The New Jersey Department of the Treasury’s Office of Revenue and Economic Analysis (OREA) seeks a Research Economist 3 to support and contribute to the analytical work of the office. OREA supports the State Treasurer by forecasting the economy and state revenues, producing fiscal impact analysis of current and proposed policies and performing other analyses in support of State Government. The Research Economist 3 will be responsible for interpreting revenue trends and forecasting future revenue by studying present and historical trends. Analysis of macroeconomic indicators and revenue data by using software, statistics and mathematical models to develop economic procedures to provide insight on economic and revenue trends allowing Management to make informed economic decisions and advise the State Treasurer on developing economic trends. Will examine current and proposed policies and how they impact New Jersey’s revenue including the review and analysis of other state and federal policies and how they compare to New Jersey policies. Compile and analyze large datasets to provide data insights by creating dashboards that will need to be presented on a weekly, monthly and quarterly basis. Maintains revenue forecasting data from other states and develop contacts with tax revenue analysts from other states.

Standard workweek is Monday through Friday. This position is eligible to participate in the Department's pilot telework program, which offers eligible employees the opportunity to work remotely for up to two (2) days per week, as approved by management. Details will be made available throughout the interview process. Position offers a comprehensive benefits package including medical, prescription drug and dental coverage, benefit leave, Pension, supplemental pension plan, tax saving programs, and paid holidays.
