Grant Title: New Jersey Commission on Spinal Cord Research
Account Number: 750 046 4210 001

I. GENERAL STATE REQUIREMENTS

The following administrative requirements are applicable to the various types of agencies, which receive grant funds from the Department of Health and Senior Services.

A. COMPLIANCE REQUIREMENTS

1. POLITICAL ACTIVITY

Grant funds cannot be used for partisan political activity of any kind by any person or organization involved in the administration of state or federally-assisted programs. Hatch Act (5 U.S.C. 1501-1508) and Intergovernmental Personnel Act of 1970 as amended by Title VI of Civil Service Reform Act (P.L. 95-454 Section 4728).

Suggested Audit Procedures

Test the expenditure and related records for indications of lobbying activities, publications, or other materials intended for influencing legislation or similar type costs.

Test the personnel and payroll records, and identify persons whose responsibilities or activities include political activity.

Test whether the above costs, if any exist, are charged directly or indirectly, to Grants.

2. DAVIS-BACON ACT

When required by the grant program legislation, all laborers and mechanics employed by contractors or subcontractors to work on construction projects must be paid wages not less than those established for the locality of the project by the Secretary of Labor.

Suggested Audit Procedures

Identify the programs involving construction activities.

Review selected construction contracts and subcontracts and determine whether they contain provisions requiring the payment of “prevailing” wages.

Review the grantee’s system for monitoring applicable contractors and subcontractors with respect to payment of prevailing wages and evaluate for adequacy.

Review the monitoring system for contracts for selected programs and determine whether there is adherence to the prescribed procedures.
For grantee's which have not developed a system, or whose system is not operating effectively:

- Obtain payroll lists from contractors and review wages paid.
- Determine whether wages paid conform to the prevailing wages.

3. CIVIL RIGHTS

No person shall, on the grounds of race, color, national origin, age, or handicap, be excluded from participation in or be subjected to discrimination in any program or activity funded, in whole or in part, by grant funds. Discrimination on the basis of sex or religion is also prohibited in some programs. (Age-42 U.S.C. 6101 et. seq.; Race-42 U.S.C. 2000d; Handicap-29 U.S.C. 794.)

Suggested Audit Procedures

Determine whether the grantee has announced a formal policy of nondiscrimination.

For recipients employing 15 or more persons, ascertain whether a person has been designated to oversee civil rights compliance.

Ascertain from the grant agreement whether any of the programs contain prohibitions against discrimination on the basis of sex or religion.

Ascertain the number of complaints filed with federal, state and/or local agencies responsible for ensuring nondiscrimination in government programs during the fiscal year, the status of unresolved complaints or investigations, and the actions taken on resolved complaints or completed investigations.

Ascertain whether any of the programs contain prohibitions against discrimination in employment; for those programs (1) review the annual report filed with the Equal Employment Opportunity Commission (EEOC), if any, and (2) ascertain the number of complaints filed during the fiscal year, the status of unresolved complaints and investigations, and the actions taken on resolved complaints or completed investigations.

Determine whether facilities financed by grant funds that are required to be located in a nondiscriminatory manner are so located.

Obtain representation and/or attorney letters to determine if any civil rights suits have been adjudicated or are pending.

4. AMERICANS WITH DISABILITIES ACT OF 1990

Any Program or activity funded, in whole or in part, by State and/or Federal Funds is subject to the Americans with Disabilities Act of 1990. Title II of the Americans with Disabilities Act (ADA) provides that "no qualified individual with a disability shall, by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of a public entity, or be subjected to discrimination by such entity." 42 U.S.C., 12132 et. seq.

Suggested Audit Procedures

Determine if the Grantee is in compliance with the Americans with Disabilities Act of 1990.
5. **DEBARMENT AND SUSPENSION**

Federal Executive Order 12549 "Debarment and Suspension," and State Executive Order 34/1976 state that a grantee may not be eligible for an award funded by Department appropriations if the agency, its key employees or subgrantees have been debarred from Federal Procurement and Non-Procurement programs.

**Suggested Audit Procedures**

Verify that the grantee, its key employees or subgrantees have not been debarred from State or Federal Procurement and Non-Procurement Programs.

6. **LOBBYING**

Section 319 of Federal Public Law 101-121 prohibits recipients of contracts, grants and loans from using appropriated funds for lobbying the Executive or Legislative Branches of Government in connection with a specific contract, grant or loan. Section 319 also requires that each person who requests or receives a contract, grant, cooperative agreement, loan or a commitment to insure or guarantee a loan, must disclose lobbying activities.

**Suggested Audit Procedures**

Verify that funds have not been used for lobbying activities as stated in Section 1352 of Public Law 101-121.

Verify that the Standard Form-LLL, "Disclosure Form to Report Lobbying" was completed indicating to whom payments were made, how much money was involved and the type of work involved. Verify that the standard form was submitted to the Granting Agency to disclose activities pursuant to 31 U.S.C. 1352.

7. **GRANTEE'S TERMS & CONDITIONS FOR ADMINISTRATION OF GRANTS**

Administrative and financial requirements stated in this manual are applicable to all agencies, which receive grant funds from the Department.

**Suggested Audit Procedures**

Determine if the grantee is in compliance with laws, regulations and administrative and financial requirements and funds have been applied efficiently, economically and effectively.

8. **FEDERAL FINANCIAL REPORTS**

Most programs require the periodic submission of financial reports that fall within one or more of the following categories. The specific requirement for each grant program is presented in Attachment A of the Grant and the appropriate sub-part of the Terms and Conditions for the Administration of Grants for that program. The suggested audit procedures are provided below to facilitate the requirement for the auditor to comment on completeness and accuracy.

a. Subpart R of the Terms and Conditions lists required financial reports that apply to most of the programs described in this document.

b. Subpart F and G of the Terms and Conditions list cash management and payments requirements.
Suggested Audit Procedures

Review the procedures for preparing the financial reports and evaluate for adequacy.

Trace data to the supporting documentation, i.e., worksheets, ledgers, etc.

Review adjustments made to the general ledger amounts in the report affecting programs and evaluate for propriety.

9. LOCAL/STATE FIRE AND SAFETY CODES

Suggested Audit Procedures

Verify that the grantee's Local/State Fire and Safety Codes are in accordance to the uniform Fire Safety Act, NJAC 518, related statute NJSA 52, code 27-D-1-9-2.

10. PRO-CHILDREN ACT OF 1994 - ENVIRONMENTAL TOBACCO SMOKE

This act requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such federal funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol treatment service providers whose sole source of applicable Federal funds is Medicare or Medicaid; or facilities where WIC coupons are redeemed. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to $1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity. If applicable, the grantee is to sign a certification indicating that the agency/organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

Suggested Audit Procedures

Determine if the grantee is in compliance with the Pro-Children Act of 1994 and a certification has been signed and is on file in the agency's office.

   NJCSCR Fund, Chapter 201, P.L. 1999, NJSA 52:E-1

B. Applicable Federal Domestic Assistance Catalog Number
   N/A

C. PROGRAM OBJECTIVES
   The NJCSCR is committed to accelerating research to develop effective interventions and cures for paralysis and other consequences of spinal cord injury and disease.

   Its primary objectives are:
   
   • To advance the field of spinal cord repair and regeneration and the New Jersey research community by encouraging established scientists to apply their expertise to the spinal cord.
   
   • To foster collaborative, interdisciplinary approaches to spinal cord research.
   
   • To nurture the next generation of spinal cord researchers through support of young scientists and postdoctoral fellows.
   
   • To prevent or treat secondary biological conditions resulting from spinal cord injury.
   
   • To promote dissemination of the research findings generated by those scientists supported by the NJCSCR.

   NJCSCR awards are intended to promote innovative, groundbreaking research, not to provide long-term support. Grantees are eligible to apply for funding for additional projects, but such applications will be reviewed competitively.

D. FUNDING PRIORITIES
   The New Jersey Commission on Spinal Cord Research will fund research activities that hold promise of developing effective interventions and cures for paralysis and other consequences of spinal cord injury and disease. The areas of research listed below highlight the focus of current NJCSCR emphasis and funding:
   
   • Studying strategies to promote neuronal growth and survival, encourage the formation of synapses, enhance appropriate myelination, restore axonal conduction, replace injured cells, or otherwise improve function after spinal cord injury.
   
   • Evaluating efficacy of drugs and other interventions that prevent or reduce secondary neuronal injury or providing insight into the mechanisms causing progressive damage.
   
   • Defining anatomical characteristics of spinal cord injury or disease in well-defined animal models and in the human spinal cord, specifically documenting the cellular systems vulnerable to injury or disease and the functional losses which occur as a result thereof.
   
   • Elucidating biological or physical mechanisms underlying approaches to improve functions compromised by spinal cord injury, e.g., bladder, bowel and sexual function, and alleviate chronic pain, spasticity, and severe hypertension.
   
   • Developing strategies to prevent or treat secondary complications arising from injury or disease to the spinal cord.
   
   • Developing innovative restorative rehabilitation strategies to promote recovery of biological function.
   
   • Translating basic and pre-clinical findings into clinical application.
   
   • Supporting the investigation of promising new approaches.
E. ELIGIBILITY

The following researchers are eligible to submit proposals to the NJCSCR for research grant awards. All applicants, organizations/institutions must be located within the State of New Jersey.

- Ph.D., M.D., or other such professionals.
- Independent investigators at any stage of professional development.
- Postdoctoral fellows, Graduate fellows.
- Established investigators new to the field of spinal cord injury research.
- Young Investigators (five years post-completion of formal training)

Collaborations between basic research scientists and clinicians with spinal cord injury experience are encouraged. Young investigators are encouraged to partner with established investigators to nurture their scientific growth.

All applicants including Principal Investigators and organizations/institutions are encouraged to collaborate with other New Jersey-based researchers as well as with researchers located out-of-state, or out of the country. Senior scientists, young investigators, postdoctoral and graduate fellows may serve as Principal Investigator. If the applicant is a fellow, he/she must submit a letter of support from the laboratory's senior scientist, as well as two or more appropriate letters of reference.

F. PROTECTION OF HUMAN SUBJECT, ANIMAL WELFARE, AND RECOMBINANT DNA

Compliance with National Institutes of Health regulations for the protection of human subjects, animal welfare, recombinant DNA, and inclusion of women and minorities in clinical trials is required for all grants.

It is the responsibility of the applicant as a potential recipient of a NJCSCR grant to assure that the rights and welfare of all human subjects used in any NJCSCR sponsored research are protected. Any applications involving human subjects must be reviewed and approved by the appropriate institutional review board.

It is the responsibility of the applicant as a potential recipient of a NJCSCR grant to assure proper care and treatment of all laboratory animals used in any NJCSCR sponsored research. Any applications involving laboratory animals must be reviewed and approved by the appropriate institutional review committee.

It is the responsibility of the applicant as a potential recipient of a NJCSCR grant to assure that the physical and biological containment needed for research involving any recombinant DNA molecules is within policies set out in the current "National Institutes of Health Guidelines for Research Involving Recombinant DNA Molecules." Any applications involving recombinant DNA molecules must be reviewed and approved by the appropriate institutional review board.

G. PROGRAM PROCEDURES

The NJCSCR offers four types of grants; the specifics are outlined below. All qualified institutions including Principal Investigators and Organizations/institutions are encouraged to apply for the awards.

For all NJCSCR grants, a qualified institution is defined as any academic institution, research organization, public or private institution or other entity, located in the State of New Jersey, with a demonstrated capability to conduct grant funded research, and specifically approved by the vote of the Commission, but in no case can an individual be a qualifying research institution.

All research proposals will be reviewed for scientific merit, technical merit, research significance, and relevance to the NJCSCR priorities by an independent scientific merit review panel. Scientists supported by the NJCSCR are expected to fully report the results of their research to the NJCSCR, and may be asked to report on their results or work in progress, at a symposium organized by the NJCSCR. Grantees are also expected to acknowledge the support of the New Jersey Commission on Spinal Cord Research in all presentations and publications.
G. PROGRAM PROCEDURES – CONTINUED

The NJCSCR reserves the right to distribute funds among the grants in all its grant programs. The NJCSCR reserves the right not to fund any grant in any of its grant programs to the maximum amount, or not to fund any grant in any program at all. Grant awards to all four programs will not exceed $6,500,000 as published in the New Jersey Register for Fiscal Year 2004.

Five-Year Named Chair for Senior & Junior Faculty Grants – The NJCSCR will fund grants totaling $1,000,000 for senior faculty and $600,000 for junior faculty for a Five-Year Named Chair for Senior and Junior Faculty to recruit highly qualified researchers to conduct spinal cord research in New Jersey. All qualifying institutions in the State of New Jersey may apply. The qualifying institution must provide evidence of support such as appropriate laboratory facilities and the commitment of financial support necessary to sustain the research for a minimum of five years. A qualifying research institution may not apply for both a "One-Time Start-Up Costs" grant and a "Five-Year Named Chair for Senior and Junior Faculty" grant using the same faculty member in the same grant year.

Grants will total $1,000,000 for senior faculty and $600,000 for junior faculty (including direct and indirect costs; a maximum of 10% may be applied to indirect costs). Successful candidates also will receive $100,000 and $50,000 respectively in start-up costs. The person holding this position will be called "New Jersey Professor of Spinal Cord Research."

A senior faculty candidate will have a Ph.D. and/or M.D., an outstanding record of excellence and achievement in areas relevant to spinal cord injury research, high quality publications, a national/international reputation, demonstrated leadership capabilities, evidence of sustained success in competitive science funding, and a commitment to the development of practical therapies. Experienced researchers in other fields moving to spinal cord research also will be considered.

A junior faculty candidate will have a Ph.D. and/or M.D., appropriate postdoctoral experience in a well-established research facility, and confidential recommendations from the director and senior leaders of his/her present research setting. Outside references will enhance the application.

Applications are evaluated based upon evidence provided by the qualifying institution that the proposed candidate has accepted a position and that appropriate research facilities are available or will be provided by the start date of this award. Awards will begin on or about June 15, 2004. Money granted must be held in a separate account by the institution with all accrued interest being maintained in the account. Any change either in awardee or the research focus will result in the revocation of the award and the return of all funds on a prorated basis.

Annual funding within the five-year period will be contingent upon the availability of funds and the submission of an annual Narrative Report that is favorably reviewed by an independent scientific merit review panel. The panel’s continuation recommendations will be made to the NJCSCR for funding approval. Project periods may not exceed five years. An Evaluation Form must be submitted to the NJCSCR office each year for two years following termination of a Five-Year Named Chair grant. All forms are available at http://www.state.nj.us/health/spinalcord/.

One-Time Start-Up Cost Grants – The NJCSCR will fund start-up costs ranging from $250,000 to $1,000,000 to facilitate the establishment of new spinal cord injury research laboratories. The primary focus of the research must hold promise of developing effective interventions and cures for paralysis and other consequences of spinal cord injury and disease.

All qualifying institutions in the State of New Jersey may apply. The qualifying institution must provide evidence of qualified research leadership for the new laboratory and the commitment of financial support necessary to sustain the research for a minimum of five years. A qualifying research institution may not apply for both a “One-Time Start-Up Costs” grant and a “Five-Year Named Chair for Senior and Junior Faculty” grant using the same faculty member in the same grant year.

Grants ranging from $250,000 to $1,000,000 will be available from the New Jersey Spinal Cord Research Fund to support the initiation of new research programs in spinal cord injury. These awards may be used for the renovation of space, support of research personnel (maximum of one year salary for technical support staff; after the first year, no personnel cost are permitted), and the purchase of equipment directly related to the research. No indirect costs are permitted. The goal of this program is to enable the establishment of new laboratories and facilitate the recruitment of highly qualified researchers to conduct spinal cord research in New Jersey.
G. PROGRAM PROCEDURES – CONTINUED

Proposals are evaluated based upon evidence provided by the qualifying institution that a new research laboratory will be established upon receipt of these funds. Such evidence should include, but is not limited to, range of construction, detailed equipment listing, evidence of other support from the institution, evidence that the institution is providing space to be renovated, information on a newly recruited faculty or staff member, or evidence that an experienced researcher in a related field will establish a new laboratory dedicated to spinal cord injury research.

Awards will begin on or about June 15, 2004. Money granted must be held in a separate account with all accrued interest being maintained in the account. Each grant award will be contingent upon the availability of funds. Any change in the research focus will result in the revocation of the award and the return of funds on a prorated basis. This is a one-year grant award with a progress reporting period of five years during which time an annual Narrative Report must be submitted to the NJCSCR office. Evidence of the necessary organizational/institutional financial support to sustain the research must be included as part of the report. All forms are available at [http://www.state.nj.us/health/spinalcord/](http://www.state.nj.us/health/spinalcord/).

**Individual Research Grants** - The NJCSCR will fund Individual Research Grants. Applicants are encouraged to apply for a one-year or two-year award. Maximum funding is up to $200,000 per year including direct and indirect costs, (10% maximum for the latter).

The goals of this program are (1) to encourage promising postdoctoral fellows and young investigators to undertake research on spinal cord regeneration, recovery and rehabilitation; (2) to encourage scientists who are well-established in other areas to transfer their efforts to spinal cord research; and (3) enable researchers with novel scientific and clinical ideas to test them and develop pilot data needed to seek larger awards from the National Institutes of Health, and other funding sources.

Principal investigators must be affiliated with a New Jersey State academic institution, research organization, public or private agency or other entity with demonstrated capability to conduct research responsibly. Senior scientists, young investigators, and postdoctoral fellows may serve as principal investigator. If the applicant is a fellow, s/he must submit a letter of support from the laboratory's senior scientist, as well as two other appropriate letters of reference. Unaffiliated individuals will not be funded. Individuals of any nationality or citizenship status may apply, provided they are employed by or affiliated with a qualified New Jersey State organization/institution.

Awards will begin on or about June 15, 2004. All qualifying institutions in the State of New Jersey may apply. Two-year awards are made through one-year contracts. Each funding award within the two-year period will be contingent upon the availability of funds. Second-year support for all Individual Research grants is contingent upon submission of a Grant Continuation Application. The Grant Continuation Application must be made favorably reviewed by an independent scientific merit review panel and recommended to the NJCSCR for continued funding. An Evaluation Form must be submitted to the NJCSCR office each year for two years following termination of an Individual Research grant. All forms are available at [http://www.state.nj.us/health/spinalcord/](http://www.state.nj.us/health/spinalcord/).

**Fellowship Grants** - Postdoctoral Fellowships are two-year awards of $50,000 per annum. They provide an annual stipend of $36,000, a research allowance of $13,000, and a travel budget of $1,000. No part of the award may be used for institutional overhead or indirect costs. Institutions may supplement stipends, but not with other full-time fellowship awards, or other NJCSCR monies. Candidates of outstanding quality must hold a Ph.D., and/or M.D., or equivalent graduate degree. Appropriate degrees must be awarded prior to activation of award. Candidates must be accepted for postdoctoral training under the supervision of an appropriate mentor at a qualifying academic research institution in New Jersey. A candidate may not apply for a NJCSCR Postdoctoral Fellowship and a NJCSCR Individual Research grant in the same grant cycle. If a first-year fellow applies for and is awarded a NJCSCR Individual Research Grant, funding will be contingent upon cancellation of the second year of the fellowship. Non-research activities, such as teaching, may not occupy more than 10% of the fellow's time.

Graduate Student Fellowships are two-year awards of $30,000 per annum. They provide an annual stipend of $25,000, a research allowance of $4,000, and a travel budget of $1,000. No part of this award may be used for institutional overhead, or for tuition. Institutions may supplement stipends, but not with other full-time fellowship awards or other NJCSCR monies. Applicants must be full-time graduate students in residence in a proposed course of study directly related to regeneration and repair of the damaged spinal cord. Students must begin study in the semester following activation unless special permission is received prior to activation date. The NJCSCR prefers to support graduate student candidates who have completed the first year of graduate study and are concentrating on research projects at least 80% of their time.

Applicants may serve as teaching assistants while holding a NJCSCR Graduate Student Fellowship without special permission. Postdoctoral and Graduate Student Fellowship awards will begin on or about June 15, 2004. Each funding award within the two-year period will be contingent upon the availability of funds. All Postdoctoral and Graduate Student Fellows must submit a first-year Progress Report accompanied by a letter of support from the fellow's mentor. Second-year fellowship funding is contingent upon the successful review of the first-year Progress Report and a recommendation from the mentor. An Evaluation Form must be submitted to the NJCSCR office each year for two years following termination of the Fellowship grant. All forms are available at [http://www.state.nj.us/health/spinalcord/](http://www.state.nj.us/health/spinalcord/).

SPECIFIC STATE REQUIREMENTS

1. PROGRAM OBJECTIVES

The objectives of the New Jersey Emergency Medical Service Helicopter Response Program are:

Establish and operate a public sector helicopter aeromedical system in New Jersey.

Base one helicopter in northern New Jersey and one helicopter in southern New Jersey at designated hospitals.

Provide onsite and interhospital advanced life support and transportation to critically ill and injured persons.

Interface the aeromedical service with the existing basic life support, advanced life support, hospital and specialty services for optimum patient care.
II. PROGRAM PROCEDURES

Funding for the aeromedical program is through a State appropriation to the New Jersey State Department of Health. The Department of Health is responsible for the medical component of the aeromedical system. Most of the medical component moneys are dispersed to two hospitals (one in North Jersey and one in South Jersey) that have been designated by the Commissioner of Health to deliver the day-to-day onsite medical care and to house the helicopters. The designated hospitals submit an annual grant application to the Department of Health to obtain their share of the funds and a grant is issued.

III. COMPLIANCE REQUIREMENTS AND SUGGESTED AUDIT PROCEDURES

A. TYPES OF SERVICES ALLOWED OR UNALLOWED

Compliance Requirement

Funds through the grant with the Department of Health are to be used by the designated hospitals for expenses necessary in delivering day-to-day medical care for the helicopter program, as outlined in the institution's grant. At this time, hospitals may not charge the patients using the helicopter.

Suggested Audit Procedures

* Review grant agreement for the applicable year, to determine which activities and expenses are allowed;

B. ELIGIBILITY

Compliance Requirement

Anyone who meets the protocols for dispatching of the helicopters (including type and severity of cases to be airlifted, weather conditions and other factors) is a suitable candidate for service.

* The programs will be audited by OEMS staff for appropriate use of the helicopter. Questionable use will be explored in depth and re-education of those involved in the call will be done, if use was inappropriate.

C. MATCHING, LEVEL OF EFFORT, AND/OR EARMARKING REQUIREMENTS

Compliance Requirement

Match is not required. In a full year of operation, the two helicopters are expected to make a minimum of 500 total missions.

Suggested Audit Requirement

* Call sheets and periodic reports can be viewed to determine if the number of missions is keeping pace as expected.

D. REPORTING REQUIREMENTS
Compliance Requirement

Quarterly Progress Reports are required as a stipulation of the grants. These will include information on the number and types of calls that were flown, as well as other programmatic information.

Suggested Audit Procedures

* Review the Quarterly Progress Reports.

Hatch Act (5 U.S.C. 1501-1508) and Intergovernmental Personnel Act of 1970 as amended by Title VI of Civil Service Reform Act (P.L. 95-454 Section 4728).

Suggested Audit Procedures

Test whether the above costs, if any exist, are charged directly or indirectly, to Grants.

2. DAVIS-BACON ACT

When required by the grant program legislation, all laborers and mechanics employed by contractors or subcontractors to work on construction projects must be paid wages not less than those established for the locality of the project by the Secretary of Labor.

Review the grantee's system for monitoring applicable contractors and subcontractors with respect to payment of prevailing wages and evaluate for adequacy.
