a decrease of \$69.1 million or 17.8% under the fiscal 2019 adjusted appropriation of \$388.5 million.

## 40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT 42. NATURAL RESOURCE MANAGEMENT

### OBJECTIVES

- To provide recreational, historic, natural and interpretive facilities.
- To develop recreational lands and facilities, located in balance with population distribution.
- To regulate the recreational use of public lands and minimize natural resource damage.
- To provide safe marina facilities, navigational aids and other services to the boating public.
- To provide the financial assistance and engineering technology that minimizes potential loss of life and property damage due to flooding.
- To manage and protect the state's forest resources. To minimize forest damage from wildfire, insects and disease, and to enhance the public's understanding of sustainable forest resource management.
- To manage fish and wildlife resources of the state for long-term biological, economic and recreational viability.
- To provide for the development of shore protection facilities and improvements, and to minimize personal and property damage resulting from tidal waters.
- To preserve open space and support development of parks.
- To provide technical assistance and implement statutory provisions that prevent, minimize or mitigate damage to historic resources.
- To provide a system of highways, parkway roads and bridges for the Palisades Interstate Park to facilitate travel through and within the park and ensure safe and efficient movement of traffic.

### PROGRAM CLASSIFICATIONS

- Forest Resource Management.** State Forestry Services works with public and private landowners to maintain and establish healthy forests statewide. Despite being the most densely populated state, forests cover 40% of New Jersey; 48% of all New Jersey forested land is privately owned. The state's forests contribute tangible and intangible benefits to New Jersey, including cleaner air and water, recreation and the opportunity to enjoy the beauty of New Jersey's natural environment. The State Forest Fire Service prevents and suppresses wildfires to protect both the forest resources as well as residents living near the forest. State Forestry Services provides technical support and educational materials to municipalities, landowners and homeowners through private, non-industrial lands stewardship, insect and disease control, and urban and community forestry resource programs. The agency also provides educational programs, grows seedlings

- for reforestation, and identifies and protects threatened and endangered plants and habitats.
- Parks Management.** Oversees, operates, maintains and provides stewardship for 40 individual State parks, 11 forests and 5 recreation areas, totaling over 445,000 acres; 6 marinas, 3 of which are operated under lease agreements with private firms; 4 public golf courses, operated under management agreements with private firms; and more than 50 State historic sites and districts, some of which are located within the State Park areas, which are staffed for public interpretive programs and other recreational, natural and interpretive facilities in a clean, safe and non-discriminatory manner; staffs facilities with maintenance, administrative, park police and seasonal personnel to provide assistance, information, education and interpretive and protective services to the public; manages properties to ensure the preservation of natural and historic resources while maintaining high quality recreational opportunities; plans for the development and improvement of new facilities and reviews and approves all new construction; provides literature regarding recreational facilities and natural area and historic preservation; and operates and maintains State marinas in a clean, safe and non-discriminatory manner for all boat owners and visitors.
- Hunters' and Anglers' License Fund.** Manages the wildlife resources of the state through programs of research, regulation, habitat development, land acquisition, law enforcement and public education. Trout and other species of fish are reared at State hatcheries; fish and pheasants are released throughout the state; public lands are acquired and maintained for use as wildlife management areas. Regulations regarding hunting and fishing seasons and fish and wildlife possession are developed, and licenses, stamps and permits are sold to provide a source of revenue to manage the state's wildlife resources. Farmers and residents are assisted with wildlife damage control issues through direct response to matters of public safety or by issuing special permits to allow citizens to mitigate damage.
- Shellfish and Marine Fisheries Management.** Manages the marine shellfish and finfish resources of the state through research, monitoring, habitat protection, licensing, regulatory programs and law enforcement. Clam and oyster grounds are leased to commercial shellfishermen for aquaculture activities. Programs (relay and depuration) also provide for the safe utilization of shellfish from marginally polluted areas. Marine fisheries programs support the effective management of numerous migratory species on a coastwide basis. An artificial reef program constructs fisheries habitat in ocean areas to enhance productivity, thus providing additional fishing and diving opportunities.
- Wildlife Management.** Conducts wildlife research and monitors wildlife populations of the state's non-game and

# ENVIRONMENTAL PROTECTION

endangered wildlife species. Plans and executes programs to restore and recover imperiled wildlife species of greatest conservation need. Provides information to the public to assist with the management of human-wildlife conflict situations. Additional responsibilities include permit review for wildlife possession, bird banding, scientific collection and public information.

21. **Natural Resources Engineering.** Engineering and Construction provides financial and technical assistance to local governments for the construction of groins, jetties, bulkheads, sea walls and beach replenishment under the shore protection program. Performs dam safety inspections and dam construction and reconstruction permit reviews. Manages the dam safety and dam loan program to achieve compliance with safe dam regulations. Provides financial and technical assistance to the U.S. Army Corps of Engineers and local governments for flood control projects, including flood walls, levees and property buy-outs. Operates and maintains the Bayshore floodgate and Pompton Lake Dam floodgate. Marks 200 miles of navigation channels in tidal inland waterways and large State-controlled lakes for boating safety.

24. **Palisades Interstate Park Commission.** Operates and maintains existing parks and historic sites in a clean, safe and non-discriminatory manner for all visitors; plans for the improvement and development of new facilities; maintains highways, bridges, landscaped areas, signs and traffic lines to ensure the safety of the motoring public. Enforces traffic laws on the Palisades Parkway and all other roads within the Commission's boundaries; polices Commission lands to ensure that park facilities are utilized in accordance with laws, statutes and Commission regulations; maintains a police court with the powers and jurisdiction of a municipal court with respect to crimes, disorderly conduct, and violations of the motor vehicle and traffic or other laws of the State or of any of the rules and regulations of the Commission.

29. **Environmental Management and Preservation - CBT Dedication.** Since 1996, revenue annually derived from the tax imposed by the Corporation Business Tax Act (P.L.1945, c.162) has been dedicated for environmental purposes. A portion of the dedication provides funding for the preservation, including acquisition, development and stewardship, of lands for recreation and conservation purposes.

## 40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT

### 43. SCIENCE AND TECHNICAL PROGRAMS

#### OBJECTIVES

1. To assure a safe and dependable supply of water while protecting public health and the environment.
2. To undertake technical activities, applied scientific research, policy analysis and technology evaluation associated with clean and renewable energy, sustainability, post-disaster resilience strategies, innovation, climate change and other critical environmental issues identified by the Department of Environmental Protection (DEP). To serve as the DEP's primary unit for evaluation of innovative technologies and cutting-edge environmental management strategies.
3. To map, research and interpret scientific information on the state's geology and groundwater resources. This information supports the Department's and other government agencies' regulatory and planning activities and provides the business community and the public with the geologic and hydrologic information needed to address environmental concerns and make economic decisions.
4. To develop and coordinate implementation of watershed management programs, groundwater protection programs, water quality monitoring, and water supply management, development, conservation and protection plans.
5. To coordinate and implement the State's Coastal Management Program to achieve the goals of healthy, resilient coastal ecosystems and communities through the effective management of ocean and estuarine resources; meaningful public access to and use of tidal waterways and their shores; sustained and revitalized water dependent uses; coastal open space; providing effective management tools for the sustenance of healthy, well-planned coastal communities and regions; coordinated coastal decision-making, comprehensive planning and research, including stakeholders comprised of state, local and regional entities; and coordinated public education and outreach.
6. To develop and coordinate water quality management planning functions, including wastewater management, point and nonpoint source pollution control, and to implement the watershed restoration program in order to restore the integrity of New Jersey's water resources by preventing, abating and controlling water pollution to achieve the goal of fishable and swimmable water statewide.
7. To coordinate the sustainable growth and capacity-based planning policies of the Department and to incorporate these policies into all levels of planning.
8. To collaborate and support environmental justice advocacy groups and to assist DEP programs in integrating environmental justice principles in decision-making and developing quality of life initiatives.
9. To collect and analyze ambient water data and develop water quality standards to assess water quality status and trends, to develop Total Maximum Daily Load (TMDL) standards where needed, to evaluate water-related ecological and public health risks, to classify 700,000 acres of New Jersey coastal

waters for safe harvest of molluscan shellfish, and for existing/emerging problem identification.

10. To coordinate programs that reduce greenhouse gas emissions and to work to help New Jersey adapt to climate-related impacts that are unavoidable.

#### PROGRAM CLASSIFICATIONS

05. **Water Supply.** Administers the New Jersey Private Well Testing Act and the federal and State Safe Drinking Water programs, the Well Permitting program, and the Water Allocation program to ensure a safe and reliable water supply. Also administers the Drought Management program. As part of the Safe Drinking Water program, administers the Drinking Water State Revolving Fund (DWSRF), which includes a financing program for water supply projects, along with set-asides for capacity development, training for licensed operators and source water assessment and delineation activities.
07. **Water Monitoring and Resource Management.** Conducts ambient monitoring of freshwater (i.e., rivers and streams, lake and ground water) and marine surface water (i.e., bays and ocean waters) quality on a statewide basis, as well as biological monitoring and targeted assessments in support of Total Maximum Daily Load (TMDL) development and the Governor's Barnegat Bay initiative. Develops New Jersey's Integrated Water Quality Monitoring and Assessment Report, including the Integrated Waterbodies List. Develops drinking water, surface water and ground water standards which support the New Jersey Pollutant Discharge Elimination System (NJPDES), Water Supply and the Site Remediation programs. Coordinates the development and integration of biological and other criteria. Classifies shellfish growing area waters for shellfish harvesting, and conducts bacteriological and chemical analysis of shellfish for public health protection. Oversees water systems, as well as the Volunteer Monitoring, Beach Monitoring, Operation Clean Shores and AmeriCorps NJ Watershed Ambassadors programs. Develops, operates and maintains water quality, including drinking water quality, database systems for both government and public data dissemination. Conducts planning on watershed management, drinking water and other water quality, water supply, coastal zone management, nonpoint source pollution control, stormwater management and other planning requirements associated with the federal Clean Water Act and the New Jersey Water Quality Planning Act. Also administers the National Estuary Program and federal Section 604(b) water quality management planning. Conducts other water resources management programs and projects.
15. **Land Use Regulation and Management.** Protects and manages the state's land and water resources through the implementation of the Coastal Area Facility Review Act (CAFRA), the Waterfront Development Law, the Coastal Wetlands Act of 1970, the Flood Hazard Area Control Act, the Freshwater Wetlands Protection Act, the Highlands Water Protection and Planning Act, and the federal consistency

provisions of the federal Coastal Zone Management Act. In addition to the resource protection mandates of these statutes, these programs protect lives and property from storm and flood damages. Also offers technical assistance to communities to respond to sea level rise and coastal hazards. The Division also administers the allocation of state riparian rights.

18. **Division of Science, Research and Environmental Health.** The Division of Science, Research and Environmental Health helps ensure that the Department’s decision-making is based upon the best possible scientific and technical information. It identifies and develops human-health-based criteria for contaminants that the Department can use toward the development of program-specific standards, provides technical support to DEP programs and manages/conducts research projects that are highly scientific in nature. The Science Advisory Board (SAB) in the Division of Science, Research and Environmental Health reviews the quality and relevance of the scientific and technical information being used or proposed as the basis for Department regulations. The SAB also reviews the generic approaches to regulatory science, including guidelines governing the use of scientific and technical information in regulatory decisions, critiques analytic methods such as mathematical modeling, and advises the Department on priority-setting for emerging issues and new approaches/models.
22. **New Jersey Geological Survey.** Maps the geology and topography of the state, assesses offshore beach nourishment sands and dredging, maintains a cooperative water monitoring program with the United States Geological Service (USGS) and reviews plans for underground storage of carbon dioxide, gas, oil and chemical disposal wells. The program evaluates the supply potential and water quality of the state’s aquifers; maintains a statewide geohydrologic database; maps aquifer recharge and wellhead protection areas, earthquakes and historic fill; investigates groundwater pollution problems; and supports State permitting and municipal programs through

geophysical studies, groundwater investigations, and the use of Geographic Information Systems (GIS) technology.

29. **Environmental Management and Preservation - CBT Dedication.** Since 1996, revenue annually derived from the tax imposed by the Corporation Business Tax Act (P.L.1945, c.162) has been dedicated for environmental purposes. A portion of this dedication provides funding for the following purposes: watershed-based water resource planning and management, financing the cost of water quality point and nonpoint source pollution monitoring, nonpoint source pollution prevention projects, and TMDL development and implementation.
80. **Drinking Water State Revolving Fund.** Set asides provided by the Drinking Water State Revolving Fund, including program administration, small system technical assistance, capacity development, operator certification and source water protection activities. See related program classification 05 for further details.
90. **Environmental Policy and Planning.** Provides professional and environmental planning assistance to internal and external entities, coordinates the sustainable growth and capacity-based planning policies of the Department and works with internal programs, regional entities and municipalities to incorporate these policies into all levels of planning. Acts as DEP’s liaison to the New Jersey Board of Public Utilities in support and development of the New Jersey Energy Master Plan, specifically relating to the promotion of clean and renewable energy, energy conservation and energy efficiency, alternative fuels for transportation and evaluating the practicalities of developing new technologies. Promotes energy resiliency for critical infrastructure and emergency petroleum supply planning for transportation, electric generation and heat. Promotes sustainable business, industry and community initiatives. The Office of Coastal and Land Use Planning is responsible for the coordination of coastal zone management activities.

## 40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT

### 44. SITE REMEDIATION AND WASTE MANAGEMENT

#### OBJECTIVES

1. To implement the requirements of the Site Remediation Reform Act, which requires site remediations be performed by Licensed Site Remediation Professionals (LSRP) with department inspections and reviews of the work performed. Participation in the LSRP program has been mandatory since May 2012.
2. To remediate sites contaminated by hazardous substances and pollutants to protect public health and safety and the environment, and to restore contaminated areas of the state for beneficial use.
3. To address known discharge sites, regulated underground storage tank sites, industrial establishments as defined by the Industrial Site Recovery Act (ISRA), non-operating landfills with development potential, Resource Conservation and Recovery Act (RCRA) facilities, Comprehensive Environmental Response, Compensation & Liability Act of 1980 (CERCLA) sites, and federal facilities for cleanup and closure in accordance with applicable regulations.
4. Determine the imminent risk of sites to public health and safety and the environment consistent with legislated mandates and, in those cases when the responsible party is either unknown or unable to perform the cleanup, utilize public funds to remediate the most contaminated sites representing the greatest risk to public health and safety and the environment first.
5. To coordinate responses and take immediate action when discharges of hazardous substances and pollutants endanger public health and safety and the environment, especially water supplies and vapor intrusion.
6. To respond to emergency discharges of hazardous substances and pollutants throughout the state and enable the public to report environmental emergencies to the Department's communication center via toll-free access.
7. To maximize the use of private-party funds by requiring responsible parties to either conduct remedial work through

implementation of the LSRP program or reimburse the Department for performing remedial work.

8. To develop and implement clear, consistent and predictable regulations for site remediation for use by the LSRPs, the regulated community and the Department, and ensure that technically and scientifically justified cleanup objectives are met.
9. To implement a statewide solid waste planning process that emphasizes source reduction, recycling and market development activities. To conduct comprehensive reviews of permit applications for solid waste, hazardous waste, recycling and composting facilities, and landfill closures. To implement the Electronic Waste Management Act.
10. To compensate persons affected by hazardous substance discharges through: (a) the Spill Compensation Fund environmental claims program, (b) the Sanitary Landfill Contingency Fund claims program, and (c) loans and grants, administered in conjunction with the New Jersey Economic Development Authority, from the Hazardous Discharge Site Remediation Fund and Underground Storage Tank Fund.

#### PROGRAM CLASSIFICATIONS

19. **Publicly-Funded Site Remediation and Response.** Conducts a program to remediate sites contaminated by hazardous substances where a responsible party cannot be identified or is unable or unwilling to voluntarily participate. Provides an around-the-clock response program for chemical, biological, radiological, nuclear and explosive (CBRNE) emergencies. Also operates an around-the-clock communication center, which is the point of initial notification for events and the key point of contact/communication for many State agencies. These activities are supported by federal (Superfund) funds and State funds (such as CBT). These funds are subject to direct billing reimbursements and cost recovery.
23. **Solid and Hazardous Waste Management.** Provides leadership, planning, education, and technical assistance to the state's citizens, businesses and local government to help them manage their waste responsibly. Provides grants to municipalities and counties in accordance with the Recycling

# ENVIRONMENTAL PROTECTION

Enhancement Act. Regulates the generation, storage, collection, transportation, processing, treatment and disposal of solid and hazardous wastes and closure of facilities. Regulations and standards are implemented and monitored through on-site construction inspections, design reviews, data collection and permit issuance. Administers the federal Resource Conservation and Recovery Act of 1976 (RCRA). Develops and implements programs, such as the Electronic Waste Recycling program, to attain statewide recycling goals and to reduce the quantities of waste generated. Monitors the solid waste collection industry to promote effective competition and to prohibit anti-competitive practices. Regulates and oversees mergers, acquisitions and long-term financing arrangements of the solid waste utility industry. The landfill unit promotes the reuse of non-operating landfills, providing oversight of landfill remediation, closure and redevelopment through the melding and implementation of solid waste regulations and technical requirements for site remediation.

27. **Remediation Management.** Conducts a statewide program to review the remediation of sites by private parties under the State's Licensed Site Remediation Professional (LSRP) cleanup program to ensure that appropriate standards and technical requirements are met. The Site Remediation Reform Act, State Spill Compensation and Control Act, Industrial Site Recovery Act, Underground Storage of Hazardous Substances Act, Water Pollution Control Act, and Brownfield and Contaminated Site Remediation Act authorize the Department to oversee these projects. Provides management assistance, oversight and coordination of remedial activities at National Priorities List Site Cleanups where the projects are led by the federal Environmental Protection Agency (EPA), Department of Defense or Department of Energy. Under the Performance

Partnership Agreement with the EPA, the Department coordinates with the EPA and conducts oversight of closure/post-closure activities and conducts remediation oversight at those sites designated under the Government Performance and Result Act under the federal RCRA. Many of the above activities have been modified to meet the criteria of the Site Remediation Reform Act, which establishes a Licensed Site Remediation Professional Program, with the Department's role shifting to include inspection, review and field review responsibility coupled with less direct case management as mandated under the Site Remediation Reform Act. The program also conducts environmental reviews of proposed child care/educational facilities for licensing purposes as required under N.J.S.A. 52:27D-130.4 and conducts periodic environmental inspections of those facilities in the state. Remediates sites contaminated by hazardous substances where a responsible party cannot be identified or is unable or unwilling to perform the necessary remediation using public funds on a priority basis. The support programs perform all necessary scientific assistance for successful implementation of the cleanup program, as well as tracking and case processing, enforcement, information system development and maintenance, contracting, fund management, billing, cost recovery and financial support.

29. **Environmental Management and Preservation - CBT Dedication.** Since 1996, revenue annually derived from the tax imposed by the Corporation Business Tax Act (P.L.1945, c.162) has been for environmental purposes. A portion of this dedication provides funding for underground storage tank programs, for hazardous substance discharge remediation programs including redevelopment of brownfields, and for publicly-funded remediation.

## 40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT

### 45. ENVIRONMENTAL REGULATION

#### OBJECTIVES

1. To monitor and report on the biological, chemical and physical quality of surface waters, ground waters and sediments in the state so as to evaluate the effectiveness of existing regulatory programs in protecting and improving New Jersey's water quality. To monitor New Jersey Pollutant Discharge Elimination System (NJPDES) permit compliance.
2. To carry out the purposes and requirements of enabling legislation and regulations.
3. To conduct reviews of permit applications and to promote meaningful public input. To conduct reviews of licensee, registrant and certification applications.
4. To assist permittees, licensees, certified businesses or individuals, and registrants in complying with applicable requirements and inform them of compliance issues.
5. To improve the efficiency of the permit, license, registrant and certification review process while maintaining or improving protection of the environment, to eliminate procedures and requirements that do not lead to greater environmental protection, and to consolidate the reviews of multiple permits for individual facilities or projects.
6. To improve and protect water quality with available Environmental Infrastructure Financing Program (Water Bank) funds.
7. To establish and maintain policies and procedures for the generation, compilation, review and use of data of documented quality, consistent with scientific protocols and as required by the federal government.
8. To certify the analytical capabilities of laboratories performing analyses in response to the State's environmental programs.
9. To provide a comprehensive program to prevent releases of petroleum products and hazardous substances by providing information regarding these releases in the community and the workplace.
10. To protect the public and radiation workers from unnecessary radiation exposure.
11. To protect the public health, safety and security of the residents of New Jersey.

#### PROGRAM CLASSIFICATIONS

01. **Radiation Protection.** Licenses, registers and inspects owners of machine sources and naturally occurring or accelerator-produced radioactive materials. Responsible for maintaining the capability to respond and provide technical assistance during radiological emergencies. Has regulatory authority for all radioactive material licensing. Certifies and inspects businesses and individuals that conduct radon testing and mitigation. Inspects mammography facilities under

# ENVIRONMENTAL PROTECTION

contract with the Food and Drug Administration. Licenses x-ray technologists, nuclear medicine technologists and radon testers and mitigators. Determines exposure pathways and environmental or health impact of sources of radiation and provides direction on remediation. Provides emergency planning, response and monitoring around nuclear power plant sites. Tracks shipments of large quantities of radioactive materials through New Jersey. The Office of Quality Assurance establishes and maintains policies and procedures for the generation, compilation, review and the use of data of documented quality, as required by the United States Environmental Protection Agency. Reviews data submitted to the Department to verify its quality and determine its usability. Certifies the analytical capabilities of laboratories performing analyses in response to the State's environmental programs.

02. **Air Pollution Control.** Protects and enhances the air environment. Provides overall air quality management to attain the health-based ambient air quality standards and visibility goals, and reduce local risk and air toxics. Coordinates air quality planning to ensure compliance with State and federal requirements. Conducts ambient air monitoring, emission inventory development, regional air quality modeling and air pollution control rule development. Participates in the air pollution control aspects of the vehicle inspection and maintenance programs, administers the Low Emission Vehicle Program and associated strategies, and identifies and implements programs to reduce emissions of diesel exhaust. Reviews construction plans for new and modified stationary sources of potential air pollution and issues permits for construction and operation. Validates tax exemption claims for air pollution control equipment. Oversees the conduct of periodic stack tests to determine air contaminant emission rates and oversees continuous emission monitoring of stacks. Reviews and conducts air quality modeling studies of new sources of air contamination; reviews and restricts the health risk of toxic air contaminant emissions from stationary sources; and reviews and issues facility-wide operating permits for major existing sources of air pollution. Provides program coordination in compliance with State and federal mandates to attain air quality standards.

**Release Prevention.** Monitors compliance with the Toxic Catastrophe Prevention Act to identify companies which handle extraordinarily hazardous substances and ensure that procedures are in place to prevent devastating accidental chemical releases. The Discharge Prevention Containment and Countermeasures (Oil Spill Prevention) program reduces the possibility of hazardous spills through plan submittals and compliance/investigative procedures.

Pollution Prevention and Right to Know implements and ensures compliance with New Jersey's Community Right To Know and Superfund Amendments and Reauthorization Act (SARA) Title III programs, which gather information on the use, storage and release of toxic chemicals in the state, and make information available to the public and emergency

responders. The Pollution Prevention Program analyzes pollution prevention plans submitted by operators of priority industrial facilities. These plans document how operators plan to reduce the use and release of hazardous substances into the environment.

08. **Water Pollution Control.** Administers the New Jersey Pollutant Discharge Elimination System (NJPDES) program to protect New Jersey's surface and ground water by assuring proper treatment and disposal of wastewater (and its residuals) and stormwater from various types of facilities and activities, including the generation, pretreatment monitoring and beneficial management of sludge and sludge-derived products. To accomplish this, the program issues permits and establishes standards which impose requirements to limit and/or prevent the discharge of pollutants into waters of the state. The regulated facilities vary widely in size, from small uses such as campgrounds, schools and shopping centers to larger industrial and municipal wastewater discharges. Implements Treatment Works Approval program to regulate the construction of wastewater collection, conveyance and treatment facilities.

09. **Public Wastewater Facilities.** Administers the New Jersey Environmental Infrastructure Financing Program (Water Bank) along with the New Jersey Infrastructure Bank, an independent State financing authority. The Program provides loans to local government units for the construction of environmental infrastructure facilities through the Clean Water State Revolving Fund, with funds made available under the federal Clean Water Act and various State bond acts. The projects eligible for financial assistance include water and wastewater treatment plant upgrades or improvements, facilities for the beneficial reuse and treatment of sewage sludge, collection and conveyance facilities, on-site system rehabilitation, infiltration/inflow correction, combined sewer overflow and interconnection/cross-connection abatement, and nonpoint source projects (such as land acquisition, brownfield remediation, well sealing and landfills).

16. **Water Monitoring and Planning.** Federal funds for regulating the discharge of contaminants/toxics from wastewater treatment facilities and the management of residuals, the management of sludge and the issuance of stormwater permits.

29. **Environmental Management and Preservation - CBT Dedication.** Since 1996, revenue annually derived from the tax imposed by the Corporation Business Tax Act (P.L.1945, c.162) has been dedicated for environmental purposes. Prior to July 1, 2015, the dedication provided grants for the costs of air pollution control equipment to reduce particulate matter emissions from diesel-powered engines, and provided funds for other measures to reduce human exposure to emissions.

70. **Clean Waters.** Administrative costs provided by the Clean Water State Revolving Fund, which provides loans to local government units for the construction of environmental infrastructure treatment facilities. See related program classification 09 for further details.

**40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT  
47. COMPLIANCE AND ENFORCEMENT**

**OBJECTIVES**

1. To protect public health and improve the environment by ensuring compliance with the State’s rules and regulations concerning coastal and land use, air pollution, water resources, solid and hazardous waste, and pesticides.
2. To undertake innovative but consistent and predictable enforcement policies, protocols and actions, employing a holistic perspective to ensure high compliance, environmentally beneficial behaviors and outcomes leading to sustainability.
3. To augment the Department’s compliance and enforcement related activities by leveraging our limited resources through partnerships, especially through County Environmental Health Act grant agreements with local health agencies and the U.S. Environmental Protection Agency.
4. To improve the quality of the state’s beaches through cooperation with the Department of Corrections, the Department of Health and the United States Army Corps of Engineers in programs that reduce floatable debris and monitor ocean water quality.
5. To inspect, monitor and report on the quality of surface and groundwater discharges in the state.
6. To protect the public and the environment from any hazards resulting from the production, use, sale, storage or other activities related to pesticides.
7. To perform regular comprehensive underground storage tank inspections in order to protect ground water resources from gasoline and other contamination by reducing the number of leaking tanks.
8. **Pesticide Control.** Regulates the manufacture, distribution, storage, sale, possession and use of pesticides. Conducts complaint investigations and routine inspections. Compliance assistance and pollution prevention activities are performed through training and outreach. Promotes reducing the use of pesticides through practical pest control techniques known as “Integrated Pest Management” (IPM). Enforces requirements for IPM in public, private and charter schools in New Jersey. Enforces farm worker pesticide safety requirements at agricultural establishments. All pesticide products sold in the state are registered with this program. Pesticide applicators and dealers are certified and licensed, and permits are issued for mosquito/fly control and aquatic pesticide use. Monitoring and evaluation of pesticide hazards and laboratory analysis of pesticide samples are also conducted.
9. **Water Pollution Control.** Responsible for providing compliance assistance, conducting monitoring and investigations, and issuing enforcement actions in support of the water programs. A particular focus is placed on inspections of wastewater dischargers and community drinking water supply facilities; prevention and correction of non-compliance conditions through a multifaceted compliance assistance program, including outreach, education and a Discharge Monitoring Report guidance manual; issuance of administrative and judicial enforcement actions for chronic or significant violations; and investigation of complaints relating to water resources. Monitors compliance with all permits issued under the New Jersey Pollutant Discharge Elimination System (NJPDDES) for surface water, ground water and indirect discharges to Publicly Owned Treatment Works. Formal enforcement actions are also issued for violations in the Water Allocation Program and against State-certified laboratories that fail to comply with the laboratory certification program requirements.
10. **Land Use Regulation and Management.** Conducts investigations and site inspections required for compliance with enforcement actions, processes violations, assesses penalties and negotiates compliance schedules for these enforcement actions.

**PROGRAM CLASSIFICATIONS**

02. **Air Pollution Control.** Conducts investigations to determine compliance with the Air Pollution Control Act at regulated stationary and mobile sources. Conducts investigations based on citizen complaints of air pollution. Issues enforcement documents and tracks, records and reports on associated administrative activities to ensure compliance. State regulations and permits issued pursuant to the Highlands Water Protection and Planning Act, Freshwater Wetlands Protection Act, the Flood Hazard Area Control Act, the Coastal Area Facility Review Act, the Wetlands Act of 1970, the Dam Safety Act and the Waterfront Development and Riparian Lands statutes. Responding to reports of alleged violations of the above statutes, the program advises individuals how to achieve and/or maintain compliance.

23. **Solid and Hazardous Waste Management.** Assures compliance with federal Resource Conservation and Recovery Act (RCRA) regulations, the New Jersey Solid Waste Management Act and the Solid Waste Utility Control Act. Manages and conducts compliance and enforcement activities to ensure that solid waste, hazardous waste, regulated medical waste and used oil are collected, stored, transported, recycled and disposed of in an environmentally acceptable manner. Monitors the solid waste industry to ensure only financially

sound companies and individuals of good repute are engaged in waste transport and disposal activities and that waste customers are treated fairly by the industry. Activities include such compliance assistance functions as environmental audits, grace periods and supplemental environmental projects as well as conventional inspections, investigations, transporter and regulated medical waste generator licensing, and, when necessary, formal enforcement actions. Also performs regular comprehensive underground storage tank inspections in order to protect ground water resources from gasoline and other contamination.

29. **Environmental Management and Preservation - CBT Dedication.** Since 1996, revenue annually derived from the tax imposed by the Corporation Business Tax Act (P.L.1945, c.162) has been dedicated to the Department. A portion of this dedication provides funding for the Underground Storage Tank (UST) Inspection Program.

## OVERVIEW

**Mission and Goals**

The mission of the Department of Health is to improve health through leadership and innovation. The Department has three major branches: Public Health Services, which represents traditional public health programs, Health Systems, where the emphasis is on improving the quality of health care through oversight efforts, such as the licensure and inspection of various health care facilities and Integrated Health Services, designed to increase efficiency, coordination and integration of the State's mental health and addiction prevention and treatment programs.

The Department seeks to:

Prioritize efforts around improving the health of New Jersey residents through its Office of Population Health. Population health focuses on keeping healthy New Jersey residents at all life stages. Core activities are to use data to drive measurable health improvements, to identify and target vulnerable populations for interventions, to eliminate health disparities, and to promote collaboration across sectors to develop health policies and achieve health equity.

Partner with community-based health care organizations and health care providers to promote wellness and activities related to the prevention of illness and the management of chronic diseases.

Strengthen New Jersey's health care infrastructure by adopting best practices, inspecting and monitoring health care facilities and services, improving the delivery system and funding our safety net programs.

Create a comprehensive communications system that links health care providers and institutions statewide, form a coordinated disease surveillance and response network, and provide quality and comprehensive public health and environmental laboratory diagnostic testing services.

Prevent and control communicable and chronic diseases, foster and support maternal and child health services including increased access to prenatal care services, sexually transmitted diseases (STD) and HIV related services.

Implement scientific, evidence-based primary and secondary prevention programs designed to decrease mortality and morbidity from health conditions such as heart disease, cancer, obesity, stroke, HIV, STD and tuberculosis (TB) and to identify and mitigate newborn metabolic deficiencies.

Eliminate disparities in access to health care, treatment and clinical outcomes between racial, ethnic and socioeconomic populations. Strengthen public health engagement through cultural competency, education and partnerships with minority-oriented health organizations.

Provide grants to community-based organizations to conduct outreach, education, screening, referrals and follow-up focusing on special child and early intervention services, diabetes, asthma, chronic disease self-management, HIV and STD.

Prepare New Jersey first responders and medical providers to rapidly detect, identify and respond to health-related aspects of biological, chemical, radiological, nuclear, explosive and incendiary acts of terrorism, as well as natural disasters and disease outbreaks.

Work to strengthen New Jersey's local public health system and improve the performance and practice of local health departments through the Department's Office of Public Health.

Maintain the certification of more than 30,000 Emergency Medical Technicians, as well as provide licensure of more than 3,000 mobility assistance vehicles, ambulances, mobile intensive care units,

specialty care transport units and air medical units that will respond to over 1.5 million emergencies.

Provide comprehensive, person-centered care to residents and individuals served at the State-operated psychiatric hospitals, with the goal of helping each individual achieve their greatest personal potential and return to the most integrated setting in the community.

**Budget Highlights**

The fiscal year 2020 budget for the Department of Health totals \$973.0 million, an increase of \$16.2 million or 1.7% over the fiscal 2019 adjusted appropriation of \$956.8 million.

**Health Services**

The fiscal 2020 budget includes \$2.5 million in funds to strengthen the State's core public health services. This funding will support local health offices as they develop and administer disease outbreak response through statewide infection control initiatives.

The fiscal 2020 budget continues funding for the Early Childhood Intervention program. Funding of \$115.4 million is recommended to address the needs of children with developmental disabilities under three years of age. Eligibility standards and co-payment requirements will remain unchanged.

The fiscal 2020 budget provides \$7.5 million in funds for women's health care centers and expanded access to family planning. The funding is expected to provide critical health care services to women across New Jersey.

The AIDS Drug Distribution Program (ADDP) provides life-supporting and life-sustaining medications for individuals living with HIV who have no other source of payment for these drugs. The program serves as a safety net for those who are ineligible for other public programs, including NJ FamilyCare, Medicare, Pharmaceutical Assistance to the Aged and Disabled (PAAD), and Senior Gold. Adherence to pharmaceutical treatment for HIV greatly reduces the risk of transmission.

**Health Planning and Evaluation**

The Office of Health Care Financing contains Charity Care, Graduate Medical Education and the Delivery System Reform Incentive Payments Program. This office ensures the management of funds through an integrated and comprehensive hospital funding policy. In total, the Department will oversee hospital funding of \$670.6 million in State and federal resources.

The fiscal 2020 budget recommends a Charity Care allocation of \$262 million. The Charity Care distribution formula is transparent to the hospital industry and creates incentives for hospitals by recognizing fluctuations in documented Charity Care.

The Divisions of Health Care Facility Survey and Field Operations, and Certificate of Need and Licensing conduct programs for on-site inspections, compliance and enforcement, certificate of need review, and licensing of over 2,300 health care facilities and 1,800 mental health and substance use disorder community service programs. Additionally, the programs investigate complaints from consumers and other governmental agencies regarding health care facilities.

**Integrated Health Services**

The New Jersey Cancer Education and Early Detection (NJCEED) program provides comprehensive breast, cervical, colorectal and prostate cancer screening and diagnostic services to uninsured/underinsured residents of New Jersey who meet income guidelines with special emphasis on the recruitment and screening of high-risk populations including racial and ethnic minorities. Total State and federal funding for the NJCEED program is \$12 million.

The fiscal 2020 budget continues funding for Federally Qualified Health Centers (FQHCs). There are now 118 licensed sites throughout the state. Projected reimbursement for uninsured FQHC visits is \$32 million.

# HEALTH

The Division of Mental Health and Addiction Services (DMHAS) operates State psychiatric hospitals to serve individuals with mental illness who have been legally committed to a State facility for treatment. These facilities include general adult psychiatric hospitals, as well as the Ann Klein Forensic Center in Mercer County, which provides adult forensic psychiatric services. Combined, the hospitals serve approximately 1,520 people daily. In addition, the DMHAS provides treatment services to individuals committed to the State's Civilly Committed Sexual Offender Program in coordination with the Department of Corrections.

The DMHAS remains committed to advancing community placement for individuals who no longer require inpatient psychiatric

hospitalization, and those who are at risk for hospitalization, in accordance with the U.S. Supreme Court's Olmstead decision.

## Office of the State Medical Examiner

Oversees the investigation of all violent or suspicious deaths and those that constitute a threat to public health within the state. Investigations involve conducting postmortem examinations and providing forensic laboratory analyses of body fluids and organs. This Office also provides general supervision over county medical examiners and, by court order, may supersede the medical examiner of any county.

- (c) As of fiscal 2019, federal funding for these evaluations has been eliminated.

The ADDP benefit and reimbursement shall only be available to cover the beneficiary cost share to in-network pharmacies and for deductible and coverage gap costs, as determined by the Commissioner of Health, associated with enrollment in Medicare Part D for ADDP beneficiaries, and for Medicare Part D premium costs for ADDP beneficiaries.
- Notwithstanding the provisions of any law or regulation to the contrary, no funds appropriated in the AIDS Drug Distribution Program (ADDP) account shall be available as payment as an ADDP benefit to any pharmacy that is not enrolled as a participating pharmacy in a pharmacy network under the Medicare Part D program established pursuant to the federal "Medicare Prescription Drug, Improvement, and Modernization Act of 2003."
- Commencing with the start of the fiscal year, and consistent with the requirements of the federal "Medicare Prescription Drug, Improvement, and Modernization Act of 2003" (MMA), no funds hereinabove appropriated from the AIDS Drug Distribution Program (ADDP) account shall be expended for any individual enrolled in the ADDP program unless the individual provides all data necessary to enroll the individual in the Medicare Part D program established pursuant to the MMA, including data required for the subsidy assistance, as outlined by the Centers for Medicare and Medicaid Services.
- Notwithstanding the provisions of any law or regulation to the contrary, no amounts hereinabove appropriated for the AIDS Drug Distribution Program shall be expended for drugs used for the treatment of erectile dysfunction, or cosmetic drugs, including but not limited to drugs used for baldness and weight loss.
- Of the amount hereinabove appropriated for Public Health Infectious Disease Control, such amounts as determined by the Director of the Division of Budget and Accounting may be transferred to Direct State Services accounts in the Department of Health to cover administrative costs of the program, subject to the approval of the Director of the Division of Budget and Accounting.

**Notes -- Direct State Services - General Fund**

(a) The fiscal year 2019 appropriation has been adjusted, where relevant, for the allocation of salary program.

**Language Recommendations -- Direct State Services - General Fund**

Receipts from fees charged for processing Certificate of Need applications and the unexpended balances at the end of the preceding fiscal year of such receipts are appropriated for the cost of this program, subject to the approval of the Director of the Division of Budget and Accounting.

There are appropriated such sums as are required to the "Health Care Facilities Improvement Fund" to provide available resources in an emergency situation at a health care facility, as defined by the Commissioner of Health, or for closure of a health care facility, subject to the approval of the Director of the Division of Budget and Accounting.

**Language Recommendations -- Grants-In-Aid - General Fund**

Notwithstanding the provisions of any law or regulation to the contrary, any revenues collected from the tax on cosmetic medical procedures pursuant to P.L.2004, c.53 (C.54:32E-1) shall be deposited into the Health Care Subsidy Fund established pursuant to section 8 of P.L.1992, c.160 (C.26:2H-18.58) for the support of payments to federally qualified health centers.

Notwithstanding the provisions of any law or regulation to the contrary, as a condition of the receipt of any monies hereunder by an acute care hospital that is requesting an advance of charity care/NJ FamilyCare or payments from the "Health Care Facilities Improvement Fund" or any payments over and above this act, the hospital shall comply with a request by the Commissioner of Health for a review of its finances and operations to ensure that access to health care is maintained and public funds are utilized for their intended purposes. The cost of such review shall be borne by the acute care hospital and shall comply with any financial and operational performance requirements imposed by the commissioner as deemed necessary as a result of the review.

Notwithstanding the provisions of section 3 of P.L.2004, c.113 (C.26:2H-18.59i) or any law or regulation to the contrary, the appropriation for Health Care Subsidy Fund Payments is subject to the following conditions: the distribution of Charity Care funding shall be calculated in the following manner: (a) source data for the most recent census data shall be from the 2017 5-Year American Community Survey; (b) source data used shall be from calendar year (CY) 2017 for documented charity care claims data and hospital-specific gross revenue for charity care patients and shall include all adjustments and void claims related to CY 2017 and any prior year submitted claims, as submitted by each acute care hospital or determined by the Department of Health (DOH); (c) source data used for CY 2017 documented charity care for each hospital's total gross revenue for all patients shall be from the CY 2017 audited Acute Care Hospital Cost Report as defined by Form E4, Line 1, Column E data and shall be according to the DOH due date of June 30, 2018, as submitted by December 31, 2018 by each acute care hospital and audited by January 31, 2019; (d) source data used for CY 2017 documented charity care shall be from CY 2016 Medicare Cost Report data; (e) in the event that an eligible hospital failed to submit the CY 2017 Acute Care Hospital Cost Report, source data from their CY 2016 Acute Care Hospital Cost Report shall be used for hospital-specific gross revenue for charity care patients and for hospital total gross revenue for all patients as defined by Form E4, Line 1, Column E; (f) in the event that an eligible hospital failed to submit a full year CY 2017 Acute Care Hospital Cost Report, source data from a supplemental 2017 Acute Care Hospital Cost Report shall be used for hospital-specific gross revenue for charity care patients and for hospital total gross revenue for all patients as defined by Form E4, Line 1, Column E; (g) for each eligible hospital, except those designated 96% by their hospital-specific reimbursed documented charity care, a proportionate decrease shall be applied to its calculated subsidy based on its percentage of total subsidy such that the total calculated subsidy for all hospitals shall equal \$262,000,000; and (h) the resulting value will constitute each eligible hospital's SFY 2020 charity care subsidy allocation.

Notwithstanding the provisions of any law or regulation to the contrary, any funds remaining as the result of a closure of a hospital eligible to receive Disproportionate Share Hospital (DSH) funds shall be redistributed at the discretion of the Commissioner of Health. Factors the commissioner will consider shall include, but not be limited to, maintenance of continued timely access to essential health services for persons eligible to participate in Charity Care, and continued operation in the same or adjoining municipality as the closed hospital of an acute care hospital, eligible to receive DSH funds, and serving substantially the same eligible population. Notice of such redistribution shall be provided to the Joint Budget Oversight Committee within five business days of each redistribution.

The amounts hereinabove appropriated for Health Care Subsidy Fund Payments are conditioned upon the following provision: the Department of Health shall review, examine and/or audit any and all financial information maintained by an acute care hospital to ensure appropriate use of public funds.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for the Charity Care Subsidy is subject to the condition that participating hospitals shall demonstrate participation in the New Jersey Department of Health's New Jersey Health Information Network (NJHIN). For purposes of this paragraph, demonstrated participation in the NJHIN shall mean: (1) the hospital has directly, or indirectly through another Trusted Data Sharing Organization, executed the NJHIN Data Use and Reciprocal Support Agreement and the NJHIN Business Associate Agreement; (2) the hospital executed and participates in the

## HEALTH

---

NJHIN Core Use Case; and (3) the hospital executed and participates in the Statewide Admission, Discharge, Transfer Notification Use Case, as determined by the Commissioner of Health. Provided further, that notwithstanding the provisions of any law or regulation to the contrary, participating hospitals also shall report to the Commissioner of Health key indicators of connections to care provided to patients who are eligible for Charity Care, as defined by the Commissioner of Health; in the event that a hospital does not report such information as determined by the Commissioner of Health, the final 1/12 of the hospital's Charity Care subsidy may be withheld, subject to the approval of the Director of the Division of Budget and Accounting.

The amounts hereinabove appropriated for Charity Care or other funding to a health care facility are conditioned upon the following requirements: such health care facility shall participate in planning meetings supervised by the Department of Health for the planning of the provision of hospital, medical, or health programs and services; respond to a survey distributed by the Department of Health, on or before December 31, 2019, soliciting information on the facilities' processes to connect individuals whose claims are submitted as charity care claims to primary and preventative care systems or other systems of value-based health care delivery; and shall, to the extent permitted by State and federal law, share patient-level data as needed to facilitate such purposes.

Notwithstanding the provisions of any law or regulation to the contrary, the amounts hereinabove appropriated from the Health Care Subsidy Fund for Charity Care payments are subject to the following condition: In a manner determined by the Commissioner of Health and subject to the approval of the Director of the Division of Budget and Accounting, eligible hospitals shall receive (1) their charity care subsidy payments beginning in July 2019, and (2) their January 2020 payments in December 2019.

There are appropriated such additional sums as are required to pay all amounts due from the State pursuant to any contract entered into between the State Treasurer and the New Jersey Health Care Facilities Financing Authority pursuant to section 6 of P.L.2000, c.98 (C.26:2I-7.1) in connection with the Hospital Asset Transformation Program.

Notwithstanding the provisions of any law or regulation to the contrary, in the event that the State's waiver extension for the Hospital Delivery System Reform Incentive Payments (DSRIP) program does not receive federal approval, the amounts hereinabove appropriated for that purpose may be transferred to either Charity Care or Graduate Medical Education, or both, to ensure payments to hospitals continue to include federal matching funds; provided, however, that any such reallocation of DSRIP funds shall be subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, the amounts hereinabove appropriated for the Hospital Delivery System Reform Incentive Payments (DSRIP) program of \$166,600,000 are subject to the following condition: a hospital's payment shall be calculated and distributed as set forth in the final approved version of New Jersey's Hospital Delivery System Reform Incentive Payments funding and mechanics protocol approved on February 14, 2018, as amended, by the Centers for Medicare and Medicaid Services (CMS), in connection with the New Jersey Comprehensive Medicaid 1115 Waiver, consistent with the Special Terms and Conditions of the approved Waiver, including but not limited to Section XIII, paragraphs 91 through 97 thereof as may be amended by CMS.

The amount hereinabove appropriated for the Hospital Delivery System Reform Incentive Payments (DSRIP) program is subject to the following condition: the Department of Health shall promptly file with the Presiding Officers of the Legislature copies of any reports or other determinations regarding DSRIP eligibility or plan performance, including but not limited to whether or not a hospital has satisfied any eligibility benchmarks required for receipt of DSRIP funding, which are made by the State or received from the Centers for Medicare and Medicaid Services (CMS).

Notwithstanding the provisions of any law or regulation to the contrary, and except as otherwise provided and subject to such modifications as may be required by the Centers for Medicare and Medicaid Services in order to achieve any required federal approval and full Federal Financial Participation, \$218,000,000 from amounts hereinabove appropriated for Graduate Medical Education (GME) shall be designated the GME Subsidy, and shall be calculated as follows: (a) the subsidy payment shall be split into a Direct Medical Education (DME) portion and an Indirect Medical Education (IME) portion; (b) source data used for the GME calculation shall come from the Medicaid cost report for calendar year (CY) 2017 submitted by each acute care hospital by October 31, 2018 and Medicaid Managed Care encounter payments data for Medicaid and NJ FamilyCare clients as reported by insurers to the State for the following reporting period: services dates between January 1, 2017 and December 31, 2017; payment dates between January 1, 2017 and December 31, 2018; and a run-date of not later than February 15, 2019; (c) in the event that a hospital reported less than 12 months of 2017 Medicaid costs, the number of reported months of data regarding days, costs, or payments shall be annualized. In the event the hospital completed a merger, acquisition, or business combination resulting in two cost reports filed during the calendar year, two cost reports will be combined into one or a supplemental cost report for the calendar year 2017 submitted by the affected acute care hospital by October 31, 2018 shall be used. In the event that a hospital did not report its Medicaid managed care days on the cost report utilized in this calculation, the Department of Health (DOH) shall ascertain Medicaid managed care encounter days for Medicaid and NJ FamilyCare clients as reported by insurers to the State as per source data defined in (b) above; (d) Medicaid managed care DME cost begins with the intern and residency program costs using the 2017 submitted Medicaid cost report total residency costs, reported on Worksheet B Pt I Column 21 Line 21 plus Worksheet B Pt I Column 22 Line 22 divided by the 2017 resident full time equivalent employees (FTE), reported on Worksheet S-3 Pt 1 Column 9 line 14 to develop an average cost per resident FTE for each hospital; (e) median cost per resident FTE is calculated based on the average cost per resident FTE for each hospital; (f) the median cost per resident FTE is multiplied by the 2017 resident FTEs reported on Worksheet S-3 Pt 1 Column 9 Line 14 to develop total median residency program cost for each hospital; (g) median residency costs are multiplied by the ratio of Medicaid managed care days, reported on Worksheet S-3 Column 7 Line 2, divided by the difference of total days, reported on Worksheet S-3 Column 8 Line 14, less nursery days, reported on Worksheet S-3 Column 8 Line 13 to determine the Medicaid managed care DME cost of each hospital; (h) Medicaid managed care IME cost is defined as the Medicare IME factor multiplied by Medicaid managed care encounter payments as per source data defined in (b) above; (i) the IME factor is calculated using the Medicare IME formula as follows:  $1.35 * [(1 + x)^{0.405} - 1]$ , in which "x" is the ratio of submitted IME resident FTEs reported on Worksheet S-3 Pt 1 Column 9 Line 14 divided by the difference of total available beds, reported on Worksheet S-3 Column 2 Line 14, less nursery beds, reported on Worksheet S-3 Column 2 Line 13; (j) total 2017 Medicaid managed care GME costs shall equal total 2017 Medicaid managed care IME costs plus total 2017 Medicaid managed care DME costs; (k) the 2017 total Medicaid

managed care DME costs is divided by the total 2017 Medicaid managed care GME costs; (l) the DME allocation portion is calculated by multiplying the total subsidy amount by the ratio in (k) above; (m) each hospital's percentage of total 2017 Medicaid managed care DME costs shall be multiplied by the DME allocation to calculate its DME payment; (n) the 2017 total Medicaid managed care IME costs are divided by the total 2017 Medicaid managed care GME costs; (o) the IME allocation portion is calculated by multiplying the total subsidy amount by the ratio in (n) above; (p) each hospital's percentage of total 2017 Medicaid managed care IME costs shall be multiplied by the IME allocation to calculate its IME payment; (q) the sum of a hospital's DME and IME payments shall equal its subsidy payment. The total GME Subsidy amount and these payments shall not exceed \$218,000,000 and shall be paid in 12 monthly payments; (r) in the event that a hospital believes that there are mathematical errors in the calculations, or data not matching the actual source documents used to calculate the subsidy as defined above, hospitals shall be permitted to file calculation appeals within 15 working days of receipt of the subsidy allocation letter. If upon review it is determined by the DOH that the error has occurred and would constitute at least a five percent change in the hospital's allocation amount, a revised industry-wide allocation shall be issued; (s) each hospital receiving a GME allocation shall, on or before May 31, 2020, provide a report to the Commissioner of Health indicating the total number of physicians who completed their training during the preceding calendar year, and the number of those physicians who plan to practice medicine within the State of New Jersey.

Notwithstanding the provisions of any law or regulation to the contrary, and except as otherwise provided and subject to such modifications as may be required by the Centers for Medicare and Medicaid Services in order to achieve any required federal approval and full Federal Financial Participation, \$24,000,000 from the amounts hereinabove appropriated from Graduate Medical Education (GME) shall be designated as Supplemental Graduate Medical Education Subsidy (GME-S), and shall be available to hospitals that meet the following eligibility criteria: (a) an eligible hospital has a Relative Medicaid Percentage (RMP) that is among the top fourteen acute care hospitals with a residency program; (b) the RMP is a ratio calculated using the 2017 Audited Acute Care Hospital (ACH) Cost Reports; (c) the RMP numerator equals a hospital's gross revenue from patient care for Medicaid and Medicaid HMO payers as reported on Forms E5 and E6, Line 1, Column D & Column H; (d) the RMP denominator equals a hospital's gross revenue from patient care as reported on Form E4, Line 1, Column E; (e) for instances where hospitals that have a single Medicaid identification number submit a separate ACH Cost Report for each individually licensed hospital, the ACH Cost Report data for those hospitals shall be consolidated to the single Medicaid identification number; (f) the GME-S Subsidy shall be calculated using the same methodology as the GME Subsidy is calculated in this act, except the total amount of the GME-S Subsidy payments shall not exceed \$24,000,000.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for Graduate Medical Education (GME) is subject to the following condition: participating hospitals shall provide to residents and fellows participating in the GME program instruction concerning prevention of opioid addiction as well as diagnosis, assessment, and treatment strategies: provided, however, that such instruction may also be provided to other students and providers including, but not limited to, physicians, nurses, pharmacists, and social workers, working within the hospital or in the outpatient setting. To satisfy this condition, participating hospitals may develop an internal training program, enter into a partnership with a school or university, or provide financial support for residents and fellows to participate in independent educational programs or conferences that provide continuing medical education credits that are specifically focused in the subject area of addiction. To document compliance, participating hospitals shall complete a report to the Department of Health no later than May 31, 2020.

In addition to the amount hereinabove appropriated for Health Care Systems Analysis, an amount not to exceed \$1,000,000 is appropriated from amounts assessed and collected by the Department of Banking and Insurance pursuant to section 9 of P.L.2007, c.330 (C.17:1D-2), for the purpose of funding costs associated with the development and maintenance of the New Jersey Health Information Network, subject to a plan prepared by the Department of Health and approved by the Director of the Division of Budget and Accounting.

(a) The fiscal year 2019 appropriation has been adjusted, where relevant, for the allocation of salary program.

## Language Recommendations -- Direct State Services - General Fund

The amount hereinabove appropriated for the Division of Mental Health and Addiction Services for State facility operations and the amount appropriated as State Aid for the costs of county facility operations are first charged to the federal disproportionate share hospital (DSH) reimbursements anticipated as Medicaid uncompensated care. As such, DSH revenues earned by the State related to services provided by county psychiatric hospitals which are supported through this State Aid appropriation, shall be considered as the first source supporting the State Aid appropriation.

Receipts recovered from advances made under the Interim Assistance program in the mental health institutions are appropriated for the same purpose.

The unexpended balances at the end of the preceding fiscal year in the Interim Assistance program accounts in the mental health institutions are appropriated for the same purpose.

Receipts to the General Fund from charges to residents' trust accounts for maintenance costs are appropriated for use as personal needs allowances for residents who have no other source of funds for these purposes; except that the total amount herein for these allowances shall not exceed \$450,000 and any increase in the maximum monthly allowance shall be approved by the Director of the Division of Budget and Accounting.

To effectuate the orderly consolidation or closure of a psychiatric hospital, amounts hereinabove appropriated for the State psychiatric hospitals may be transferred to accounts throughout the Department of Health in accordance with the plan adopted pursuant to section 2 of P.L.1996, c.150 (C.30:1-7.4) to consolidate or close a State psychiatric hospital, subject to the approval of the Director of the Division of Budget and Accounting.

## DEPARTMENT OF HEALTH

Notwithstanding the provisions of P.L.2005, c.237 or any other law or regulation to the contrary, \$32,000,000 from the surcharge on each general hospital and each specialty heart hospital is appropriated to fund federally qualified health centers. Any unexpended balance at the end of the preceding fiscal year in the Health Care Subsidy Fund received through the hospital and other health care initiatives account during the preceding fiscal year is appropriated for payments to federally qualified health centers.

Of the amount hereinabove appropriated for the Regulation of Adult-Use Cannabis, such amounts as are determined by the Director of the Division of Budget and Accounting in consultation with the departments that incur costs related to Adult-Use Cannabis, may be transferred to those State departments to cover the costs of the program.

Receipts from licenses, permits, fines, penalties, and fees collected by the Department of Health, in excess of those anticipated, are appropriated, subject to a plan prepared by the department and approved by the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of section 7 of P.L.1992, c.160 (C.26:2H-18.57) or any law or regulation to the contrary, the first \$1,200,000 in per adjusted admission charge assessment revenues, attributable to \$10 per adjusted admission charge assessments made by the Department of Health, shall be anticipated as revenue in the General Fund available for health-related purposes. Furthermore, the remaining revenue attributable to this fee shall be available to carry out the provisions of section 7 of P.L.1992, c.160 (C.26:2H-18.57), as determined by the Commissioner of Health, and subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, the State Treasurer shall transfer to the Health Care Subsidy Fund, established pursuant to section 8 of P.L.1992, c.160 (C.26:2H-18.58), only those additional revenues generated from third party liability recoveries, excluding NJ FamilyCare, by the State arising from a review by the Director of the Division of Budget and Accounting of hospital payments reimbursed from the Health Care Subsidy Fund with service dates that are after the date of enactment of P.L.1996, c.29.

Any change in program eligibility criteria and increases in the types of services or rates paid for services to or on behalf of clients for all programs under the purview of the Department of Health, not mandated by federal law, first shall be approved by the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, fees, fines, penalties and assessments owed to the Department of Health shall be offset against payments due and owing from other appropriated funds.

In addition to the amount hereinabove appropriated, receipts from the federal Medicaid (Title XIX) program for health services-related programs throughout the Department of Health are appropriated for the same purpose, subject to the approval of the Director of the Division of Budget and Accounting.

In addition to the amounts hereinabove appropriated to the Office of the Chief State Medical Examiner, there are appropriated to the respective State departments and agencies such amounts as may be received or receivable from any instrumentality, municipality, or public authority for direct and indirect costs of all services furnished thereto, except as to such costs for which funds have been included in appropriations otherwise made to the respective State departments and agencies as the Director of the Division of Budget and Accounting shall determine.

## OVERVIEW

### Mission and Goals

The Department of Human Services (DHS) is the largest state agency in New Jersey. It runs the State's Medicaid program and serves individuals with developmental disabilities and late-onset disabilities; people who are blind, visually impaired, deaf, hard of hearing, or deaf-blind; older residents; individuals and families with low incomes; and those needing mental health and addiction services.

The Department uses both State and federal funding to provide services and supports designed to give eligible individuals and families the resources and assistance they need. The Department partners with county and municipal governments, as well as community-based provider agencies to administer its programs and services.

### Budget Highlights

The fiscal year 2020 budget for the DHS totals \$6.662 billion, a decrease of \$2 million or -0.03% from the fiscal 2019 adjusted appropriation of \$6.664 billion.

Since the decision to expand NJ FamilyCare in 2014, an additional 430,000 uninsured New Jersey residents have gained coverage under NJ FamilyCare. For the first time, many of these individuals now receive preventive and specialized healthcare services from local physicians, rather than in acute care settings.

The fiscal 2020 budget continues to support and strengthen the safety net for New Jersey's most vulnerable citizens. The NJ FamilyCare program includes sufficient resources to account for costs related to medical inflation and demographic changes, ensuring recipients in the program continue to have appropriate access to health care providers including physician, hospital and pharmaceutical services.

Similarly, Managed Long Term Services and Supports has resulted in increased and improved options for in-home assistance and care that enable elderly individuals and individuals with disabilities to continue living independently or with family members, while reducing reliance on institutional facilities.

The fiscal 2020 budget provides approximately \$15.5 million of new State funding to create community placements and services, including Olmstead. The budget continues to demonstrate the Division of Developmental Disabilities' (DDD) commitment to expanding community-based options for individuals with developmental disabilities. Overall, the DDD has dramatically reduced the number of individuals with developmental disabilities that live in State-operated institutions.

The budget also includes \$7 million for a comprehensive response to the current gaps in the behavioral health system for individuals with co-occurring developmental disabilities and mental health needs. This includes conducting a statewide analysis of in-patient stabilization services, developing additional short-term crisis stabilization beds, and launching a Behavioral Health Homes Pilot Program for individuals with co-occurring needs.

### Division of Medical Assistance and Health Services

Through the State's Medicaid program, NJ FamilyCare, the Division of Medical Assistance and Health Services (DMAHS) provides eligible residents with access to low or no cost health insurance. More than 1.7 million people are covered by NJ FamilyCare. NJ FamilyCare's comprehensive health coverage program provides a wide-range of services including: primary and specialty care visits, hospital services, prescriptions, tests, vision care, behavioral health care, dental, nursing home care and other health care services.

The DMAHS also works closely with DHS' Divisions of Aging Services and Developmental Disabilities and the Departments of

Children and Families and Health to advance initiatives that include Managed Long Term Services and Supports, home and community-based services, behavioral health integration, and medical care for individuals with intellectual and developmental disabilities. The DMAHS also operates the Personal Preference Program, which allows NJ FamilyCare recipients eligible for NJ FamilyCare Personal Care Assistant services to direct their own care.

### Division of Aging Services

The Division of Aging Services (DoAS) supports home and community-based services for older adults, individuals who have physical disabilities, and their caregivers. The DoAS administers a number of federal and State-funded programs and support services that make it easier for older adults to live in the community as long as possible with independence, dignity and choice. The DoAS provides technical assistance and grants to support New Jersey's 21 County Area Agencies on Aging and other local organizations that improve the quality of life for New Jersey's older residents. These programs include congregate and home delivered meals, informational assistance, outreach, personal care, legal services, transportation, telephone reassurance, housekeeping and chore services, case management, respite care, Alzheimer's adult day care and adult protective services.

The DoAS also administers the Pharmaceutical Assistance to the Aged and Disabled (PAAD) and Senior Gold programs, which provide prescription drug benefits to eligible adults 65 years of age and older and individuals who have a disability, as defined by the federal Social Security Act. Additionally, the Division screens, refers and determines eligibility for seniors and people with disabilities for State and federal assistance programs.

The Office of the Public Guardian provides guardianship services for adults age 60 and older who have been deemed by the courts to be in need of a guardian or conservator. Client services are individualized and dependent on the client's personal needs. Services include legal assistance, social service plans, investigations into family/social history and financial management.

### Division of Disability Services

The Division of Disability Services (DDS) provides information and referral assistance to people of all ages with varying disabilities. It also assists families and caregivers who are seeking help in connecting with community services and supports. DDS is also the State's lead agency for brain injury services and administers the New Jersey Traumatic Brain Injury Fund. Other services administered by the Division include the Community Discharge Initiative, Personal Assistance Services Program and the New Jersey WorkAbility program, which allows eligible individuals with disabilities who are working to maintain their NJ FamilyCare benefits. In addition, DDS manages the newly launched NJ Achieving a Better Life Experience (ABLE) program, which helps individuals with disabilities save tax-free for eligible expenses such as education, housing and transportation without losing eligibility for Medicaid and other benefits.

### Division of Developmental Disabilities

The Division of Developmental Disabilities (DDD) serves eligible New Jersey adults, age 21 and older, with intellectual and developmental disabilities (I/DD). Services are primarily provided through fee-for-service reimbursement to provider agencies and include day and residential programs and family support in the community. DDD serves more than 24,000 individuals with I/DD in its two waiver programs, the Supports Program and the Community

# HUMAN SERVICES

Care Program. Additionally, DDD operates five residential developmental centers serving approximately 1,200 individuals.

DDD strives to provide individuals with the choice and the ability to self-direct the services and supports that meet an individual's needs. DDD is also committed to providing a variety of housing choices for clients, including appropriate placements in the community, in accordance with the U.S. Supreme Court's Olmstead decision.

## Commission for the Blind and Visually Impaired

The New Jersey Commission for the Blind and Visually Impaired (CBVI) provides and promotes education, employment, independent living and eye health services for people who are blind, deaf-blind or vision impaired, as well as for their families and the community at large.

The CBVI provides specialized services to persons with vision loss such as vocational rehabilitation services, on-site, community-based eye screenings of uninsured/underinsured populations and training and education to reduce stigma.

The CBVI works to provide access to services that will enable consumers to obtain their fullest measure of self-reliance.

## Division of Family Development

The Division of Family Development (DFD) provides resources and support to residents who are financially and food insecure through the State's Work First New Jersey, Supplemental Nutrition Assistance Program (SNAP), child support and child care programs.

The DFD assists people in making the transition from public assistance to work. The DFD also provides nutrition assistance, substance use referral, child care subsidies, temporary rental assistance and emergency housing assistance. These programs are administered through each county's social services agency and the Child Care Resource and Referral Agencies.

The DFD is also charged with providing training, funding, information management and administrative support to the counties, contracted community providers and other governmental agencies responsible for administering programs to New Jersey residents in need.

## Division of the Deaf and Hard of Hearing

The Division of the Deaf and Hard of Hearing (DDHH) serves residents who are deaf, hard of hearing, or have speech disorders. Services and programs foster independence and improve the quality of life for people with hearing loss. The DDHH provides information and referrals, delivers technical assistance workshops related to hearing loss and deaf sensitivity, assists with communication access through coordination of interpreting and captioning services and operates assistive technology device demonstration centers. The Division also operates an Equipment Distribution Program and the New Jersey Hearing Aid Project that provides reconditioned hearing aids to residents with low incomes who are 65 years of age and older.

## Division of Mental Health and Addiction Services

The Division of Mental Health and Addiction Services (DMHAS) provides prevention, treatment and recovery services and supports for individuals with mental health and substance use disorders and their families, including opioid use disorders. The DMHAS coordinates with community-based providers to administer behavioral health services, including prevention and early intervention, screening services, outpatient counseling, partial and day treatment services, case management, residential and supported housing, jail diversion services, family support, self-help centers and supported employment. The State is dedicated to community-based mental health services and is advancing community supports for individuals no longer in need of hospital-based psychiatric treatment and those at risk of hospitalization. The DMHAS also funds hospital-based services for low income individuals committed to treatment at the four county operated psychiatric facilities in Bergen, Essex, Hudson and Union counties. The State continues to combat the opioid epidemic by dedicating \$100 million to coordinated efforts focused on enhanced prevention, treatment and recovery services, as well as community supports to address social risk factors that impact long-term recovery.

**20. PHYSICAL AND MENTAL HEALTH**

**23. MENTAL HEALTH AND ADDICTION SERVICES**

**7700. DIVISION OF MENTAL HEALTH AND ADDICTION SERVICES**

The Division of Mental Health and Addiction Services (DMHAS) oversees New Jersey’s adult system of community-based behavioral health services. These agencies provide a full array of services, including substance use prevention and early intervention, emergency screening, outpatient and intensive outpatient mental health and addiction services, partial care and partial hospitalization, case management, medication assisted treatment for substance use, and long- and short-term mental health and substance use residential services, in addition to other evidence-based practices such as the Program for Assertive Community Treatment (PACT), supported employment and education and supportive housing.

During fiscal year 2017, the DMHAS transitioned mental health

and addiction services to a fee-for-service reimbursement structure. This system is expected to result in a more cost-efficient system with improved health outcomes for clients.

In addition to providing the overall coordination and management functions described above, pursuant to N.J.S.A. 30:4-78, as amended by P.L.2009, c.68, effective January 1, 2010, the DMHAS pays 85% of the maintenance of county patients and 100% of the maintenance of State patients in county psychiatric hospitals.

In fiscal 2019, per Reorganizational Plan 001-2018, Governor Murphy moved a portion of the DMHAS from the Department of Health to the Department of Human Services. The Department of Health continues to operate the psychiatric hospitals.

**OBJECTIVES**

1. To promote wellness and recovery for individuals managing a mental illness, or co-occurring mental health and substance use disorder through a comprehensive continuum of prevention, early intervention, treatment and recovery services.
2. To provide support services for the operational program units through which the mental health and addictions programs are carried out.

**PROGRAM CLASSIFICATIONS**

08. **Community Services.** Carries out the responsibility for the planning and support for the statewide network of community mental health services throughout all 21 counties, including two community mental health centers associated with Rutgers, the State University of New Jersey. Through community agencies, provides screening services and a wide array of mental health service programs designed to serve clients in a setting that is the least restrictive, appropriate to their clinical needs and closest to their homes; to return hospitalized patients to the community as soon as appropriate; and reduce inappropriate admissions to State and county

psychiatric hospitals. The Division is also responsible for managing the State Aid program in support of patients in county psychiatric hospitals and reimbursing allowable costs incurred by the counties under that program.

09. **Addiction Services.** Carries out the responsibility for the planning and support for the statewide network of community addiction services throughout all 21 counties. Through community agencies, provides support to multi-modality substance use and treatment facilities; counseling and detoxification services in clinics, institutions and schools of higher learning; recovery support and prevention services; assists in development of employee assistance programs; and provides counseling programs for compulsive gamblers.

99. **Administration and Support Services.** Provides management, fiscal and budgetary control, as well as general support services necessary for overall control and supervision of State-operated and funded mental health and addictions facilities and programs including planning, development, evaluation and control of mental health and addiction programming to assure compliance with statutory requirements; assures that operating programs are consistent with public policies and professional treatment standards and are conducted in as effective a manner as possible.

- (a) "Cost to State" refers only to the State portion of the costs in each program incurred by the Community Care, Olmstead Support Services and Behavioral Rate Increase accounts. Additional funds for these programs are available from other divisions and funding sources and the mix of State and other funding sources is subject to change from year to year.
  - (b) These funds are transferred to Health Planning and Evaluation within the Department of Health to fund Short-Term Care Facility beds and supplement appropriations from the Health Care Subsidy Fund.
  - (c) County hospital billable average daily population figures represent the average days billable to the DMHAS under the State Aid program and exclude other patient days that the facility may bill to other payers.

### Language Recommendations -- State Aid - General Fund

The unexpended balance at the end of the preceding fiscal year in the Support of Patients in County Psychiatric Hospitals account is appropriated for the same purpose.

Notwithstanding the provisions of R.S.30:4-78, or any law or regulation to the contrary, the State share of payments from the Support of Patients in County Psychiatric Hospitals account to the several county psychiatric facilities on behalf of the reasonable cost of maintenance of patients deemed to be county indigents shall be at the rate of 125% of the rate established by the Commissioner of Human Services, in consultation with the Commissioner of Health, for the period July 1 to December 31 and at the rate of 45% of the rate established by the Commissioner of Human Services, in consultation with the Commissioner of Health, for the period January 1 to June 30 such that the total amount to be paid by the State on behalf of county indigent patients for the calendar year shall not exceed 85% of the total reasonable per capita cost; and further provided that the rate at which the State will reimburse the county psychiatric hospitals shall not exceed 100% of the per capita rate at which each county pays to the State for the reasonable cost of maintenance and clothing of each patient residing in a State psychiatric facility, excluding the depreciation, interest and carry-forward adjustment components of this rate, and including the depreciation, interest, and carry-forward adjustment components of each individual county psychiatric hospital's rate established for the period January 1 to December 31 by the Commissioner of Human Services in consultation with the Commissioner of Health. The initial determination of whether a county hospital rate exceeds the per capita rate that counties pay to the State on behalf of applicable patients residing in a State psychiatric facility will be based on a comparison of estimated cost used to set reimbursement rates for the upcoming calendar year. A second comparison of the actual per diem costs of the county psychiatric hospital and State psychiatric hospitals will be completed after actual cost reports for the period are available including an inflationary adjustment for the six-month difference in fiscal reporting periods between State and county hospitals. The county hospital carry-forward adjustment to be included in rates paid by the State will exclude costs found to exceed 100% of the actual cost rate of the State psychiatric facilities.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for Support of Patients in County Psychiatric Hospitals is conditioned upon the following provision: payments to county psychiatric hospitals will only be made after receipt of their claims by the Division of Mental Health and Addiction Services. County psychiatric hospitals shall submit such claims no less frequently than quarterly and within 15 days of the close of each quarter.

With the exception of all past, present, and future revenues representing federal financial participation received by the State from the United States that is based on payments to hospitals that serve a disproportionate share of low-income patients, which shall be retained by the State, the sharing of revenues received to defray the State Aid appropriation for the costs of maintaining patients in State and county psychiatric hospitals shall be based on the same percent as costs are shared between the State and counties.

The amount hereinabove appropriated for State Aid reimbursement payments for maintenance of patients in county psychiatric facilities shall be limited to inpatient services only, except that such reimbursement shall be paid to a county for outpatient and partial hospitalization services as defined by the Department of Human Services, if outpatient and/or partial hospitalization services had been previously provided at the county psychiatric facility prior to January 1, 1998. These outpatient and partial hospitalization payments shall not exceed the amount of State Aid funds paid to reimburse outpatient and partial hospitalization services provided during calendar year 1997. In addition, any revision or expansion to the number of inpatient beds or inpatient services provided at such hospitals which will have a material impact on the amount of State Aid payments made for such services, must first be approved by the Department of Human Services before such change is implemented.

The amount hereinabove appropriated for the Division of Mental Health and Addiction Services for State facility operations and the amount appropriated as State Aid for the costs of county facility operations are first charged to the federal Disproportionate Share Hospital (DSH) reimbursements anticipated as Medicaid uncompensated care. Accordingly, DSH revenues earned by the State related to services provided by county psychiatric hospitals which are supported through this State Aid appropriation shall be considered as the first source supporting the State Aid appropriation.

In addition to the amounts hereinabove appropriated for the Support of Patients in County Psychiatric Hospitals, in the event that the Assistant Commissioner of the Division of Mental Health and Addiction Services determines that, in order to provide the least restrictive setting appropriate, a patient should be admitted to a county psychiatric hospital in a county other than the one in which the patient is domiciled rather than to a State psychiatric hospital, there are hereby appropriated such additional amounts as may be required, as determined by the Assistant Commissioner to reimburse a county for the extra costs, if any, which were incurred in connection with the care of such patient in a county psychiatric hospital which exceeded the cost of care which would have been incurred had the patient been placed in a State psychiatric hospital, subject to the approval of the Director of the Division of Budget and Accounting.

The amount hereinabove appropriated for Support of Patients in County Psychiatric Hospitals is conditioned upon the following provisions: County psychiatric hospitals shall: (1) enroll and continue to maintain enrollment as providers in the State's NJ FamilyCare program; (2) complete or pursue in good faith the completion of eligibility applications for patients who could be NJ FamilyCare eligible; (3) bill the NJ FamilyCare program for all applicable services; and (4) neither admit nor discharge patients based upon NJ FamilyCare eligibility.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for Support of Patients in County Psychiatric Hospitals is conditioned upon the county psychiatric hospitals providing and certifying all information that is required by the State, in the form specified by the Division of Mental Health and Addiction Services, to prepare a complete, accurate, and timely claim to federal authorities for Medicaid Disproportionate Share Hospital (DSH) claim revenues.

Notwithstanding the provisions of R.S.30:4-78, or any other law or regulation to the contrary, the amount hereinabove appropriated for Support of Patients in County Psychiatric Hospitals is conditioned upon the following provisions: for rates effective January 1, 2013, and any prior year rate adjustments that may be required beginning January 1, 2013, the approval of the State House Commission shall not be required for the setting of such rates and the Commissioner of Human Services, in consultation with the Commissioner of Health, shall set the per capita cost rates to be paid by the State to the several counties on behalf of the reasonable cost of maintenance of State and county patients in any county psychiatric facility, including outpatient psychiatric services, the per capita rates which each county shall pay to the Treasurer for the reasonable cost of maintenance and clothing of each patient residing in a State psychiatric facility having a legal settlement in such county ("County Patients"), the rates to be paid for the reasonable cost of maintenance and clothing of the convict and criminal mentally ill in any State psychiatric facility and the cost of maintenance of County Patients residing in State developmental centers or receiving other residential functional services for the developmentally disabled. Such rates will be fixed no later than October 1 of each calendar year. Notice of such rates shall be provided by the Commissioner of Human Services to the clerk of the respective boards of chosen freeholders.

In the event that the Division of Mental Health and Addiction Services is notified that a county psychiatric hospital will cease operations for the current fiscal year, or any portion thereof, in order to assure continuity of care for patients who otherwise would have been served by the county hospital, as well as to preserve patient and public safety, the Division shall have the authority to transfer funds from the Support of Patients in County Psychiatric Hospitals account to Direct State Services and Grants-In-Aid accounts in the Division of Mental Health and Addiction Services, for the fiscal year, subject to a plan approved by the Director of the Division of Budget and Accounting.

## 20. PHYSICAL AND MENTAL HEALTH

### 24. SPECIAL HEALTH SERVICES

#### 7540. DIVISION OF MEDICAL ASSISTANCE AND HEALTH SERVICES

The Division of Medical Assistance and Health Services (DMAHS) administers the NJ FamilyCare program for more than 1.7 million low- to moderate-income adults and children. With annual Statewide expenditures of over \$16 billion (\$14 billion within the DMAHS), NJ FamilyCare plays a key role in the direction of the health care delivery system in New Jersey, and thus, has the unique ability to improve care for those who would not otherwise have access. Beneficiaries of NJ FamilyCare are New Jersey residents determined financially and categorically eligible for medical assistance including low-income individuals, pregnant women and certain dependent children, low-income

aged, disabled or blind persons, children in foster care programs, and certain classes of immigrants. The majority of the beneficiaries are enrolled in managed care plans that provide most health care benefits in exchange for a per member, per month payment. In 2018, these plans were administered by five managed care organizations (listed in order of enrollment): Horizon NJ Health, UnitedHealthcare Community Plan, Amerigroup New Jersey, WellCare Health Plans of New Jersey and AETNA. Program costs are shared between the State and federal government at varied rates depending on beneficiary income or the services provided.

#### OBJECTIVES

1. To provide subsidized access to affordable health care coverage through the NJ FamilyCare program's traditional and innovative delivery system models in a manner that is driven by quality performance and fiscal sustainability. Beneficiaries will have a streamlined enrollment experience; access to a robust network of qualified providers; and improved quality of care.
2. To optimize State resources through improved beneficiary health outcomes; use of innovative health care delivery models; continuous Division performance monitoring and analysis; and improved use of technology to enhance operations. Beneficiaries of NJ FamilyCare include New Jersey residents determined financially and categorically eligible for medical assistance including low-income individuals, pregnant women and certain dependent children, low-income disabled or blind persons, Supplemental Security Income recipients, children in foster care programs, persons qualifying for the State's Qualified Income Trust programs, or Medical Assistance Only, and certain classes of refugees and immigrants. In addition, the NJ FamilyCare program provides subsidized health care coverage to eligible children, parents, caretakers and childless adults through Medicaid Title XIX or the Children's Health Insurance Program (CHIP) Title XXI.

#### PROGRAM CLASSIFICATIONS

21. **Health Services Administration and Management** Provides payments, through a fiscal agent, for provider claims processing. Makes payments for managed care capitation, county welfare agency eligibility determination and to a Health Benefits Coordinator vendor for beneficiary eligibility determination and health plan selection. Maintains the DMAHS's network of fee-for-service providers as well as monitors the health plans contracted with the DMAHS and provides overall program policy direction and management. Principal units of the Division include: fiscal, managed care, information systems, legal, operations and quality assurance.
22. **General Medical Services** Distributes payments to providers of medical care for services rendered on behalf of recipients covered by the various programs. With 95% of NJ FamilyCare recipients now enrolled in managed care, most Division expenditures are in the form of monthly capitation payments to managed care organizations who coordinate recipient care and make payments to health care providers. Payments that remain fee-for-service include nursing home benefits for select recipients and outpatient mental health/substance use services.

Receipts from the Office of the Public Guardian for Elderly Adults are appropriated to the Office of the Public Guardian.

## Language Recommendations -- Grants-In-Aid - General Fund

All funds recovered pursuant to P.L.1968, c.413 (C.30:4D-1 et seq.) and P.L.1975, c.194 (C.30:4D-20 et seq.) during the preceding fiscal year are appropriated for payments to providers in the same program classification from which the recovery originated.

Notwithstanding the provisions of any law or regulation to the contrary, a sufficient portion of receipts generated or savings realized in the Medical Services for the Aged or Pharmaceutical Assistance to the Aged and Disabled Grants-In-Aid accounts from initiatives included in the current fiscal year appropriations act may be transferred to administration accounts to fund costs incurred in realizing these additional receipts or savings, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, no funds appropriated in the Pharmaceutical Assistance to the Aged and Disabled program classification and the Senior Gold Prescription Discount Program account shall be expended for fee-for-service prescription drug claims with no Medicare Part D coverage except under the following conditions: (1) the maximum allowable cost for legend and non-legend drugs shall be calculated based on Actual Acquisition Cost (AAC) defined as the lowest of (i) the National Average Drug Acquisition Cost (NADAC) Retail Price Survey, developed in accordance with Section 1927(f) of the Social Security Act; (ii) Wholesale Acquisition Cost (WAC) less a volume discount, in the absence of a NADAC price, that is consistent with the NJ FamilyCare Program; (iii) the federal upper limit (FUL); or (iv) the State upper limit (SUL); and (v) cost acquisition data submitted by providers of pharmaceutical services for brand-name multi-source drugs and multi-source drugs in the absence of any alternative pricing benchmarks; (2) pharmacy reimbursement for legend and non-legend drugs shall be calculated based on (i) the lower of the AAC plus a professional fee, that is consistent with the NJ FamilyCare Program; or a provider's usual and customary charge; or (ii) the lower of cost acquisition data submitted by providers of pharmaceutical services for brand-name multi-source and multi-source drugs, where an alternative pricing benchmark is not available, plus a professional fee that is consistent with the NJ FamilyCare Program; or a provider's usual and customary charge. To effectuate the calculation of SUL rates and/or the calculation of single-source and brand-name multi-source legend and non-legend drug costs where an alternative pricing benchmark is not available, the Department of Human Services shall mandate ongoing submission of current drug acquisition data by providers of pharmaceutical services. No funds hereinabove appropriated shall be paid to any entity that fails to submit required data.

The amounts hereinabove appropriated for payments for the Pharmaceutical Assistance to the Aged and Disabled program, P.L.1975, c.194 (C.30:4D-20 et seq.), the Senior Gold Prescription Discount Program, P.L.2001, c.96 (C.30:4D-43 et seq.), and Community Based Senior Programs are available for the payment of obligations applicable to prior fiscal years.

Benefits provided under the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program, P.L.1975, c.194 (C.30:4D-20 et seq.), and the Senior Gold Prescription Discount Program, P.L.2001, c.96 (C.30:4D-43 et seq.), shall be the last resource benefits, notwithstanding any provisions contained in contracts, wills, agreements, or other instruments. Any provision in a contract of insurance, will, trust agreement, or other instrument which reduces or excludes coverage or payment to an individual because of that individual's eligibility for, or receipt of, PAAD or Senior Gold Prescription Discount Program benefits shall be void, and no PAAD and Senior Gold Prescription Discount Program payments shall be made as a result of any such provision.

- Of the amount hereinabove appropriated in the Pharmaceutical Assistance to the Aged and Disabled-Claims program, notwithstanding the provisions of section 3 of P.L.1975, c.194 (C.30:4D-22) or any law or regulation to the contrary, the copayment in the Pharmaceutical Assistance to the Aged and Disabled program shall be \$5 for generic drugs and \$7 for brand name drugs.
- Notwithstanding the provisions of any law or regulation to the contrary, no funds appropriated for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program, pursuant to P.L.1975, c.194 (C.30:4D-20 et seq.), or the Senior Gold Prescription Discount Program (Senior Gold), pursuant to P.L.2001, c.96 (C.30:4D-43 et seq.), shall be expended, when PAAD or Senior Gold is the primary payer, unless participating pharmaceutical manufacturing companies execute contracts with the Department of Human Services. Name brand manufacturers must provide for the payment of rebates to the State on the same basis as provided for in subsections (a) through (c) of section 1927 of the federal Social Security Act, 42 U.S.C. s.1396r-8.
- Notwithstanding the provisions of any law or regulation to the contrary, no funds appropriated for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program pursuant to P.L.1975, c.194 (C.30:4D-20 et seq.), and the Senior Gold Prescription Discount Program, pursuant to P.L.2001, c.96 (C.30:4D-43 et seq.), shall be expended unless participating pharmaceutical manufacturing companies execute contracts with the Department of Human Services, providing for the payment of rebates to the State. Furthermore, rebates from pharmaceutical manufacturing companies for prescriptions purchased by the PAAD program and the Senior Gold Prescription Discount Program shall continue during the current fiscal year, provided that the manufacturer's rebates for PAAD claims paid as secondary to Medicare Part D and for the Senior Gold Prescription Discount Program shall apply only to the amount paid by the State under the PAAD and Senior Gold Prescription Discount Programs. All revenues from such rebates during the current fiscal year are appropriated for the PAAD program and the Senior Gold Prescription Discount Program.
- In addition to the amount hereinabove appropriated for the Pharmaceutical Assistance to the Aged and Disabled and the Senior Gold Prescription Discount programs, there are appropriated from the General Fund and available federal matching funds such additional amounts as may be required for the payment of claims, credits, and rebates, subject to the approval of the Director of the Division of Budget and Accounting.
- Notwithstanding the provisions of any law to the contrary, amounts hereinabove appropriated for Aging and Disability Resource Connections (ADRC) shall be conditioned upon the following: federal matching funds derived from ADRC or Area Agencies on Aging Medicaid costs, pursuant to an approved cost allocation plan, shall be disbursed to counties solely for the expansion of long term care services and supports for older adults and individuals seeking home and community based services.
- Notwithstanding the provisions of any law or regulation to the contrary, the appropriations for the Pharmaceutical Assistance to the Aged and Disabled program and the Senior Gold Prescription Discount Program are conditioned upon the Department of Human Services coordinating benefits with any voluntary prescription drug mail-order or specialty pharmacy in a Medicare Part D provider network or private third party liability plan network for beneficiaries enrolled in a Medicare Part D program or beneficiaries with primary prescription coverage that requires use of mail order. The mail-order program may waive, discount, or rebate the beneficiary copayment and mail-order pharmacy providers may dispense up to a 90-day supply on prescription refills with the voluntary participation of the beneficiary, subject to the approval of the Commissioner of Human Services and the Director of the Division of Budget and Accounting.
- Notwithstanding the provisions of any law or regulation to the contrary, the amounts hereinabove appropriated for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) programs are conditioned upon the Department of Human Services coordinating the benefits of the PAAD programs with the prescription drug benefits of the federal "Medicare Prescription Drug, Improvement, and Modernization Act of 2003" (MMA), Pub.L.108-173, as the primary payer due to the current federal prohibition against State automatic enrollment of PAAD program recipients in the federal program. The PAAD program benefit and reimbursement shall only be available to cover the beneficiary cost share to in-network pharmacies and for deductible and coverage gap costs (as determined by the Commissioner of Human Services) associated with enrollment in Medicare Part D for beneficiaries of the PAAD and Senior Gold Prescription Discount programs, and for Medicare Part D premium costs for PAAD beneficiaries.
- Notwithstanding the provisions of any law or regulation to the contrary, no funds appropriated in the Pharmaceutical Assistance to the Aged or Pharmaceutical Assistance to the Aged and Disabled (PAAD) program and Senior Gold Prescription Discount Program accounts shall be available as payment as a PAAD program or Senior Gold Prescription Discount Program benefit to any pharmacy that is not enrolled as a participating pharmacy in a pharmacy network under Medicare Part D.
- Consistent with the requirements of the federal "Medicare Prescription Drug, Improvement, and Modernization Act of 2003" (MMA), Pub.L.108-173, and the current federal prohibition against State automatic enrollment of Pharmaceutical Assistance to the Aged and Disabled (PAAD) programs and Senior Gold Prescription Discount Program recipients, no funds hereinabove appropriated to the PAAD program or Senior Gold Prescription Discount Program accounts shall be expended for any individual unless the individual enrolled in the PAAD program or Senior Gold Prescription Discount Program provides all data necessary to enroll the individual in Medicare Part D, including data required for the subsidy assistance, as outlined by the Centers for Medicare and Medicaid Services.
- Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) programs, and Senior Gold Prescription Discount Program shall be conditioned upon the following provision: no funds shall be appropriated for the refilling of a prescription drug when paid by PAAD or the Senior Gold Prescription Discount Program as the primary payer until such time as the original prescription is 85% finished.
- Notwithstanding the provisions of any law or regulation to the contrary, no amounts hereinabove appropriated for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program or the Senior Gold Prescription Discount Program shall be expended to cover medications not on the formulary of a PAAD program or Senior Gold Prescription Discount Program beneficiary's Medicare Part D plan. This exclusion shall not apply to those drugs covered by the PAAD program and Senior Gold Prescription Discount Program which are specifically excluded by the federal Medicare Prescription Drug Program. In addition, this exclusion shall not impact the

Notwithstanding the provisions of any law or regulation to the contrary, no amounts hereinabove appropriated for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program or the Senior Gold Prescription Discount Program shall be expended for diabetic testing materials and supplies which are covered under the federal Medicare Part B program, or for vitamins, cough/cold medications, drugs used for the treatment of erectile dysfunction, or cosmetic drugs, including, but not limited to: drugs used for baldness, weight loss, and skin conditions.

From the amount hereinabove appropriated for the Pharmaceutical Assistance to the Aged - Claims and Senior Gold Prescription Discount Program, an amount not to exceed \$2,850,000 may be transferred to various accounts as required, including Direct State Services accounts, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, in order to maximize drug coverage under Medicare Part D, the appropriation for the Senior Gold Prescription Discount Program is conditioned on the Senior Gold Prescription Discount Program being designated the authorized representative for the purpose of coordinating benefits with the Medicare drug program, including appeals of coverage determinations. The Senior Gold Prescription Discount Program is authorized to represent program beneficiaries in the pursuit of such coverage. Senior Gold Prescription Discount Program representation shall include, but not be limited to, the following actions: pursuit of appeals, grievances, and coverage determinations.

In order to permit flexibility in implementing ElderCare Initiatives hereinabove appropriated as part of Community Based Senior Programs, amounts may be transferred between Direct State Services and Grants-In-Aid accounts, subject to the approval of the Director of the Division of Budget and Accounting. Notice thereof shall be provided to the Legislative Budget and Finance Officer on the effective date of the approved transfer.

Notwithstanding the provisions of section 1 of P.L.2009, c.181 (C.30:4D-7j), or any other law or regulation to the contrary, providers of Medicaid-funded Personal Care Assistance services shall no longer be required to file cost reports with the Division of Disability Services.

**30. EDUCATIONAL, CULTURAL, AND INTELLECTUAL DEVELOPMENT**  
**32. OPERATION AND SUPPORT OF EDUCATIONAL INSTITUTIONS**

The Division of Developmental Disabilities administers five residential developmental centers for individuals with developmental disabilities. All are certified by the federal government as ICF/MR's and are supported by a combination of federal funds and State appropriations. The centers provide a range of vocational, habilitative, health, psychological and social services for their residents. Many residents of the centers have both a moderate to profound developmental disability and medical and/or physical issues, and some also have a psychiatric diagnosis. The five centers are:

Green Brook Regional Center (C.30:4-165.1 et seq.), located in Green Brook, Somerset County, is a specialized geriatric center that serves residents over age 55. Residents of the Center range from moderately to profoundly developmentally disabled. Green Brook opened in 1981 in a three-story building that previously housed Raritan Valley Hospital.

Vineland Developmental Center (C.30:4-165.1 et seq.), founded in 1888 in Vineland, Cumberland County, provides services for females with all levels of developmental disabilities. The Center's 257 acres encompass two campuses -- East Campus at Main and Landis Avenues and West Campus on Orchard Road. During fiscal year 2011, however, operations at the West Campus ceased and

residents moved to community settings and other facilities, including the East Campus.

Woodbine Developmental Center (C.30:4-165.1 et seq.), founded in 1921 and located on 250 acres in Woodbine, Cape May County, provides care and training for men with all levels of capability. The Center's program is designed to encourage residents to become as self-sufficient as possible.

New Lisbon Developmental Center (C.30:4-165.1 et seq.) founded in 1914 in New Lisbon, Burlington County, is located on a 1,896 acre tract of land at the edge of the Pinelands. New Lisbon serves primarily men; however, it has one living unit for women. During fiscal 1983, New Lisbon began operating a long-term care facility for geriatric and medically compromised residents. In fiscal 1998, the Moderate Security Unit for court-ordered individuals with developmental disabilities was moved to New Lisbon.

Hunterdon Developmental Center (C.30:4-165.1 et seq.), founded in 1969, is located in Clinton, Hunterdon County. Most of its residents have profound developmental disabilities and almost half use a wheel chair for mobility. Other disabilities include vision impairment, hearing impairment, cerebral palsy and seizure disorders.

## 30. EDUCATIONAL, CULTURAL, AND INTELLECTUAL DEVELOPMENT 32. OPERATION AND SUPPORT OF EDUCATIONAL INSTITUTIONS 7601. COMMUNITY PROGRAMS

The Division of Developmental Disabilities (DDD) coordinates public funding to support services for eligible New Jersey adults, age 21 and older, with intellectual and developmental disabilities (I/DD). Services are primarily provided through fee-for-service reimbursement to approximately 300 provider agencies and may include day, residential and family support in the community. As part of its systems reform efforts, DDD has transitioned from a contract-based payment system to a Medicaid-based, fee-for-service (FFS) model with only a limited number of contracts remaining. This enables the State to draw down a federal match for all services; to increase the number of adults served and the number and types of services available; and to increase

opportunities for adults with I/DD to participate meaningfully in their communities.

Currently, approximately 24,000 New Jersey residents are eligible to receive some type of community-based service. Additionally, the DDD operates five residential developmental centers serving approximately 1,200 people. The DDD is committed to providing a variety of housing choices for clients, including appropriate placements in the community, in accordance with the U.S. Supreme Court's Olmstead decision.

### OBJECTIVES

1. To provide executive management to the entire Division of Developmental Disabilities within the Department of Human Services.
2. To provide support services for the operational program units through which programs for the developmentally disabled are carried out.
3. To provide prompt and effective care, support and habilitation of individuals with developmental disabilities.
4. To ensure that individuals with developmental disabilities are appropriately served and supported to the maximum extent possible so that they can reside in the community.
5. To assure that persons with developmental disabilities are able to return to and/or remain in the community.
6. To educate and counsel families to understand and accept the unique conditions of their family members with developmental disabilities.
7. To evaluate medical, psychological, social, educational and related factors affecting the functioning of the individual and to determine the need for specialized care, training or treatment as a person with developmental disabilities.
8. To ensure maximum utilization of private and public facilities for the eligible population with developmental disabilities, and to recommend and secure alternate services for those awaiting residential functional services.
9. To provide non-residential training programs designed to develop self-sufficiency and social competence in persons with developmental disabilities living in the community.

declared eligible for and in need of residential placement for whom a current vacancy does not exist or for such individuals who can better be served in nonpublic facilities. Services may be provided to eligible persons with developmental disabilities through placement in substitute family situations in cases where individuals must be separated from their natural families, but do not require services in a congregate facility. Such service is also known as Community Care Residences.

02. **Social Supervision and Consultation.** Provides services designed to assist persons with developmental disabilities to continue to live and function in their home communities or to return to communities after receiving residential functional service. It includes family support funding to provide services to individuals living with families or independently in the community. It also funds services to determine eligibility and to provide case management and guardianship services.
03. **Adult Activities.** Provides community-based day services to adults with developmental disabilities that will allow for experience, training and opportunities in an adult atmosphere conducive to the development of the person's personal, social and work skills. Provides the opportunity to achieve the greatest independence possible in employment and vocational areas.
08. **Community Services.** Carries out the responsibility for the planning and support for the statewide network of community developmental disability services throughout all 21 counties. The Division reimburses community agencies for residential, day and in-home services designed to serve individuals in a setting that is the least restrictive, appropriate to their clinical needs and closest to their homes.
99. **Administration and Support Services.** Provides the leadership, administration and general support services necessary for the overall control and supervision of the Division of Developmental Disabilities.

**7560. COMMISSION FOR THE BLIND AND VISUALLY IMPAIRED**

The New Jersey Commission for the Blind and Visually Impaired (CBVI) provides and promotes services in the areas of education, employment, independence and eye health for people who are blind, deaf-blind or vision impaired, as well as for their families and the community at large.

The CBVI recognizes three core priorities within its mission: (1) providing specialized services to persons with vision loss, (2) educating and working in the community to reduce the incidence of vision loss and (3) improving social attitudes concerning people

with vision loss.

The CBVI works to provide access to services that will enable consumers to obtain their fullest measure of self-reliance.

With the adoption of the Workforce Innovation and Opportunity Act (WIOA), the law that governs federal vocational rehabilitation programs, the CBVI has introduced a variety of new education and transition-age youth programs and services that are consistent with the WIOA mandates.

# LABOR AND WORKFORCE DEVELOPMENT

## OVERVIEW

### **Mission and Goals**

The Department of Labor and Workforce Development assists and supports individuals in obtaining employment; spearheads efforts to provide a world-class workforce through building and enhancing the skills of individuals and employees needed by the state's industries; provides vital income security to workers who are unemployed or unable to work due to illness, accident or injury; equitably enforces New Jersey's labor laws and standards; analyzes the state's economic, labor market and demographic information; helps individuals with disabilities succeed in the workplace; promotes labor management harmony; and protects the health and safety of workers on the job.

### **Budget Highlights**

The fiscal year 2020 budget for the Department of Labor and Workforce Development totals \$171 million, a decrease of \$1.1 million or 0.6% under the fiscal 2019 adjusted appropriation of \$172.1 million. The reduction is primarily due to the removal of a one time Grants-in-Aid appropriation.

### **Workforce Development**

The Workforce Development Partnership Fund provides funding for employers to invest in the occupational and literacy skills of their employees. The Fund is financed through a dedicated assessment on workers and their employers.

The One-Stop Career Centers offer New Jersey career seekers career counseling, literacy and basic skills assistance, and access to occupational and on-the-job training. The centers connect job seekers to appropriate job postings, offer career information and provide details about training opportunities through its virtual platform. The centers also facilitate virtual job postings for businesses and employers creating easy access to a skilled workforce.

The LWD's nine Industry Partnerships connect industry leaders, educational institutions and a host of stakeholders.

### **Supplemental Workforce Fund for Basic Skills**

The New Jersey Supplemental Workforce Fund for Basic Skills invests in literacy and basic skills development of unemployed workers and provides grants to employers to provide literacy training to their employees. The Fund is financed from a portion of employer and employee tax contributions.

### **Labor Standards and Safety Enforcement**

The Division of Public Safety and Occupational Safety and Health enforces laws and regulations to protect the health, safety and welfare of employers, employees, the general citizenry and property by providing fair, rigorous and comprehensive enforcement and consultation inspection, training, testing and issuance of mandated licenses and permits. The Division also provides for the creation of new standards, the perfection and expansion of existing standards, and institutes methods and procedures for compliance with established standards and the evolution of standards to further safety and health for employers, employees and the general public.

The Wage, Hour and Contract Compliance Division administers and enforces a wide variety of labor laws and regulations. These include the minimum wage, overtime and benefit requirements under the NJ State Wage and Hour Law, rules for the employment of minors, as well as the Prevailing Wage Act and contract compliance anti-discrimination regulations that apply to most publicly funded construction projects, including school construction. The enforcement of these laws ensures that employees are paid properly, provides employees with safe, fair and equitable working conditions and protects good faith employers from unfair competition by employers who willfully violate labor laws.

### **Vocational Rehabilitation Services**

The Division of Vocational Rehabilitation Services assists individuals with disabilities to achieve employment outcomes consistent with their strengths, priorities, needs, abilities and capabilities. Eligible individuals with disabilities can receive rehabilitative services ranging from counseling and guidance, evaluations, therapy, treatment, training, education, job coaching, assistive technology and job placement.

### **Unemployment Insurance**

The Division of Unemployment Insurance provides temporary, partial wage replacement to eligible workers, who are separated from employment through no fault of their own and have filed an unemployment claim for the benefit of the unemployed worker and his family, in order to promote economic stability in the time of economic downturns and to help employers maintain a trained workforce.

### **Temporary Disability Insurance**

The Division of Temporary Disability Insurance provides workers with temporary benefits should they become disabled due to non-work related illness or injury. Workers who become disabled may be eligible for benefits under the State Plan or an approved private plan. For those individuals who become disabled during the period they are eligible for unemployment insurance benefits, the Disability During Unemployment Program offers protection. Additionally, since fiscal 2010, Family Leave Insurance benefits are available to covered workers so they can bond with newborn or newly adopted children or care for seriously ill family members. Each program is funded from dedicated taxes paid by employers and/or employees.

### **Workers' Compensation**

The Division of Workers' Compensation is responsible for the administration of the N.J. Workers' Compensation Law, N.J.S.A. 34:15-1 et seq., and the disposition of all disputes raised under the law. The Division operates 15 workers' compensation courts statewide, providing an impartial forum that ensures workers receive fair and timely workers' compensation benefits, including the payment of medical expenses, temporary disability benefits and/or permanent disability benefits for compensable injuries that occur while at work. Through its Office of Special Compensation Funds, the Division enforces the State's law requiring employers to secure workers' compensation insurance coverage from commercial carriers or through self-insurance programs. The Division also administers the Uninsured Employer's Fund, which provides temporary disability benefits and medical expenses to workers injured while working for uninsured employers, and the Second Injury Fund, which provides benefit payments to workers who are already partially disabled who subsequently experience a work related injury which together, render them totally disabled. The Division is supported by dedicated funding from surcharges paid by employers.

### **Labor Research and Information**

The Office of Research and Information (ORI) collects, analyzes and disseminates economic, labor market and demographic data, identifies workforce and economic trends, produces reports and digital tools, and helps our internal and external customers make use of our research. The ORI develops performance metrics for the federal workforce as well as leave and unemployment programs. It also maintains workforce development data systems, and analyzes data to inform program decisions.

The Center for Occupational Employment Information within ORI approves occupational training providers and disseminates career information.

## 50. ECONOMIC PLANNING, DEVELOPMENT, AND SECURITY

### 53. ECONOMIC ASSISTANCE AND SECURITY

#### OBJECTIVES

1. To accumulate adequate reserves for the payment of benefits to temporarily and involuntarily unemployed, disabled individuals and individuals who are unable to work due to the

need to care for an ill family member or to bond with a newborn or newly adopted child.

2. To provide prompt, efficient payment of benefits to eligible individuals.

# LABOR AND WORKFORCE DEVELOPMENT

3. To ensure the integrity of trust funds by utilizing best practices to reduce improper payments and modern fraud control techniques in cooperation with other State and federal agencies.
4. To act as an agent for the federal government in payment of unemployment insurance to federal employees and recently discharged veterans.
5. To provide prompt and efficient economic assistance to workers disabled by non-occupational sickness or accident.
6. To assure prompt, efficient and fair resolution of claims by employees resulting from work-related accidents or occupational exposures, and to expedite the return of injured employees to the workforce.
7. To make prompt and efficient determinations of disability claims under Title II and Title XVI of the Social Security Act.

## PROGRAM CLASSIFICATIONS

01. **Unemployment Insurance.** C.43:21 et seq. establishes the State-administered, federally-funded programs of unemployment insurance covering virtually all units employing one or more persons. Claims are filed, monetary and eligibility determinations are made, decisions are sent to employer(s) and claimants, and benefits are paid to eligible individuals.

All unemployment benefit claims are based upon wage information maintained by the Department of Labor and Workforce Development. In addition, automated cross matches are performed to identify improperly paid unemployment benefits.

02. **Disability Determination.** The federal government fully funds the Division of Disability Determinations from the Social Security Act for the purpose of adjudicating long-term disability claims. Activities include medical, legal and qualitative review of claims.
03. **State Disability Insurance Plan.** The State's Temporary Disability Insurance program was established in 1948 at a time when private insurance of this type was not widely available. It provides direct, temporary cash benefits to nearly all workers covered under the Unemployment Compensation Law to insure against loss of earnings due to non-occupational sickness or accident. Family Leave Insurance is administered by the Division of Temporary Disability Insurance. The program is funded through worker deductions and provides monetary benefits to covered individuals who need to provide care for an eligible family member with a serious health condition or bond with a newborn or newly adopted child.

04. **Private Disability Insurance Plan.** Employers may, with the approval of the Director of Temporary Disability Insurance, select coverage under a private plan; otherwise coverage must be under the State Plan. Activities are comparable to those under the State Plan program, including oversight of the initiation and modification of plans. Benefit costs of this activity are charged to the State Disability Benefits Fund. Administrative costs are charged partly to the State Plan administrative fund and assessed proportionately against the private plans.

05. **Workers' Compensation.** Work-injured employees are entitled, as appropriate, to reasonable and necessary medical treatment, temporary disability benefits as wage replacement and permanent disability payments for certain injuries. Employers directly select medical providers and provide temporary disability payments. There are fifteen workers' compensation court locations in the state that resolve any disagreement over medical or temporary benefits through settlement or adjudication. Permanent disability awards are subject to statutory requirements with court approval of any settlement and court decision on disputed claims. Pursuant to legislation enacted during 1990, funding for the Workers' Compensation program is derived from the Second Injury Fund, established by the Workers' Compensation Act (N.J.S.A. 34:15-1 et seq.) through an assessment on private sector employers.

06. **Special Compensation.** Through assessments on private sector employers, Special Compensation programs provide benefits to disabled workers through the Second Injury Fund and the Uninsured Employers' Fund, as well as enforce the compulsory insurance provisions of the Workers' Compensation Law. The Second Injury Fund provides benefits to workers totally and permanently disabled as a result of a work-related injury and pre-existing medical conditions. The worker's employer is responsible for the extent of disability related to the work accident or occupational exposure with the Second Injury Fund continuing such benefits thereafter. The Second Injury Fund also makes benefit payments to totally and permanently disabled workers and dependents of deceased workers where the date of injury or death occurred prior to 1980, under the provisions of N.J.S.A. 34:15-95.4. The Uninsured Employers' Fund pays temporary disability and medical benefits to injured workers whose employer fails to maintain required workers' compensation insurance coverage and refuses to make such payments. The compliance enforcement program identifies uninsured employers and assesses penalties deposited to the Uninsured Employers' Fund.

## PROGRAM CLASSIFICATIONS

07. **Vocational Rehabilitation Services.** The Division of Vocational Rehabilitation Services (DVRS) (P.L.1993 c.112 as amended; P.L.1997 c.35) provides services to individuals with disabilities who need services in order to work. A broad range of medical and training services are provided to assist in preparing for, acquiring or maintaining employment. Funding is provided primarily on an approximate 79% federal and 21% State matching basis. New Jersey is the 14th state to adopt an Employment First Initiative. The DVRS is implemented with this philosophy through policies, programs and services to proactively promote competitive employment in the general workforce for people with any type of disability. The Sheltered Workshop Support program (P.L.1971, c.272), through 100% State funds, is designed to provide long-term employment and rehabilitation services to individuals with significant disabilities who cannot be placed in open competitive employment.

09. **Employment Services.** Under the New Jersey Workforce Development Partnership Act, job training services are provided through training grants for displaced and disadvantaged individuals. In addition, customized training grants are awarded to employers to sustain employment in the State and to make the workforce more competitive.

Labor exchange services assist unemployed and underemployed individuals to find jobs and careers. These services include the technology tools and resources available through virtual platforms and in-person services available at One-Stop Career Centers, including structured workshops and networking opportunities provided through the Jersey Job Club program. Job placement is facilitated through interviewing, employment counseling and referral to employers.

Other federally-funded programs include Alien Labor Certification, Disabled Veterans Outreach Program and the Trade Act Program. These programs are authorized by the Wagner-Peyser Act, as amended by the Workforce Innovation and Opportunity Act (P.L. 113-128).

10. **Employment and Training Services.** Under the auspices of the federal Workforce Investment Act (WIA), which was amended by the Workforce Innovation and Opportunity Act (WIOA) enacted into law in July 2014, along with other related federal and State legislation, contracts among federal, State and local governments and other institutions, to provide services to support the workforce, which include: counseling, recruitment for Job Corps, intake and certification for WIOA, job search assistance, referral and placement for General Assistance recipients, and enhancement of economic development activities.

The State Employment and Training Commission is a Governor appointed, Senate confirmed body created by P.L.1989, c.293, to: create the workforce plan for the State; design statewide workforce policies and strategies; and evaluate and oversee the performance of New Jersey's workforce system. The Commission is responsible for the

creation, execution and evaluation of employment and training policies across the workforce system for the State.

12. **Workplace Standards.** Enforces statutes and rules by inspecting work premises and conditions. Workplace Standards covers: places of public employment (C.34:6A-25 et seq.); certain provisions of the Worker and Community Right to Know Act (C.34:5A-18 et seq.); boilers (including nuclear components), pressure vessels and refrigeration plants (C.34:7-14 et seq.); mines, pits and quarries (C.34:6-98.1 et seq.); explosives (C.21:1A-128 et seq.); fireworks (C.21:2-1 et seq. and C.21:3-1 et seq.); and service stations (C.34A-1 et seq.).

Develops and interprets rules, issues formal variances and hears appeals. Issues licenses to crane operators, power plant engineers, refrigeration plant engineers and boiler operators, and conducts audits, issues approvals for the operation, installation, maintenance and repair of boilers, pressure vessels and nuclear components.

Workplace Standards also provides on-site occupational health and safety consultation services to employers by agreement with the Federal Occupational Safety and Health Administration (OSHA).

Wage and Hour, Compliance and Enforcement covers: minimum wage and overtime (C.34:11-56A et seq.); wage payment (C.34:11-4.1 et seq.); child labor (C.34:2-21.1 et seq.); industrial homework (C.34:6-120 et seq.); wage collection (C.34:11-57 et seq.); prevailing wage (C.34:11-56.25 et seq.); opportunity to compete (C.34:6B-11); crew leaders (C.34:8A-7 et seq.); drinking water and toilet facilities (C.34:9A-37 et seq.); contract labor camps subject to the Wagner-Peyser Act; and the new earned sick leave act effective October 29, 2018.

16. **Public Sector Labor Relations.** Provides services through the Public Employment Relations Commission (C.34:13A-1 et seq.), which establishes policies, rules and regulations concerning employer-employee relations in the public sector. The Commission resolves disputes involving unit determinations, representation, unfair practices and scope of negotiations, including disputes under the recent amendments to the Public Employment Relations Act. Upon request, it provides mediators and fact-finders in order to help resolve collective negotiation disputes, and designates arbitrators to resolve disputes over collective negotiations rights and organizational rights of access to unit members. The agency also appoints arbitrators and reviews decisions regarding interest arbitration of law enforcement and firefighter collective negotiations agreements.

17. **Private Sector Labor Relations.** Provides services through the State Board of Mediation (C.34:13A-4 and C.34:1A-23), which monitors labor negotiations throughout the state and conducts separate and joint conferences with labor and management during negotiations of labor contracts, offers grievance mediation services, resolves disputes by providing arbitrators at the request of the parties, conducts consent elections to determine matters of union representation, offers oversight and assistance with local union officers, and delegates elections.

## OVERVIEW

### Mission and Goals

The Department of Law and Public Safety (DLPS) is dedicated to protecting the safety and security of the people of New Jersey. Under the oversight of the Attorney General, the DLPS performs far-reaching and diverse security and legal duties, providing statewide law enforcement and emergency response services, as well as services and counsel to other State agencies, and instituting legal actions where appropriate to advance the interests of the State and its citizens.

The primary mission of the DLPS is to ensure and advance the quality of life for the people of New Jersey. In this regard, the DLPS:

- Protects the safety, security and quality of life of the people of New Jersey through an integrated and coordinated structure of law enforcement and regulatory agencies;
- Advocates for the State in matters where the rights and interests of the public are at issue; and
- Represents the interests of the State and its agencies in all legal matters.

With 11 divisions and offices, as well as independent commissions and boards, the DLPS performs such critical tasks as overseeing the criminal justice system, protecting citizens' civil and consumer rights, promoting highway traffic safety, and maintaining public confidence in the casino, combative sports, alcoholic beverage, gaming and racing industries. As the head of the DLPS, the Attorney General serves as the State's chief law enforcement officer and legal adviser, and is responsible for the management and administration of the DLPS.

The goals of the DLPS are accomplished through four core mission area objectives, which consist of Public Safety, Emergency Management, Services to the Public and Services to the State. To measure success for quantifiable goals, the DLPS prepares and files a performance report on the Governor's Performance Center website, which can be found at <http://www.yourmoney.nj.gov/transparency/performance/>, on a quarterly basis.

Currently, the DLPS responsibilities include coordinating the functions of the State Police, criminal investigations and prosecutions, intelligence gathering, homeland security and emergency services; supporting and providing guidance for State and local law enforcement agencies; and maintaining and operating criminal records and identification systems.

Through the Division of State Police, the DLPS provides law enforcement services throughout the state, including rural section patrols and all major state highway patrols. Other functions include investigation of organized crime, racketeering, narcotics trafficking and white-collar crime. In addition, the Division remains involved with efforts to recover from the effects of Super Storm Sandy, as well as other federally-declared disasters that impact the State. This includes coordinating with the Federal Emergency Management Agency and other State agencies through the State Recovery Office to educate the public, as well as county and local entities regarding the various categories of assistance that may be available.

Through the Division of Criminal Justice, the DLPS is charged with the responsibility to detect, enforce against, and prosecute criminal activity in the State through the uniform and efficient administration of our criminal laws. In addition to its direct law enforcement operations, the Division provides oversight and coordination within New Jersey's law enforcement community.

Through the Division of Gaming Enforcement, the DLPS is charged with ensuring the integrity of the casino, internet gaming and sports wagering operations in the State and protecting the public interest by maintaining a legitimate and viable industry, free from the influences

of organized crime. In addition, the Division is tasked with assuring the honesty, good character and integrity of casino owners, operators, employees and vendors. The Division also works cooperatively with other law enforcement agencies to ensure the public safety in and around the casino district.

Through the Division of Law, the DLPS provides legal services to all offices, departments and entities of State government, as well as county Boards of Election and Taxation. The Division renders written legal opinions to governmental agencies, makes appearances at hearings, and represents the State in litigation and appeals in State and federal courts, administrative hearings and proceedings to protect the rights of children under the care of Child Protection and Permanency.

Other responsibilities include protecting the rights of consumers and enforcing the Consumer Fraud Act, which regulates advertising and sales techniques to prevent fraud, deceit and misrepresentation in the sale of goods and services. The activities of the Division of Consumer Affairs also include regulating buyers and sellers of securities, fundraising organizations, employment agencies, Bingo games and raffles, adherence to uniform standards of weights and measures and overseeing the Prescription Monitoring Program. In addition, the Division is responsible for the registration, investigation and monitoring of fantasy sports operators.

### Budget Highlights

The fiscal year 2020 budget for the Department of Law and Public Safety, not including the in-but-not-of agencies, totals \$495.7 million, a decrease of \$45.5 million or 8.4% under the fiscal 2019 adjusted appropriation of \$541.2 million. The fiscal 2020 budget reduction is the result of a supplemental not continued, operational efficiencies and the use of non-state resources. This reduction is netted with growth for the support of two new State Police recruit classes, new State Police vehicles, the Office of Public Integrity and Accountability, and additional operating costs for the Division of Gaming Enforcement related to sports wagering and increased casino activity.

### Office of Homeland Security and Preparedness

The fiscal year 2020 budget for the Office of Homeland Security and Preparedness (OHSP) totals \$10.5 million, the same level as the fiscal 2019 adjusted appropriation. The OHSP was created by executive order in 2006 and is led by a Director, who is appointed by the Governor and serves as a member of the Governor's Cabinet and as the Governor's principal advisor on homeland security issues. The Director serves as Chair of the Domestic Security Preparedness Task Force, which was created by statute in 2001 (P.L.2001, c. 246). The mission of the OHSP is to lead and coordinate New Jersey's counterterrorism, cybersecurity, and preparedness efforts while building resiliency throughout the state.

### Juvenile Justice Commission

The fiscal year 2020 budget for the Juvenile Justice Commission (JJC) totals \$123.1 million, the same level as the fiscal 2019 adjusted appropriation. The JJC is the single State agency mandated by legislation to lead and implement the reform of the juvenile justice system. The JJC provides residential programs for juvenile offenders throughout the state, enhancing public safety by committing juvenile offenders to secure care programs and overseeing a juvenile detention alternative. The JJC promotes public safety and serves youth through a continuum of services, including prevention, intervention, incarceration, education and aftercare. This is accomplished in collaboration with families, communities and governmental agencies. The JJC affords opportunities for adjudicated youth to become independent, productive and law-abiding citizens.

# LAW AND PUBLIC SAFETY

## State Ethics Commission

The fiscal year 2020 budget for the State Ethics Commission (SEC) totals \$982,000, the same level as the fiscal 2019 adjusted appropriation. The SEC administers and enforces the New Jersey Conflicts of Interest Law, the Uniform Ethics Code, agency specific supplemental ethics codes, several sections of the Casino Control Act, and also has administrative authority granted by various executive orders.

## Election Law Enforcement Commission

The fiscal year 2020 budget for the Election Law Enforcement Commission (ELEC) totals \$5 million, the same level as the fiscal 2019 adjusted appropriation. The ELEC ensures the reporting of contributions and expenditures by all candidates, political parties, political committees, and continuing political committees. Additionally, the ELEC oversees annual and quarterly reporting by lobbyists, oversees pay-to-play disclosure, and provides partial public financing of gubernatorial elections.

**10. PUBLIC SAFETY AND CRIMINAL JUSTICE**  
**18. JUVENILE SERVICES**

The Juvenile Justice Commission was created as an “in-but-not-of” agency in the Department of Law and Public Safety pursuant to P.L.1995, c.284 to unify programs for juvenile offenders formerly in the Department of Corrections and the Department of Human Services. The Commission is mandated to provide custody, care, and treatment to juvenile offenders committed to its care in State institutions and community programs. The Commission is further authorized to coordinate and distribute State/Community Partnership funding established pursuant to P.L.1995, c.283 as a result of the plans developed by the County Youth Services Commissions.

Juvenile Community Programs have an average daily population of over 140 residents and provide residential programming to over 425 juveniles throughout the state annually. It fulfills its statutory obligations and mandates regarding juvenile offenders by protecting the public from juvenile criminal offenders; by developing a community network of services to reduce commitments to State institutions and programs; and by providing services that encourage rehabilitation and reintegration into the community.

Local Programs and Services provide alternate programs by counties and/or municipalities for juveniles throughout the state. Delinquency prevention is intended to provide strategies and services to increase the likelihood that youth will remain free from initial involvement in the juvenile justice system. Diversionary programs offer alleged juvenile offenders an opportunity to avoid arrest and/or prosecution by providing alternatives to the juvenile justice process. Detention Alternative programs provide supervision and services to juveniles who would otherwise be placed in a secure facility while awaiting their adjudicatory hearing. Dispositional Options are given to the court when an adjudicated delinquent is ordered to comply with a specific sanction as a consequence for his or her behavior. The Juvenile Monitoring Unit is housed within this program and has statewide monitoring and reporting responsibility for all State, county and local juvenile correctional facilities.

Community re-entry programs follow a juvenile’s release from a secure facility, residential program or other structured dispositional

placement. Client Specific funds are used for very limited goals of providing unavailable services that are necessary to allow a juvenile to be released from detention and assist in transitioning the juvenile back into the community. Juvenile Parole and Transitional services are designed to ensure public safety through intensive community supervision.

The New Jersey Training School, located at Monroe Township in Middlesex County, provides programs for youths committed by the juvenile courts, stressing a decentralized approach to the treatment of the residents. Most of the youths are classified as emotionally disturbed and socially maladjusted, thus necessitating special education programs, group and individual treatment modalities, and security. Group living, community work training, preliminary vocational training, counseling services and formal schooling constitute the program core. Community and family liaison is promoted.

The Juvenile Medium Secure Facility provides the most secure setting for juvenile offenders who have failed to adjust and respond to various programs. Offenders are assigned for committed crimes such as homicide, atrocious assault and battery, sexual offenses and extensive escape histories. The focus of the Center is total remediation. Each juvenile receives daily academic and vocational training, health and physical education, structured activities and either individual or group counseling. The Female Secure Program, known as the Hayes Unit, is located at the Johnstone Facility and provides a secure setting for female offenders committed to the Juvenile Justice Commission.

Administration and Support Services is comprised of policy development and central support services formerly provided to juvenile facilities within the Departments of Corrections, Law and Public Safety, and Human Services. It includes management of all Commission programs including the central support services, human resources for the two juvenile institutions and community programs, policy formulation, as well as grants management for the expanded grant programs. In addition, the central data processing support and budget and fiscal administration are managed through this program for the entire Commission.

**OBJECTIVES**

1. To provide the courts with a program alternative to institutionalization designed for the reorientation of the offenders’ attitudes and styles of life so that the juveniles may be either maintained safely within their communities or returned to their communities as responsible citizens.
2. To develop and conduct a program of rehabilitative services; to provide work and contacts to the family and the community; and to provide the residents with acceptable behaviors and attitudes for community living.
3. To receive, diagnose and classify offenders legally committed to juvenile institutions with emphasis on satisfying the individual rehabilitation program needs of the offender.
4. To effect a reorientation of attitudes and habits, upgrade educational attainment and develop work skills through vocational programs to assist offenders with conforming to acceptable community living standards upon release from institutions.
5. To develop and enhance public interest and encourage community participation in the correctional process.

**Language Recommendations -- Direct State Services - General Fund**

The Attorney General shall provide the Director of the Division of Budget and Accounting, the Senate Budget and Appropriations Committee and the Assembly Appropriations Committee, or the successor committees thereto, with written reports on August 1 and February 1, of the use and disposition by State law enforcement agencies, including the offices of the county prosecutors, of any interest in property or money seized, or proceeds resulting from seized or forfeited property, and any interest or income earned thereon, arising from any State law enforcement agency involvement in a surveillance, investigation, arrest or prosecution involving offenses under N.J.S.2C:35-1 et seq. and N.J.S.2C:36-1 et seq. leading to such seizure or forfeiture. The reports shall specify for the preceding period of the fiscal year the type, approximate value, and disposition of the property seized and the amount of any proceeds received or expended, whether obtained directly or as contributive share, including but not limited to the use thereof for asset maintenance, forfeiture prosecution costs, costs of extinguishing any perfected security interest in seized property and the contributive share of property and proceeds of other participating local law enforcement agencies. The reports shall provide an itemized accounting of all proceeds expended and shall specify with particularity the nature and purpose of each such expenditure.

# NOTES

# MILITARY AND VETERANS' AFFAIRS

## OVERVIEW

### Mission and Goals

The Department of Military and Veterans' Affairs (DMAVA) provides operational forces for rapid civil and military response as well as dedicated, considerate service to New Jersey's veterans, families and citizens.

The Department is committed to providing highly-trained military forces poised for rapid response to preserve peace and public safety on the orders of the Governor and to respond to national security threats at the direction of the President. The Department also strives to provide comprehensive support to New Jersey veterans through a statewide network of services that run the gamut from mental health treatment to long-term care to ensuring that veterans receive all applicable federal entitlements.

### Budget Highlights

The fiscal year 2020 budget for the Department of Military and Veterans' Affairs totals \$96.1 million, a decrease of \$178,000 or 0.2% under the fiscal 2019 adjusted appropriation of \$96.2 million, due to operating efficiencies.

### Support to Our Veterans

The Division of Veterans Healthcare Services operates three state-of-the-art nursing homes located in Paramus, Menlo Park and Vineland that deliver high-quality long-term care and have a combined rated capacity of 948 beds.

The Division of Veterans Services, through its network of regional Veterans Service Offices, provides the state's 341,000 veterans and their dependents with information and guidance in filing claims with the United States Department of Veterans Affairs (USDVA). Trained veterans service officers at those offices also assist veterans with issues pertaining to employment, education, burial, counseling, housing, social and medical services, and other areas of concern to

veterans and their families. In addition, the Division maintains the State's three major war memorials in Holmdel, Trenton and Atlantic City. The Division is also responsible for determining veteran eligibility for State civil service preference as well as administering various grants-in-aid tuition assistance and other benefits. Post-Traumatic Stress Disorder (PTSD) counseling for veterans and their families is available at no cost through a statewide network of professional providers. Information and emergency access are available 24/7 at 1-866-VETS NJ 4U (1-866-838-7654).

The Brigadier General William C. Doyle Veterans' Memorial Cemetery continues to be one of the nation's busiest State-operated veterans' cemetery with 3,030 interments conducted during fiscal year 2018. Approximately 13 burials occur each business day, and the cemetery is visited by thousands of individuals each year. Military honors are accorded to all veterans interred at the cemetery and the New Jersey National Guard performs over 400 off-site honors each month.

Two facilities located in Winslow Township and Glen Gardner provide effective rehabilitation services for up to 200 homeless Veterans living in the state. Funded by both the State and the USDVA, these veterans receive outstanding support from a wide variety of service organizations, community agencies and private citizens. The average combined daily population of both facilities is 160.

### Homeland Security

In accordance with the New Jersey Domestic Security Preparedness Act, the Department is responsible for training and equipping emergency response teams in support of New Jersey's Homeland Security mission. These teams serve as first military responders for disaster recovery related to acts of terrorism, weapons of mass destruction incidents and other public safety emergencies.

## OVERVIEW

**Mission and Goals**

The Department of State seeks to enhance the overall quality of life for all New Jerseyans by advancing and supporting our state's economic vitality as well as cultural and historical programs and civic engagement.

The Department includes the Division of Elections, which coordinates the safe and secure conduct of elections in all 21 of New Jersey's counties and helps build a robust and enduring culture of civic engagement in our communities. The Department, through the State Museum and State Archives, harnesses New Jersey's rich cultural, historical, and artistic assets to foster collaboration and cooperation amongst diverse stakeholders in such areas as culture, heritage, and the arts. To fulfill its economic development mission, the Department mobilizes the Business Action Center, the Division on Travel and Tourism, and the NJ Motion Picture & Television Commission to bring businesses to New Jersey and strengthen the state economy. The Department also houses entities responsible for volunteerism; Hispanic policy, research, and development; faith-based initiatives; and other integral topics.

The appropriations for the senior public institutions of higher education and the State Library, which are autonomous, are displayed within the Department of State. The Office of the Secretary of Higher Education (OSHE) and the Higher Education Student Assistance Authority (HESAA) are also displayed within the Department of State, however each entity operates independently and apart from the Department of State. Appropriations for other higher educational services are included in the Department of the Treasury.

**Budget Highlights**

The fiscal year 2020 budget for the Department of State excluding Higher Education, totals \$71.1 million, an increase of \$0.7 million or 1% over the fiscal 2019 adjusted appropriation of \$70.4 million.

**Business Action Center**

The New Jersey Business Action Center (NJBAC), housed within the New Jersey Department of State, is the "one-stop shop" for businesses to access a variety of resources and support. The NJBAC offers free and confidential assistance to help businesses grow through government navigation and permitting assistance. The team helps companies of all sizes save time and money by getting answers from government agencies, directing businesses to appropriate officials and contacts, facilitating meetings and follow-ups from regulatory agencies, and offering export promotion assistance. For more information, members of the business community may visit [www.newjerseybusiness.gov](http://www.newjerseybusiness.gov) or call 1-800-Jersey7.

The New Jersey Division of Travel and Tourism, in partnership with the travel industry, develops and promotes New Jersey as a diverse travel destination with a goal to increase revenues, investments and employment, thereby contributing to the state's larger economic prosperity and quality of life.

In fiscal 2020, Direct State Services funding of \$13.1 million is recommended for the BAC. This total includes \$9 million for Travel and Tourism and \$450,000 for the Motion Picture and Television Commission. Funding for Travel and Tourism comes from revenue derived from the State hotel and motel occupancy fee.

**History**

The purpose of the New Jersey Historical Commission is to preserve our state's past while creating a living history of the Garden State for residents and visitors alike. To accomplish this goal, the 17-member Commission presents public programs, produces publications and media projects and provides curriculum material for students and teachers. The Commission also has a competitive grant program for museums, historical sites and other nonprofit and local government organizations, as well as for individual teachers and researchers.

Overall, these grants contribute to the state's economy by promoting heritage tourism and are monitored by the Historical Commission. The total fiscal 2020 recommendation of \$4.5 million includes \$679,000 of Direct State Services and \$2.7 million of Grants-In-Aid funding for the New Jersey Historical Commission's competitive agency grants program, which is funded with revenue derived from the State hotel and motel occupancy fee.

**Museum Services**

As a center of cultural, educational, and scientific engagement, the New Jersey State Museum (NJSM) inspires innovation and lifelong learning through collections, exhibitions, programs, and research in archaeology and ethnography, cultural history, fine art, and natural history. The State Museum engages visitors of all ages and diverse backgrounds in an exploration of New Jersey's cultural and natural history presented within a global context. Since 2011, the NJ Veterans Memorial Arts Center operations have been administered by the NJSM. Completed in 1932, the War Memorial is a rental performance venue and community center which includes the Patriots Theater, a 1,833-seat auditorium; the 4,000-square foot George Washington Ballroom; the 3,000-square foot Delaware River Room, and several other meeting rooms. The total fiscal 2020 budget for the NJ State Museum is recommended at \$2.2 million.

**Culture and the Arts**

The goal of the New Jersey Cultural Trust is to ensure a stable and healthy cultural industry in New Jersey that is sustainable under fluid, uncertain economic conditions through the establishment of permanent endowments to nonprofit arts, history and humanities organizations. The Trust was created to match private dollars to State dollars on a one-to-one basis. It provides grants to qualified organizations for three purposes: building endowments, financing capital projects and improving organizational and financial stability. Funding for the Cultural Trust comes from revenue derived from the State hotel and motel occupancy fee.

Since 1966, the New Jersey State Council on the Arts (NJSCA) has been driven by its founding directive to support the arts statewide. The total fiscal 2020 recommendation of \$17.5 million includes \$405,000 of Direct State Services and \$16 million of Grants-In-Aid funding for competitively awarded Cultural Projects grants. Funding for NJSCA Grants-In-Aid comes from revenue derived from the State hotel and motel occupancy fee.

The NJSCA has established a rigorous, competitive and transparent process for the granting of funds appropriated by the State and federal government for the benefit of artists, arts organizations, and the diverse constituencies across New Jersey. Grant accountability is assured through grant contracts, reports, and financial audits. The Council also supports several cross-sector partnerships that touch other industries such as education, tourism and health care - among others, the Council actively promotes participation in the arts through a variety of robust marketing and social media initiatives through Discover Jersey Arts and State of the Arts. Council funding supports nearly 700 arts organizations throughout New Jersey, two-thirds of which receive grants through the Council's longstanding partnership with 21 County Cultural and Heritage Organizations. According to the most recent reports required for submission by grantees, the State's \$16 million of Grants-in-Aid funding to the Council leveraged private matching dollars of \$36 million and supported \$288 million in local spending by New Jersey Arts Organizations. This resulted in employment for more than 23,000 workers at events attracting over 7.5 million visitors, who spent an additional \$233 million. In total, the Council's \$16 million appropriation leveraged over \$500 million of local economic impact.

**Office of the Secretary of State**

The Office of the Secretary of State develops mission-critical

initiatives with statewide impact. It exercises vital supervisory functions over Department divisions, overseeing all Department operations and communications and is responsible for managing and coordinating the Department's policy review and decision-making processes, serving as a clearinghouse for the submission of all policy documents for the Secretary's review and approval. The Office also strategizes, develops, and carries out the implementation of any legislation, regulation, or other legal action as well as maintains key relationships with the legislative branch and officials at different levels of government.

The fiscal 2020 Direct State Services recommendation for the Office of the Secretary of State is \$5.7 million, which will support the daily operations of the Office of the Secretary of State and the Division of Programs.

Grants-In-Aid funding of \$3 million is recommended, including \$1.3 million for the Office of Programs, \$1.2 million for the Center for Hispanic Policy, Research and Development and \$500,000 for the Cultural Trust. The Office of Programs funding will support competitive grants that enable faith-based and community-based organizations to undertake a variety of social service activities.

### **Division of Elections**

A total of \$10.8 million is recommended in fiscal 2020 for the Division of Elections: \$3.8 million of Direct State Services funding is recommended for the Division's operations which includes \$3.2 million to maintain the Statewide Voter Registration System and \$7 million of State Aid funding is recommended to reimburse counties for a portion of the cost of annual Election Day services of county Boards of Election.

### **Archives**

The Division of Archives operates the State Archives, New Jersey's research center for public records of enduring historical value, providing reference and consultative services to thousands of researchers, historians and record-keepers annually. The fiscal 2020 budget for the Division of Archives is recommended at \$1 million.

### **Higher Education**

The Office of the Secretary of Higher Education (OSHE) is a coordinating entity that is entrusted with statewide planning, policy development, and advocacy to ensure that every citizen no matter their zip code has the opportunity to obtain a high quality degree or credential and lead a productive life. The Office of the Secretary of Higher Education's main functions are program approval and licensure, data collection and reporting, and policy development for higher education in the State, as well as the administration of State and federal grant programs. The Secretary or designee sits on the Higher Education Student Assistance Authority and Educational Facilities Authority boards, as well as on dozens of other task forces and commissions for the State. The Secretary makes recommendations on the higher education budget, student aid levels and on the advancement of a coordinated state plan for higher education.

OSHE works to enhance postsecondary student success and to position New Jersey's institutions of higher education as research and economic engines for the state. The Secretary is working to fulfill the State's commitment to increase postsecondary attainment to 65% by 2025 in alignment with the workforce needs of the state. We will reach this goal by: closing equity gaps, improving college completion and reengaging adults.

Critical programs supported and/or administered by this office include the Community College Opportunity Grant (CCOG) and the Educational Opportunity Fund (EOF). CCOG offers free tuition to community college students meeting eligibility requirements. The EOF program is a nationally acclaimed model that supports over 19,000 academically and economically underserved students for undergraduate and graduate study at public and private institutions of higher education in New Jersey. Other state programs include College Readiness Now, the Governor's School, and the College Bound program, which provide specialized enrichment experiences to students.

OSHE will continue to advance education innovation through partnerships with the Economic Development Authority via ResearchwithNJ and the Educational Facilities Authority in administering the State-backed bonds for capital improvement. OSHE also works in collaboration with the Department of Labor and Workforce Development, Department of Education, Higher Education Student Assistance Authority and the Heldrich Center For Workforce Development to oversee the New Jersey Education To Earnings Data System (NJEEDS), the State's longitudinal data system.

The mission of OSHE is to develop policies and programs that provide students from all backgrounds accessible and affordable higher education opportunities that prepare them for success in life after college. The Secretary is committed to supporting programs that will reduce achievement gaps, increase completion rates and improve affordability.

The fiscal 2020 recommendation for the Office of the Secretary of Higher Education is \$1.7 million for Direct State Services and \$52.4 million in Grants-in-Aid, which includes \$47.6 million for EOF grants.

The mission of the Higher Education Student Assistance Authority (HESAA) is to help New Jersey students and their families identify postsecondary educational opportunities, and to assist them in financing the associated costs. HESAA administers most State funded student financial aid programs in New Jersey and collaborates with the Federal Student Aid office of the U.S. Department of Education to promote college affordability. Funding for the Tuition Aid Grant (TAG) program in fiscal 2020 is \$437.9 million, which is a \$5 million increase from the fiscal 2019 level. To continue working toward the Governor's goal of tuition-free community college, this budget also includes a funding recommendation of \$58.5 million for Community College Opportunity Grant (CCOG). For further information on the Authority's programs, please visit [www.hesaa.org](http://www.hesaa.org).

### **The State Library of New Jersey**

The State Library, associated with Thomas Edison State University, collects and maintains library resources and provides information to State government and the general public. Additionally, the Library provides consulting and technical assistance to public, school, institutional and special libraries. The fiscal 2020 budget maintains Direct State Services funding at \$5.3 million and State Aid funding at \$8 million.

**30. EDUCATIONAL, CULTURAL, AND INTELLECTUAL DEVELOPMENT  
36. HIGHER EDUCATIONAL SERVICES**

**OBJECTIVES**

1. To focus on improving access and outcomes for students in postsecondary education and to enhance the economy through innovation, research and workforce development.
2. To increase credential attainment and post-secondary education opportunities, to identify exemplary student support services that promote success for all students, particularly those who have been traditionally underserved. To meet the goal of having 65 percent of New Jersey adults achieve a post-secondary degree, certificate or industry-valued credential by 2025. To keep the focus on equity in all that we do.
3. To collect, analyze and publish data that will enhance our understanding of student and institutional outcomes.
4. To develop and promote policies that encourage affordability for students and the State while increasing credential attainment.
5. To ensure effective and efficient administration of State and federal funds in compliance with laws and regulations and to promulgate regulations to effectuate New Jersey statute.
6. To develop a comprehensive plan that guides policy and planning for higher education in the state.

practices among institutions and for providing opportunities for college administrators to learn from other leaders in the field to develop exemplary work-based learning programs in the state.

In 2017, the New Jersey Legislature passed a law requiring all institutions of higher education to develop reverse transfer pathways—that is, transfer from four-year institutions to two-year institutions when that outcome might be more suitable for the student in obtaining a degree. The legislation also requires colleges in the state to develop a statewide reverse transfer agreement. The legislation tasks OSHE with supporting institutions in meeting these goals, and with producing an annual report on reverse transfer. To support this effort, OSHE has joined on as an inaugural member of the Degrees When Due cohort to learn how to implement strategies aimed at identifying degree-eligible students and successfully reengaging stopped-out students. This national initiative led by The Institute for Higher Education Policy (IHEP) assists states and postsecondary institutions in closing attainment gaps and improving degree completion, especially for students with some college, but no degree.

Petitions for licensure of new degree-granting institutions are evaluated by OSHE, which periodically reviews existing licenses and is a critical resource for regional and national accrediting agencies.

OSHE administers the nearly \$1.3 billion allocated under the Higher Education Capital Financing Grant Programs which include the Building Our Future Bond Program, the first State-backed funding for higher education construction in 25 years. Bond projects remain underway, and requests for amendments are reviewed on a rolling basis. Projects are reviewed and administered with assistance from the Educational Facilities Authority and other State agencies.

The College Readiness Now (CRN) program, administered by OSHE, supports collaboration between 19 community colleges and area high schools to identify low-income students who are not “college ready” through the use of diagnostics and feedback from local high schools. Once identified, the students are given the option to participate in bridge courses designed to improve their academic, study and test-taking skills. In addition, some of the community colleges will also offer an opportunity for CRN students to participate in dual enrollment programs that allow them to earn college credit at no cost.

The New Jersey Education to Earnings Data System (NJEEDS) is a statewide longitudinal data system administered by OSHE in partnership with the New Jersey Departments of Education and Labor and Workforce Development, the Motor Vehicle Commission, HESAA and Rutgers University. The NJEEDS initiative will enable the

80. **Statewide Planning and Coordination for Higher Education.** The Office of the Secretary of Higher Education (OSHE) develops policies designed to increase postsecondary education attainment for New Jersey residents, in alignment with the Governor’s economic vision, as outlined in the state plan for higher education.

In fiscal year 2019, OSHE administered the funds that supported the planning grants for community colleges to develop best practices in programmatic responsibilities under the Governor’s tuition-free community college initiative. In fiscal year 2020, OSHE working collaboratively with the Higher Education Student Assistance Authority (HESAA), will incorporate lessons learned to support the Community College Opportunity Grant (CCOG) initiative. OSHE is responsible for working with institutions to ensure that they develop appropriate programs, which include best practices and support mechanisms to successfully operate CCOG programs. The CCOG initiative’s success and sustainability is critical in improving college affordability and expanding opportunity for more state residents.

To increase opportunities for apprenticeship, the Secretary sits on the Governor’s Apprenticeship Task Force, where OSHE is responsible for engaging postsecondary institutions in apprenticeship opportunities and connecting to business and industry partners. OSHE is also responsible for sharing best

State to make data-informed decisions on policies and practices from pre-k through high school, postsecondary and into the workforce while building the State’s capacity to measure the success of the education-workforce pipeline. NJEEDS allows the State to share and analyze data about the outcomes of college graduates after they enter the workforce, as well as inform K-12 schools about the success of their students in higher education, providing a critical feedback loop for educational instruction and reform.

Since its inception in 1986, the College Bound program has worked in collaboration with New Jersey colleges and universities to serve middle and high school students with a focus on providing support and guidance to low and middle-income students. The College Bound program strives to provide these students with an environment that fosters the value of post-secondary education and access to the tools needed for their success. By enhancing the College Bound program, the State will be able to continue to provide these critical services to our most vulnerable students as OSHE pursues additional federal funding from the GEAR UP program in the future.

OSHE administers the Governor’s School of New Jersey, an intensive summer enrichment program for academically talented high school students who live on campus and are taught by university faculty. The Governor’s School helps foster students’ interests in careers in Science, Technology, Engineering and Math (STEM).

OSHE has launched a number of important initiatives within the past several years to galvanize higher education on key

issues, including on STEM pathways, Prior Learning Assessments, campus sexual assault, and designation of colleges as “Anchor Institutions”. The Secretary will be working to determine how these legacy initiatives fit in with the Governor’s new vision for higher education and align with the State’s emerging plan for postsecondary education.

81. **New Jersey Educational Opportunity Fund.** The New Jersey Educational Opportunity Fund (N.J.S.A.18A:71-28 et seq.) is administered by the Office of the Secretary of Higher Education. The Educational Opportunity Fund (EOF), which recently celebrated its 50th Anniversary, supports educationally and economically disadvantaged students for undergraduate, graduate and professional study at public and independent higher education institutions. Opportunity Grants are awarded to students during the academic year to assist them in meeting college expenses such as fees, books, room, board and transportation. Summer program grants primarily assist incoming students who are making the transition to college. Students now have the opportunity to receive grants for the winter session, which allows them to take advantage of alternate semesters and help them shorten their time to degree. Through Supplementary Education Program Grants, EOF enables colleges and universities to provide a wide array of campus outreach and support services, and this year it expanded to two additional campuses.

### **30. EDUCATIONAL, CULTURAL, AND INTELLECTUAL DEVELOPMENT**

#### **36. HIGHER EDUCATIONAL SERVICES**

##### **2405. HIGHER EDUCATION STUDENT ASSISTANCE AUTHORITY**

###### **OBJECTIVES**

1. Provide students and families with the financial and informational resources for students to pursue their education beyond high school.
2. Assist in ensuring that access to an affordable college education is maintained for all eligible New Jersey students.
3. Determine eligibility for and provide efficient delivery of Tuition Aid Grant (TAG) awards, scholarships and other State and federal student financial aid to qualifying New Jersey students.
4. Collect and service federal student loans on behalf of the U.S. Department of Education.
5. Issue bonds and borrow money to provide supplemental student loan assistance to New Jersey resident students and their families as well as to non-resident students attending New Jersey institutions through the New Jersey College Loans to Assist State Students (NJCLASS) program.
6. Administer the New Jersey Better Educational Savings Trust (NJBEST), the State's 529 College Savings Plan.
7. Serve as the lead State agency in providing policy leadership in the area of student financial aid.

###### **PROGRAM CLASSIFICATIONS**

45. **Student Assistance Programs.** The Higher Education Student Assistance Authority (HESAA) is charged with the development of student assistance policy as well as administering the delivery of the State's Tuition Aid Grant programs (TAG), the New Jersey Student Tuition Assistance Reward Scholarship (NJSTARS) programs and all other State scholarship programs; the award and payment systems for the Educational Opportunity Fund (EOF) academic year student grants (the largest component of the EOF program); issuance and servicing of New Jersey College Loans to Assist State Students (NJCLASS); and administration of the State's 529 college savings plan, New Jersey Better Educational Savings Trust (NJBEST). Student Assistance Programs include all student financial assistance programs for eligible residents of the state that are administered under the Executive Director of HESAA.

TAG awards are made under the New Jersey Higher Education Student Assistance Authority Law, N.J.S.A.18A:71B-18 et seq., to all eligible New Jersey residents attending New Jersey post-secondary institutions, including community colleges, State colleges and universities, independent colleges and universities, and degree-granting proprietary institutions. Award amounts vary depending on the institution attended, and award amounts decrease as a family's ability to pay increases. Ability to pay is determined by the New Jersey Eligibility Index (NJEI) using need analysis standards and procedures developed by HESAA and administered based on responses to the Free Application for Federal Student Aid (FAFSA), as well as information HESAA collects directly from applicants. The TAG program is a broad-based State student assistance program, which coordinates with federal need-based student aid programs.

As such, a TAG grant may be awarded in conjunction with a federal award, an EOF grant and/or a State scholarship award.

The Part-Time TAG program for county college students supports eligible, qualified part-time students enrolled at county colleges. Part-time grant awards are pro-rated against the full-time grant awards. The Part-Time TAG for EOF Students program provides awards to students who are counseled to attend part-time.

The Community College Opportunity Grant aims to reduce the financial obstacle to earning an associate's degree. This assistance program will enable recent high school graduates and adults who meet the eligibility requirements to attend community college tuition- and fee-free.

NJSTARS I is a merit-based scholarship which covers the cost of tuition not otherwise covered by other State and/or federal grants and scholarships, at one of New Jersey's 19 community colleges for eligible New Jersey high school students. The NJSTARS II scholarship, provides eligible NJSTARS I recipients who graduate from a county college, meet the GPA requirement and enroll at any New Jersey TAG participating 4-year college or university with an annual award of \$2,500, paid entirely by the State.

The Governor's Urban Scholarship Program provides a merit award of up to \$1,000 annually to students who reside in one of 14 high-need communities in New Jersey. To qualify, students must be a resident of New Jersey for at least 12 consecutive months prior to high school graduation and upon college enrollment and be in the top 5% of their class, have at least a 3.0 grade point average by the end of their junior year of high school and have a New Jersey Eligibility Index (NJEI) less than 10,500. In addition, a persistency award of \$500 is provided to students in their final term of the scholarship upon completion of their associate or baccalaureate degree.

New Jersey World Trade Center Scholarships, which cover the costs of undergraduate education, may be awarded to dependent children or spouses of New Jersey residents who were killed or are presumed dead as a result of the September 11 terrorist attacks. In addition, the program funds the dependent children and spouses of those who died as a result of injuries received in the attacks or had direct contact with the attack sites and who died as a result of illness caused by exposure to the attack sites. Amounts are set annually by the World Trade Center Board. Currently, awards of \$5,000 are available for full-time study in degree-granting programs in- or out-of-state.

The NJBEST, a 529 college savings program, helps families finance the cost of higher education. Interest earned on NJBEST college savings is New Jersey and federally tax exempt. In addition, a student who saves the minimum required amounts through NJBEST and attends college in New Jersey is awarded up to a \$1,500 one-time scholarship.

The NJCLASS loan program, N.J.S.A.18A:71C-2 et seq., supplements aid available for New Jersey undergraduate and graduate students and out-of-state students attending a New Jersey institution. Under the NJCLASS loan program, HESAA makes student loans to eligible borrowers from the

proceeds of tax-exempt bonds issued by HESAA. HESAA reviews all applications to determine the applicants' ability to repay loans and services loans after disbursement. The interest rate paid by borrowers is set with each bond issue in relation to bond market conditions. The amount borrowed may not exceed a student's estimated cost of attendance minus all other financial assistance received by the student for the academic period for which the loan is intended.

HESAA is responsible for an array of loan-related services on behalf of the federal government, including providing public information regarding federal loan programs, other federal

student assistance programs, loan default prevention, primary insurance on student loan defaults for lenders of Federal Family Education Loan Program (FFELP) loans, location and pursuit of defaulters, and collection and remission of defaulted loan repayment amounts from borrowers to the federal government. HESAA administers federally regulated programs providing for the guarantee or insuring of FFELP loans made by banks, savings and loan associations, credit unions or other qualified lenders to qualified persons to assist them in meeting the cost of post-secondary education.

Such amounts as may be necessary are appropriated from Tuition Aid Grants to fund awards for undocumented students as set forth in P.L.2018, c.12 or incarcerated individuals, subject to the approval of the Director of the Division of Budget and Accounting. The unexpended balances reappropriated to the Tuition Aid Grant account shall be available to fund increases in the number of applicants qualifying for full-time Tuition Aid Grant awards, to fund increases in award amounts, and to fund shifts in the distribution of awards that result in an increase in program costs.

In addition to the amount hereinabove appropriated for Tuition Aid Grants, there are appropriated such amounts as are required to cover the costs of increases in the number of applicants qualifying for full-time Tuition Aid Grant awards or to fund shifts in the distribution of awards that result in an increase in total program costs, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, participation in the Tuition Aid Grant program hereinabove appropriated shall be limited to those institutions that had previously participated in the Tuition Aid Grant program, or had applied in writing to the Higher Education Student Assistance Authority to participate in the Tuition Aid Grant program prior to September 1, 2009 and met all eligibility requirements prior to September 1, 2009.

The tuition aid grants shall be used to pay the tuition at a county college established pursuant to N.J.S.18A:64A-1 et seq. Within the limits of available appropriations as determined by the Higher Education Student Assistance Authority, part-time grant awards shall be pro-rated against the full-time grant award for the applicable institutional sector established pursuant to N.J.S.18A:71B-21 as follows: an eligible student enrolled with six to eight credits shall receive one-half of the value of a full-time award and an eligible student enrolled with nine to eleven credits shall receive three-quarters of a full-time award. Students shall apply first for all other forms of federal student assistance grants and scholarships; student eligibility for the Tuition Aid Grant program for part-time enrollment at a county college shall in other respects be determined by the authority in accordance with the criteria established pursuant to N.J.S.18A:71B-20, other than the criterion for full-time enrollment.

The unexpended balances reappropriated to the Part-Time Tuition Aid Grants for County Colleges account shall be available to fund increases in the number of applicants qualifying for Part-Time Tuition Aid Grants for County Colleges awards, to fund increases in award amounts, and to fund shifts in the distribution of awards that result in an increase in program costs.

Notwithstanding the provisions of subsection b. of section 5 of P.L.2004, c.59 (C.18A:71B-85), none of the funds hereinabove appropriated for the New Jersey Student Tuition Assistance Reward Scholarship program shall be used to fund summer semester NJ STARS scholarship awards.

Notwithstanding the provisions of P.L.2012, c.8 (C.18A:71B-85.6 et al.) or any other law or regulation to the contrary, the amounts hereinabove appropriated for the New Jersey Student Tuition Assistance Reward Scholarship program are subject to the following condition: the maximum New Jersey Student Tuition Assistance Reward Scholarship awards for students first enrolling in the program for academic year 2015-2016 and thereafter who attend a county college that has eliminated general education fees and increased its tuition correspondingly will be reduced by an amount to be calculated and approved by the Director of the Division of Budget and Accounting. The amount of the reduction shall be the three-year average percentage that fees comprised of total tuition and fees as reported to the Higher Education Student Assistance Authority (HESAA) on the institutional budget survey in the three immediate years prior to the elimination of the general education fees.

The unexpended balances at the end of the preceding fiscal year in Student Assistance Programs are appropriated to such programs, subject to the approval of the Director of the Division of Budget and Accounting.

#### **36. HIGHER EDUCATIONAL SERVICES**

##### **2409. STATE COLLEGES AND UNIVERSITIES**

The State provides higher education through 11 senior public institutions of higher education: 4 research universities and 7 comprehensive colleges and universities. Each of these 11 institutions maintains its own operational autonomy under a separate governing board, but under the statutory oversight and policy framework established by the State. The senior public institutions retain all tuition, fees, grants and any other revenues earned by the institution.

The operational totals reflect the institutions' overall budgets, including auxiliary operations as well as tuition, fees, federal funds and other revenues, while the Total State Appropriation reflects the net State support provided to the institutions, excluding State-funded fringe benefits, auxiliary operations and all revenues.

## OBJECTIVES

1. To provide quality, affordable baccalaureate programs in the humanities, arts, sciences and professional fields to full-time and part-time undergraduates, enabling graduates to enter productive careers and advanced study in graduate and professional schools.
2. To provide quality post-baccalaureate education in the humanities, arts, sciences and professional fields.
3. To stimulate the continuous development of knowledge in the humanities, arts, sciences and professional fields by professional teacher-scholars as a complement to rigorous classroom inquiry by students and faculty.
4. To make available to the community the professional competence and expertise of faculty and students, and other institutional resources, such as concerts, performances, lectures and facilities.
5. To meet the needs of faculty and students for current, accessible information.
6. To ensure the personal, social and intellectual growth of each individual student.
7. To ensure that each campus and its facilities are safe, secure and well-maintained.

## PROGRAM CLASSIFICATIONS

82. **General Institutional Operations.** Encompasses all operations of the senior public colleges and universities, including instruction, research, extension and public service, auxiliary services, academic support, student services, institutional support and operations and maintenance of physical plant.

Instruction includes all support for academic departments and the operation of related facilities, such as laboratories, so that knowledge can be developed and disseminated through independent research and classroom interaction.

Faculty and students engage in basic and applied research at the behest of various sponsors, including the federal, State and local governments, foundations, corporations and trade associations. Much of this research is aimed, directly or indirectly, at increasing the sponsor's effectiveness or stimulating economic growth.

Extension and public service includes not-for-credit programs offered both on- and off-campus for working professionals and non-matriculating students to develop, maintain and improve professional competence in a wide variety of fields. Other outreach programs make the

institutions' resources available to their communities, the region and the state.

Academic support provides the books, periodicals, documents, audio-visual materials and other information that may be required by students and faculty in connection with their learning, teaching and research. Staff provide bibliographic and other technical assistance to students and faculty to meet their needs in planning and developing academic programs and in carrying out independent research.

Student services include financial assistance, health services, placement and counseling. This category also encompasses admissions, registration and student records.

Institutional support comprises all administrative activities of the institution. Under the direction of an institution's governing board and president, executive leadership and management are provided to meet the institution's educational, research, public service and administrative objectives. General support services include computer services, personnel management and financial management for all educational, service and administrative units within the institution.

Physical plant and support services staff are responsible for the overall security of the institution and for the planning, management and operation of its physical assets, including utilities, buildings, grounds and equipment.

General Services Income is derived from tuition and fees collected from both undergraduate and graduate students.

Auxiliary Funds Income is derived from fees charged for auxiliary services provided to students, faculty and staff, such as housing, dining facilities, book stores and recreational facilities. These fees are directly related to, although not necessarily equal to, the cost of the services. Any surplus revenues are held in reserve for major renovations and replacements, or to balance funds in an emergency.

Special Funds Income is composed of ancillary activities of an institution. These may include, but are not limited to, continuing education, research grants, fellowships and scholarships.

Employee Fringe Benefits are provided to the institutions by the State for all employees. The institutions are then responsible for reimbursing the State for those employees beyond the number of State-funded employees as shown in the Evaluation Data. The amount displayed in the Appropriations Data represents the total fringe benefits allocation for the institutions' State-funded employees.

#### 2410. RUTGERS, THE STATE UNIVERSITY - NEW BRUNSWICK

Founded in 1766, as one of the colonial colleges, Rutgers became The State University in 1956 (N.J.S.A.18A-65.1 et. seq. as amended) with a reorganized Board of Trustees and a newly created Board of Governors. In 2012, with the enactment of the "New Jersey Medical and Health Sciences Education Restructuring Act" (P.L.2012, c.45), the schools, institutes and centers of the University of Medicine and Dentistry of New Jersey (UMDNJ), other than the School of Osteopathic Medicine, were transferred to Rutgers University effective July 1, 2013. Also, the "Restructuring Act" required that the Legislature appropriate directly to Rutgers - Newark and Rutgers - Camden the State support for the operation and fringe benefit costs of those campuses.

With the addition of the former UMDNJ facilities, the University now operates two allopathic medical schools, a dental school and schools of biomedical sciences, health-related professions, nursing and public health. Rutgers University continues UMDNJ's pursuit of excellence in the undergraduate, graduate, postgraduate and continuing education of health professionals and scientists; conducts biomedical, psychosocial, clinical and public health research; health promotion, disease prevention and the delivery of health care; and service to its communities and the entire state. Through these programs and affiliations, the University seeks to meet the needs of its diverse communities and improve the health

# STATE

and quality of life of the citizens of New Jersey and society at large.

Rutgers - New Brunswick is the oldest and largest campus of Rutgers, The State University of New Jersey. As the flagship, it serves as the locus of Rutgers' membership in the Association of American Universities (AAU), a nonprofit association of 60 US and two Canadian preeminent public and private research universities. Rutgers was accepted into the Big Ten athletic conference, on July 1, 2013, and is a member of the Big Ten Academic Alliance, a consortium of Big Ten universities. Membership in the Big Ten Academic Alliance means that Rutgers students now have access to some courses, programs and libraries at these Big Ten institutions.

Rutgers - New Brunswick will offer approximately 394 degree

programs and 8,818 courses in fiscal year 2020. The number of degrees granted is estimated to be 13,539. The number of full-time and part-time students served is projected to exceed 49,100, as well as over 15,480 students projected to attend summer session.

Research at Rutgers - New Brunswick has earned the support of commerce, industry, the State and federal governments, and philanthropic organizations, as well as financing from the University's funds. Extension work, designed to take the University's teaching function directly to the people of the state, is another major responsibility of the University. Such services range from the work of the county agricultural, home economics and 4-H club agents to non-credit courses, including post-graduate work in technical and professional fields.

**2416. RUTGERS, THE STATE UNIVERSITY - CAMDEN**

Rutgers - Camden is one of three regional campuses that comprise Rutgers, The State University of New Jersey, which is the eighth-oldest college in the United States and a member of the Association of American Universities. Located in southern New Jersey, just across the Delaware River from historic Philadelphia, Rutgers - Camden has a proud tradition of educating first-generation college students for successful careers and productive citizenship. The campus supports a productive research faculty who turn new knowledge into creative solutions, and shares its expertise with partners, local and global, to improve individual lives and build stronger communities.

Founded in the 1920s, Rutgers - Camden began as the South Jersey Law School and the College of South Jersey. In 1950, the two schools became the Camden campus when it merged with Rutgers, The State University of New Jersey.

After decades of providing students with a comprehensive Liberal Arts curriculum along with Legal Studies, in 1981, Rutgers - Camden began to offer its first master's degree programs in Biology, English and Business Administration. In 1989, the growing demand for business offerings led to the founding of the School of Business - Camden, the first business school in southern New Jersey to earn prestigious accreditation from the Association to Advance Collegiate Schools of Business International. Rutgers - Camden achieved another academic first in 2007: launching the first doctoral program on its campus and the very first of its kind in the nation with the PhD degree in Childhood Studies.

Today, Rutgers - Camden boasts two additional PhD degrees in Computational and Integrative Biology and Public Affairs, as well as a Doctor of Nursing Practice and a Master of Fine Arts in Creative Writing. The Business School offers a four-year undergraduate business curriculum along with MBA, and

professional master's and executive programs. Rutgers Law School, ranked nationally, boasts a new and impressive facility in Camden complete with a state-of-the-art moot courtroom. In 2011, the School of Nursing - Camden became the newest academic unit at Rutgers - Camden, providing health care institutions throughout the region with high-caliber, scientifically prepared professionals. Rutgers - Camden extends access to the world-class Rutgers experience by offering a wide array of courses at off-site locations across the state including a partnership with Camden County College and course offerings at Atlantic Cape Community College.

Rutgers - Camden will offer approximately 76 degree programs and 1,399 courses in fiscal year 2020. The number of degrees granted is estimated to be 1,857. The number of full-time and part-time students served is projected to exceed 7,115, as well as over 2,385 students projected to attend summer session.

A national model for civically engaged universities, Rutgers - Camden is an integral partner for helping to grow its host city and region, taking a leadership role in the Camden Rising movement through its investment in the city's critical "eds and meds" corridor. Rutgers - Camden also is a national model for college affordability and access with its Bridging the Gap program. Increasingly, academic programs, research endeavors and student engagement are focused on promoting the growth of southern New Jersey and the Delaware Valley. **2430. NEW JERSEY INSTITUTE OF TECHNOLOGY**

Founded in 1881, New Jersey Institute of Technology (NJIT) has had a distinguished history of offering professional education and emphasizing exemplary programs in economic development, scientific and technological education, job creation, research and service, for the benefit of students, and New Jersey's business, industry, government and education sectors. Its engineering school was founded in 1919, and until 1975 the institution was known as Newark College of Engineering. The New Jersey Institute of Technology Act of 1995 (N.J.S.A.18A:64E) provides the statutory basis for NJIT as a public research university deemed essential and necessary to the welfare of the state and people of New Jersey.

NJIT's bachelors, masters and doctoral degrees, continuing professional education and substantial research effort all relate to fields of critical importance to the state's economy. Programs are offered at the main campus in Newark, at other sites throughout the state and through distance education. Several degrees are offered jointly with Rutgers University.

By design, NJIT's technologically-based research programs are

closely aligned to support the life sciences and other innovation clusters identified in the State Strategic Job Growth Plan as essential to the vibrant economic development of New Jersey. The State Plan clearly recognizes the need for expanding translational research to bring technology and the life sciences to bear on cutting-edge solutions through intensive industry collaborations. NJIT's faculty-led research and its business incubation have produced very considerable results in these areas and promises to do even more. This past year, NJIT's research exceeded \$162 million, and thus far has been issued over 222 patents of which 127 have been licensed to third parties. NJIT is home to the largest technology and life science incubator in the state, fostering the commercialization of research with 90 start-up companies and 800 employees.

The main campus comprises 45 acres containing 40 buildings with some 3.8 million square feet. The campus includes classroom and laboratory buildings, a library, residence halls, an events center, a synthetic turf soccer field, specialized research facilities, 2 parking decks and administrative buildings.

2440. THOMAS EDISON STATE UNIVERSITY**

Established in 1972 under the terms of the State College Law (N.J.S.A. 18A:62-1 et seq.), Thomas Edison State University (TESU) provides distinctive undergraduate and graduate education for self-directed adults through flexible, high-quality collegiate learning and assessment opportunities. TESU is governed by an autonomous 11-member Board of Trustees, which is appointed by the Governor with the advice and consent of the Senate.

The University is one of New Jersey’s senior public institutions of higher education and the only university in New Jersey dedicated exclusively to adults. TESU offers undergraduate and graduate degree programs and certificates in more than 100 specialized areas and currently serves approximately 16,200 enrolled students.

For more than 40 years, TESU has pioneered the use of the latest technologies to develop and deliver academic programs that work around the unique needs of adult learners and has served as a

national leader in the assessment of adult learning. The New York Times called Thomas Edison State University “the college that paved the way for flexibility,” and Forbes magazine identified TESU as one of the top schools in the nation to use technology to create learning opportunities for adults.

The entire academic program at the University revolves around the unique needs of adults, removing barriers that limit many adult students who cannot sacrifice their personal and professional responsibilities to pursue their education. Students earn credit through a variety of methods designed exclusively for adult learners, including online courses, guided independent study, examination programs, courses delivered via mobile devices, maximizing the transfer of credits earned from other regionally accredited institutions, earning credit for professional and/or

military training and by demonstrating college-level knowledge acquired outside of a traditional classroom.

The institution's academic enterprise is housed within the University's five schools: the School of Applied Science and Technology, the Heavin School of Arts and Sciences, the School of Business and Management, the W. Cary Edwards School of Nursing, and the John S. Watson School of Public Service, which also encompasses The John S. Watson Institute for Public Policy of Thomas Edison State University.

The University maintains seven facilities in Trenton, which are open to all residents who seek information and advice concerning educational opportunities available to them within the state system of higher education.

The New Jersey State Library is an affiliate of Thomas Edison State University. The affiliation between the State Library and the University was created by P.L.2001, c.137. The State Library has more than two million holdings and an extensive Jerseyana collection, which covers all aspects of New Jersey. The State Library is charged by legislation with providing leadership and management of state and federal grants to 297 public library systems throughout the state and ensures access to information for all residents of the state. The State Library has two sites: the main library at 185 W. State St., next to the State House Annex, and the Talking Book and Braille Center on Stuyvesant Avenue, which is a special public library that circulates books and magazines intended for people with print disability.

Acknowledged for the quality of its academic offerings, the College has been ranked as one of the best comprehensive colleges in the country since 1993 in US News & World Report's annual survey of "America's Best Colleges." The annual survey for

2017-18 ranked the College number one among public colleges and universities, number two for undergraduate education, and tied for number three in the best Regional Universities category for the North region of the country. In 2017, Kiplinger’s Personal Finance ranked the College number 31 in its list of the 100 “Best College Values” in public higher education nationally and tops the list for the best value institution in New Jersey. In Money Magazine’s 2018 ranking of the “Best Colleges for Your Money,” the College ranked number one among public colleges and universities and second overall in the state. Nationally the College placed 14th among other public institutions of higher education and 24th overall in the nation. A new Academic Quad opened in 2018 and includes both the Unified Science Center and a Health Sciences Center. The campus features a closed-loop geothermal heating/cooling system, and solar panel carports in several parking lots.

In April 2016, the State of New Jersey designated Stockton University as an Anchor Institution in Atlantic City. In Fall 2018, the University opened Stockton University Atlantic City. This new beachfront residential campus provides housing for 533 students, and a 56,000-square-foot Academic Center that serves nearly 1,300 students, as well as the community. The \$178.3 million campus, which is part of the public/private Atlantic City Development Corporation (AC Devco) Atlantic City Gateway Project, also includes a parking garage and retail sites. The opening of Stockton’s Atlantic City campus has already brought new life and investment to the city.

In Atlantic City, the University also owns the Carnegie Center, a 17,335-square-foot historical building, and operates both Dante Hall, an entertainment venue, and the Noyes Arts Garage. The Carnegie Center provides access to undergraduate and graduate

education and offers professional development opportunities for area professionals. This site also hosts the Small Business Development Center for Atlantic, Cape May, and Cumberland Counties, and has become a cultural center and meeting place for non-profit agencies.

The University also operates instructional sites at Kramer Hall in Hammonton, Atlantic County, and Anne Azeez Hall in Woodbine, Cape May County. A site in Manahawkin expanded in January 2018 to meet the growing demand in that county.

The Parkway Building, located on Jimmie Leeds Road in Galloway, hosts the Southern Regional Institute and Educational Technology Training Center (SRI-ETTC). The SRI-ETTC provides professional development training to one-fourth of all school districts in New Jersey.

Two regional medical facilities are located on the Galloway campus. The University also operates a Marine Science Laboratory along Nacote Creek in Port Republic. Housing is available on both the Galloway and Atlantic City campuses to accommodate students in apartment- and dormitory-style living arrangements.

Stockton University is also working with partners to develop the National Aviation Research and Technology Park (NARTP) in Egg Harbor Township. The \$17.2 million, 66,000-square-foot building is the first of seven planned for the 58-acre park located adjacent to the FAA William J. Hughes Technical Center and Atlantic City International Airport. This will serve as the hub for a regional Aviation District involving aviation maintenance, next generation unmanned aircraft systems, and aviation-related research and development initiatives.

**30. EDUCATIONAL, CULTURAL, AND INTELLECTUAL DEVELOPMENT****37. CULTURAL AND INTELLECTUAL DEVELOPMENT SERVICES****OBJECTIVES**

- To increase public participation in the arts, develop audience education in the arts, increase total artistic resources and increase the availability of professional training in the arts.
- To collect fine art objects (paintings, sculptures, prints, drawings), decorative art objects (furniture, ceramics, metals, glass, etc.), ethnological and archaeological materials, scientific specimens with a New Jersey focus and specimens from other cultures and regions for comparative purposes.
- To inspire public pride in New Jersey's rich historical heritage among citizens of all ages, occupations and social backgrounds.
- To support heritage tourism and cultural programs through advertising and promotion of the state's historic and cultural sites.

**PROGRAM CLASSIFICATIONS**

- Support of the Arts.** The State Council on the Arts (N.J.S.A.52:16A-25) provides grants and services to art organizations and artists in New Jersey whose projects show professional merit, promise, and positive public impact. Since 1966, the Council has been driven by its founding directive to support the arts statewide to: support, encourage, and foster public interest in the arts; enlarge public and private resources devoted to the arts; promote freedom of expression in the arts; and facilitate the inclusion of art in every public building in New Jersey. With State and federal resources, the Council's 17 member, Governor-appointed, volunteer board and professional staff

carry out a dynamic roster of grant programs and public services, strategically implemented to assure the arts are accessible to all, and that New Jersey's arts industry is stable, sustainable, and of the highest quality. The Council seeks and supports partnerships with various public and private entities in order to extend the reach of resources, and ensure that policies and practices benefit and engage New Jersey's diverse constituencies.

- Museum Services.** Materials are collected, exhibited and interpreted (N.J.S.A.18A:73-1 et seq. and N.J.S.A.18A:4-26). Collections are in the areas of fine and decorative arts, cultural history and science. Exhibitions are long-term (those with a permanent orientation, like the Planetarium, the Halls of Natural Science and Cultural History), and short-term (changing exhibits with a focus on fine and decorative arts). Through school and public programs and publications, interpretation of the museum environment is accomplished.

- Development of Historical Resources.** The Historical Commission implements programs to advance public knowledge of the history of New Jersey and the United States. The Commission (N.J.S.A.18A:73-21 et seq.) sponsors programs for the production of educational materials, and conducts conferences, lectures and seminars, including the New Jersey History Symposium, and public activities concerned with significant historical events. It also provides financial Grants-In-Aid programs for research in New Jersey history, local history projects, teaching projects and the Governor Alfred E. Driscoll Fellowship.

## 70. GOVERNMENT DIRECTION, MANAGEMENT, AND CONTROL

## 74. GENERAL GOVERNMENT SERVICES

## OBJECTIVES

1. To coordinate, through the Division of Elections, the safe and secure conduct of elections in all 21 of New Jersey's counties. This important work includes building a robust and enduring culture of civic engagement in our communities.
2. To harness New Jersey's rich cultural, historical and artistic assets to foster collaboration, cooperation and cultivation amongst diverse stakeholders in such areas as culture, heritage and the arts. These efforts extend to the State Museum and State Archives.
3. To support the Governor's innovation economy agenda and fulfill its economic development mission by mobilizing the Business Action Center, the Division on Travel and Tourism, and the NJ Motion Picture and Television Commission to bring businesses to New Jersey and strengthen the state economy.
4. To highlight and promote other critical entities under the Department's purview, thereby elevating such topics as volunteerism; Hispanic policy, research and development; and faith-based initiatives.

## PROGRAM CLASSIFICATIONS

01. **Office of the Secretary of State.** State law provides for the Department of State (N.J.S.A. 52:16-1 et seq.) headed by the Secretary of State. The Office develops mission-critical initiatives with statewide impact. It exercises vital supervisory functions over Department divisions, overseeing all Department operations and communications and is responsible for managing and coordinating the Department's policy review and decision-making processes, serving as a clearinghouse for the submission of all policy documents for the Secretary's review and approval. The Office also strategizes, develops and carries out the implementation of any legislation, regulation or other legal action as well as maintains key relationships with the legislative branch and officials at different levels of government.
02. **Business Action Center.** The New Jersey Business Action Center (BAC), housed within the New Jersey Department of State, is the "one-stop shop" for businesses to access a variety of resources and support. The BAC offers free and confidential assistance to help businesses grow. Government navigation and permitting assistance are just two of many important services offered. The team helps companies of all sizes save time and money by getting answers from government agencies, directing businesses to appropriate officials and contacts, facilitating meetings and follow-ups from regulatory agencies, and offering export promotion assistance. In addition to the Business Advocates, who are experts on all New Jersey state and local services available to help businesses, the BAC also includes a call center, where customer service representatives answer inquiries across a wide range of areas critical to the business community.

For more information, members of the business community may visit [www.newjerseybusiness.gov](http://www.newjerseybusiness.gov) or call 1-800-Jersey-7.

Units of the Business Action Center include:

*Office of Business Advocacy.* The BAC's Business Advocates are the outreach team to businesses in every town in the State. They prepare a customized summary of resources that outline

all of the available assistance and incentive programs to support job creation and retention projects throughout the state. Business Advocates assist clients with real estate site searches as necessary and provide expert guidance on grant and loan programs, workforce recruitment and training grants, energy efficiency incentives, tax credits and municipal incentives and tax abatements.

*Office of Small Business Advocacy.* Advocacy services are provided for New Jersey small businesses seeking financial assistance; mentoring or technical training; regulatory assistance; emergency preparedness or access-to-recovery services; or site selection services. Financial resources are available to link small businesses and start-ups with a variety of financing options through the New Jersey Economic Development Authority (NJEDA) and community-based microlenders. Our advocates also provide procurement assistance to help small businesses take advantage of important opportunities to bid on government contracts.

*Call Center.* The BAC manages a Call Center which handles approximately 25,000 inquiries each year for guidance in both English and Spanish on starting a business, incorporating, and accessing government resources. The Call Center also serves as an important resource in the event of emergencies, storms and other disasters, providing crucial information and guidance to help businesses recover quickly after a crisis.

*Office of Export Promotion.* Companies interested in global business activity can tap into a number of resources available through the BAC's export promotion unit. Global Business Advocates help small to mid-size businesses develop a viable export plan. Advocates offer guidance in identifying global business opportunities, help locate buyers and potential markets, test local demand and connect businesses with partners for joint ventures and strategic alliances. The export promotion unit can help navigate the complexities of exporting once a company has entered the global marketplace. The Office of Export Promotion administers State Trade Expansion Program (STEP) grants that allow eligible companies to participate in overseas trade shows and trade missions. The STEP, established by the U.S. Small Business Administration in 2011, provides grants on a competitive basis to states to help increase the number of small businesses that are exporting, and to increase the value of exports for small businesses that are currently exporting. Advocates help locate federal resources available for obtaining payment, providing government-to-government advocacy, and understanding foreign custom procedures. The team also provides assistance with regulatory compliance policies and advocates on behalf of companies with customs.

*Office for Planning Advocacy.* The Office for Planning Advocacy is dedicated to the promotion and coordination of sound, effective land use policies. This fosters the growth of economically-vibrant, self-sustaining communities, while protecting and preserving the environment. The Office for Planning Advocacy oversees implementation of the State Development and Redevelopment Plan and coordinates activity of the New Jersey State Planning Commission.

In addition, the Motion Picture and Television Commission is a Division organized under the Business Action Center.

The Division of Travel & Tourism, in partnership with the travel industry, develops and promotes New Jersey as a diverse travel destination with a goal to increase revenues,

investments, and employment, thereby contributing to economic prosperity and quality of life throughout the State.

08. **State Archives.** The State Archives, the state's largest repository and public research center for the study of New Jersey history and genealogy, operates New Jersey's research center for public records of enduring historical value, providing reference and consultative services to thousands of researchers, historians and public record-keepers annually.

25. **Election Management and Coordination.** Coordinates

voter registration and is responsible for the canvassing of votes cast for state and federal offices, constitutional amendments and other public questions. The implementation of the National Voter Registration Act of 1993, Pub.L. 103-31, which broadened the State's Motor Voter law to allow for registration when applying for unemployment or welfare benefits at State and federal offices, in addition to motor vehicle offices, has increased the number of registered voters in the state to nearly six million.

**OVERVIEW**

**Mission and Goals**

The primary mission of the New Jersey Department of Transportation (DOT) is to provide a safe, reliable and efficient multimodal transportation network - one that serves the mobility needs of residents, commerce and visitors in a manner that promotes economic development and ensures environmental responsibility. The DOT's mission statement is, "Improving lives by improving transportation."

New Jersey's highway system has the highest volume of roadway and bridge use in the nation, while the network's size and scope make it one of the more complex systems to maintain in the country. The activity at New Jersey's ports acts as an economic catalyst for the state, region and nation.

Managing New Jersey's complex transportation system requires a comprehensive strategy that combines sound capital investment with maintaining a state of good repair. Balanced investments in roads, bridges, public transit, airports and pedestrian facilities help stimulate the state's economy. The DOT is committed to advancing capital construction projects that enhance safety, upgrade aging infrastructure and support new transportation opportunities. The DOT's operations and maintenance programs preserve these capital investments and help to ensure public safety.

By partnering with New Jersey's counties and municipalities, the DOT improves the condition of the local roadway networks through the use of State and federal grants. These grants fund street improvements, rehabilitation and safety projects in various New Jersey towns.

The DOT is organized into five major programs. Maintenance and Operations maintains the state's roads and bridges, ensures the safe and efficient movement of traffic and disseminates real-time traffic information. Physical Plant and Support Services provides for the capital improvements, operation and maintenance of the Department's facilities. Capital Program Management, which includes Capital Program Management, Planning and Grant Administration and Government and Community Relations, is responsible for the development and delivery of the projects and programs that comprise the Capital Program. Multimodal Services coordinates with various modal constituencies, including the non-highway, non-transit capital programs such as aeronautics, ports and rail freight, and administers the DOT's regulatory programs. All of these programs are supported by Administration and Financial Services for the following functions: human resources, information technology, internal audit and investigation, civil rights, budget and capital investment, accounting and procurement.

In October 2016, the "New Jersey Transportation Trust Fund Authority Act" was reauthorized (P.L.2016, c.56) to support the

State's Capital Transportation Program for fiscal years 2017 through 2024. The reauthorization provides a total of \$16 billion in capital spending over the eight-year period, supported by \$12 billion in bonding authority and anticipated pay-as-you-go appropriations.

**Budget Highlights**

The fiscal 2020 budget for the Department of Transportation totals \$1.942 billion, an increase of \$168 million or 9.5% over the fiscal 2019 adjusted appropriation of \$1.774 billion. Primarily, the increase represents growth to support New Jersey Transit operations and Transportation Trust Fund Authority debt service costs. The growth is also offset by a supplemental for winter operations that does not continue into fiscal 2020.

The Governor's Budget includes a recommended capital appropriation of \$1.472 billion for debt service to be provided to the Transportation Trust Fund Authority.

The State's operating subsidy for New Jersey Transit is increased to \$407.5 million from \$307.5 million in the fiscal 2019 adjusted appropriation. The increase is largely attributable to growth in operating expenses, additional hiring needs and a loss of non-recurring resources.

**New Jersey Motor Vehicle Commission**

The mission of the New Jersey Motor Vehicle Commission (MVC) is to promote motor vehicle safety for our citizens by delivering secure, effective and professional motor vehicle services and to achieve public trust and confidence in the quality and integrity of those services.

The MVC, which was created in 2003, is responsible for providing essential motor vehicle services to more than six million drivers in the state. The MVC focuses on improvements in three critical areas: driver and vehicle safety, customer identification and security, and financial sustainability. In order to enhance the overall experience of those motorists, the MVC has focused on providing the highest level of service in the issuance of driver licenses, vehicle registrations, titles and other related business processes while ensuring that security remains a key component of delivering those services.

The MVC has put into place a strong foundation and will continue with its efforts to review the placement of agencies, advance technological changes for improvements in the issuance of secure documents as well as customer convenience and move forward strategically as an organization while continuing to focus on its financial stewardship. Furthermore, the MVC will ensure the safety and security of its documents, employees and the motoring public.

The MVC's budget will continue to be 100% revenue-supported as provided by law.

**10. PUBLIC SAFETY AND CRIMINAL JUSTICE**

**11. VEHICULAR SAFETY**

**OBJECTIVES**

1. To serve the people of New Jersey by delivering secure, effective and professional motor vehicle services and to earn public trust and confidence in the quality and integrity of those services and documents.
2. To identify and regulate drivers and motor vehicles in a manner that deters unlawful and unsafe acts; to ensure excellent service to the public; and, where provided by law and regulation, to collect revenues for the State.
3. To reduce the risk of death, injury, and personal and property loss by identifying remedial action required for unsafe, incompetent and unqualified drivers by: taking corrective or remedial action according to statutes, rules, regulations and policies; reviewing violation and accident data received from New Jersey jurisdictions and other states; and reviewing medical fitness data received from individuals, physicians, police departments and the Motor Vehicle Commission (MVC) Medical Review Unit.
4. To limit the amount of vehicle-produced air pollution in accordance with State and federal regulations through the MVC's Enhanced Inspection and Maintenance Program.
5. To ensure equitable and safe transportation practices by motor carriers while providing maximum revenue to the State.

**PROGRAM CLASSIFICATIONS**

01. **Motor Vehicle Services.** The heart of the Motor Vehicle Commission is the Agency Services group, which includes 40 agencies that provide a host of services to over 6.4 million active licensed drivers and approximately 7.6 million registered vehicles including driver's licensing, vehicle titling and registration. The MVC, through Agency Services, allows customers to register to vote and become an organ donor when conducting a license or non-driver identification card transaction. Supporting the services at these agencies are units for Road Test Operations, Commercial Mobile Compliance, Agency Compliance and Management Operations Services (MOS). MOS includes Special Title Services, Special Plate Services, Government/In-House Agency and Database Corrections.

The Division of Compliance and Safety ensures that drivers of passenger vehicles, commercial vehicles and motorcycles meet all applicable federal and State regulations and standards. The Division plans and implements projects supporting new legislation, regulatory changes and internal initiatives. The MVC remains fully committed to supporting its driver safety related functions such as driver records, the point system, administrative due process, driver improvement programs and medical fitness.

As the primary point of contact for business and government partners, the Division of Business and Government Operations is responsible for the licensing and monitoring of more than 18,000 business entities, including new and used car dealerships, driving schools, auto body repair shops and

private inspection facilities. This Division also administers the International Registration Program, which registers interstate commercial vehicles and the International Fuel Tax Agreement, which standardizes fuel tax reporting for interstate commercial vehicles. The Division contains a third operations area responsible for providing MVC records as allowed under the Driver Privacy Protection Act. By centralizing all business-related functions into one unit, the MVC has improved its level of customer service.

Through the Division of Inspection Services, and in tandem with the Department of Environmental Protection, the MVC oversees a vehicle inspection program, operated by a private vendor, that enforces vehicle inspection standards and conducts emissions testing. Inspection Services personnel also perform federally mandated on-the-road inspections throughout the State. With one of the strictest school bus inspection programs in the country, the MVC performs in-terminal inspections of all New Jersey registered school buses for safety and emission standards on a semi-annual basis along with private bus companies. Finally, in concert with the New Jersey State Police, the MVC performs diesel emission inspections on in-state and out-of-state heavy-duty vehicles as part of its emission program for commercial vehicles.

The Customer Information and Advocacy Unit responds to complaints and inquiries from the general public, and tracks systemic issues to keep the MVC on a path of continuous improvement.

The Division of Security Investigation & Internal Audit (SI&IA) is responsible for the physical security of our employees and customers, and maintains a presence of uniformed guards and/or law enforcement personnel in all 40 agencies. The Division assists in the deterrence and interdiction of fraudulent activities occurring in the agencies, including driver's license, title and insurance fraud; and leverages facial recognition technology to identify and interdict intra-state driver's license fraud. Additionally, SI&IA conducts advanced fraudulent document training to key government and commercial stakeholders in validating identity documents and recognizing documented fraud schemes. SI&IA Title Records Unit also provides expert vehicle title information to all 40 agencies.

The Office of Strategic Communications ensures that New Jerseyans have access to accurate and useful information on the services and activities of the MVC. In addition to communicating directly with the public and through the media about new services, changes, closures, and other important news, the Office manages the "Just Drive" campaign, which educates the public about the dangers of distracted driving.

18. **Security Responsibility.** The MVC oversees the administration of the Motor Vehicle Security Responsibility Law and aids in the administration of the New Jersey Compulsory Motor Vehicle Liability Insurance Law. These laws provide financial protection against motor vehicle accidents by requiring motorists to carry liability insurance, by facilitating compensation for injury or damage caused by uninsured or

financially non-compliant motorists, and by removing non-compliant motorists from the road. The cost of administering the Security Responsibility Law is assessed

against insurance companies writing automobile insurance in New Jersey.

## OVERVIEW

**Mission and Goals**

The mission of the Department of the Treasury is to formulate and manage the State's budget, generate and collect revenues, disburse the appropriations used to operate New Jersey State government, manage the State's physical and financial assets and provide statewide support services to State and local government agencies as well as to the citizens of New Jersey.

The Department has four core mission areas: Revenue Generation (including Cost Management), Asset Management, Services to the Public or other Local Government Entities and Statewide Support Services.

Twelve core divisions focus on achieving the major objectives of these core missions. The Divisions of State Lottery, Taxation and Revenue and Enterprise Services are organized principally for the collection and generation of revenue. The Divisions of Investment, Risk Management, Property Management and Construction, the Office of Public Finance, the Office of Management and Budget and the Office of Unclaimed Property perform the Department's asset management functions. The Division of Pensions and Benefits services specific needs of the public and local government entities. The Divisions of Administration and Purchase and Property provide specific support services on a statewide basis.

The Department of the Treasury includes a number of in-but-not-of boards and agencies that receive funding through the State budget, including: the Economic Development Authority; the Board of Public Utilities; the Office of Information Technology; the Office of Administrative Law; the Casino Control Commission; the Office of the Public Defender; the State Legal Services Office; the Office of the State Comptroller; the Division of Rate Counsel; the Division of Elder Advocacy; the Corrections Ombudsperson; the Ombudsman for Individuals with Intellectual or Developmental Disabilities and their Families; and various programs funding higher education. A complete description of the goals and objectives of these programs and agencies can be found on their respective budget pages.

**Budget Highlights**

The fiscal year 2020 budget for the Department of the Treasury totals \$2.890 billion, an increase of \$54 million or 1.9% over the fiscal 2019 adjusted appropriation of \$2.836 billion.

**Property Tax Relief**

The fiscal 2020 budget provides \$282.6 million for the Homestead Benefit Program, which provides credits directly against eligible homeowners' property tax bills. In fiscal 2020, senior and disabled homeowners with gross incomes up to \$150,000 will receive benefits averaging \$538, and all other homeowners with gross incomes up to \$75,000 will receive benefits averaging \$401.

The Senior and Disabled Citizens' Property Tax Freeze program is funded at \$201.7 million in fiscal 2020. Under this program, eligible senior and disabled homeowners with income up to \$70,000 are reimbursed for increases in property taxes compared to their first year of eligibility. In fiscal 2020, this program is expected to provide benefits averaging \$228 to 19,600 new recipients and benefits averaging \$1,424 to 138,400 continuing recipients.

In-but-not-of agencies that have significant changes in the fiscal 2020 budget recommendation are described below:

**Economic Development Programs**

The New Jersey Economic Development Authority (EDA) is an independent State agency that aims to strengthen New Jersey's

economy by retaining and growing businesses through financial assistance, renewing communities and promoting the State's strategic advantages. The fiscal 2020 budget includes \$83.3 million for Economic Development Programs, an increase of \$57.2 million or 219.2% over the fiscal 2019 adjusted appropriation of \$26.1 million. This increase is attributable to the Economic Redevelopment and Growth Grant program, as the American Dream Meadowlands project is expected to become eligible for grant payments in this fiscal year.

**Office of Information Technology**

The mission of the Office of Information Technology (OIT) is to provide and maintain the information technology infrastructure of the Executive Branch of State Government, including all ancillary departments and agencies, and to coordinate and conduct all information technology operations in the Executive Branch of State Government. OIT's core mission areas include: establishing IT policy and guidance; maintaining a secure shared IT infrastructure; developing and maintaining enterprise applications; supporting State and local emergency telecommunications services; and delivering enterprise services. The fiscal 2020 budget recommends an appropriation of \$103.6 million for OIT, an increase of \$2.0 million or 2.0% over the fiscal 2019 adjusted appropriation of \$101.6 million. This increase is attributable to the Office of Innovation.

**Higher Education System**

The Department of the Treasury budget also contains appropriations supporting certain higher educational services, including aid to independent colleges and universities, aid to county colleges and miscellaneous higher education grant and capital programs.

There are 14 independent institutions eligible to receive funding to provide educational services to New Jersey students through the Independent College and University Assistance Act and participate in other State-funded programs, including facilities bond funds, programs for special populations, and student grant, scholarship and loan programs.

The county college system is composed of 19 institutions that provide access to higher education for a broad range of New Jersey residents, many of whom might otherwise be denied the benefit of a college education. Total services and recommended funding for the county colleges, including operating aid, fringe benefits and debt service funding, is \$200.5 million for fiscal 2020. In addition to this amount, \$23.8 million will be funded from the Department of Labor and Workforce Development's Supplemental Workforce Fund for Basic Skills. Direct aid to the county colleges is \$134.1 million.

County colleges are eligible to participate in the Chapter 12 bond program, a \$530 million self-renewing capital funding mechanism specifically for these institutions. Counties or eligible authorities issue bonds for new construction, acquisition, expansion or capital renewal or replacement. The State shares the debt service equally with the counties. In fiscal 2020, Chapter 12 debt service payments by the State are anticipated to be \$41.8 million. This is an increase of \$5.45 million compared to the fiscal 2019 projected debt service.

The fiscal 2020 budget continues support for debt service costs associated with four higher education capital programs, including the \$550 million Higher Education Capital Improvement Program, the \$100 million Equipment Leasing Fund, the \$220 million Higher Education Facilities Trust Fund and the \$50 million Higher Education Technology Infrastructure Fund. Debt service for these programs in fiscal 2020 is recommended at \$100.2 million.

## 30. EDUCATIONAL, CULTURAL, AND INTELLECTUAL DEVELOPMENT 36. HIGHER EDUCATIONAL SERVICES

### PROGRAM CLASSIFICATIONS

47. **Support to Independent Institutions.** The Independent College and University Assistance Act (N.J.S.A.18A:72B-15 et seq.) provides for financial assistance to 14 eligible New Jersey independent colleges and universities. This assistance, which is based on the number of New Jersey students enrolled at these institutions, helps to ensure that this valuable sector of the State's system of higher education will continue to provide educational opportunities for New Jersey citizens. Direct aid is provided in support of specific programs at selected independent institutions.

48. **Aid to County Colleges.** The New Jersey system of community colleges was established by statute in 1962 (N.J.S.A.18A:64A-1 et seq.). The first county colleges were opened four years later in Atlantic, Cumberland, Middlesex and Ocean counties. Today there are 19 institutions: 1 community college in each of 17 counties, a bi-county college serving Somerset and Hunterdon counties and a bi-county college serving Atlantic and Cape May counties. These institutions enroll approximately 217,000 full-time and part-time credit students, 63,000 non-credit students, and 45,000 employees through customized training annually. These institutions provide access to higher education for a broad range of New Jersey residents who would otherwise be denied the advantages associated with a college education.

State aid is appropriated for county college operational costs and is distributed among the institutions by the State in consultation with the Council of County Colleges. The distribution is based on a formula that includes foundation aid, enrollment funding and access funding. Aid in amounts not to exceed one-half of project costs may also be provided for capital projects under P.L.1971, Chapter 12. In addition, some fringe benefit costs of certain county college employees are paid by the State.

49. **Miscellaneous Higher Education Programs.** Includes programs that assist New Jersey's public and private institutions of higher education in keeping pace with technological changes and responding to industry and work force needs. The Higher Education Technology Infrastructure Fund (P.L.1997, c.238) provides support for critical technology needs and complements the State's other facility and equipment bond funds. The State pays the entire cost of debt service on Higher Education Technology Infrastructure Fund bonds. The Equipment Leasing Fund Act (P.L.1993, c.136) provides funds to finance the purchase of scientific, engineering, technical, computer, communications and instructional equipment. The State pays three-quarters of the debt service on Equipment Leasing Fund bonds, and the colleges pay the remaining share. The Higher Education Facilities Trust Fund Act (P.L.1993, c.375) provides funds to finance the construction, renovation or improvement of instructional, laboratory, communication and research facilities. The State pays the entire cost of debt service on Higher Education Facilities Trust Fund bonds.

The \$550 million Higher Education Capital Improvement Fund (P.L.1999, c.217) is designed to address the issues of renewal, renovation, improvement, expansion, construction and reconstruction of facilities and technology infrastructure. The State pays two-thirds of the debt service for public institutions and one-half of the debt service for independent institutions.

The Educational Facilities Authority issues bonds to finance projects under these programs, with the debt service supported by annual State appropriations.

The Dormitory Safety Trust Fund (P.L.2000, c.56) provided loans to eligible public or private secondary schools, military schools or boarding schools, and public or private institutions of higher education to install automatic fire suppression systems. Funds for the trust were provided from the issuance of \$90 million in State bonds.

**50. ECONOMIC PLANNING, DEVELOPMENT, AND SECURITY**  
**51. ECONOMIC PLANNING AND DEVELOPMENT**

**OBJECTIVES**

1. To advance job creation and retention incentives to grow businesses in New Jersey.
2. To advance partnerships that provide training and technical assistance to small businesses and entrepreneurs.
3. To support redevelopment projects that revitalize communities and stimulate the economy.
4. To provide loans to local economic development agencies to support their lending and mentoring programs to small and entrepreneurial businesses.

**PROGRAM CLASSIFICATIONS**

38. **Economic Development.** The New Jersey Economic Development Authority (NJEDA) issues taxable and tax exempt bonds and provides financing (direct loans/guarantees) for businesses and nonprofit organizations to purchase/construct real estate, buy equipment, provide working capital and other investments that will create and retain jobs in New Jersey and add to the local communities' economies and tax bases.

Additionally, the NJEDA administers job and real estate incentive programs to encourage job growth/retention and capital investment in NJ. Among these are the Grow New Jersey Assistance Program, the Economic Redevelopment and Growth Grant program and the Brownfields and Contaminated Site Remediation Program. The NJEDA also oversees the redevelopment of a former army base through the Fort Monmouth Economic Revitalization Authority (FMERA).

Approval of new Business Employment Incentive Program (BEIP) grants was discontinued in December 2013, pursuant

to the New Jersey Economic Opportunity Act of 2013 (P.L.2013, c.161). Incentives for job growth and retention will continue under the Grow New Jersey Assistance Program, pursuant to the new law.

The Economic Redevelopment and Growth Grant (ERG) program was established pursuant to the New Jersey Economic Stimulus Act of 2009 (P.L.2009, c.90) to provide incentive grants to developers, businesses, and owners to address project financing gaps. ## 50. ECONOMIC PLANNING, DEVELOPMENT, AND SECURITY

### 52. ECONOMIC REGULATION

#### OBJECTIVES

- To ensure that safe, adequate and proper utility services are provided at reasonable, non-discriminatory rates to all members of the public who desire such services.
- To provide a comprehensive energy supply and demand strategy that allows for responsible and necessary economic growth and development without compromising the environment and quality of life in New Jersey.
- To ensure that New Jersey has adequate and economical natural gas supplies to meet its home-heating requirements, industrial load and an ever-growing alternative-power production industry.
- To assist in the development of a state-of-the-art telecommunications network that permits the timely introduction and marketing of new and advanced technology. In addition, to seek to ensure the full utilization of such a network by all segments of our society, regardless of income status or physical disabilities.
- To ensure that New Jersey residents have economical and environmentally safe water supplies that are provided through strict compliance with the State's Safe Drinking Water Act by all private and public water purveyors under the Board of Public Utilities jurisdiction.
- To provide adequate, economical and efficient cable television service, with a degree of uniform operation, and the protection of the municipality in the franchise process. In addition, the Board of Public Utilities will seek to ensure the responsiveness of cable operators to subscribers' complaints and needs, and the availability of competitively priced alternative television program packaging.
- To administer statewide energy assistance programs.
- To increase energy conservation and reduce the utility costs of low-income households through the weatherization of single and multi-family dwellings.

#### PROGRAM CLASSIFICATIONS

- Utility Regulation.** The Board of Public Utilities controls, through its rate approval process, the charges paid by the public for gas, electric, water, sewer and telephone services. A uniform system of accounts and quarterly and annual financial statements and reports are required for disclosure and to permit intelligent public participation in the process. Filings for both rate and fuel adjustment charge changes are approved only to generate sufficient revenues to cover allowable expenses and an equitable return on investment.  
The Board ensures the safety, adequacy and availability of utility services by conducting hearings that result in the promulgation of rules, regulations and orders, and ensures their enforcement through inspections and investigations. Regular tests are conducted by engineering personnel to minimize the possibility of disruptions or discontinuance of essential services. The Division of Reliability and Security was created to ensure the safety and reliability of services as a result of the increase in concerns about terrorism.
- Regulation of Cable Television.** Assists local jurisdictions in preparing legislation, franchise and consent agreements; regulates operating and competitive practices to ensure reasonable uniformity, reliability, economy and quality of cable television services; cooperates with other states and the federal government in promoting and coordinating beneficial uses of cable television through balanced programming, including local and educational services.
- Energy Resource Management.** Develops and implements the State's energy policies and associated programs, including funding mechanisms to support efficiency and renewable energy projects, energy education and outreach, energy data

collection and analysis and evaluation of energy use and supply.

88. **Energy Assistance Programs.** The Lifeline Credit Program provides combined gas and electric utility credits of up to \$225 a year to New Jersey residents who are eligible for Pharmaceutical Assistance to the Aged and Disabled, Supplemental Security Income (SSI), NJ FamilyCare only, or Lifeline only. The Tenants' Assistance Rebate Program provides a cash payment of up to \$225 a year to tenants who would be eligible for the Lifeline Credit Program except that they do not pay their own utility bills. Persons receiving SSI who are eligible for this program receive monthly utility supplements totaling up to \$225 a year included in their SSI checks.

97. **Regulatory Support Services.** Provides economic analysis of conditions affecting regulated utilities to the Board of Public Utilities and its technical divisions, and conducts audits of regulated utilities.

99. **Administration and Support Services.** The Division of Administration exercises general policy and administrative control over program operations. The primary responsibilities of the Division are to provide human resource management, including personnel requirements, employee relations support, broad-based facility support, administration of the Equal Opportunity and Affirmative Action program, training and dissemination of public information concerning Board activities.

**70. GOVERNMENT DIRECTION, MANAGEMENT, AND CONTROL  
75. STATE SUBSIDIES AND FINANCIAL AID**

**PROGRAM CLASSIFICATIONS**

- 27. **Other Distributed Taxes.** The State is responsible for the collection of certain insurance taxes and for distribution of a portion of these taxes to the counties in which domestic insurance companies' principal offices were situated on January 1. Amounts are determined by increasing the total amount of the franchise tax on domestic insurance companies received by the county in the prior calendar year by the percentage rate of change of all taxes paid by all insurance companies pursuant to C.54:18A-1 et seq. for the current and the immediately preceding tax year.
- 28. **County Boards of Taxation.** A County Board of Taxation (R.S.54:3-1) is established in each county. Each board consists of five members, except in the counties of Bergen, Camden, Essex, Hudson, Middlesex, Monmouth, Ocean and Union, where there are seven members. The boards hear appeals of taxpayers from local tax assessments, certify tax duplicates to the collectors, determine local tax rates, prepare county abstracts of ratables, promulgate equalization tables, supervise the activities of assessors and perform related work in the enforcement of local property tax laws.
- 29. **Locally Provided Assistance.** Locally Provided Assistance includes State funds provided for the South Jersey Port Corporation, the Highlands Protection Fund, and the Public Library Project Fund. The South Jersey Port Corporation Debt Service Reserve Funds were established to ensure the maintenance of the maximum debt service reserve requirement for any debt obligations issued by the Corporation. The South Jersey Port Corporation Property Tax Reserve Fund was established to make payments in lieu of taxes to compensate counties and municipalities for loss of tax revenue due to the Corporation's acquisition of property. The Highlands Protection Fund was created by the Highlands Water Protection and Planning Act (P.L.2004, c.120) to support new aid and planning grant programs as well as the reinstatement of prior year programs, such as Watershed Moratorium Offset Aid. The planning grant programs provide financial assistance to Highlands municipalities and counties to implement the Highlands Regional Master Plan and promote the goals of the Highlands Act. The Public Library Project Fund supports debt service payments on bonds issued for the construction and renovation of public libraries.
- 33. **Homestead Exemptions.** The Homestead Benefit Program provides credits directly against eligible homeowners' property tax bills. To qualify for the program, residents must have owned and occupied their principal residence on October

1 of the tax year. They must have paid property taxes on the residence and must also meet certain income requirements.

The Senior and Disabled Citizens' Property Tax Freeze program, established by P.L.1997, c.348, provides eligible seniors and citizens with disabilities with a property tax reimbursement to compensate for increases in property taxes. To qualify, residents must have lived in New Jersey for ten consecutive years and have owned and lived in their current principal residence for at least three of the ten years. Residents must also meet certain income requirements.

- 34. **Senior/Disabled Citizens' and Veterans' Property Tax Deductions.** The State provides each municipality a direct reimbursement for the \$250 deductions on local property tax bills provided to eligible seniors, citizens with disabilities and veterans, plus an additional 2% for local administrative costs. Payments for the total amount due are made to municipalities based on certifications made annually by the County Boards of Taxation and confirmed by the Director of the Division of Taxation.
- 35. **Police and Firemen's Retirement System.** The State provides funding on behalf of certain local members of the Police and Firemen's Retirement System (PFRS) and the remaining members of the Consolidated Police and Firemen's Pension Fund (CPFPPF). For PFRS, the State supports the additional cost of providing enhanced pension benefits to certain local police and firefighters. CPFPPF is a closed pension fund for local police and firefighters who were appointed prior to 1944. For CPFPPF, the liabilities were shared between the participating municipalities and the State. The municipalities have completed funding their share, and the State continues to satisfy the remaining liability. Funding is also provided for post retirement medical costs of certain retired local police and fire who retired on a disability retirement or with 25 years of service. The State pays for 80% of the member's health premium costs.
- 42. **Energy Tax Receipts.** The Energy Tax Receipts Property Tax Relief Act (C.52:27D-438 et seq.) replaced the previous method of distributing energy tax receipts to municipalities. Separate legislation (P.L.1997, c.162) eliminated the gross receipts and franchise taxes for energy and telecommunications utilities and replaced them with a system centered on the Corporation Business Tax and the Sales and Use Tax. Water and sewer utilities remain subject to the gross receipts and franchise taxes. Municipalities annually receive a State aid distribution from the Energy Tax Receipts Property Tax Relief Aid appropriation.

2097. OFFICE OF THE STATE LONG-TERM CARE OMBUDSMAN

PROGRAM CLASSIFICATIONS

81. **State Long-Term Care Ombudsman.** The Division of Elder Advocacy has been renamed the Office of the State Long-Term Care Ombudsman (LTCO) in accordance with P.L.2017, c.131. The primary purpose of the Office of the State Long-Term Care Ombudsman is to receive, investigate and resolve complaints concerning certain health-care facilities serving the elderly, to oversee programs within the Office, and to initiate actions to secure, preserve and promote the health, safety, welfare and the civil and human rights of the elderly patients, residents and clients of such facilities (C.52:27G-1 et seq.). The LTCO accomplishes this goal by representing the interests of the elderly in proceedings that are brought before any department, commission, agency or board of the State, which lead to an administrative adjudication or administrative rule as defined in section 2 of P.L.1968, c.410 (C.52:14B-2). In the best interests of the elderly, the Division may either institute or intervene in proceedings, or commence

negotiation, mediation or alternative dispute resolution. The Office also contributes to the shaping of policy regarding the welfare of New Jersey's elderly by reporting on recommendations to other State departments, the Governor and the Legislature.

The LTCO achieves its mission by deploying paid staff and certified volunteers to visit health care facilities and directly advocate on the resident's behalf in situations where abuse, neglect, exploitation or a violation of a resident's rights is suspected. In addition, regional ethics committee volunteers work with the LTCO to help residents, family and facility staff respond to ethical dilemmas (including end-of-life decisions and other care issues). The LTCO partners with the Department of Human Services to help market and provide advocacy services to the Money Follows the Person Program, which transitions individuals from nursing homes and developmental centers to home- and community-based services (HCBS).

# MISCELLANEOUS COMMISSIONS

## OVERVIEW

### Mission and Goals

Miscellaneous Commissions are agencies with missions that extend beyond a single department within the State. This summary of Miscellaneous Commissions concerns only those that receive State funds. In some instances, they may extend to one or more states and were created as an interstate-federal compact. Compacts take effect upon Congressional approval of identical state laws in each participating state. For example, an interstate commission operates in conjunction with executive departments in several states, with each member state exercising equal power in the decision making process. Such compacts are necessary, as an action taken by one state frequently has ramifications in another state.

While compacts are created to allow commissions to offer a variety of functions, such as the Port Authority of New York and New Jersey, the services of the Miscellaneous Commissions described here are provided in two distinct areas: science and technical programs and governmental review. The Delaware River Basin Commission and the Interstate Environmental Commission are engaged in science and technology programs and governmental review activities are conducted by the Council on Local Mandates.

### Budget Highlights

The fiscal year 2020 budget for Miscellaneous Commissions totals \$786,000, the same level as the fiscal 2019 adjusted appropriation.

### Delaware River Basin Commission

The Commission, created via the Delaware River Basin Compact, operates as a regional agency for the planning, conservation, utilization, development, management and control of water and

related natural resources of the Delaware River Basin. The Compact includes Delaware, New Jersey, New York, the Commonwealth of Pennsylvania, and the federal government. More about this agency can be found at: <http://www.state.nj.us/drbc/>. The fiscal 2020 recommendation of \$693,000 reflects no change from the fiscal 2019 adjusted appropriation.

### Interstate Environmental Commission

The Commission is an agency created by the states of New Jersey, New York, and Connecticut through enabling legislation and a tri-state compact. The Commission plans and coordinates activities designed to enhance environmental quality in waterways common to the three states. More about this agency can be found at: <http://iec-nynjct.org/>. The fiscal 2020 recommendation of \$15,000 represents New Jersey's contribution to the Commission's total operating budget in line with that of other participating states, as defined in statute, and reflects no change from the fiscal 2019 adjusted appropriation.

### Council On Local Mandates

The nine-member Council was created by P.L.1996, c.24, to implement a constitutional amendment approved by New Jersey voters in the 1995 general election. The Council reviews complaints filed by counties, municipalities or school districts, or by a county executive or elected mayor, and issues written rulings on whether a statute, rule, or regulation constitutes an impermissible, unfunded State mandate. More about this agency can be found at: <http://www.state.nj.us/localmandates/>. The fiscal 2020 recommendation of \$78,000 reflects no change from the fiscal 2019 adjusted appropriation.

## 40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT 43. SCIENCE AND TECHNICAL PROGRAMS 9130. INTERSTATE ENVIRONMENTAL COMMISSION

### OBJECTIVES

1. To abate and control water pollution through enforcing water quality regulations.
2. To engage in the coordination of interstate air pollution problems and issues by taking the lead on region-wide air quality issues.
3. To achieve a healthy environment and a productive ecosystem.

### PROGRAM CLASSIFICATIONS

03. **Interstate Environmental Commission.** The Interstate Environmental Commission is a tri-state agency created by the states of New Jersey, New York and Connecticut through enabling legislation and a tri-state compact (N.J.S.A.32:18-1 et seq. and N.J.S.A.32:19-1 et seq.). The Interstate Environmental Commission District extends approximately from Sandy Hook on the New Jersey coast to include all of New York Harbor, north on the Hudson River to the northerly

boundaries of Westchester and Rockland counties, easterly into Long Island Sound to the New Haven, Connecticut shore, to Port Jefferson on the north shore of Long Island, and along the south shore of Long Island extending easterly to Fire Island Inlet. The Commission makes rules, regulations and orders for the abatement of water pollution and may resort to the courts for enforcement. The Commission's program plan for water pollution abatement and other environmental issues is designed to provide assistance in an effective coordinated approach to regional problems. The Commission is also the official planning and coordinating agency for the New Jersey-New York-Connecticut air quality control region, though it does not have air pollution abatement enforcement powers. The Commission conducts studies; undertakes research, testing and development; gathers and disseminates data to other public and private organizations or agencies; does sampling to track sources of air pollutants; and refers complaints to an appropriate agency or agencies of the states, along with data necessary to take corrective action.

### Language Recommendations -- Direct State Services - General Fund

The unexpended balance at the end of the preceding fiscal year in this account is appropriated.

## OVERVIEW

### Mission and Goals

The Interdepartmental Accounts provide funds for the cost of certain services that are administered centrally on behalf of all agencies of State government. The budget for Statewide Capital is discussed in the Capital and Debt Service section.

### Budget Highlights

The fiscal year 2020 budget for all Interdepartmental Accounts totals \$4.695 billion, an increase of \$97.7 million or 2.1% over the fiscal 2019 adjusted appropriation of \$4.597 billion.

### Salary Increases

The State of New Jersey currently employs approximately 64,000 full-time workers, the majority of whom are union-represented. In fiscal 2020, \$158.8 million is recommended for Salary Increases and Other Benefits for eligible Executive and Judicial Branch employees, although whether any increases are paid and to whom will be determined by the Salary Advisory Committee.

This section of the budget provides \$11 million for payment of unused accumulated sick leave in accordance with N.J.A.C. 4A:6-3.1 et seq. Employees are permitted to accumulate earned sick days. Upon retirement, retirees are paid for any unused sick days, at 50% of the normal pay rate, up to a maximum amount of \$15,000.

### Employee Contract Status

Contracts for roughly 75% of Executive Branch labor groups will expire on June 30, 2019. The State continues negotiations with the State Law Enforcement Unit of the Policeman's Benevolent Association and a portion of State Police for contracts that expired on June 30, 2015 and June 30, 2017, respectively. The State has reached a tentative agreement with the Communications Workers of America for a contract, which will expire on June 30, 2023.

Contracts for all Judicial Branch labor groups will expire on June 30, 2020.

### Employee Fringe Benefits

For fiscal 2020, a total cost of \$2.898 billion is budgeted to provide fringe benefits to employees of State government, an increase of \$17.8 million, or 0.6% over fiscal 2019. The fiscal 2020 recommendation for higher education's senior public institutions is \$969.6 million, a decrease of \$51.5 million, or 5.0% compared to fiscal 2019. The fiscal 2020 recommendation includes \$390.9 million in anticipated savings from a series of proposed health benefits reforms. The projected cost for health benefits in fiscal 2020 also includes \$639,000 to fund the Patient Centered Outcomes Research Institute (PCORI) fee as required by the federal Affordable Care Act (ACA). Growth in employee retirement costs in fiscal 2020 is mainly due to increases in the State's pension contribution for the defined benefit pension plans. In the aggregate, including the \$1.651 billion budgeted on behalf of local education, county college and certain local municipal retirees, in the Education State Aid and Treasury State Aid sections of the budget, this will represent the largest pension payment in State history. The fiscal 2020 recommendation for Interdepartmental is supplemented by a pension contribution of \$238.8 million of the statewide total of \$1.070 billion from the Lottery Enterprise. During the fiscal 2018 Appropriations Act, P.L.2017, Chapter 98 was enacted which dedicates the State's lottery proceeds to three of the seven defined benefit retirement systems: Public Employees' Retirement System (PERS), Teachers' Pension and Annuity Fund (TPAF), and Police and Firemen's Retirement System (PFRS). The anticipated proceeds from the Lottery Enterprise, offset the scheduled State contribution to the defined benefit pension systems in fiscal years 2018 forward.

### Employee Retirement

All State employees, and most employees of counties, municipalities and school districts, are members of one of the seven State retirement

systems: Public Employees' Retirement System (PERS), Teachers' Pension and Annuity Fund (TPAF), Police and Firemen's Retirement System (PFRS), Consolidated Police and Firemen's Pension Fund (CPFPF), State Police Retirement System (SPRS), Judicial Retirement System (JRS) and Prison Officer's Pension Fund (POPF). New Jersey law provides that all defined benefit pension plans are subject to actuarial valuation every year and actuarial experience studies every three years.

The recommended amount for State and higher education pension and retiree expenses in fiscal 2020 totals \$1.867 billion, including \$484.9 million for post-retirement medical and ACA fees' costs. The recommended appropriation for debt service payments on the pension obligation bonds for State and higher education employees is \$205.8 million in fiscal 2020.

### Employee Health Benefits

The projected cost for health benefits, including medical, prescription drug, dental, vision and ACA fees for State and higher education employees in fiscal 2020 is \$1.210 billion, a decrease of \$117.8 million over fiscal 2019. The fiscal 2020 recommendations for health benefits reflect savings from anticipated plan design changes.

### Employer Payroll Taxes

The fiscal 2020 recommendation of \$584.1 million for employer payroll taxes represents an increase of \$8.1 million over fiscal 2019. The recommendation includes \$556.6 million of employer Social Security taxes, \$19.8 million for Temporary Disability Insurance (TDI) and \$7.7 million for Unemployment Insurance (UI) liability.

### Other Interdepartmental Accounts

Funding for Other Interdepartmental Accounts in the fiscal 2020 budget totals \$32.5 million, a decrease of \$15 million from the fiscal 2019 adjusted appropriation of \$47.5 million, primarily due to the elimination of supplemental funding for Interest On Short Term Notes.

### Aid to Independent Authorities

The fiscal 2020 budget recommends \$100.3 million for Aid to Independent Authorities, a decrease of \$10 million, or 9.1% less than the fiscal 2019 adjusted appropriation of \$110.3 million. Recommended amounts for Aid to Independent Authorities support operating costs for the New Jersey Sports and Exposition Authority (NJSEA), debt service on bonds issued by the NJSEA, for related programs and projects and the Economic Development Authority (EDA), for the following programs and projects: Municipal Rehabilitation and Economic Recovery, Biomedical Research Bonds and the Liberty Science Center.

### Property Rentals

The Property Rentals account supports existing and anticipated leases of offices and other facilities used by State agencies, payments for debt service leases, payments in lieu of property taxes on facilities occupied by State agencies, and debt service payments for fire sprinkler systems and office furnishings. This account also makes debt service payments associated with the State's lease-purchase of facilities acquired or built by the EDA. Funding for Property Rentals in the fiscal 2020 budget totals \$184.1 million, an increase of \$4.2 million from the fiscal 2019 adjusted appropriation of \$179.9 million, primarily due to increased debt service costs.

### Insurance and Other Services

The Insurance and Other Services account includes insurance premiums for property insurance, which covers all State owned real estate, contents and boiler machinery, and specialty insurance policies including, but not limited to, volunteer accident insurance, miscellaneous bonds, cyber breach events, and marine and aviation liability/physical damage for vessels and aircraft. This account also provides funds for various claims made against the State, including

# INTERDEPARTMENTAL ACCOUNTS

tort claims for bodily injury or property damage, workers' compensation for State employees, vehicle liability claims for property damage, bodily injury resulting from the operation of State vehicles, and claims arising from the Foster Parents Program and the Medical Malpractice Self-Insurance Fund for Rutgers, Rowan and University Hospital. Funding for Insurance and Other Services in the fiscal 2020 budget totals \$126.7 million, a decrease of \$8.4 million from the fiscal 2019 adjusted appropriation of \$135.1 million, primarily due to lower Workers' Compensation, Torts and Vehicle liability projected costs.

## Utilities and Other Services

The Utilities and Other Services account provides funding for the heating, electrical, security and janitorial needs of various State-owned buildings, primarily in the Capitol Complex, that house the State workforce. The fiscal 2020 budget totals \$61.6 million, an increase of \$47.5 million from the fiscal 2019 adjusted appropriation of \$14.1 million, due to the elimination of the diversion from the Clean Energy Fund.

administrative staff employed by the State. The employer contribution to this retirement program is included in this budget.

The State Employee Health Benefits Program (C.52:14-17.25 et seq.) provides health insurance for active and retired employees and their dependents, including active and retired employees of the State colleges and universities, through a preferred provider organization (PPO), health maintenance organization (HMO) or high-deductible health plans (HDHP). As of March 5, 2019, under the Pension and Health Benefits Reform Legislation (P.L.2011, c.78), all public employees are required to pay a percentage of the premium cost for the level of coverage selected by the employee. The percentage varies based on the employee's base salary and the coverage level and ranges from 3% to 35% of premium costs. The premium-based contribution was phased in over a four-year period, except for new employees hired after June 28, 2011. A minimum contribution of at least 1.5% of salary is required. State employees who retire with 25 years of service or on a disability retirement are eligible for State-paid post-retirement medical benefits. Retired employees are required to contribute towards the cost of their health insurance coverage based on the terms of the labor agreement in effect at the time they attained 25 years of service credit or retired on disability. Under the reform legislation, active State employees with less than 20 years of creditable service as of June 28, 2011, will be required to pay a percentage of the premium cost of their State-paid health care coverage after retirement.

The Division of Pensions and Benefits coordinates the funding for payment of temporary disability insurance (TDI) benefits to State employees (C.43:21-46). Temporary cash benefits are provided to eligible State employees covered under federal law to insure against loss of earnings due to non-occupational sickness or accident.

All individuals in the employ of the State of New Jersey or an instrumentality of the State, with respect to service performed after December 31, 1971, for a hospital or institution of higher education, are covered under the Unemployment Compensation Law (R.S. 43:21-1 et seq., as amended by P.L.1971, c. 346). Any political subdivision of the State may elect to cover individuals employed by the subdivision in all of the hospitals and institutions of higher education operated by that political subdivision. Benefits paid based on wages earned in the employ of the State or of a political subdivision are financed by payments in lieu of employer contributions to the Unemployment Compensation Fund. All covered State employees are required to contribute each year to the Fund in accordance with the established rate. Benefits under the unemployment compensation program are payable in accordance with the provisions of the Unemployment Compensation Law.

The New Jersey State Prescription Drug Program (C.52:14-17.29) helps meet the cost of drugs prescribed for

eligible active and retired employees and their dependents for use outside of hospitals, nursing homes or other institutions. Included are those drugs which, as required by federal law, can be dispensed only upon a written prescription order by a physician. The program covers the full cost of a prescription drug dispensed by a licensed participating retail pharmacy or mail order service, less a co-payment charge for each eligible prescription and prescription refill. The co-payment charge is dependent upon whether the employee chooses a prescription which is generic, brand-named or a brand-named drug with a generic equivalent. All public employees are required to contribute a percentage of the premium cost for their prescription drug coverage under the 2011 reform legislation. Beginning January 1, 2012, prescription drug coverage for Medicare eligible retirees is through a Medicare Part D plan. The Medicare Prescription Plan provides "wrap-around" coverage or secondary coverage for costs not normally paid by Medicare Part D plans. Members are only responsible for paying the appropriate co-payment for prescription drug orders, up to an annual maximum out-of-pocket amounts.

04. **Other Interdepartmental Accounts.** Provides funds for allotment by the Director of the Division of Budget and Accounting to various departments or agencies of State government for meeting emergency conditions and for a number of other contingencies, which cannot be predicted with sufficient certainty to be included within the budget recommendations of individual departments or agencies. Included are the Governor's Emergency Fund, the premium portion of required payments for short term notes, seed money to implement cost-saving processes and other productivity improvements as appropriate.
05. **Salary Increases and Other Benefits.** Includes funds to be allotted to the various State departments or agencies for the cost of general and special salary adjustments and unused accumulated sick leave.
06. **Utilities and Other Services.** Provides for payment of fuel, utilities, janitorial services and trash removal for State-owned and lease-purchase facilities primarily in the Capitol district, as well as some fuel and utility costs for State departments.
08. **Capital Projects - Statewide.** Provides for statewide programs and capital projects administered by the Department of Treasury on behalf of State agencies. Statewide programs address needs in the following areas: removal of underground storage tanks and hazardous material, roof repairs and replacements, life safety and fire safety repairs, statewide energy efficiency and Americans with Disabilities Act compliance. Also included is funding for the purchase of open space through the Garden State Preservation Trust Fund.
09. **Aid to Independent Authorities.** Provides for payments to independent authorities for operating expenses and construction costs of cultural and sports-related facilities and for the location and development of businesses in New Jersey.

No later than October 1, 2019, the Director of the Division of Budget and Accounting shall submit a report to the Joint Budget Oversight Committee detailing, for each department and division: the specific community care providers that will receive an upward contract adjustment in FY2020; for each provider receiving an upward adjustment, the direct support professional wage base dollar amount upon which each contract adjustment was calculated and the dollar amount of the upward contract adjustment to be received in FY2020; the sum of the contract bases of all community providers receiving an upward adjustment; an explanation of how the amounts associated with the upward contract adjustment were calculated; and the manner in which the department or division administering each contract will ensure that the contract adjustment will be used to provide increased payments to direct support professionals.

OVERVIEW

**Mission and Goals**

As an independent branch of government, the New Jersey Judiciary is constitutionally entrusted with the full and fair resolution of disputes to preserve the rule of law and to protect the rights and liberties guaranteed by the Constitution and laws of the United States and the State of New Jersey.

The Administrative Office of the Courts serves as the Judiciary’s central office and provides administrative services to the courts. The State-level courts are the Supreme Court, the Appellate Division of the Superior Court, the trial divisions of the Superior Court, including Civil, Criminal, Family and General Equity, and the Tax Court. The trial courts in the 21 counties are organized into 15 vicinages.

In the court year ending June 30, 2018, the Superior Courts resolved 829,473 cases, including 46,279 criminal cases, 510,020 civil cases and 273,174 cases involving family-related issues.

The Judiciary continues to work collaboratively with Executive Branch departments and agencies to create cost savings and efficiencies across State government. One notable example is the Drug Court program, a partnership involving addiction services, social services, probation officers, public defenders and prosecutors, with a judge presiding, which focuses on improving lives in a cost-effective manner. The Judiciary has also partnered with the Department of Human Services to create NJKiDS, a web-based system designed to improve the efficiencies of monitoring and managing child support cases. Another noteworthy partnership is the Veterans Assistance program, which is a combined effort of the Judiciary, the Department of Military and Veterans’ Affairs, and the Division of Mental Health and Addiction Services within the Department of Human Services. This program assists in connecting veterans who return from military service and end up on the wrong side of the law with the services they need to help deal with physical, mental health or personal issues that cause them to turn to drugs or alcohol.

The most recent multi-branch partnership implemented the Criminal Justice Reform legislation and constitutional amendment which went

into effect on January 1, 2017. Under this effort, the criminal justice system has moved from one in which pretrial release was based primarily on a defendant’s ability to pay, to one where pretrial release is an objective, risk-based determination. Criminal Justice Reform brought about a transformation in the system, including the elimination of most cash bail, the institution of preventive detention, pretrial release based on a scientifically validated risk assessment, the creation of a pretrial services program and the setting of strict speedy indictment and trial dates. This makes for a fairer system by allowing those who commit minor, nonviolent offenses to have nonmonetary pretrial release options instead of being confined to jail simply because they are unable to afford even low bail amounts, while still ensuring the safety of our communities by detaining those defendants who present the most risk to the community. Stakeholders in the criminal justice system, along with the Judicial, Executive and Legislative Branches, played critical, interdependent roles in the development and implementation of this initiative and will continue to do so during its ongoing operation and refinement.

The Judiciary is also responsible for the oversight, supervision and technical support of the State’s 515 Municipal Courts, which handle over 6.1 million cases per year including 2.4 million traffic matters, 2.8 million parking matters and almost 900,000 criminal/quasi-criminal matters. NJMCDirect, an online payment system for traffic and parking tickets, allows for the immediate update of municipal court records through the statewide Automated Traffic System, providing law enforcement officers and the Motor Vehicle Commission with instant access to current information. Since its inception, NJMCDirect, through October 2018, has handled over 22.8 million transactions generating \$1.6 billion in online payments. The online payment system provides convenience to drivers and efficiency to the municipal courts, as online payments eliminate court handling and processing costs.

**Budget Highlights**

The fiscal year 2020 budget for the Judiciary totals \$772.8 million, an increase of \$3.8 million or 0.5% over the fiscal 2019 adjusted appropriation of \$769.0 million.

Pursuant to Article VI, Section II of the Constitution, the Supreme Court makes rules governing the administration of the courts in the State. The Supreme Court also administers programs that are wholly or partially reimbursable by special fees, such as the New Jersey Lawyers' Fund for Client Protection, Attorney Discipline, Trial Attorney Certification and the Bar Admissions Financial Committee.

05. **Family Courts.** The Family Courts hear and determine all causes involving the family, including those causes previously heard by the Matrimonial Part of the Superior Court and the Juvenile and Domestic Relations Courts.
06. **Municipal Courts.** The Municipal Courts are funded directly by the municipalities, but the State supports a unit within the Administrative Office of the Courts to train municipal court judges and clerks, promulgate manuals of procedures, collect data on municipal court operations, conduct studies for the improvement of municipal courts, work with other State agencies on matters involving the municipal courts and also administer the Automated Traffic System, a program that is wholly reimbursable by special fees.
07. **Probation Services.** Probation Services supervises probation operations statewide, establishes and monitors standards, conducts research and field review of probation programs, coordinates community service programs and operates the Intensive Supervision Program. ## **Capital Construction and Debt Service**

The Capital Construction portion of this section includes an overview and summary of appropriations and expenditures for the design, construction and repair of major capital assets such as roads, bridges, parks or other physical facilities.

The Debt Service portion of this section shows the amounts necessary to pay principal and interest due on capital projects financed via general obligation bonds.

# CAPITAL CONSTRUCTION

## OVERVIEW

### Capital Definition and Objectives

In New Jersey, a capital project is defined to include the acquisition of land, new structures and equipment, and other projects whose cost of land, planning, furnishing and equipment is estimated over \$50,000. Projects or acquisitions under \$50,000 are appropriated in the maintenance accounts in the Direct State Services section of the budget. New Jersey's Capital Program invests in critical short-term and long-term needs that prove to be essential to the citizens of the state. These needs include preservation of existing capital equipment and facilities; investments in the transportation system; improvements to wastewater treatment and water supply facilities; cleanup of hazardous waste sites; preservation of open space; and construction of local schools and higher education facilities. Together, these investments ensure a clean and healthy environment, provide recreational space, enhance mobility and generate economic growth and jobs for New Jersey citizens.

### Capital Planning Process

The Capital budget is largely based on the recommendations of the New Jersey Commission on Capital Budgeting and Planning. This Commission is composed of members of the Executive Branch, Legislative Branch and the public. It prepares the State's annual Capital Improvement Plan and serves in an advisory role to the Governor and the Legislature. In addition to the Commission, the capital budgeting process includes the Governor's Office, the Office of Management and Budget, the Department of the Treasury and other State departments and agencies.

This budget recommends funding for recurring environmental, transportation and open space capital expenditures. Due to resource constraints, this budget recommends no significant funding for non-recurring capital expenditures.

Additional information on capital recommendations can be found in the individual departmental detail.

# DEBT SERVICE

## OVERVIEW

The State finances certain capital projects through the sale of general obligation bonds that have been approved by voters in a general election. The State must present debt before the voters in a general election under the statutory debt limitations in the State Constitution. The State Constitution provides that the State Legislature shall not create, in any fiscal year, debt or liability of the State, which, together with any previous debts or liabilities, exceeds at any time 1% of total appropriations, unless authorized by law and submitted to the people at a general election for approval by the voters. Since the recommended appropriation level is approximately \$38.6 billion, the debt limit is \$386 million before voter approval must be sought. The current level of outstanding general obligation debt is \$1.8 billion. Therefore, voter approval must be sought in order to authorize additional general obligation bonds. Voter approval is not required for any law authorizing the creation of a debt for a refinancing of all or any portion of the outstanding debts or liabilities of the State, so long as the refinancing

produces a debt service savings.

The Debt Service section of the budget shows the amounts necessary to pay principal and interest due on capital projects financed via general obligation bonds. Appropriations for principal and interest payments on general obligation bonds are recommended at \$358.8 million for fiscal year 2020. This projected level of debt service for fiscal 2020 reflects \$343.8 million for the payment of principal and interest on bonds outstanding on July 1, 2018 and \$15.0 million for a new bond issue.

The Statement of General Long-Term Debt, which appears in the Appendix of this budget, shows the status of the State's general obligation bonded indebtedness as of June 30, 2018. The outstanding debt as of that date is \$1.8 billion. Also, there is \$593.2 million of additional long-term debt authorized but unissued.

# NOTES

## **Language Provisions**

This section includes the General Language provisions which provides certain restrictions on the use of State and Federal Fund appropriations.

## FEDERAL PROVISIONS

Notwithstanding the provisions of any State law or regulation to the contrary, no State agency shall accept or expend federal funds except as appropriated by the Legislature or otherwise provided in this act.

In addition to the federal funds appropriated in this act, there are appropriated the following federal funds, subject to the approval of the Director of the Division of Budget and Accounting: emergency disaster aid funds including grants for preventive measures; pass-through grants to political subdivisions of the State over which the State is not permitted to exercise discretion in the use or distribution of the funds and for which no State matching funds are required; the first 25% of unanticipated grant awards, and up to 25% of increases in previously anticipated grant awards for which no State matching funds are required except, for the purpose of this section, federal funds received by one executive agency that are ultimately expended by another executive agency shall not be considered pass-through grants; federal financial aid funds for students attending post-secondary educational institutions in excess of the amount specifically appropriated, and any such grants intended to prevent threats to homeland security up to 100% of previously anticipated or unanticipated grant award amounts for which no State matching funds are required, provided, however, that the Director of the Division of Budget and Accounting shall notify the Legislative Budget and Finance Officer of such grants; and all other grants of \$500,000 or less.

For the purposes of federal funds appropriations, “political subdivisions of the State” means counties, municipalities, school districts, or agencies thereof, regional, county or municipal authorities, or districts other than interstate authorities or districts; “discretion” refers to any action in which an agency may determine either the amount of funds to be allocated or the recipient of the allocation; and “grants” refers to one-time, or time limited awards, which are received pursuant to submission of a grant application in competition with other grant applications.

The unexpended balances at the end of the preceding fiscal year of federal funds are appropriated for the same purposes. The Director of the Division of Budget and Accounting shall inform the Legislative Budget and Finance Officer by November 1 of the current fiscal year of any unexpended balances which are continued.

Out of the appropriations herein, the Director of the Division of Budget and Accounting is empowered to approve payments to liquidate any unrecorded liabilities for materials delivered or services rendered in prior fiscal years, upon the written recommendations of any department head or the department head's designated representative. The Director of the Division of Budget and Accounting shall reject any recommendations for payment which the Director deems improper.

In order to permit flexibility in the handling of appropriations and ensure the timely payment of claims to providers of medical services, amounts may be transferred to and from the various items of appropriation within the General Medical Services program classification, and within the federal matching funding, in the Division of Medical Assistance and Health Services and Division of Disability Services in the Department of Human Services, and within the Medical Services for the Aged program classification, and within the federal matching funding, in the Division of Aging Services in the Department of Human Services, subject to the approval of the Director of the Division of Budget and Accounting. Notice thereof shall be provided to the Legislative Budget and Finance Officer on the effective date of the approved transfer.

Notwithstanding the provisions of any law, regulation or Executive Order to the contrary, any purchase by the State or by a State agency or local government unit of equipment, goods or services related to homeland security and domestic preparedness, that is paid for or reimbursed by federal funds awarded by the U.S. Department of Homeland Security or other federal agency, appropriated in the current fiscal year, may be made through the receipt of public bids or as an alternative to public bidding and subject to the provisions of this paragraph, through direct purchase without advertising for bids or rejecting bids already received but not awarded. The equipment, goods or services purchased by a local government unit shall be referred to in the grant agreement issued by the State administrative agency administering such funds and shall be authorized by resolution of the governing body of the local government unit entering into the grant agreement. Such resolution may, without subsequent action of the local governing body, simultaneously accept the grant from the State administrative agency, authorize the insertion of the revenue and offsetting appropriation in the budget of the local government unit, and authorize the contracting agent of the local government unit to procure the equipment, goods or services. A copy of such resolution shall be filed with the chief financial officer of the local government unit, the State administrative agency and the Division of Local Government Services in the Department of Community Affairs. Purchases made without public bidding shall be from vendors that shall either (1) be holders of a current State contract for the equipment, goods or services sought, or (2) be participating in a federal procurement program established by a federal department or agency, or (3) have been approved by the State Treasurer in consultation with the New Jersey Domestic Security Preparedness Task Force. All homeland security purchases herein shall continue to be subject to all grant requirements and conditions approved by the State administrative agency. The Director of the Division of Purchase and Property may enter into or participate in purchasing agreements with one or more other states, or political subdivisions or compact agencies thereof, for the purchase of such equipment, goods or services, using monies appropriated under this act, to meet the domestic preparedness and homeland security needs of this State. Such purchasing agreement may provide for the sharing of costs and the methods of payments relating to such purchases. Furthermore, a county government awarding a contract for Homeland Security equipment, goods or services, may, with the approval of the vendor, extend the terms and conditions of the contract to any other county government that wants to purchase under that contract, subject to notice and documentation requirements issued by the Director of the Division of Local Government Services.

Of the amounts appropriated for Income Maintenance Management, amounts may be transferred to the various departments in accordance with the Division of Family Development's agreements, subject to the approval of the Director of the Division of Budget and Accounting. (b) FY 2019 and FY 2020 exclude \$805.8 million and \$831.7 million, respectively, in pension contributions funded from the Lottery Enterprise Contribution Act and reflect appropriations funded by the Property Tax Relief Fund. General Fund appropriations supporting School Aid and Municipal Aid are excluded from this chart.

## CASINO REVENUE FUND

The Casino Revenue Fund (CRF) was established in 1976 with the provision that State revenues derived from casino gambling would be applied solely for the purpose of “providing funding for reductions in property taxes, rental, telephone, gas, electric, and municipal utilities charges of eligible senior citizens and disabled residents of the State in accordance with such formulae as the Legislature shall by law provide.” The Fund’s authorized use was expanded in 1981 to include additional or expanded health services or benefits and transportation services or benefits to eligible senior and disabled residents.

Total CRF resources of \$261.5 million, including \$172,000 from the Casino Simulcasting Fund, are projected for fiscal 2020. This total also includes revenues from internet gaming and sports betting, which were launched in 2013 and 2018, respectively.

The summary and projection table on the following page displays CRF revenues and the programs receiving Fund appropriations over the past several years. Some CRF appropriations have been shifted to the General Fund and

Property Tax Relief Fund during that time (see the “General Fund/Property Tax Relief Fund Support” section of the table).

## NEW JERSEY TRANSPORTATION CAPITAL PLAN

(thousands)

The New Jersey Transportation Capital Plan funds the development and preservation of the State's transportation infrastructure through the Transportation Trust Fund Authority (P.L.1984, c.73 as amended), federal transportation system appropriations and third-party sources. The Transportation Trust Fund Authority funds State highway and bridge projects and public transportation projects outlined in the Department of Transportation's annual capital plan. Funds appropriated to the Authority are composed of toll road authority contributions, motor fuels taxes, petroleum products gross receipts taxes, and sales and use taxes. The Authority issues bonds to supplement State appropriations.

The fiscal 2020 Budget recommends replacing this funding with an equivalent increase to NJ Transit's General Fund appropriation.
- (b) Third-party funds represent funding provided from other sources, including but not limited to, bi-state and autonomous authorities, private entities, and local governments.
- (c) The specific projects represented by these amounts will be outlined in the Draft fiscal 2020 Transportation Capital Program, to be issued in April 2019, and finalized in the FY 2020 Transportation Capital Program when the fiscal 2020 Budget is adopted.

(b) The amount shown under the "Authorized" column represents the aggregate amount of refunding bonds issued. The issuance of refunding bonds may defease bonds previously issued under any bond act.

Excludes bonds that have no amounts unissued or outstanding.

**STATE APPROPRIATIONS LIMITATION ACT  
(CAP Law)**

The State Appropriations Limitation Act (P.L.1990, c.94), commonly called the CAP Law, limits the growth of appropriations in the Direct State Services section of the budget, which encompasses the operations of State government. Exempt from the limitation are Grants-In-Aid; State Aid to counties, municipalities, local school districts and other instrumentalities; federal funds appropriations; Capital Construction; Debt Service; and monies deposited in and expended from the Property Tax Relief Fund, the Casino Control Fund, the Casino Revenue Fund and the Gubernatorial Elections Fund.

The State may exceed the maximum appropriations if a bill making an appropriation is agreed to by a two-thirds vote of all members of each legislative body.

Under the formula in the law, the maximum appropriation for fiscal year 2020 is computed by multiplying the base year appropriation (fiscal 2019) subject to the percentage limitation by the average three-year growth rate in per capita personal income calculated on a fiscal basis. The fiscal 2020 CAP is calculated using 4.46%.

The calculation results in a maximum increase of \$293 million over the fiscal 2019 Adjusted Appropriation, or a maximum appropriation of \$6.869 billion for Direct State Services for fiscal 2020. The Governor’s recommendation for fiscal 2020, for items under the CAP, is \$6.471 billion, or \$398 million under the CAP limit. Data used to compute the appropriation limit are presented in the accompanying tables.

## WORKFORCE

The fiscal year 2020 budget supports a State and non-State funded workforce level consistent with the Administration's priorities, recently enacted legislation and other requirements.

The non-State funded level for the Department of Community Affairs reflects an additional 59 positions, mostly to assist the Department with their continued efforts to ensure the enforcement of safety and codes for housing and construction and to ensure access to housing and other resources for the state's low-income population.

A majority of the State funded position increase in the Department of Environmental Protection is attributable to the Administration's prioritization of safe drinking water. Strong oversight is recommended to ensure State and federal standards are achieved.

The Department of Human Services reflects a net decrease of 109 State and non-State funded positions, most notably due to reduced staffing needs as a result of the Developmental Centers no longer accepting new admissions and a continued shift in client services to community placements.

The total State and non-State funded growth of 88 in the Department of Law and Public Safety is due to the graduation of the 159<sup>th</sup> State Trooper class, net of attrition. The 159<sup>th</sup> class is expected to graduate in July 2019. Growth is also included to support new positions within the Division of Gaming Enforcement (DGE) as a result of the opening of two new casinos, internet gaming and sports wagering. The

increased costs related to DGE are 100% industry-assessed through the Casino Control Fund.

The Motor Vehicle Commission (MVC) reflects an increase of 209 non-State funded positions. The additional staff will be exclusively positioned at MVC agencies across the State to allow for a seamless implementation of the forthcoming REAL ID driver's license. The federal REAL ID Act established specific minimum federal standards for state-issued driver's licenses and ID cards to be accepted for certain federal purposes, such as entering a federal building or boarding a domestic commercial flight.

The Office of the Public Defender reflects a State funded increase of 33 positions attributable to the Pashman/Belsole court staffing formula, which represents the necessary number of attorneys, investigators and support staff per judge for efficient case load management.
