# PUBLIC EMPLOYEES' RETIREMENT SYSTEM OF NEW JERSEY <br> FORTY-NINTH ANNUAL REPORT <br> OF THE ACTUARY <br> PREPARED AS OF JULY 1, 2003 

April 20, 2004
Board of Trustees
Public Employees’ Retirement System
of New Jersey
Trenton, New Jersey
Members of the Board:
Enclosed please find a report summarizing the results of the forty-ninth annual valuation of the assets and liabilities of the Public Employees' Retirement System of New Jersey. The valuation represents the eighty-second annual valuation of retirement benefits provided by the State and other public employers in New Jersey if the valuations made under the provisions of the State Employees' Retirement System of New Jersey, which was superseded by the present system, are included. The valuation shows the financial condition of the System as of July 1, 2003 and gives the basis for determining the appropriation payable by the employers for the fiscal year beginning July 1, 2004.

The valuation was prepared using the actuarial assumptions that were developed on the basis of the three year experience investigation for the period ended June 30, 2002 which was approved by the Board of Trustees at the August 19, 2003 Board meeting and the funding policy set forth in Chapter 41, P.L. 1992 and Chapter 62, P.L. 1994. The funding policy includes the use of the projected unit credit funding method for pension benefits and a salary scale which averages 5.95 percent. An interest rate of $83 / 4$ percent was used in determining the liabilities of the System in accordance with the directive of the State Treasurer issued in 1992 under the terms of Chapter 41, P.L. 1992.

The valuation reflects the provisions of Chapter 122, P.L. 2003 which provided for a reduction with regard to the required State contribution for fiscal year 2004 (and the use of the Benefit Enhancement Fund to fund the reduced contribution). The valuation also reflects the provisions of Chapter 42, P.L. 2002 which allowed Local employers to issue refunding bonds to retire the unfunded accrued liability due to certain early retirement incentive programs. The valuation reflects the early retirement incentive (ERI) programs offered under Chapter 23, P.L. 2002 for eligible State and State autonomous authorities and Chapter 126, P.L. 2000 as adopted by Union and Passaic counties.

Finally, please note that, in accordance with Chapter 115, P.L. 1997, since there are no available Excess Valuation Assets for both the State and Local employers, member contributions of 5\% per year will be required beginning January 1, 2005.

REPORT ON THE FORTY-NINTH
VALUATION OF
THE PUBLIC EMPLOYEES' RETIREMENT SYSTEM
OF NEW JERSEY
PREPARED AS OF JULY 1, 2003

## SECTION I—SUMMARY OF KEY RESULTS

The Public Employees' Retirement System of New Jersey, which began operation January 2, 1955, was established under Chapter 84 of the Laws of 1954. It supersedes the State Employees’ Retirement System of New Jersey which began operating as of January 1, 1922. This report, prepared as of July 1, 2003, presents the results of the forty-ninth actuarial valuation of the System.

For convenience of reference, the principal results of the valuation and a comparison with the preceding year's results are summarized on the following pages.

\# Contributions were calculated assuming payment on $7 / 1 / 2004$ and $7 / 1 / 2003$, respectively; interest should be added from those dates to the actual payment date.

* Required contributions are currently covered by assets held in the Benefit Enhancement Fund.
** Required contributions have been reduced by a portion of excess valuation assets (See Section III).
*** There is no required unfunded liability payment since a net surplus existed.
${ }^{\emptyset}$ ERI costs for Local Employers consist of $\$ 3,282,430$ in principal and $\$ 10,568,576$ in interest for 2003 and $\$ 3,893,457$ in principal and \$16,989,261 in interest for 2002.
${ }^{\varnothing \emptyset}$ Required contribution reflects an offset of the $7.50 \%$ prosecutor member contribution. For Local Employers, the 2002 residual contribution amount was fully covered by available excess assets but, since there are no excess assets available for 2003, the following residual contribution is also payable by the State:

| Normal Cost |  | 118,800 |
| :--- | :--- | ---: |
| Accrued Liability |  | $1,481,879$ |
| Total | $\$$ | $1,600,679$ |

øøø The following required contributions are payable by assets to be transferred from the Second Injury Fund:

|  | $\underline{2003}$ |  | $\underline{2002}$ |  |
| :---: | :---: | :---: | :---: | :---: |
| Normal Cost | \$ | 217,534 | \$ | 259,758 |
| Accrued Liability |  | 245,808 |  | 266,747 |
| Total | \$ | 463,342 | \$ | 526,505 |

(a) The required contribution could be subject to reduction in accordance with the provisions of the Appropriation Act for fiscal year 2005.
(b) The fiscal year 2004 required contribution has been reduced to $\$ 0$ in accordance with the provisions of the Appropriation Act of 2003.
(c) The fiscal year 2005 required contribution is subject to reduction in accordance with the provisions of Chapter 108, P.L. 2003.

The major benefit and contribution provisions of the statute as reflected in the valuation are summarized in Appendix A. The valuation also reflects the provisions of the following legislation:

- Chapter 122, P.L. 2003 (Appropriation Act of 2003) provided that the State Treasurer will reduce State normal and accrued liability contributions for fiscal year 2004 of $\$ 143,330,962$ by $80 \%$. (This amount excludes the Post Retirement Medical Premium of $\$ 175,317,404$ and the Workers Compensation Judges Part contribution of $\$ 526,505$ which is payable by fund transfer from the Second Injury Fund.) In addition, this law further provided that the reduced contribution amount of $\$ 28,666,192$ shall be covered by available assets in the Benefit Enhancement Fund. Accordingly, a fiscal year 2004 receivable employer contribution of $\$ 175,843,909$ was recognized for purposes of this valuation.
- Chapter 42, P.L. 2002 allowed Local employers to issue refunding bonds to retire the unfunded accrued liability of the Local employer owed to the System created through the granting of early retirement benefits to employees of the Local employer. Refunding bonds may be issued to retire the pension liabilities for a Local employer's participation in various early retirement incentive programs.
- The valuation reflects the effect of the Early Retirement Incentive Program offered under Chapter 23, P.L. 2002 which provided additional retirement benefits to eligible State employees and employees of State autonomous authorities who met specified age and service requirements and who retired within a specified time period.
- The valuation also reflects the effect of the "County ERI Section 44 " of Chapter 126, P.L. 2000 which extended the Early Retirement Incentive Program offered under Chapter 59, P.L. 1999 as adopted by Passaic County (Location Number 60030) and Union County (Location Numbers 10100 and 10101). However, in accordance with Chapter 42, P.L. 2002, Union County has elected to issue refunding bonds to retire a portion of the unfunded accrued liability due to this program. To date, the
amount bonded exceeds the additional accrued liability that was determined with this valuation and this amount has been reflected in the asset adjustment for the ERI receivable contributions.

There were no other changes to the plan provisions and funding policy since the previous valuation.

The valuation reflects the revised actuarial assumptions that were determined from the April 1, 1999 - June 30, 2002 Experience Study. The revised actuarial assumptions and methods used for valuing the Fund are summarized in Appendix B. There were no other changes in actuarial assumptions and methods used since the previous valuation.

The combination of the plan provisions, actuarial assumptions and member and beneficiary data is used to generate the overall required level of employer contributions. These contributions are composed of two separate portions an "accrued liability contribution" and a "normal contribution". The contributions payable are discussed in detail in Section V.

The valuation also generates a balance sheet which summarizes in some detail the total present and prospective assets and liabilities of the System. Table III of Section VI presents the detailed balance sheet as of July 1, 2003. The remainder of Section VI of this report analyzes the balance sheet.

A summary comparison of the balance sheets as of July 1, 2003 and July 1, 2002 is set forth in the following table, ("Table 1"). The allocation of assets among the various investment alternatives is shown in graphic form on page 7.

## E. Development of Excess Valuation Assets

Chapter 115, P.L. 1997 prescribes a procedure for determining the value of excess valuation assets. This law provided for a reduction in the normal contributions of the State or other employers for the valuation periods ended March 31, 1996 and March 31, 1997 to the extent possible by the excess valuation assets and permitted the State Treasurer to reduce the normal contribution payable by the State or other employers for valuations after March 31, 1997 up to a specified portion of excess valuation assets ( $68 \%$ for the July 1, 2003 valuation). It also provided for a reduction (as further amended by Chapter 415, P.L. 1999), for calendar years 1998 through 2001, of the contributions by employees of the State and Local employers by $2 \%$ (for future calendar years, a contribution rate reduction of up to $2 \%$ of compensation will be allowable under certain circumstances) from excess valuation assets. Chapter 133, P.L. 2001 further specified that, if there are excess valuation assets available after reduction for the normal contributions payable by the State or other employers and for contributions by employees of the State and other employers, then an amount of excess assets not to exceed the amount of member contributions shall be credited to the benefit enhancement fund. The development of excess valuation assets as of June 30, 2003 and the determination of any applicable reductions are developed below:

\left.|  |  | State | Local Employers |

* Includes the Fiscal Year 2004 receivable post-retirement medical contribution of \$175,317,404.
** Since there are no Excess Valuation Assets available, a contribution rate of 5\% per year will be required effective January 1, 2005 for members of both the State and Local Employers.

## SECTION IV-COMMENTS CONCERNING THE VALUATION

The variation in liabilities and contributions reflects the System's actual experience during the year. The decrease in the actuarial surplus is primarily the result of the investment return which was less than that expected (approximately $2.93 \%$ on an actuarial value of asset basis, rather than the $8.75 \%$ expected).

## State

The following table outlines the effect of the various items of actuarial experience on the increase in the contribution rate (normal contribution plus accrued liability contribution) for basic allowances and active COLA from $4.83 \%$ to $6.57 \%$ (prior to recognition of offsets due to legislations).

| - Investment Loss | $+.91 \%$ |
| :--- | :---: |
| - COLA increases less than expected | $-.03 \%$ |
| - Loss on account of new members | $+.02 \%$ |
| - Pay increases greater than expected | $+.02 \%$ |
| - Loss on account of new retiree COLA liability | $+.04 \%$ |
| - Gain on account of active experience | $-.06 \%$ |
| - Gain on account of pensioners' experience | $-.04 \%$ |
| - Revised actuarial assumptions | $+.17 \%$ |
| - Phase-in of active COLA | $+.07 \%$ |
| - Chapter 23, P.L. 2002 | $+.62 \%$ |
| - Other experience | $+.02 \%$ |
| - Total | $1.74 \%$ |

The number of active members decreased by about $1.3 \%$ between valuations while gross compensation used for contribution purposes increased by about $1.9 \%$, while average compensation increased by about $3.3 \%$ (from \$44,323 to \$45,784).

The number of pensioners and beneficiaries receiving benefits and the amount of benefits payable increased between the two valuations. The average benefit payable increased (from about $\$ 1,225$ per month to about $\$ 1,393$ per month). The increase reflects the higher benefits payable to new retirees (including 4,202 who retired with enhanced benefits under Chapter 23, P.L. 2002) and the deaths of older pensioners with lower benefits. Cost-of-living increases after retirement are reflected in both amounts.

Included in Table II, which provides a summary of the contributions payable, are payments representing anticipated State post-retirement medical benefit premiums for the current year's benefits plus an amount that will ensure an increase in the Post Retirement Medical Fund of $6 / 10$ of $1 \%$ of the salary of active members for the valuation period.

## Local Employers

The following table outlines the effect of the various items of actuarial experience on the increase in the contribution rate (normal contribution plus accrued liability contribution) for basic allowances and active COLA from $4.44 \%$ to $4.45 \%$ (prior to recognition of offsets due to legislations).

| - | Investment Loss |
| :--- | :---: |
| - | COLA increases less than expected |
| - | Loss on account of new members |
| - | Pay increases greater than expected |
| - Loss on account of new retiree COLA liability | $+.03 \%$ |
| - Gain on account of active experience | $+.01 \%$ |
| - Gain on account of pensioners’ experience | $+.01 \%$ |
| - Revised actuarial assumptions | $-.06 \%$ |
| - Phase-in of active COLA | $+.06 \%$ |
| - Other experience | $+.02 \%$ |
| - Total | $-.04 \%$ |

The number of active members increased by about $2.1 \%$ between valuations. Gross compensation used for contribution purposes increased by about $5.0 \%$, while average compensation increased by about $2.8 \%$ (from about $\$ 31,157$ per year to $\$ 32,016$ ).

The total number of pensioners and beneficiaries receiving benefits and the amount of benefits payable increased between the two valuations. The average benefit payable also increased (from about $\$ 827$ per month to about $\$ 868$ per month). The increase reflects the higher benefits payable to new retirees (including 251 members of State autonomous authority locations who retired with enhanced benefits under Chapter 23, P.L. 2002) and the deaths of older pensioners with smaller benefits. Cost-of-living increases after retirement are reflected in both amounts.

## SECTION V-CONTRIBUTIONS PAYABLE BY THE STATE AND LOCAL EMPLOYERS

The employers are required to make two contributions, a normal contribution and an accrued liability contribution (if applicable). The normal contribution for basic allowances and retiree COLAs is defined under the Projected Unit Credit funding method as the present value of the benefits accruing during the current year. The unfunded accrued liability (surplus) for basic allowances and retiree COLAs is determined as the difference between the accrued liability and the actuarial value of assets on hand. If there was no unfunded accrued liability for the State for the valuation period immediately preceding the current valuation period, the current year's accrued liability contribution is determined as a level percentage of pay required to liquidate the unfunded accrued liability in annual payouts increasing at a specific rate and paid annually for a specific time (which shall not exceed 30 years) as determined by the State Treasurer. Thereafter, any increase or decrease in the unfunded accrued liability as a result of actuarial losses or gains for subsequent valuation years will increase or decrease the amortization period for the unfunded accrued liability (unless an increase will cause it to exceed 30 years). For Local Employers, the initial accrued liability contribution rates were determined with the March 31, 1992 valuation as a level percentage of pay required to liquidate the unfunded accrued liability in increasing annual payouts over a period of 40 years. Any actuarial gains or losses for the 10 valuation years following the March 31, 1992 valuation increased or decreased the unfunded accrued liability contribution (thereafter, actuarial gains or losses will increase or decrease the amortization period unless an increase will cause it to exceed 30 years).

The State is also required to make contributions for active employees towards the payment of cost-of-living adjustments after retirement. Similar to the funding for basic allowances and retiree COLAs, the normal contribution for active COLAs was determined as the present value of the benefits accruing during the current year. The initial accrued liability contribution rates were determined for the March 31, 1992 valuation as a level percentage of pay required to liquidate the unfunded accrued liability in annual payments increasing at the rate of $6 \%$ per year over a period of 40 years. Experience gains or losses are
recognized in future accrued liability contributions. Experience gains or losses are recognized in future accrued liability contributions.

The portion of the contribution for providing post-retirement medical costs for State employees has been determined separately. This portion is made up of three pieces, an amount necessary to pay anticipated premiums for the current year's benefits less the expected return on Post Retirement Medical Fund assets, plus an amount that will ensure an increase in the fund equal to $6 / 10$ of $1 \%$ of the salary of active State employee members for the current valuation period.

The current year's contribution to the Post Retirement Medical Fund is summarized as follows:
(i) Anticipated current year's premium
\$ 201,493,812
(ii) Expected asset return
$(2,199,636)$
(iii) $6 / 10 \%$ of active member salary for State employees
21,456,710
(iv) Post-retirement medical contribution = (i) - (ii) + (iii)
\$ 225,150,158

On the basis of the contribution rates applicable to State employees and the current year's payroll, the contributions for the fiscal year beginning July 1, 2004 payable by the State and the agencies which pay the same contribution rates as the State are shown in Table II.

Based on Table II, the total contribution payable by the State to the Contingent Reserve Fund is $\$ 187,178,748$ for the year beginning July 1, 2004 (which includes the additional cost due to Chapter 259, P.L. 2001 of $\$ 463,342$ payable by fund transfers from the Second Injury Fund), and the total contribution payable by the State to the Non-Contributory Group Insurance Premium Fund is $\$ 20,383,874$. In addition, the current year's contribution to the Post Retirement Medical Account has been determined to be $\$ 225,150,158$. Finally, in accordance with the provision of Chapter 366, P.L. 2001, an additional contribution of $\$ 1,600,679$ is payable by the State on behalf of Local employers with members enrolled under the Prosecutors' Part provisions of the System (in addition to the State contribution of \$399,643).

* Required normal contribution is currently covered by assets in the Benefit Enhancement Fund as required by Chapter 133, P.L. 2001.
** Residual amount from additional cost to State (\$399,643) and Local employers $(\$ 1,600,679)$ due to Chapter 366, P.L. 2001 after reduction for the $2.5 \%$ additional prosecutor member contribution rate (to a total member contribution rate of $7.50 \%$ ).
** Required contribution amounts are payable by funds to be transferred from the Second Injury Fund to the System in accordance with Chapter 259, P.L. 2001.
\# Appendix H presents a summary of the fiscal year 2005 cost allocation for the State Colleges.

The certifications of the appropriations required of the Local employers are submitted separately. They were based upon a payroll of $\$ 5,811,726,702$ for 181,528 active members. The total appropriations by Local employers, including ERI contributions, are shown below.

CONTRIBUTIONS PAYABLE BY LOCAL EMPLOYERS
FOR THE YEAR BEGINNING JULY 1, 2004

| Contributions to Contingent Reserve |  |
| :--- | ---: |
| Fund: |  |
| $\quad$ Normal |  |
| $\quad$ Accrued Liability | $0,770,628^{*}$ |

| ERI Contributions | $13,851,006$ |
| Total Contribution | $\$ 225,979,030$ |

* The additional normal contributions attributable to Chapter 133, P.L. 2001 are covered by assets available in the Benefit Enhancement Fund. The additional normal cost attributable to Chapter 366, P.L. 2001 is first offset by the additional 2.5\% prosecutor member contribution (to a total member contribution of $7.50 \%$ ) and the residual amount of $\$ 118,800$ is payable by the State.
** The additional required accrued liability contribution of $\$ 1,481,879$ due to Chapter 366, P.L. 2001 is payable by the State.

## SECTION VI - VALUATION BALANCE SHEET

The valuation balance sheet showing the assets and liabilities of the System as of July 1, 2003 is presented on the following Table III. The amounts of the present assets credited to the various funds were furnished by the Division of Pensions and Benefits, State of New Jersey.

The valuation was prepared on the basis of the results of the experience study for the period from April 1, 1999 to June 30, 2002. In determining the liabilities of the Contingent Reserve Fund and Retirement Reserve Fund, an interest rate of $83 / 4 \%$ was used in accordance with the directive of the State Treasurer issued in 1992. In determining the assets credited to the Benefit Enhancement Fund, an interest rate of 83/4\% was also used in accordance with Chapter 133, P.L. 2001.

## VALUATION BALANCE SHEET SHOWING THE ASSETS AND LIABILITIES OF THE FUNDS OF THE PUBLIC EMPLOYEES' RETIREMENT SYSTEM OF NEW JERSEY AS OF JULY 1, 2003

[^5]The valuation balance sheet indicates the following facts regarding the various funds.

## (1) Retirement Reserve Fund

When a member retires, or when he dies and an allowance is payable to his beneficiary, the allowance including cost-of-living adjustments is paid from this fund. The member's own contributions with interest are transferred from the Annuity Savings Fund and the balance of the reserve on the total allowance is transferred from the Contingent Reserve Fund. On the valuation date, the Retirement Reserve Fund has present assets of $\$ 12,722,540,303$. The liabilities of the fund amount to $\$ 13,151,970,789$ so that there is a deficit of $\$ 429,430,486$ in the fund on the valuation date. It is recommended that the fund be put in balance as of June 30, 2003 by a transfer of assets from the Contingent Reserve Fund equal to $\$ 429,430,486$ and this transfer is shown in the balance sheet.
(2) Special Reserve Fund

The Special Reserve Fund is the fund to which any excess earnings are transferred and against which any losses from the sale of securities are charged. The maximum limit on the accumulations in this fund is set at one percent of the market value of the investments of the retirement system; any amounts in excess of this limit are creditable to the Contingent Reserve Fund. Due to recent investment losses, this fund has assets amounting to $\$ 0$ as of June 30, 2003. The Special Reserve Fund is considered as an asset of the retirement system.
(3) Annuity Savings Fund and Contingent Reserve Fund

The Annuity Savings Fund, which is the fund to which members' contributions with interest are credited, has assets amounting to $\$ 6,246,682,985$ as of June 30 , 2003. The Contingent Reserve Fund is the fund to which contributions made by employers to provide the benefits paid from retirement system monies are credited. Payments for the group insurance made by The Prudential Insurance Company of America to provide the non-contributory cash death benefits are deducted from the Contingent Reserve Fund. The assets creditable to the Contingent Reserve Fund amount to $\$ 7,176,159,408$ as of June 30, 2003 after adjustments are made on account of the amount transferable to the Retirement Reserve Fund and the Benefit Enhancement Fund.

If a member withdraws from active service before qualifying for retirement, the amount of his accumulated deductions is paid to him from the Annuity Savings Fund. If he dies before retirement and no survivorship benefit is payable, his accumulated deductions are paid to his beneficiary from the Annuity Savings Fund. If he retires, or if he dies leaving a beneficiary eligible for a survivorship benefit, his accumulated deductions are transferred from the Annuity Savings Fund to the Retirement Reserve Fund, and the reserve on the allowance which is not provided by his own deductions is transferred from the Contingent Reserve Fund to the Retirement Reserve Fund. Any lump sum benefit payable upon the death of a member before or after retirement is paid by The Prudential Insurance Company of America.
(4) Post-Retirement Medical Fund

This fund is established to hold contributions in respect of future post-retirement medical premiums. The fund has assets of $\$ 176,271,621$ as of June 30, 2003. These assets have been included as retirement system assets. Accordingly, offsetting liabilities equal to these fund balances have also been included.
(5) Benefit Enhancement Fund

Chapter 133, P.L. 2001 established the Benefit Enhancement Fund to fund the additional annual normal contribution for the increase in benefits under this law. The Benefit Enhancement Fund is funded by excess valuation assets transferable from the Contingent Reserve Fund. The amount of excess valuation assets transferable to the fund is limited to the amount of member contributions for the fiscal year in which the additional normal contributions are payable. The fund balance is limited to the present value of expected additional normal contributions for the increased benefits over the expected working lives of the active members for the valuation period. No additional excess valuation assets will be transferred to the fund after the maximum amount is attained. The Appropriation Act of 2003 further expanded the use of the Benefit Enhancement Fund by allowing residual required State contributions to be covered by assets available from this fund. On the valuation date, the Benefit Enhancement Fund has present assets of $\$ 661,950,712$ after net adjustments on account of assets creditable to the Contingent Reserve Fund of $\$ 7,579,893$ as of June 30, 2003 are made. This adjustment includes: (a) an adjustment for available excess assets credited to the fund which was based on anticipated fiscal year 2003 member contributions which have now been included in the financial statement, (b) a reduction for the additional normal contributions attributable to Chapter 133, P.L. 2002, (c) the additional excess assets creditable to the fund based on anticipated fiscal year 2004 member contributions, and (d) the residual State required contribution for fiscal year 2004 creditable to the Contingent Reserve Fund.

The June 30, 2003 valuation balance sheet shows on the liabilities side that the prospective benefits for which reserves are being accumulated in the Annuity Savings Fund and the Contingent Reserve Fund have a present value of $\$ 14,677,341,127$ including $\$ 1,711,916,250$ for prospective cost-of-living adjustments. To meet the benefit payments, the System has present assets of $\$ 13,422,842,393$ consisting of $\$ 6,246,682,985$ in the Annuity Savings Fund and $\$ 7,176,159,408$ in the Contingent Reserve Fund. If this amount is subtracted from $\$ 14,677,341,127$, the present value of prospective benefits and $\$ 211,572,074$ for excess assets allocated to accumulated prior reductions in member rates of contribution, there exists a deficit of $\$ 1,466,070,808$. When the assets in the Special Reserve Fund amounting to $\$ 0$ are added to this amount, the deficit remains $\$ 1,466,070,808$. In addition, please note that, in accordance with Chapter 133, P.L. 2001, $\$ 661,950,712$ has been accumulated in the Benefit Enhancement Fund to fund the additional annual employer normal contributions attributable to this legislation. Adding this amount and the assets allocated to accumulated prior reductions in member rates of contribution of $\$ 211,572,074$ to the deficit of $\$ 1,466,070,808$ yields a net deficit of $\$ 592,548,022$.

In accordance with the provisions of Chapter 385, P.L. 1987, Chapter 41, P.L. 1992 and Chapter 62, P.L. 1994, the contributions of the employers to the Contingent Reserve Fund consist of two annual contributions, a normal contribution and an accrued liability contribution. The normal contribution is the present value of the benefits accruing during the current year. The initial accrued liability amortization periods were set at 40 years commencing with the March 31, 1992 valuation with payments assumed to increase 6\% per year. The contributions for active member COLA adjustments are being phased in.

On these bases, the following future contribution rates, prior to any adjustments, are required to meet the employers’ obligations:

| ITEM | RATE |  |  |  |
| :--- | :---: | :---: | :---: | :---: |
|  | State |  | Local |  |
|  | Normal | Accrued <br> Liability | Normal | Accrued <br> Liability |
| - Basic Allowances | $2.80 \%$ | $1.73 \%$ | $2.48 \%$ | $(0.05) \%$ |
| - Non-Contributory Group |  |  |  |  |
| Insurance Premium Fund | 0.57 | N/A | 0.66 | N/A |
| - Cost-of-Living Adjustments | 1.25 | 0.22 | 1.10 | 0.11 |
| - Chapter 133, P.L. 2001 | 0.79 | N/A | 0.74 | N/A |
| - ERI | N/A | N/A | N/A | $*$ |
| Total | $5.41 \%$ | $1.95 \%$ | $4.98 \%$ | $0.06 \%$ |

*Actual contribution will depend on the payment schedule chosen by each location.

In accordance with the provisions of Chapter 6, P.L. 1990, contributions to fund the cost-of-living adjustments for current actives were to be phased in beginning with the March 31, 1988 valuation. Further, in accordance with the provisions of Chapter 41, P.L. 1992, amended by the provisions of Chapter 8, P.L. 1993 and Chapter 62, P.L. 1994, the phase-in for the funding of these benefits was further adjusted. The current valuation reflects a $46.40 \%$ phase-in of the active COLA benefits. In addition, the valuation reflects the revised assumptions that were developed on the basis of the three year experience investigation for the period ended June 30, 2002.

Chapter 115, P.L. 1997 provided for a reduction in the normal contributions of the State or other employers for the valuation periods ended March 31, 1996 and March 31, 1997 to the extent possible by the excess valuation assets and permitted the State Treasurer to reduce the normal contribution payable by the State or by the other employers for valuations after March 31, 1997 up to a specified portion ( $68 \%$ as of the valuation date) of excess valuation assets (See Section III(E)). This legislation has no effect on the required contributions for Fiscal Year 2004 since both the State and Local employers do not have excess valuation assets as of the valuation date.

Chapter 133, P.L. 2001 provided for the establishment of the Benefit Enhancement Fund from which any additional normal cost due to the increase in benefits under this legislation is paid. If assets in this fund are insufficient to cover the additional normal contribution for the increased benefits, under both legislations, for a valuation period, the State will pay the amount of the additional normal contribution not covered by the fund for both the State and Local employers.

The actual contribution rates determined in the valuation are as follows:

| ITEM | RATE |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | State |  | Local |  |
|  | Normal | Accrued Liability | Normal | Accrued Liability |
| - Basic Allowances | 2.80\% | 1.73\% | 2.48\% | (0.05)\% |
| - Non-Contributory Group Insurance Premium Fund | 0.57 | N/A | 0.66 | N/A |
| - Cost-of-Living Adjustments | 0.58 | 0.10 | 0.51 | 0.05 |
| - Chapter 133, P.L. 2001 | 0.00 | N/A | 0.00 | N/A |
| - ERI | N/A | N/A | N/A | * |
| Total | 3.95\% | 1.83\% | 3.65\% | 0.00\% |

*Actual contribution will depend on the payment schedule chosen by each location.

## SECTION VII-EXPERIENCE

Records are maintained with regard to developing mortality, service and compensation experience of members and beneficiaries of the System as compared to the anticipated experience based on the current
assumptions that were developed on the basis of the three year experience investigation for the period ended March 31, 1999. In accordance with the provisions of Section 19 of Chapter 84 of the Laws of 1954, as amended and supplemented, once in every three-year period significant deviations are noted and revised assumptions are recommended so that the funding requirements of the System can be properly anticipated.

## SECTION VIII-ACCOUNTING INFORMATION

Statement No. 5 of the Governmental Accounting Standards Board, issued November 1986, established standards of disclosure of pension information by public retirement systems. Statement No. 25 of the Governmental Accounting Standards Board, issued November 1994, established financial reporting standards for defined benefit pension plans and for the notes to the financial statements of defined contribution plans of state and local governmental liabilities and superseded Statement No. 5 effective for periods beginning after June 15, 1996. Statement No. 27, Accounting for Pensions by State and Local Governmental Employers superseded Statement 5 for employers participating in pension plans and is effective for periods beginning after June 15, 1997.

The information required by Statements No. 25 and No. 27 is presented in the following tables. These include the development of the Annual Required Contribution (ARC), the Schedule of Funding Progress and the Schedule of Employer Contributions.

## SECTION IX—LEVEL OF FUNDING

Although the value of accrued benefits and the funding ratios shown in the previous section are required for the State's financial statements, it is instructive to also look at these values under an alternative approach.

For this purpose, we are presenting liabilities determined on a Financial Accounting Standards Board Statement No. 87 Accumulated Benefit Obligation (ABO) basis. This is the same approach as GASB Statement No. 5 except that no assumption is made as to future salary increases.

If a member were receiving a disability benefit, a lump sum 1-1/2 times final salary if death occurred before the member attained age 60 and $1 / 4$ times final salary if death occurred after age 60.

## 3. Contributions

By Members

Members enrolling in the retirement system on or after July 1, 1994 will contribute $5 \%$ of compensation. Members enrolled prior to July 1, 1994 will contribute $5 \%$ of compensation to the retirement system effective July 1, 1995 unless they previously had contributed less than $6 \%$ in which case they will contribute $4 \%$ of compensation beginning July 1, 1995 and 5\% of compensation beginning July 1, 1996.

The member contribution rate for members who are eligible to retire under the Prosecutors Part of the Retirement System as provided by Chapter 366, P.L. 2001 is to be determined by the

System Board of Trustees. For valuation purposes, a 7.5\% member contribution rate was used.

## By Employers

Normal Contribution

The State and Local employers pay annually a normal contribution to the retirement System. This contribution is determined each year on the basis of the annual valuation and represents the value of the benefits to be earned in the year following the valuation date. The normal contributions for active members' COLA are being phased in.

In accordance with the provisions of Chapter 79, P.L. 1960, which provided that the monies appropriated for payment of the noncontributory life insurance coverage shall be held separate from the retirement System monies, the amount required to pay such benefit is deducted from the normal contribution certified for payment to the retirement System and paid to a Group Insurance Premium Fund, which is administered by the State Treasurer.

In accordance with the provisions of Chapter 133, P.L. 2001, the Benefit Enhancement Fund (BEF) was established to fund the additional annual employer normal contribution due to the law's increased benefits. (Chapter 353, P.L. 2001 extended this coverage to this law's additional annual employer normal contribution.) If the assets in the BEF are insufficient to cover the normal contribution for the increased benefits for a valuation period, the State will pay such amount for both the State and local employers.

In accordance with the provisions of Chapter 259, P.L. 2001, the additional normal contributions for increased benefits to judges of compensation for a valuation period will be funded by transfers from the Second Injury Fund.

The Appropriation Act of 2003 reduced the State Fiscal year 2004 required normal contribution by $80 \%$ and any residual amount was covered by assets from the Benefit Enhancement Fund. The State required normal contribution for subsequent fiscal years could be subject to the Appropriation Act of that fiscal year.

The Local required normal contribution for fiscal year 2005 is subject to a reduction in accordance with Chapter 108, P.L. 2003.

Accrued Liability
Contributions
The State and Local employers pay contributions to cover any unfunded accrued liability. An unfunded accrued liability was established for active life COLAs. The amortization periods for funding these liabilities were set initially at 40 years. The accrued liability contributions for active members' COLA liabilities are being phased in. Experience gains or losses for the 10 valuation years following the March 31, 1992 valuation will increase or decrease the unfunded accrued liability. Thereafter, actuarial gains or losses will increase or decrease the amortization period unless an increase will cause it to exceed 30 years.

Chapter 366, P.L. 2001 requires the State be liable for any increase in pension costs to a county that results from the enrollment of prosecutors in the Prosecutors Part. Any increase in the unfunded accrued liability in the Retirement System arising from the benefits established for the Prosecutors Part are to be amortized over a period of 30 years in the manner provided for other such liability in the Retirement System.

In accordance with the provisions of Chapter 259, P.L. 2001, the additional accrued liability contribution for increased benefits to judges of compensation for a valuation period will be funded by transfers from the Second Injury Fund.

The Appropriation Act of 2003 reduced the State Fiscal year 2004 required accrued liability contribution by $80 \%$ and any residual amount was covered by assets from the Benefit Enhancement Fund. The State required accrued liability contribution for subsequent fiscal years could be subject to the Appropriation Act of that fiscal year.

The Local required accrued liability contribution for fiscal year 2005 is subject to a reduction in accordance with Chapter 108, P.L. 2003.

* The sum of the rates of withdrawal after eligibility for a benefit and those prior to eligibility are the rates assumed for members withdrawing with a benefit.
** A separate rate is used for accidental death.
*** A separate rate is used for accidental disability.

Prosecutors Part (Chapter 366, P.L. 2001): This legislation introduced special retirement eligibility for certain benefits. Since the retirement System has no current assumptions at these eligibilities, the valuation used the following annual rates of service retirement:

DEATHS AFTER RETIREMENT: 1979 George B. Buck Mortality Tables for service retirement and dependent beneficiaries. Special mortality tables are used for the period after disability retirement. Representative values of the assumed annual rates of mortality are as follows:

|  | Service Retirements |  |  |  | Disability Retirements |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

VALUATION METHOD: Projected Unit Credit Method. This method essentially funds the System's benefits accrued to the valuation date. Experience gains or losses are recognized in future accrued liability contributions.

COLA: Benefits are assumed to increase $2.4 \%$ each year.
EXPENSES: Payable from excess investment return through employer contributions.
ASSET VALUATION METHOD: A five year average of market values with write-up was used. This method takes into account appreciation (depreciation) in investments in order to smooth asset values by averaging the excess of the actual over the expected income, on a market value basis, over a five year period.

## APPENDIX C

TABULATIONS USED AS A BASIS FOR THE 2003 VALUATION

Table 1 gives a reconciliation of data from June 30, 2002 to June 30, 2003. Table 2 presents fifth year age and service tables for State and Local active members as well as for the entire system. Appendix C also contains tables that show the distribution of active members' and salaries by age and length of service as of June 30, 2003. Tables are also included that show the number and retirement allowances of beneficiaries classified by age as of June 30, 2003.
