Board of Trustees<br>The Police and Firemen's Retirement System<br>of New Jersey<br>Trenton, New Jersey<br>Members of the Board:

The law governing the operation of the Police and Firemen's Retirement System of New Jersey provides for annual actuarial valuations of the System. The results of the July 1, 2005 valuation are submitted in this report which also includes a comparison with the results of the July 1, 2004 valuation.

The valuation shows the financial condition of the System as of July 1, 2005 and gives the basis for determining the required annual contribution to be made in the Fiscal Year ending June 30, 2008 for the plan year beginning July 1, 2005.

The valuation was prepared on the basis of the revised demographic assumptions that were determined from the July 1, 2001 - June 30, 2004 Experience Study and approved by the Board of Trustees at the December 12, 2005 Board meeting.

The valuation reflects the provisions of Chapter 108, P.L. 2003 which provided for a reduction with regard to the required Local contribution for fiscal year 2006 (for the July 1, 2003 valuation, the Local contribution was reduced to $60 \%$ of the recommended amount). The valuation also reflects the potential effect of the Appropriation Act for fiscal year 2006 (for the July 1, 2003 valuation, the State contribution was reduced to approximately $40 \%$ of the recommended amount). The valuation again reflects the early retirement incentive program offered under Chapter 130, P.L. 2003 for non-State locations and the provisions of Chapter 42, P.L. 2002 which allowed Local employers to issue refunding bonds to retire the unfunded accrued liability due to certain early retirement incentive programs.

The Table of Contents, which follows, highlights the Sections of the Report.

REPORT ON THE ANNUAL<br>VALUATION OF<br>THE POLICE AND FIREMEN'S RETIREMENT SYSTEM<br>OF NEW JERSEY<br>PREPARED AS OF JULY 1, 2005

## SECTION I - SUMMARY OF KEY RESULTS

The Police and Firemen's Retirement System of New Jersey was established effective July 1, 1944. Each year an actuarial valuation of the assets and liabilities of the System is made to determine the appropriate level of contributions. This report, prepared as of July 1, 2005, presents the results of the annual actuarial valuation of the Fund.

The report reflects the revised actuarial assumptions that were determined from the July 1, 2001 to June 30, 2004 Experience Study which was approved by the Board of Trustees at the December 12, 2005 Board meeting.

The report also reflects the provisions of Chapter 108, P.L. 2003 which provided for a reduction with regard to the required Local contribution for fiscal year 2006 (60\% of the contribution recommended for the July 1, 2003 valuation was reflected as a receivable in the assets). With regard to the State contribution, the report reflected a contribution equal to approximately $40 \%$ of the amount recommended for the July 1, 2003 valuation for fiscal year 2006 in anticipation of the potential effect of the Appropriation Act for fiscal year 2006.

For convenience of reference, the principal results of the valuation and a comparison with the preceding year's results are summarized on the following pages.

| Total Contribution** | \$ | 893,445,313 | \$ | 746,323,091 ${ }^{\text {\#\# }}$ |

* Includes receivable contributions of $\$ 182,107,890$ as of July 1, 2005 and $\$ 131,749,184$ as of July 1, 2004, respectively. The amounts also include the present value of receivable ERI contributions of $\$ 25,868,290$ as of July 1, 2005 and $\$ 15,518,647$ as of July 1, 2004, respectively.
** The contribution amounts were calculated assuming payment on 7/1/07 and 7/1/06, respectively. Interest should be added from those dates to the actual payment dates.
\# The accrued liability contribution does not include ERI payments since the actual contribution will depend on the payment schedule chosen by each location.
\#\# The fiscal year 2007 required contribution is subject to reduction in accordance with the provisions of Chapter 108, P.L. 2003 (Locals) and could be subject to reduction in accordance with the provisions of the Appropriation Act for fiscal year 2007 (State). The valuation assumes that the Appropriation Act for fiscal year 2007 will reduce the State contribution to $70 \%$ of the recommended amount and that, in accordance with Chapter 108, $80 \%$ of the recommended amount will be payable by Local employers.

The major benefit and contribution provisions of the statute as reflected in the valuation are summarized in Appendix A. Included in this valuation are the provisions of the following legislation:

- In accordance with the provisions of Chapter 108, P.L. 2003, we have assumed that the State Treasurer will reduce the required Local employers' normal and accrued liability contributions for fiscal year 2007 to $80 \%$ of the recommended amount of $\$ 528,429,022$. Accordingly, a fiscal year 2007 receivable Local employer contribution of $\$ 422,743,218$ was recognized for purposes of this valuation.
- For the State, the valuation reflects the potential impact of the Appropriation Act for fiscal year 2007. Similar to the provisions of Chapter 122, P.L. 2003 (the Appropriation Act of 2003 which reduced the required State contribution for fiscal year 2004), the Appropriation Act for fiscal year 2007 is anticipated to allow the State Treasurer to reduce the State normal and accrued liability contributions for fiscal year 2007 to $70 \%$ of the recommended amount of $\$ 212,915,981$. (This amount excludes the non-contributory group insurance premium of \$4,978,088.) Accordingly, a fiscal year 2007 receivable State contribution of $\$ 154,019,275$ (which includes the non-contributory group insurance premium of $\$ 4,978,088)$ was recognized for purposes of this valuation.
- The valuation continued to reflect the provisions of Chapter 42, P.L. 2002 which allowed Local employers to issue refunding bonds to retire the unfunded accrued liability of the Local employer owed to the System created through the granting of enhanced early retirement benefits to employees of the Local employer. Refunding bonds may be issued to retire the pension liabilities for a Local employer's participation in various early retirement incentive programs.
- Finally, the valuation reflects additional members of 19 Local employer locations who retired under the Chapter 130, P.L. 2003 Early Retirement Incentive Program provisions. A summary of the electing Local employer locations is shown in Appendix G.

There are no other changes to the plan provisions since the previous valuation.

The actuarial assumptions and methods used for valuing the Fund are summarized in Appendix B. The valuation reflects the revised actuarial assumptions determined from the July 1, 2001 - June 30, 2004 Experience Study which was approved by the Board at the December 12, 2005 Board meeting.

The combination of the plan provisions, actuarial assumptions and member and beneficiary data is used to generate the overall required level of employer contributions. The required contribution í summarized in Section III(I).

The valuation generates a balance sheet which summarizes in some detail the total present and prospective assets and liabilities of the Fund. A summary comparison of the balance sheets as of July 1, 2005 and July 1, 2004 is set forth in the following table. The allocation of assets among the various investment alternatives is shown in graphic form on page 6 .

## G. Development of Excess Valuation Assets

Chapter 115, P.L. 1997 prescribed a procedure for determining the value of Excess Valuations Assets. The law provided for a reduction in the normal contributions of the State and other employers for the valuation period ended June 30, 1995 to the extent possible by the excess valuation assets and permitted the State Treasurer to reduce the normal contribution payable by the State and other employers for valuations after June 30, 1995 up to a specified portion of excess valuation assets ( $50 \%$ as of the July 1, 2005 valuation). Further, Chapter 8, P.L. 2000 amended the definition of Excess Valuation Assets, beginning with the June 30, 1998 valuation, to also reflect the present value of the expected additional normal cost contributions attributable to the provisions of Chapter 428, P.L. 1999.

## SECTION IV - COMMENTS CONCERNING THE VALUATION

The variation in liabilities and contributions reflects the Fund's actual experience during the year. The Plan realized a net actuarial loss during the past year, primarily a result of the investment return which was less than that expected ( $5.33 \%$ on an actuarial value basis, rather than the $8.25 \%$ expected) and a net actuarial experience loss.

The following shows the development of the actuarial experience and identifies the major experience components:

## Calculation of Net Actuarial Experience

1. Unfunded Accrued Liability as of July 1, 2004
2. Normal Cost as of July 1, 2004
3. Interest on (1) and (2)
4. Actual Members' Contributions
5. Discounted value of prior year's Employer Contribution
6. Expected interest on Members' contributions
7. Expected Unfunded Accrued Liability as of July 1, 2005 $=(1)+(2)+(3)-(4)-(5)-(6)$
8. Increase in Unfunded Accrued Liability due to phase-in provisions of the Appropriation Act for fiscal years 2006 and 2007 and Chapter 108, P.L. 2003
9. Increase in Unfunded Accrued Liability due to change in actuarial assumptions
10. Actual Unfunded Accrued Liability as of July 1, 2005
11. $\quad$ Actuarial (gain)/loss $=(10)-(7)-(8)-(9)$

## Components of Actuarial Experience

1. Investment (Gain)/Loss
2. Other net (Gain)/Loss, including COLA gains and changes in employee data
3. Total Actuarial (Gain)/Loss

\$ 646,683,637
\$ 489,336,833
\$ 646,683,637

The valuation also reflects costs attributable to the following legislations:

## Chapter 204, P.L. 1989

The provisions of Chapter 204 allowed employees with titles which were previously excluded from PFRS membership to enter the Plan. Each employer is required to contribute any additional contribution necessary to fund any unfunded liability arising from Chapter 204. The valuation reflects the additional accrued liability for three State locations and fifteen Municipality and Local Groups locations with certain employees participating in the Fund under the provisions of this legislation. Appendix C lists all applicable locations and the required contributions.

## Chapter 511, P.L. 1991

The provisions of Chapter 511 increased the retirement benefit for a spouse of a retiree from $35 \%$ to $50 \%$ of the retiree's average final compensation. This law also raised the minimum annual spouse's benefit from $\$ 1,600$ to $\$ 4,500$ for benefits granted prior to January 14, 1992.

Chapter 511 required that the normal cost and accrued liability contribution attributable to this chapter be separately determined. As a result of Chapter 115, P.L. 1997, the accrued liability contribution attributable to Chapter 511 was eliminated at that time. However, because of the reductions (and anticipated reductions) in the required State contributions for fiscal years 2004 through 2007 due to the various Appropriation Acts, the remaining required contributions which were not paid have been set up as an unfunded accrued liability attributable to Chapter 511. The following summarizes the applicable contribution rates for the current and previous valuations:

| Chapter 511 | June 30, 2005 |  |
| :--- | :---: | :---: |
| Contribution Rate | $5.942 \%$ | June 30, 2004 |
|  | $\underline{0.643}$ | $5.870 \%$ |
| Normal Cost | $6.585 \%$ | $\underline{0.566}$ |
| Accrued Liability |  |  |
| Total Rate |  |  |

## Chapter 247, P.L. 1993 and Chapter 201 P.L. 2001

Chapter 247 requires the State to pay the difference between the PFRS normal cost rate and the PERS normal cost rate for certain members who transferred into PFRS as of January 1, 1992 or later. In addition, the law requires the State to pay the "System" unfunded accrued liability contribution for Municipalities and Local Groups that transferred into PFRS on and after January 1, 1992 without past service. The following summarizes the number of active employees affected, the applicable contribution rates, and the Chapter 247 contributions for the current and previous valuations:

| Chapter 247 | June 30, 2005 | June 30, 2004 |
| :--- | :---: | :---: |
| Number of Active Employees | 946 | 1,060 |
| Contribution Rates: |  |  |
| Normal Cost | $0.894 \%$ | $0.953 \%$ |
| Accrued Liability | $\underline{1.011}$ | $\underline{0.860}$ |
| Total Rate | $1.905 \%$ |  |
| Contributions: | $\$ 4,311,171$ | $\$ 4,290,317$ |
| Normal Cost | $\underline{4,877,311}$ | $\underline{3,872,441}$ |
| Accrued Liability | $\$ 9,188,482$ | $\$ 8,162,758$ |
| Total Contribution |  |  |

Chapter 201, P.L. 2001 made changes to Chapter 247, P.L. 1993 with respect to the benefits payable to members who transferred from PERS to PFRS as a result of the Chapter 247 legislation. The resulting increase in the unfunded accrued liabilities due to the increased benefits was fully funded by the recognition of additional market value surplus in the determination of the actuarial value of assets for the July 1, 1999 valuation. However, because of the reductions (and anticipated reductions) in the required State contributions for fiscal years 2004 through 2007 due to the various Appropriation Acts, the remaining required contributions which were not paid have been added to the Chapter 247 unfunded accrued liability and will be paid off by the State in future contributions.

## Chapter 126, P.L. 2000 and Chapter 130, P.L. 2003

"County ERI Section 44" of Chapter 126, P.L. 2000 permitted local units to offer early retirement or termination incentives to certain employees of county governing bodies. Chapter 130, P.L. 2003 extended an Early Retirement Incentive Program similar to that offered by the State under Chapter 23, P.L. 2002 to members of Local employer locations. Appendix G lists all applicable locations and summarizes the contribution requirement under Chapter 126 and Chapter 130.

## Chapter 8, P.L. 2000

Chapter 8, P.L. 2000 required that, if valuation assets are insufficient to fund the normal cost and accrued liability costs attributable to Chapter 428, P.L. 1999, the contribution required to fund these costs for the State and other employers shall be paid by the State. For both the July 1, 2004 and July 1, 2005 valuations, valuation assets were not sufficient to fund the costs attributable to Chapter 428. In addition, because of the reductions (and anticipated reductions) in the required State contributions for fiscal years 2004 through 2007 due to the various Appropriation Acts, the remaining required contributions which were not paid have been added to the Chapter 428 unfunded accrued liability and will be paid off by the State in future contributions. The following chart summarizes the applicable contribution rates and the Chapter 428 contributions for the current and previous valuations:

| Chapter 428 |  | June 30, 2005 | June 30, 2004 |  |
| :---: | :---: | :---: | :---: | :---: |
| Contribution Rates: |  |  |  |  |

## Chapter 86, P.L. 2001

Chapter 86, P.L. 2001 amended the active death benefits provided to a beneficiary of a member who died in active duty on or after January 1, 1998 and before January 18, 2000. The law required an eligible beneficiary to apply for the increased benefits within 90 days of enactment and return the member's aggregate contributions to the System. The State is liable for all costs to the System attributable to this law and these costs have been included in the Chapter 428 accrued liability contributions.

## Chapter 318, P.L. 2001

Chapter 318, P.L. 2001 amended the active death benefits provided to a beneficiary of a member with 10 or more years of service who died in active service on or after June 1, 1995 and before January 1, 1998 and whose beneficiary had, on May 1, 2001, an appeal of a denial of a benefit related to death in the line of duty pending before the Board of Trustees. The law requires that the appeal be withdrawn or denied and that an eligible beneficiary apply for the increased benefits and return the member's aggregate contributions received. The State is liable for all costs to the System attributable to this law and these costs are also included in the Chapter 428 accrued liability contributions.

## SECTION V - ACCOUNTING INFORMATION

Statement No. 5 of the Governmental Accounting Standards Board, issued November 1986, established standards of disclosure of pension information by public retirement systems. Statement No. 25 of the Governmental Accounting Standards Board, issued November 1994, established financial reporting standards for defined benefit pension plans and for the notes to the financial statements of defined contribution plans of state and local governmental liabilities and superseded Statement No. 5 effective for periods beginning after June 15, 1996. Statement No. 27, Accounting for Pensions by State and Local Governmental Employers superseded Statement 5 for employers participating in pension plans and is effective for periods beginning after June 15, 1997.

The information required by Statements No. 25 and No. 27 is presented in the following tables. These include the development of the Annual Required Contribution (ARC) as of April 1, 2008, the Schedule of Funding Progress, the Schedule of Employer Contributions and the required Additional Information.

## SECTION VI - LEVEL OF FUNDING

Although the value of accrued benefits and the funding ratios shown in the previous section are required for the State's financial statements, it is instructive to also look at these values under an alternative approach. For this purpose, we are presenting liabilities determined on a Financial Accounting Standards Board Statement No. 87 Accumulated Benefit Obligation (ABO) basis. This is the same approach as GASB Statement No. 5 except that no assumption is made as to future salary increases.

## FASB 87 ABO Funded Ratios

As in the case of the Governmental Accounting Standard Board Statement No. 5, the actuarial present value of vested and non-vested accrued benefits was based on an interest rate of $8.25 \%$ for both 2004 and 2005.

## APPENDIX A

# BRIEF SUMMARY OF THE BENEFIT AND CONTRIBUTION PROVISIONS AS INTERPRETED FOR VALUATION PURPOSES 

## Eligibility for Membership

Enrollment is restricted to eligible policemen and firemen who are permanent and full-time and who pass the physical and mental fitness requirements. The maximum enrollment age is 35 .

## 1. Definitions

Plan Year
Credited Service

Average Final Compensation (AFC)

Compensation

Final Compensation (FC)

Accumulated Deductions

The 12-month period beginning on July 1 and ending on June 30.
A year of service is credited for each year an employee is a Member of the Retirement System plus service, if any, covered by a prior service liability.

The average annual compensation for the three consecutive years of Service immediately preceding retirement or the highest three consecutive fiscal years of Membership Service.

Base salary upon which contributions by a Member to the Annuity Savings Fund were based in the last year of Service. For Accidental Death, benefits are computed at the annual rate of salary.

Annual compensation received by the member in the last 12 months of Credited Service preceding his retirement.

The sum of all amounts deducted from the compensation of a Member or contributed by him or on his behalf without interest.
2. Benefits

Service Retirement

Eligibility means age 55 or 20 years of credited service for an employee who was a member of the Retirement System as of January 18, 2000 and age 55 for an employee who became a member of the Retirement System after January 18, 2000; mandatory at age 65 . Benefit is an annual retirement allowance equal to a member annuity plus an employer pension which together equals the greater of:
(i) $1 / 60$ th of FC for each year of Credited Service; or
(ii) $2 \%$ of FC multiplied by years of Credited Service up to 30 plus $1 \%$ of FC multiplied by years of Service over 30 . (Prior to January 18, 2000, this benefit was based on AFC rather than FC. However, Policy Memorandum 42000, which interpreted the provisions of Chapter 428, P.L. 1999, authorized the change in the salary basis).
(iii) $50 \%$ of FC if the member has 20 or more years of Credited Service.

Chapter 428 also requires that, in addition to the $50 \%$ of FC benefit, any member as of January 18, 2000 who will have 20 or more years of Credited Service and is required to retire upon attaining age 65 , shall receive an additional benefit equal to $3 \%$ of FC for each year of Credited Service over 20 years but not over 25 years.

Special Retirement

Vested Termination

Death Benefits

After completion of 25 years of Credited Service. The annual retirement benefit is equal to a member annuity plus an employer pension which together equal $65 \%$ of FC plus $1 \%$ of FC for each year of Credited Service over 25. There is a maximum benefit of $70 \%$ of FC except for those members with 30 or more years of Credited Service on June 30, 1979.
(A) Eligible upon termination of service prior to age 55 and prior to 10 years of Service. The benefit equals a refund of Accumulated Deductions less any outstanding loans.
(B) Eligible upon termination of service prior to age 55 and after 10 years of Service (but less than 20 years if a member on or prior to January 18, 2000 or less than 25 years of service if a member after January 18, 2000). The benefit is a deferred retirement benefit, commencing at age 55 , equal to a member annuity plus an employer pension which together provide a retirement allowance equal to $2 \%$ of FC multiplied by years of Credited Service up to 30 plus $1 \%$ of FC multiplied by years of Credited Service over 30 .

Ordinary Death Benefit - Lump Sum
(1) If a member dies prior to retirement, the benefit payable is as follows:

A lump sum amount equal to 3-1/2 times FC payable to the member's beneficiary.
(2) After retirement but prior to age 55, the benefit is as follows:
(i) For death while a Disabled Retiree the benefit is equal to 3-1/2 times Compensation.
(ii) For death while a Deferred Retiree the benefit is equal to his Accumulated Deductions.
(iii) For death while a Retiree who has completed 20 years of Service, the benefit is equal to $1 / 2$ times FC.
(3) After retirement and after age 55, the benefit payable is equal to $1 / 2$ times Compensation. (Note: If a Member is not disabled, 10 years of Credited Service is required for Members enrolling after July 1, 1971.)

Ordinary Death Benefit - Survivor Annuity
(1) If a member dies prior to retirement, the benefit payable to a widow (widower) is equal to $50 \%$ of FC ( $20 \%$ of FC payable to one child, $35 \%$ of FC payable to two children or $50 \%$ of FC payable to three or more children if there is no surviving widow or widower or if the widow or widower dies or remarries or $25 \%$ of FC payable to one parent or $40 \%$ of FC payable to two parents if no surviving widow, widower or child. If no widow, widower, child or parent, the benefit payable to a beneficiary is the aggregate Accumulated Contributions at the time of death).
(2) For any member who retired after December 18, 1967, the benefit payable to a widow (widower) is equal to $50 \%$ of FC plus $15 \%$ of FC for one child and $25 \%$ of FC for two or more children.

If no spouse, or spouse remarries, the benefit is equal to $20 \%$ of FC for one child, $35 \%$ for two children, and $50 \%$ for three or more children.

There is also a minimum benefit payable to widows (widowers) of \$4,500 a year.
(3) For any member who retired with an Accidental Disability Benefit, the benefit payable is equal to $\$ 4,500$ a year to the widow (widower). If there is no widow (widower) the benefit payable is $\$ 600$ a year for 1 child, $\$ 960$ a year for 2 children, and $\$ 1,500$ a year for 3 or more children. The benefit for children is payable until age 18 .

## Accidental Death Benefit

A death while active resulting from injuries received from an accident during performance of duty is eligible for a lump sum equal to the Accumulated Deductions plus 3-1/2 times Compensation plus an annuity benefit payable is as follows:
(i) The benefit to a widow or widower is equal to $70 \%$ of Compensation.
(ii) The benefit, when there is no spouse, or spouse is remarried, is equal to $20 \%$ of Compensation for one child, $35 \%$ for two children, $50 \%$ for three or more children. The benefit is payable while the children are under age 18 , or until age 24 if they are full-time students, or it is payable for life if they are disabled.
(iii) The benefit, when there is no spouse or children, is equal to $25 \%$ of Compensation for one parent and $40 \%$ for two parents.
(iv) The benefit, when there is no relation as stated above, is equal to the Accumulated Deductions and is payable to a beneficiary or to the Member's estate. This is also the minimum benefit payable under (i), (ii) and (iii).

Disability Benefits
Ordinary Disability Retirement
A Member is eligible for Ordinary Disability Retirement if he (she) has 4 years of Service and is totally and permanently incapacitated from the performance of usual or available duties. The benefit is equal to the greater of:
(i) $1-1 / 2 \%$ of FC times the number of years of Credited Service; or
(ii) $40 \%$ of FC .

In addition, a member who has at least 20 years but less than 25 years of Credited Service and who is required to retire upon application by the employer on and after January 18, 2000 shall receive a benefit equal to a member annuity plus an employer pension which together provide a total retirement allowance equal to $50 \%$ of FC plus $3 \%$ of FC multiplied by the number of years of Credited Service over 20 but not over 25.

Accidental Disability Retirement
A Member is eligible upon total and permanent incapacitation from the performance of usual or available duties as a result of injury during the performance of regular duties. The benefit payable is equal to a Member annuity plus an employer pension which together equals $2 / 3$ of the Compensation at date of injury.
3. Member Contributions

Special Disability Retirement
A member is eligible for Special Disability Retirement if he (she) has 5 years of Credited Service, is under age 55, and has received a heart transplant. The benefit payable is equal to a Member annuity plus an employer pension which together equals $50 \%$ of FC.

Each member contributes $8-1 / 2 \%$ of Compensation.

Marriage: Husbands are assumed to be 3 years older than wives. Among the active population, $90 \%$ of participants are assumed married. No children are assumed. Neither the percentage married nor the number of children assumptions are necessarily individually explicit, but they are considered reasonable, when viewed as a single combined assumption.

VALUATION METHOD: Projected Unit Credit Method. This method essentially funds the System's benefits accrued to the valuation date. Experience gains or losses are recognized in future accrued liability contributions.

COLA: Benefits are assumed to increase $1.8 \%$ each year.
ASSET VALUATION METHOD: A five year average of market values with write-up was used. This method takes into account appreciation (depreciation) in investments in order to smooth asset values by averaging the excess of the actual over the expected income, on a market value basis, over a five year period.

In response to prior requests from the Board of Trustees, we have performed additional calculations and constructed additional exhibits based on the July 1, 2005 valuation data.

## Age Breakdown

1. Average Age at Retirement - split by Special/Service Retirements

The exhibit on page 46 provides information split between Police and Firemen and by type of retirement. The average age at retirement is $56.2,53.7$ and 55.0 for service, special, and deferred retirement, respectively.
2. Average Age at Entry

The average age at entry for Contributing active participants at July 1, 2005 is 26.4. The average age at entry for Non-Contributing active participants at July 1, 2005 is 29.8. The average age at entry for all actives at July 1, 2005 is 26.5 .
3. \& 4. Average Age at Death for Active participants and Retired participants.

We have assumed that all deaths between July 1, 2004 and June 30, 2005 occurred at the middle of the plan year; January 1, 2005. Based on this assumption, the average age at death for the various groups is as follows:

Active Contributing members at July 1, 2004
Active Non-Contributing members at July 1, 200450.4
Retired at July 1, $2004 \quad 74.2$
Disabled at July 1, $2004 \quad 62.5$
Beneficiary at July 1, 200478.2
Terminated Vested at July 1, 2004 N/A
5. \& 6. Average Age at Retirement for those who retired under ordinary and accidental disability.

Specific information by category is contained on page 47. The average age at retirement is 42.6 and 39.8 for ordinary and accidental disability, respectively.

## Breakdown of Members

1. Police/Firemen split for Active and Retirees

The Police/Firemen split summarized below for plan members can be found in Appendix E of this report.

|  | Policemen | Firemen | Unknown | Total |
| :---: | :---: | :---: | :---: | :---: |
| Active Contributing Members | 36,509 | 6,566 | 0 | 43,075 |
| Active Non-Contributing Members | 1,064 | 72 | 0 | 1,136 |
| Vested Terminated Participants | 60 | 4 | 0 | 64 |
| Retired Participants | 13,118 | 3,881 | 2,208 | 19,207 |
| Disabled Retired Participants | 3,211 | 350 | 371 | 3,932 |
| Beneficiaries | 2,371 | 708 | 3,039 | 6,118 |
| Total | 56,333 | 11,581 | 5,618 | 73,532 |

## Breakdown of Retired Members and Beneficiaries

1-6. Number of members receiving various benefits.
This information is included in Appendix E of this report and is summarized as follows:

## Number of Members

| Receiving Special Retirement Benefits | 17,562 |
| :--- | ---: |
| Receiving Service Retirement Benefits | 1,483 |
| Receiving Deferred Retirement Benefits | 162 |
| Receiving Ordinary Disability Benefits | 2,310 |
| Receiving Accidental Disability Benefits | 1,622 |

7. Members who died as a result of Accidental Death

We did not receive any information that indicates cause of death for deceased members.
8.-10. Number of Widows, Children, and Other Dependents

This information is included in Tables 9 and 10 of Appendix E of this report and is summarized as follows:

|  | Number |
| :--- | ---: |
| Widows/Widowers | 4,813 |
| Children | 275 |
| Other Dependents | 1,030 |

13. The Number of Beneficiaries and Children receiving benefits due to the accidental death of a member is 126 (113 Beneficiaries, 9 Children and 4 other dependents). We have no information to perform a further S.H.B.P./Local Health Benefits split.

## Breakdown of Costs

The information contained in this section, "Breakdown of Costs", has been calculated in a manner consistent with that shown in prior reports.

1. Cost per member for Insurance.

Dividing the total death benefit cost, prior to the offset for Excess Valuation Assets, of $\$ 57,310,028$, ( $\$ 7,996,415$ for State location and $\$ 49,313,613$ for Local groups) by the number of active contributing members of 43,075 gives the total cost per member for insurance $\$ 1,330.47$.
2. Cost per member for Administration

Dividing the Administrative cost per member $=\$ 6,149,606 / 73,532$ members $=\$ 83.63$.
3.\&4. The normal contribution rates for State Locations and Municipalities and Local Groups are summarized in Section III(J) of this report.
5.\&6. The Accrued Liability rates for State Locations and Municipalities and Local Groups are also summarized in Section III(J) of this report.

## Bre akdown of Purchases

We do not receive information on the active data file regarding service purchases.

## Better Breakdown of Inactive Members

To better demonstrate the effect that inactive participants have on costs, we have split the liabilities attributable to beneficiaries used to calculate the Accrued Liability into specific categories. The information summarized below can be found in Section III(E) of this report.

## Actuarial Accrued Liability
