1.0 INFORMATION FOR BIDDERS

1.1 PURPOSE AND INTENT

The State of New Jersey (the “State”), Department of the Treasury, Division of Investment (the “DOI”) is seeking investment advisory services for its Emerging Market Equity (“EM”) and International Small Cap Equity (“SC”) portfolios. The purpose of this Request for Proposal (“RFP”) is to obtain proposals from qualified Emerging Equity Market and International Small Cap Equity Market Investment Advisers (“IA”) to provide non-discretionary, asset class investment advice to the DOI for the benefit of the various pension funds it manages.

The intent of this RFP is to award multiple contracts to those responsible bidders whose proposals, conforming to this RFP, have successfully demonstrated the skills, expertise and resources to effectively fulfill the requirements herein and are most advantageous to the State, price and other factors considered. The State, however, reserves the right to separately procure individual requirements that are the subject of the contract during the contract term, when deemed by the Director to be in the State’s best interest.

The DOI currently invests approximately $5.7 billion in its Emerging Market Equity mandate through a mix of passively and actively advised strategies. The DOI currently invests approximately $950 million in non-mandated, off benchmark, International Small Cap Equity actively advised strategies.

DOI may contract with up to fifteen (15) EM advisers and with up to ten (10) SC advisers. DOI is not limited to a specific structure or allocation based upon, but not limited to; style, factor, active, passive, country, region, sector, industry or other.

The utilization and allocation to the selected Investment Advisers may change over time depending on market considerations and the Investment Advisers’ expertise and resources. DOI encourages qualified bidders with a single strategy to bid as well as bidders classified as Woman-Owned, Minority-Owned or Veteran-Own Business Enterprises. DOI will determine which contractor(s) is (are) best equipped to provide advice regarding these portfolios based on the responses to this RFP. Bidders may respond to both Emerging Markets and Small Cap but will need to complete separate questionnaires for each asset class (see Section 5.1). Specific allocations to individual strategies within each asset class, including allocations to countries, regions, or sectors, and to specific advisers, shall be based on legal and market considerations and desired portfolio construction as determined by DOI.

Any adviser retained by DOI must comply with various laws, regulations, policies and procedures of the State. By submitting a proposal in response to this RFP, you are pledging to comply with all applicable laws, regulations, policies and procedures.

Investment in the international markets is done through internally managed portfolios both with and without the use of contracted advisers. Subaccounts segregate the various investment portfolios. State Street, DOI’s current global custodian, maintains and holds custody of assets in a separate subaccount for each portfolio for which DOI utilizes an adviser.

All investments in international equity markets must comply with, among other laws and regulations, N.J.A.C. 17:16-48 (Global Equity Investments), N.J.A.C. 17:16-69 (Common Pension Funds), N.J.A.C.17:16-81 (Foreign Currency Transactions) and N.J.A.C. 17:16-82 (Futures Contracts).
The primary benchmarks used by DOI for measuring performance are currently, for Emerging Markets, a custom index based on the MSCI Emerging Markets Equity Index, excluding securities in which DOI is legally prohibited to invest, and for International Small Cap, a custom index based on the MSCI All Country World Index (ACWI) ex-US Small Cap Index, excluding securities in which DOI is legally prohibited to invest. Either of these indices may be replaced by any other appropriate index as designated by DOI (similarly customized to exclude prohibited securities). DOI's objective is to achieve gross returns ranking at or above the median; and risk-adjusted, net of fee rates of return exceeding the appropriate index over rolling three-year and five-year periods.

DOI’s global custodian will maintain and hold custody of each adviser’s designated portfolio(s) as a separate subaccount (“Account”). No commingled fiduciary trust structures will be permitted.

It is anticipated that the term for the contracts awarded will be for five (5) years. There will be a provision to extend the term for three (3) additional one-year periods beyond the initial term upon mutual agreement of the parties.

The State of New Jersey Standard Terms and Conditions (Rev. 2/1/2021) ("Standard Terms & Conditions"), as modified in Section 6.15, are incorporated herein by reference, are in addition to the terms and conditions set forth in this RFP, and should be read in conjunction with them. The Standard Terms & Conditions are available online at:

1.2 BACKGROUND

The DOI and the State Investment Council (“SIC”) were created by P.L. 1950, c. 270. An important objective of the statute was to centralize all functions relating to purchases, sales or exchanges of securities for the State's diverse funds under experienced and professional management.

The Council is comprised of sixteen (16) members pursuant to N.J.S.A. 52:18A-831. Nine members are appointed by the Governor for five year terms, and are drawn traditionally from the professional investment community. Of those nine appointments, eight are made with the advice and consent of the State Senate. One appointment is made from nominees submitted jointly by the President of the Senate and Speaker of the Assembly. The statute requires that at least seven of the nine gubernatorial appointments shall be qualified by training and experience in the direct management, analysis, supervision or investment of assets, which training and experience shall have been acquired through academic training or through actual employment in those fields.

Four members are appointed by the Governor from nominees submitted by various employee organizations. Two of the four members are appointed for five year terms from nominees submitted by the New Jersey State AFL-CIO. One of the four members is appointed for a three year term from nominees submitted by the New Jersey Education Association. The fourth member is appointed by the Governor for a three year term from nominees submitted by the State Troopers Fraternal Association. The statute requires that these four appointments shall be qualified by training, experience or longterm interest in the direct management, analysis, supervision or investment of assets and this training, experience or long-term interest shall have been supplemented by academic training in the fields of economics, business, law, finance or actuarial science or by actual employment in those fields.
Two members, representing the Public Employees’ Retirement System (PERS), and the Teachers’ Pension and Annuity Fund (TPAF), are designated from members of the respective pension system’s board of trustees and serve three-year terms. One member is designated by the Chief Justice of the New Jersey Supreme Court from members of the Retired Judges Association of New Jersey.

All members serve until reappointed or a successor is named and has qualified.

The role of the SIC is to establish the policies it deems necessary or proper, which govern the methods, practices and procedures for investment to be followed by the DOI. New regulations adopted by the SIC from time to time are filed with the Office of Administrative Law and published in the New Jersey Register for public comment prior to adoption.

Implementation of investment policies is vested in the Director of the DOI (the “Director”). The Director is subject to the standards of prudent investment set forth in N.J.S.A. 52:18A-89. As part of the Director’s fiduciary role, the Director retains the power and right to select, monitor, and terminate consultants when doing so is in the best interest of the State. In making these decisions, the Director may consider many factors, including whether the consultant is complying with applicable statutes and regulations, and whether the consultant is meeting the investment goals and direction established by the SIC and the Director.

The DOI invests the assets of seven State pension funds (collectively, the “Pension Fund”), which totaled approximately $84.36 billion as of December 31, 2020. The assets are primarily managed through two common pension trust funds, Common Pension Fund D and Common Pension Fund E (the “Common Pension Funds”). Common Pension Fund D invests primarily in global equity, fixed income, and certain derivative securities. Common Pension Fund E invests primarily in alternative investments, which includes private equity, real estate, real asset, and absolute return strategy funds, and global diversified credit funds. In addition to the Common Pension Funds, DOI is responsible for managing the Supplemental Annuity Collective Trust (SACT), a portion of NJBEST (the State’s 529 plan) and a portion of the Deferred Compensation Plan (DCP), all of which invest in equities. Permissible securities are governed by the SIC Regulations (N.J.A.C. 17:16).

1.3 MINIMUM QUALIFICATIONS - SCREENING CRITERIA

A. The bidder must have at least a five (5) year history of investing in the appropriate asset classes (EM or SC). Key members of the bidder’s investment team must have on average at least a seven (7) year history of investing in the appropriate asset classes.

B. Reported investment performance must be GIPS-compliant, including if porting a track record over from a prior firm.

C. The firm-wide assets under management must be at least $1 billion.

D. The product/strategy-specific assets under management must be at least $250 million. At least one of the products within the asset class group must have at least $250 million in capacity available at the time the Investment Adviser Agreement is executed.
E. The bidder must have competitive absolute and risk-adjusted performance on a net-of-fee basis relative to the appropriate benchmark and peer group.

Additional screening criteria to be considered may include, but is not limited to: excessive product assets under management, recent loss of one or more key team members; limited experience in working with institutional investors; predominantly retail assets in the proposed strategy; unwillingness or inability to comply with SIC Regulations (N.J.A.C. 17:16) and DOI policies; uncompetitive fees; and historical performance inconsistent with expectations.

In order to be considered for award, the proposal must be received by DOI on or before the due date and time as indicated on the cover sheet.

ANY PROPOSAL NOT RECEIVED BY THE DATE AND TIME INDICATED ON THE COVER SHEET WILL BE REJECTED.

If a Bidder requests, prior to the deadline, that the Director postpone the deadline due to a documentable cause of delay that is beyond the control of the Bidder, or if the Director otherwise determines that postponement is in the State’s best interest, the Director shall designate a revised deadline. The Director
shall post notice of any postponement of the deadline on the DOI website, http://www.state.nj.us/treasury/doinvest/rfp.shtml.

1.5 ADDENDA: REVISIONS TO THIS RFP

If it becomes necessary to clarify or revise this RFP, such clarification or revision will be by addendum. Any addendum to this RFP will become part of this RFP and part of any contract awarded as a result of this RFP.

ALL ADDENDA WILL BE ISSUED ON DOI’S WEB SITE:
http://www.nj.gov/treasury/doinvest/rfp.shtml

There are no designated dates for release of addenda. Therefore, interested Bidders should check DOI’s website daily from the time of RFP issuance through the proposal submission deadline.

It is the sole responsibility of the Bidder to be knowledgeable of all addenda related to this procurement.

1.6 BIDDER RESPONSIBILITY

The Bidder assumes sole responsibility for the complete effort required in submitting a proposal in response to this RFP. It is the sole responsibility of the Bidder to be knowledgeable as to all the requirements of this RFP and any Addenda. No special consideration will be given after proposals are opened because of a Bidder’s failure to be knowledgeable as to such requirements.

1.6.1 COST LIABILITY

The State assumes no responsibility and bears no liability for costs incurred by a Bidder in the preparation and submittal of a proposal in response to this RFP.

1.6.2 PUBLIC DISCLOSURE OF PROPOSAL

The Bidder’s proposal and all information submitted by Bidders in response to this RFP may be released to the public under the New Jersey Open Public Records Act, N.J.S.A. 47:1A-1 et seq., (“OPRA”) or the common law right to know, notwithstanding any disclaimers to the contrary submitted by a Bidder, except as may be exempted from public disclosure by OPRA and the common law.

A Bidder may designate specific information as not subject to disclosure pursuant to the exceptions to OPRA (see N.J.S.A. 47:1A-1.1) or the common law, when the Bidder has a good faith legal and/or factual basis for such assertion. The location in the proposal of any such designation should be clearly stated in a cover letter. The State reserves the right to make the determination as to what is exempt from disclosure and will advise the Bidder accordingly. The State will not honor any attempt by a Bidder to designate its entire proposal or the prices offered as exempt from disclosure. In the event of any challenge to the Bidder’s assertion of confidentiality with which the State does not concur, the Bidder may elect to defend its assertion in a timely manner at its own expense.

All received proposals will remain unopened until the deadline for proposal submission. After the deadline, only the names and addresses of the Bidders submitting proposals may be made public. The
contents of the proposals shall not be available for public inspection until the Notice of Intent to Award is issued by the Director.

After the Notice of Intent to Award is issued, each proposal and, if applicable, documentation relating to any negotiations, will be available for public inspection in accordance with governing law.

1.6.3 PRICE ALTERATION IN HARD COPY PROPOSALS

Proposal prices must be typed or written in ink. Any price change (including “white-outs”) must be initialed. Any price alteration that has not been initialed shall be disregarded, unless a duplicate copy within the Bidder’s proposal packet contains the same alteration. Examples of alterations include, but are not limited to, cross-outs, erasures, white-outs, write-overs, and strikeovers, with re-entered prices. If the alteration has not been initialed, that particular item only shall be rejected, except if the extended price is verifiably correct and does not contain an alteration or if the extended total price is verifiably correct and does not contain an alteration, it shall be considered the offered price. In the event of a rejection of a single line of a proposal responding to a request for multiple prices for multiple items, the remainder of the proposal shall be evaluated.

1.6.4 WITHDRAWING PROPOSAL

A Bidder discovering an error in its bid proposal prior to the proposal submission deadline may request, in writing, that its submitted proposal be withdrawn. If the request is granted, the Bidder may submit a revised bid proposal provided it is received prior to the proposal submission deadline.

A Bidder discovering an error in its bid proposal after the proposal submission deadline but before the contract award may make written application to the Director for authorization to withdraw its bid proposal. The Director shall consider the Bidder’s good faith in making the request, as evidenced by: whether the mistake relates to a material feature or term of the proposal; whether the mistake occurred notwithstanding the Bidder’s exercise of reasonable care; and whether the error is so significant that to enforce the contract resulting from the proposal would be unconscionable. The Director shall also consider whether DOI would be significantly prejudiced by granting the request.

1.6.5 JOINT VENTURE

If a joint venture is submitting a proposal, the agreement between the parties relating to such joint venture should be submitted with the joint venture's proposal. Authorized signatories from each party comprising the joint venture must sign the proposal. B. Contractor shall comply with SIC regulations and applicable DOI directives regarding DOI’s securities lending program.

3.6 TRADING AND COMMISSIONS

A. In carrying out DOI’s investment decisions, Contractor is required to conduct its trading practices in a manner consistent with the terms of this RFP and its fiduciary duties.

B. All trading is to be performed on a “best execution” basis, that is, execution that achieves the best net result when considering all factors including commissions, price, market impact, currency transactions, and ability to fulfill the amount of shares desired.

C. Best execution basis also applies to currency transactions. Contractor shall be expected to execute substantially all currency transactions in-house or be willing to execute through a third party to achieve the lowest possible execution cost. Counterparties to FX forward transactions are limited to those counterparties where DOI has directly executed ISDA and Dodd-Frank Protocol Agreements. Spot FX transactions are not limited to those counterparties. Note that an adviser is not authorized to bind DOI (or any of its funds) to any legal agreement (including, e.g., an ISDA agreement) without the consent and written approval of the Director.

D. Contractor may trade securities through an affiliated broker only if it has received prior written authorization to do so, and only if such trade is on a best execution basis.

E. Contractor’s Policies and Procedures for broker-dealer selection must meet with the approval of DOI. Further, DOI reserves the right to refuse trading authority to specific broker-dealers who do not meet DOI policy standards. All changes to Contractor’s policies and procedures are required to be submitted by Contractor to DOI for approval prior to implementation with respect to the Account. Contractor shall disclose to DOI any “soft dollar” arrangements with brokers.

F. Adviser shall transmit all trades to DOI’s custodian on trade date (please see section 3.7)

3.7 INVESTMENT ADVISER RECONCILIATION PROCESS

DOI values its portfolios daily and calculates a daily net asset value (NAV) for the Common Pension Funds. Therefore, inquiries made by DOI’s custodian on trade-related issues should be researched and responded to promptly and every attempt should be made to resolve the issue within 24 hours to ensure proper settlement and valuation.

The deadline for all trades to be reported to DOI’s custodian electronically is trade date by 3:30 PM ET. For same day settlement trades, the deadline is 10:30 AM ET. Reconciliation requirements are as follows:

C. In the event of a conflict between the provisions of the Investment Adviser Agreement, this RFP, including the Modifications and Changes to the Standard Terms & Conditions, any Addenda to this RFP, the Standard Terms & Conditions, Contractor’s proposal, and Contractor’s best and final offer, the order of precedence from most controlling to least shall be the following: the Investment Adviser Agreement, any Addendum to the RFP, the RFP, the Standard Terms & Conditions, Contractor’s best and final offer, and Contractor’s proposal.

In the event of a “for cause” termination, Contractor shall not be entitled to any payment of fees for services provided after the date of the action that forms the basis for such termination.

6.3 CONTRACT TRANSITION

In the event that a new contract has not been awarded prior to the contract expiration date, as may be extended herein, it shall be incumbent upon the Contractor to continue the contract under the same terms and conditions until a new contract can be completely operational. At no time shall this transition period extend more than one year beyond the expiration date of the contract.

All data, technical information, materials gathered, originated, developed, prepared, used or obtained in the performance of the contract, including, but not limited to, all reports, surveys, plans, charts, literature, brochures, mailings, recordings (video and/or audio), pictures, drawings, analyses, graphic representations, software computer programs and accompanying documentation and print-outs, notes and memoranda, written procedures and documents, regardless of the state of completion, which are prepared for or are a result of the services required under this contract shall be and remain the property of DOI and shall be delivered to DOI upon thirty (30) days’ notice by DOI. With respect to software computer programs and/or source codes developed for DOI, the work shall be considered “work for hire,” i.e., DOI, not the Contractor or subcontractor, shall have full and complete ownership of all software computer programs and/or source codes developed. To the extent that any of such materials may not, by operation of the law, be a work made for hire in accordance with the terms of this contract, the Contractor or subcontractor hereby assigns to the State all right, title and interest in and to any such material, and the State shall have the right to obtain and hold in its own name and copyrights, registrations and any other proprietary rights that may be available.

B. Should the Bidder anticipate bringing pre-existing intellectual property into the project, the intellectual property must be identified in the proposal. Otherwise, the language in the first paragraph of this section prevails. If the Bidder identifies such intellectual property ("Background IP") in its proposal, then the Background IP owned by the Bidder on the date of the contract, as well as any modifications or adaptations thereto, remain the property of the Bidder. The Contractor must secure all data from manipulation, sabotage, theft or breach of confidentiality. The Contractor is prohibited from releasing any financial, statistical, personnel, customer and/or technical data supplied by DOI that is deemed confidential. Any use, sale, or offering of this data in any form by the Contractor, or any individual or entity in the
Contractor's charge or employ, will be considered a violation of this contract and may result in contract termination and the Contractor's suspension or debarment from State contracting. In addition, such conduct may be reported to the State Attorney General for possible criminal prosecution.

B. The Contractor shall assume total financial liability incurred by DOI and/or the Contractor associated with any breach of confidentiality.

G. Contractor shall comply with all applicable State and Federal laws that require the notification of individuals in the event of unauthorized release of personally identifiable information or other event requiring notification. In the event of a breach of any of Contractor's security obligations or other event requiring notification under applicable law (“Notification Event”), Contractor shall assume responsibility for informing the DOI Contract Manager and all such individuals in accordance with applicable law and to indemnify, hold harmless and defend the State (including...
but not limited to DOI), its officials, and employees from and against any claims, damages, or other harm related to such Notification Event.

6.13 REMEDIES FOR FAILURE TO COMPLY WITH MATERIAL CONTRACT REQUIREMENTS

In the event the Contractor fails to comply with any material contract requirements, the Director may take steps to terminate the contract in accordance with the Standard Terms & Conditions, authorize the delivery of contract items by any available means, with the difference between the price paid and the defaulting Contractor's price either being deducted from any monies due to the defaulting Contractor or being an obligation owed the State by the defaulting Contractor as provided for in the State administrative code, or take any other action or seek any other remedies available at law or in equity.

6.14 ADDITIONAL WORK AND/OR SPECIAL PROJECTS

A. The Contractor shall not perform additional work or special projects without first obtaining written approval from both the DOI Contract Manager and the Director.
B. In the event of additional work and/or special projects, the Contractor must present a written proposal to perform the additional work to the DOI Contract Manager. The proposal should provide justification for the necessity of the additional work. The relationship between the additional work and the base contract work must be clearly established by the Contractor in its proposal.

C. The Contractor’s written proposal must provide a detailed description of the work to be performed, broken down by task and subtask. The proposal should also contain details on the level of effort, including hours, labor categories, etc., necessary to complete the additional work.

D. The written proposal must detail the cost necessary to complete the additional work in a manner consistent with the contract. Whenever possible, the price schedule should be a firm, fixed price to perform the required work. A payment schedule, tied to successful completion of tasks and subtasks, must be included.

E. Upon receipt and approval of the Contractor’s written proposal, the DOI Contract Manager shall forward it to the Director for the Director’s written approval.

F. No additional work and/or special project may commence without the Director’s written approval. In the event the Contractor proceeds with additional work and/or special projects without the Director’s written approval, it shall be at the Contractor’s sole risk. DOI shall be under no obligation to pay for work performed without the Director’s written approval.

6.15 ORGAN DONATIONS

Pursuant to N.J.S.A. 52:32-33, Contractors are encouraged to notify their employees, through information and materials or through an organ and tissue awareness program, of organ donation options. The information provided to employees shall be prepared in collaboration with the organ procurement organizations designated pursuant to 42 U.S.C. §1320b-8 to serve in this State.

NOTE: Selected bidders will be required to register with the State’s centralized accounting system through NJStart in order to be paid. Vendors not already registered may do so at: https://www.njstart.gov/bso/

6.16 MODIFICATIONS AND CHANGES TO THE STANDARD TERMS & CONDITIONS

A. The third, fourth and fifth sentences of Section 1 of the Standard Terms & Conditions are deleted and replaced with the following sentence:

“\[In the event that the Bidder would like to present terms and conditions that are in conflict with either these terms and conditions or those set forth in the RFP, the Bidder must present those conflicts for the State to consider during the Question and Answer period or during negotiations prior to contract award. 7.0 PROPOSAL EVALUATION

7.1 RIGHT TO WAIVE

The Director reserves the right to waive minor irregularities or omissions in a bid proposal. The Director also reserves the right to waive a requirement provided that:

A. the requirement is not mandated by law;

B. all the otherwise responsive proposals failed to meet the requirement; and

C. in the sole discretion of the Director, the failure to comply with the requirement does not materially affect the procurement or the State’s interests associated with the procurement.

7.2 RIGHT TO REJECT OR AWARD IN PART

The Director reserves the right to reject any or all proposals, or to award in whole or in part, if the Director deems it to be in the best interest of the State to do so. Notice of such a rejection shall be posted on the DOI website, http://www.state.nj.us/treasury/doinvest/rrp.shtml.

7.3 RIGHT TO INSPECT BIDDER’S FACILITIES

The Director reserves the right to inspect, or to direct an employee or member of the Selection Committee to inspect, the Bidder’s establishment before making an award, for the purposes of ascertaining whether the Bidder has the necessary facilities for performing the Contract.

A. The Director reserves the right to request all information which may assist him or her in making a contract award, including factors necessary to evaluate the Bidder's financial capabilities to perform the Contract.

B. The Director reserves the right to request a Bidder to explain, in detail, how the proposal price was determined.

C. The Director reserves the right to consult with clients of the Bidder during the evaluation of bids.

7.5 SELECTION COMMITTEE

Proposals shall be evaluated by a Selection Committee composed of members of DOI staff and/or other State employees. The Director may also recommend technical advisors, including members of the Council, DOI employees, consultants, and/or attorneys to assist the Selection Committee.

7.6 ORAL PRESENTATIONS AND/OR DEMONSTRATIONS

A. After the submission of proposals, unless requested by DOI as noted below, contact between DOI staff and any Bidder or its employees/representatives regarding the RFP is still not permitted.

B. After the proposals are reviewed, a Bidder may be asked to clarify certain aspects of its proposal. The process of clarification is not an opportunity for the Bidder to revise or modify its proposal, and any response or portion of a response by the Bidder to a request for clarification that attempts to revise or modify its proposal shall be given no effect.

C. The Bidder may be required to give an oral presentation to the Selection Committee concerning its proposal. The Selection Committee may request the Bidder to provide a demonstration of the Bidder's systems. Bidders may not attend the oral presentations or demonstrations of their competitors.

D. It is within the Director's discretion whether to request a Bidder to clarify its proposal or to give an oral presentation. Such a request should not be construed to imply acceptance or rejection of a proposal.

7.7 EVALUATION CRITERIA

A. All proposals will be reviewed to determine responsiveness. Non-responsive proposals will be rejected without evaluation. Responsive proposals will be evaluated by the Selection Committee.

B. Responses/proposals may be eliminated for failing to meet the minimum qualifications and screening criteria listed in RFP Section 1.3 above. A Bidder with a history of performance problems, as demonstrated by formal complaints and/or cancellations of contracts for cause, may also be eliminated from consideration for an award under this RFP.

C. The following evaluation criteria categories, separate or combined in some manner, and not necessarily listed in order of significance, will be used to evaluate proposals received in response
to this RFP. The evaluation criteria categories may be used to develop more detailed evaluation criteria to be used in the evaluation process:

- Documented experience in successfully completing contracts requiring services of similar size and scope;
- The qualifications and experience of management, supervisory or other key personnel assigned to the engagement, with emphasis on documented experience in successfully completing work on contracts requiring services of similar size and scope;
- The overall ability to mobilize, undertake and successfully complete the services required by this RFP;
- Competitiveness of fees relative to other similar products and strategies;
- Absolute and risk-adjusted performance on a net-of-fee basis relative to the appropriate benchmark and peer group;
- Structural fit within DOI’s investment program;
- Adequate supporting resources, including personnel and global, regional or country presence, where appropriate; and
- The use of explicit risk assessments both within the portfolio construction methodology as well as assessment of risks outside the fundamental operating risks of the company, including how risk is measured and managed at both the individual security and aggregate portfolio levels.

7.8 PRICING DISCREPANCIES

A. If, during the proposal evaluation process, it is discovered that there is an arithmetic disparity between the unit price and the total extended price, the unit price shall prevail. In the event of such disparity, the Director will request, in writing, confirmation by the Bidder of the revised total extended price. The Bidder will have five (5) business days after receipt of the request to confirm the price. If the Bidder fails to respond, its proposal shall be considered withdrawn, and no further consideration shall be given to it. The Director may only confirm and may not modify or amend its price. The Director shall determine whether any intended confirmation is a modification or amendment.

B. If any other obvious pricing error is found, the Director shall issue a written request for confirmation to the Bidder. The Bidder will have five (5) business days after receipt of the request to confirm its pricing. If the Bidder fails to respond, its proposal shall be considered withdrawn, and no further consideration shall be given to it. The Bidder may only confirm and may not modify or amend its price. The Director shall determine whether any intended confirmation is a modification or amendment.

C. If there is an ambiguity in the pricing, other than a disparity between the unit price and extended price or other obvious pricing error, and the Bidder’s intention is not readily discernible from other
parts of the proposal, the Director shall issue a written request for clarification to the Bidder. The Bidder will have five (5) business days after receipt of the request to clarify its pricing. If the Bidder fails to respond, its proposal shall be considered withdrawn, and no further consideration shall be given to it. The Bidder may only clarify and may not modify or amend its price. The Director shall determine whether any intended clarification is a modification or amendment.

7.9 NEGOTIATION AND BEST AND FINAL OFFER (BAFO)

A. After evaluating proposals, DOI may enter into negotiations with one Bidder or multiple Bidders. The primary purpose of negotiations is to maximize the State’s ability to obtain the best value based on the mandatory requirements, evaluation criteria, and cost. Negotiations will be structured by DOI to safeguard information and ensure that all Bidders are treated fairly.

B. Similarly, the Division may invite one (1) Bidder or multiple Bidders to submit a best and final offer (BAFO). The invitation will establish the time and place for submission of the BAFO. Any BAFO that is not equal to or lower in price than the pricing offered in the Bidder’s original proposal will be rejected as non-responsive, and DOI will revert to consideration and evaluation of the Bidder’s original pricing.

C. If required, after review of the BAFO(s), clarification may be sought from the Bidder(s). DOI may conduct more than one round of negotiation and/or BAFO in order to attain the best value for the State.

D. Negotiations will be conducted and/or BAFO(s) requested only in those circumstances where they are deemed by DOI or the Director to be in the State’s best interests and to maximize the State’s ability to obtain the best value. Therefore, the Bidder is advised to submit its best technical and price proposal in response to this RFP since DOI may, after evaluation, make a contract award based on the content of the initial submission without further negotiation with and/or BAFO from any Bidder.

7.10 PROPOSAL RECOMMENDATION

A. After evaluation of proposals and, as applicable, negotiation(s) and/or BAFO(s), the Selection Committee will recommend to the Director the responsible Bidder(s) whose proposal(s), conforming to the RFP, is/are most advantageous to the State, price and other factors considered. The Director may accept, reject or modify the recommendation of the Selection Committee. The Director may initiate additional negotiation or BAFO procedures with the selected Bidder(s).

B. Until a Notice of Intent to Award the Contract is issued, all contacts, records of initial evaluations, any correspondence with Bidders related to any request for clarification, negotiation or BAFO, any revised technical and/or price proposals, the Selection Committee Report, and the Award Recommendation will remain confidential.

B. Any Bidder, inclusive of any named subcontractors, who does not have a valid business registration at the time of the proposal submission opening or whose BRC was revoked prior to the submission of the proposal should proceed immediately to register its business or seek re-instatement of a revoked BRC. Bidders are cautioned that it may require a significant amount of time to secure the re-instatement of a revoked BRC. The process can require actions by both the Division of Revenue and the Division of Taxation. For this reason, a Bidder’s early attention to this requirement is highly recommended. The Bidder and its named subcontractors may register with the Division of Revenue, obtain a copy of an existing BRC or obtain information necessary to seek re-instatement of a revoked BRC online at:

8.2 FINAL CONTRACT AWARD

8.2.1 AWARD OR REJECTION OF PROPOSALS

Contract award(s) shall be made with reasonable promptness by written notice to that responsible Bidder(s), whose proposal(s), conforming to this RFP, is(are) most advantageous to the State, price and other factors considered. Any or all proposals may be rejected when the Director determines that it is in the public interest to do so. The Director shall make his or her decision consistent with his or her fiduciary duties pursuant to N.J.S.A. 52:18A-89.

8.2.2 NOTICE OF INTENT TO AWARD; PROTESTS

The Director shall post a Notice of Intent to Award on the DOI website. In the event that the Director determines that all proposals shall be rejected or no award shall be made, the Director shall post a notice of such determination on the DOI website. The DOI website is located at:

www.state.nj.us/treasury/doinvest/ rfp.shtml.

A non-successful Bidder, within ten (10) business days following the Notice of Intent to Award, may submit a written protest. If a contract award is protested, DOI shall not award the contract in question until a final decision is rendered on the merits of the protest, unless the Director finds that the failure to award the contract will result in substantial cost to the State or that public exigency so requires. In such event, DOI shall notify all interested parties.

Protests must be submitted to the Director, and must concern one or more of the following:
A. Rejection of the Bidder’s proposal for failing to meet the minimum qualifications and screening criteria listed in Section 1.3 above. Such protest may not challenge the validity of the requirements or criteria, but rather may assert that its proposal complied with such requirements or criteria; and/or

B. Notice of intent to award contract(s) to another Bidder as part of the same procurement.

A protest shall contain the following:

A. Identification of the particular procurement;

B. The specific grounds for challenging the rejection of its proposal or the scheduled contract award, as applicable, including all arguments, materials and/or other documentation that may support the protester’s position; and

C. A statement as to whether the protester requests an opportunity for an in-person presentation and the reason(s) for the request.

The Director has sole discretion to determine if an in-person presentation by the protester is necessary to reach an informed decision on the protest. In-person presentations are fact-finding for the benefit of the Director, who has the discretion to limit attendance at an in-person presentation to those parties likely to be affected by the outcome of the protest.

The Director is entitled to request, receive, and review copies of any and all records and documents deemed appropriate and relevant to the issues and arguments set forth in the protest. Upon receipt of any such request, the Bidder shall promptly provide the requested records and documents in the time, place, and manner specified in the request. Failure to do so may constitute a reasonable basis for the Director to resolve the protest against the Bidder submitting the protest. The Director may also consider relevant information requested and received from other parties as he or she deems appropriate.

The Director may disregard any protest not containing all of the items set forth above or filed after the 10-day protest period.

The protest shall be resolved by written decision of the Director based on the Director’s review of the written record including, but not limited to, the written protest, the terms, conditions and requirements of the RFP, the proposals submitted in response to the RFP, written reports and/or the award recommendation documents, pertinent administrative rules, statutes, and case law, and any associated documentation deemed appropriate. In cases where no in-person presentation is held, such review of the written record shall, in and of itself, constitute an informal hearing.

The Director may designate someone, from within or outside DOI, to perform a review of the written record and conduct an in-person presentation. In the case of a review or in-person presentation being handled by a reviewer from outside DOI, the determination of such designee shall be in the form of a report to the Director, which shall not be binding on the Director but rather advisory in nature. The protesting party shall receive a copy of the reviewer’s report and shall have a period of ten (10) business days to provide written comments or exceptions to the report to the Director.
The Director shall make a final written decision on the protest.

Protests are not contested cases subject to the requirements of the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq., and the Uniform Administrative Procedure Rules, N.J.A.C. 1:1. Final agency determinations by the Director on protests are appealable to the Appellate Division of the Superior Court of New Jersey.
