Board of Trustees
The Police and Firemen's Retirement System
of New Jersey
Trenton, New Jersey
Members of the Board:

The law governing the operation of the Police and Firemen's Retirement System of New Jersey provides for annual actuarial valuations of the System. The results of the July 1, 2015 valuation are submitted in this report, which also includes a comparison with the preceding year's valuation.

The valuation provides information concerning the financial condition of the Plan as of July 1, 2015, and sets forth the basis for determining the recommended annual contribution for the State fiscal year beginning July 1, 2016.

The valuation reflects Chapter 78, P.L. 2011, which increased member contributions from $8.50 \%$ to 10.00\% of salary effective October 2011.

As required under Chapter 255, P.L. 1944, experience studies are performed once in every three year period. The valuation was prepared using the demographic assumptions recommended on the basis of the July 1, 2010 - June 30, 2013 Experience Study and approved by the Board of Trustees at the February 9, 2015 Board meeting. The valuation reflects the economic assumptions recommended by the Treasurer, which include a rate of investment return of $7.90 \%$ per annum. Assumed future salary increases are reduced by 1.00\% per annum through fiscal year ending 2021. In addition, the mortality improvement scale has been changed from Scale BB to the Buck Modified 2014 Projection Scales. These assumptions will remain in effect for valuation purposes until such time as the Board or the Treasurer recommends revised economic assumptions.

In my opinion, the actuarial assumptions used are appropriate for purposes of the valuation and are reasonably related to the experience of the System and to reasonable long-term expectations. These assumptions were selected in accordance with the applicable Actuarial Standards of Practice published by the Actuarial Standards Board.

The State fiscal year 2015 recommended pension contribution of $\$ 414,316,953$ has been reduced to $\$ 139,297,000$, and the fiscal year 2016 recommended pension contribution of $\$ 461,081,051$ has been reduced to $\$ 138,324,315$ ( $30 \%$ of the recommended employer contribution) in anticipation of the provisions of the Appropriations Act of 2016. This amount may be subject to change per the requirements of the State's fiscal year 2016 spending plan.

Reporting requirements of Statements No. 67 and No. 68 are effective as of June 30, 2014 and June 30, 2015 reporting dates, respectively. These requirements are addressed in separate reports.

The State of New Jersey's Division of Pensions and Benefits reported the individual data for members of the Police and Firemen's Retirement System of New Jersey as of the valuation date for use in the preparation of this report. While we did not verify the data at their source, we did perform tests for internal consistency and reasonableness. The amount of assets in the trust fund taken into account in the valuation was based on statements prepared for us by the Division of Pensions and Benefits. The accuracy of the results presented in this report is dependent on the accuracy of the data.

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, increases or decreases expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions or applicable law. An analysis of the potential range of future results is beyond the scope of this valuation.

Use of this report for any other reason or by anyone other than the Board or staff of the State of New Jersey's Division of Pensions and Benefits may not be appropriate and may result in mistaken conclusions because of failure to understand applicable assumptions, methods, or inapplicability of the report for that purpose. You should ask Buck to review any statement you wish to make on the results contained in this report. Buck will accept no liability for any such statement made without prior review by Buck.

I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries. I meet the Qualification Standards of the Academy to render the actuarial opinions contained herein. This report has been prepared in accordance with all applicable Actuarial Standards of Practice, and we are available to answer questions concerning it.

## Section I - Summary of Key Results

The Police and Firemen's Retirement System of New Jersey was established effective July 1, 1944. Each year an actuarial valuation of the assets and liabilities of the System is made to determine the appropriate level of contributions. This report, prepared as of July 1, 2015, presents the results of the annual actuarial valuation of the Fund.

For convenience of reference, the principal results of the valuation and a comparison with the preceding year's results are summarized below.

1. Includes discounted receivable contributions of $\$ 128,196,770$ as of July 1,2015 and $\$ 108,411,934$ as of July 1, 2014, respectively. The amounts also include the present value of receivable ERI contributions of $\$ 12,887,608$ as of July 1,2015 and $\$ 14,274,396$ as of July 1 , 2014, respectively. The amounts also include the present value of Chapter 19, P.L. 2009 contribution deferrals of $\$ 159,321,982$ as of July 1,2015 and of $\$ 167,929,024$ as of July 1, 2014, respectively.
2. The contribution amounts were calculated assuming payment on $7 / 1 / 16$ and $7 / 1 / 15$ respectively. Interest should be added from this date to the actual payment dates.
3. The accrued liability contribution does not include ERI payments and Local employer contributions due to Chapter 19, P.L. 2009 deferrals.
4. The amounts exclude compensation of $\$ 825,114$ for 8 contributing active members in 2015 who are age 65 or older and $\$ 2,107,076$ for 17 contributing active members in 2014 who are age 65 or older.

The major benefit and contribution provisions of the statute as reflected in the valuation are summarized in Appendix A. This valuation reflects the following:

- The Appropriation Act of fiscal year 2015 which reduced the recommended State Pension contribution of $\$ 414,316,953$ to $\$ 139,297,000$. (This amount excludes the premium paid to the Non-Contributory Group Insurance Fund of $\$ 7,561,878$ for the lump sum death benefits.)
- The potential impact of the Appropriations Act of fiscal year 2016 which allows the State Treasurer to reduce the recommended State normal cost and accrued liability contribution for fiscal year 2016 from $\$ 461,081,051$ to $\$ 138,324,315$. Therefore, the fiscal year 2016 recommended State pension contribution of $\$ 461,081,051$ has been reduced to $\$ 138,324,315$ ( $30 \%$ of the recommended employer contribution) and has been recognized as a receivable discounted contribution of $\$ 128,196,770$ for purposes of this valuation. (This amount excludes the estimated premium paid to the Non-Contributory Group Insurance Fund of $\$ 10,368,000$ for lump sum death benefits.)
- Chapter 19, P.L. 2009 which provides that the State Treasurer will reduce the normal and accrued liability contributions for Local employers to 50 percent of the amount certified for fiscal year 2009. The additional unfunded liability will be paid by Local employers in level annual payments over a period of 15 years, with the first payment due in the fiscal year ending June 30, 2012. The unfunded liability will be adjusted annually by the rate of return on the actuarial value of assets. The legislation also provides that a Local employer may opt to pay 100 percent of the recommended contribution for fiscal year 2009. Employers making this election will be credited with the full payment. In addition, certain employers who were eligible to defer $50 \%$ of their fiscal year 2009 recommended contributions but instead paid $100 \%$ of the 2009 recommended contributions are permitted to elect to defer $50 \%$ of their recommended 2010 fiscal year contributions. The additional unfunded liability will be paid by Local employers in level annual payments over a period of 15 years, with the first payment due in the fiscal year ending June 30, 2012. The unfunded liability will be adjusted by the rate of return on the actuarial value of assets.
- The unauthorized early retirement incentive programs offered by certain Local employers. The additional liability incurred by the System due to these programs is included as a receivable contribution.
- Chapter 78, P.L. 2011, which increased member contributions from $8.50 \%$ to $10.00 \%$ of Compensation effective October 2011.

There are no other changes to the benefit and contribution provisions since the previous valuation.
As required under Chapter 255, P.L. 1944, experience studies are performed once in every three year period. The valuation was prepared using demographic assumptions recommended on the basis of the July 1, 2010 - June 30, 2013 Experience Study and approved by the Board at the February 9, 2015 Board meeting. The valuation reflects the economic assumptions recommended by the Treasurer, which include a rate of investment return of $7.90 \%$ per annum. The assumed future salary increases are reduced by $1.00 \%$ per annum through fiscal year ending 2021. In addition, the mortality improvement scale has been changed from Scale BB to the Buck Modified 2014 Projection Scales. As a result of changing the mortality improvement scale, the accrued liability decreased $\$ 23,468,009$ for the State and $\$ 156,026,252$ for the Local Employers. Additionally, the gross normal cost was reduced by $\$ 623,356$ for the State and $\$ 3,978,692$ for the Local Employers. These assumptions will remain in effect for valuation purposes until such time as the Board or the Treasurer recommends revised economic assumptions.

The valuation reflects future increases in the compensation limits imposed on certain member tiers. For members hired prior to May 22, 2010, the compensation limit for 2015 is $\$ 265,000$ and is assumed to increase by $3.00 \%$ annually. For members hired on or after May 22, 2010, the compensation limit for 2015 is $\$ 118,500$ and is assumed to increase by $4.0 \%$ annually.

Lastly, the employer receivable contribution included in the Market Value of Assets (MVA) and the Actuarial Value of Assets (AVA) has been discounted at the valuation interest rate of $7.90 \%$ from the expected
payable date of June 30, 2016 to the valuation date for the State's MVA and AVA and from the expected payable date of April 1, 2016 to the valuation date for the Local's MVA and AVA.

There were no other changes to the actuarial assumptions and methods from those used in the prior valuation. The actuarial assumptions and methods used in this valuation for valuing the Fund are summarized in Appendix B.

The combination of the plan provisions, actuarial assumptions and member and beneficiary data is used to generate the overall recommended level of employer contributions. The recommended contribution schedule is summarized in Sections III (H) and III (I).

The valuation generates a balance sheet, which summarizes in some detail the total present and prospective assets and liabilities of the Fund. A summary comparison of the balance sheets as of July 1, 2015 and July 1, 2014 is set forth in the following table.

3 Includes the additional costs due to Chapter 86, P.L. 2001 and Chapter 318, P.L. 2001.
4 The rates shown for Chapters 247, 428, 109 and 511 include the rate required to fund the portions of the State-paid Local obligations that were not contributed due to the phase-in of contributions through fiscal year 2015.
5 Does not include ERI and the Chapter 19, P.L. 2009 Local employer payments. The Local ERI payments are presented in Appendices F and G and the Chapter 19, P.L. 2009 Local employer payments towards deferrals are summarized in Appendix H.

## Section IV - Comments Concerning The Valuation

The variation in liabilities and contributions reflects the Fund's actual experience during the year. The Plan realized a net actuarial loss during the past year. This was primarily a result of a net actuarial loss and partially due to the investment return, which was less than that expected ( $6.74 \%$ on an actuarial value basis, rather than the $7.90 \%$ expected for the period July 1, 2014 to June 30, 2015).

The following shows the development of the actuarial experience, identifies the major experience components and discusses the impact of the unfunded liability on various funded ratios.

## A. Calculation of Net Actuarial Experience

## C. Funded Ratios

The following table presents the System's funded ratios based on the actuarial value of assets (including receivables) and market value basis (including receivables).

| Actuarial Value of Assets* | June 30, 2015 | June 30, 2014 | Change |
| :--- | :---: | :---: | :---: |
| State | $44.4 \%$ |  |  |
| Local Employers | $76.7 \%$ | $47.2 \%$ | $-2.8 \%$ |
| Total System | $72.6 \%$ | $76.3 \%$ | $0.4 \%$ |
|  |  | $72.6 \%$ | $0.0 \%$ |
| Market Value of Assets | $40.5 \%$ |  |  |
| State | $74.9 \%$ | $44.7 \%$ | $-4.2 \%$ |
| Local Employers | $70.5 \%$ | $76.5 \%$ | $-1.6 \%$ |
| Total System | $72.5 \%$ | $-2.0 \%$ |  |

* Statutory funded ratio

For purposes of Chapter 78, P.L. 2011, the "target funded ratio" is $77.857 \%$ and $78.571 \%$ for June 30, 2014 and June 30, 2015, respectively. The State's statutory funded ratio is $47.2 \%$ and $44.4 \%$ as of June 30, 2014 and June 30, 2015, respectively. Therefore, the State's statutory funded ratio did not reach the "target funded ratio" as of June 30, 2014 and remained below the "target funded ratio" as of June 30, 2015. The Local employers' statutory funded ratio is $76.3 \%$ and $76.7 \%$ as of June 30, 2014 and June 30, 2015, respectively. Therefore, the Local employers' statutory funded ratio also did not reach the "target funded ratio" as of June 30, 2014 and remained below the "target funded ratio" as of June 302015. However, the Local employer portion of the System did attain the required "target funded ratio" in fiscal year 2012 thus a pension committee has been established for the Local Employer portion of the System.

The funded ratio computed using assets valued on an actuarial value basis provides a different indication of the System's funded position, since the actuarial value smooths the investment (gains)/losses over time. Since July 1, 2000, the System's funded ratio on a market value basis has decreased by 43.7\% ( $72.6 \%$ for State and $39.4 \%$ for Local). This decrease is primarily due to investment losses experienced over the period, contributions of less than the recommended contributions, the increase in benefits under Chapter 428, P.L. 1999, Chapter 86, P.L. 2001 and Chapter 318, P.L. 2001, and the strengthening of actuarial assumptions.

As of June 30, 2015, the total System market value of assets is greater than the total actuarial liability attributable to retirees. If the assets contained in the Annuity Savings Fund (ASF) of \$3,510,869,351 ( $\$ 396,959,255$ for State and $\$ 3,113,910,096$ for Local) are excluded, the ratio of the remaining market value of assets to the actuarial accrued liability for retirees is $94.2 \%$ ( $46.7 \%$ for State and $101.5 \%$ for Local).

As of June 30, 2015, the ratio of market value of assets to the prior year's benefit payment is 11.7 ( 6.4 for State and 12.4 for Local). This is an approximate indication of the number of years that the assets can cover benefit payments, excluding future increases in those payments, employer and member contributions, and investment income. The System ratio decreased by $4.1 \%$ ( $12.3 \%$ for State and $4.6 \%$ for Local) from the previous year's ratio of 12.2 ( 7.3 for State and 13.0 for Local). If ASF assets are excluded, since they represent accumulated contributions from active and inactive members, the ratio is 10.0 ( 5.0 for State and 10.8 for Local).

The valuation also reflects costs attributable to the following legislation:

The provisions of Chapter 204 allowed employees who were previously excluded on the basis of their titles from PFRS membership to enter the Plan. Employers of such employees are required to contribute any additional contribution necessary to fund any unfunded liability arising from Chapter 204. The valuation reflects the additional accrued liability for three State locations and fifteen Municipality and Local Groups locations with certain employees participating in the Fund under the provisions of this legislation. Appendix C lists all applicable locations and the required contributions.

Chapter 511, P.L. 1991
The provisions of Chapter 511 increased the benefit payable to the surviving spouse of a retiree from $35 \%$ to $50 \%$ of the retiree's average final compensation. This law also raised the minimum annual spouse's benefit from $\$ 1,600$ to $\$ 4,500$ for benefits granted prior to January 14, 1992.

Chapter 511 required that the normal cost and accrued liability contribution attributable to this chapter be separately determined. As a result of Chapter 115, P.L. 1997, the accrued liability contribution attributable to Chapter 511 was eliminated at that time. However, because of the reductions (and anticipated reductions) in the required State contributions for fiscal years 2004 through 2015 due to the various Appropriation Acts and Chapter 1, P.L. 2010, the remaining required contributions that have not been made have been set up as an unfunded accrued liability attributable to Chapter 511 . The following summarizes the applicable contribution rates for the current and previous valuations:

| Chapter 511 |  |  |
| :--- | :---: | :---: |
| Contribution Rate | June 30, 2015 | June 30, 2014 |
| Normal Cost | $2.989 \%$ | $2.779 \%$ |
| Accrued Liability | 5.378 | $\frac{4.863}{}$ |
| Total Rate | $8.367 \%$ | $7.642 \%$ |

## Chapter 247, P.L. 1993 and Chapter 201 P.L. 2001

Chapter 247 requires the State to pay the difference between the PFRS normal cost rate and the PERS normal cost rate for certain members who transferred into PFRS as of January 1, 1992 or later. In addition, the law requires the State to pay the "System" unfunded accrued liability contribution for Municipalities and Local Groups that transferred into PFRS on and after January 1, 1992 without past service. The following summarizes the number of active employees affected, the applicable contribution rates, and the Chapter 247 contributions for the current and previous valuations:

| Chapter 247 | June 30, 2015 | June 30, 2014 |
| :---: | :---: | :---: |
| Number of Active Employees | 184 | 273 |
| Contribution Rates: |  |  |
| Normal Cost | 0.034\% | 0.048\% |
| Accrued Liability | 2.276\% | 2.258\% |
| Total Rate | 2.310\% | 2.306\% |
| Contributions: |  |  |
| Normal Cost | \$ 169,923 | \$ 244,703 |
| Accrued Liability | 11,252,823 | 11,450,623 |
| Total Contribution | \$ 11,422,746 | \$ 11,695,326 |

Chapter 201, P.L. 2001 made changes to Chapter 247, P.L. 1993 with respect to the benefits payable to members who transferred from PERS to PFRS as a result of the Chapter 247 legislation. The resulting increase in the unfunded accrued liabilities due to the increased benefits was fully funded by the recognition of additional market value surplus in the determination of the actuarial value of assets in the July 1, 1999 valuation. However, because of the reductions (and anticipated reductions) in the required State contributions for fiscal years 2004 through 2015 due to the various Appropriation Acts and Chapter 1, P.L. 2010, the remaining required contributions which were not paid have been added to the Chapter 247 unfunded accrued liability and will be included in future State contributions.

Chapter 59, P.L. 1999, Chapter 126, P.L. 2000 and Chapter 130, P.L. 2003
Chapter 59, P.L. 1999 authorizes municipalities, counties and other local units of government that enter into agreements to provide governmental services on a joint or consolidated basis, municipalities that join together to establish a new consolidated municipality, or school districts that have merged with one or more other school districts due solely to a municipal consolidation, to offer incentive programs for retirement or termination of employment for employees affected by the consolidation agreements. "County ERI Section 44" of Chapter 126, P.L. 2000 permitted local units to offer early retirement or termination incentives to certain employees of county governing bodies. Chapter 130, P.L. 2003 extended an Early Retirement Incentive Program similar to that offered by the State under Chapter 23, P.L. 2002 to members of Local employer locations. Appendix G lists all applicable locations and summarizes the contribution requirement under Chapter 59, Chapter 126 and Chapter 130.

Chapter 8, P.L. 2000
Chapter 8, P.L. 2000 required that, if valuation assets are insufficient to fund the normal cost and accrued liability costs attributable to Chapter 428, P.L. 1999, the contribution required to fund these costs for the State and other employers shall be paid by the State. For both the July 1, 2014 and July 1, 2015 valuations, valuation assets were not sufficient to fund the costs attributable to Chapter 428. In addition, because of the reductions (and anticipated reductions) in the required State contributions for fiscal years 2004 through 2015 due to the various Appropriation Acts and Chapter 1, P.L. 2010, the remaining required contributions which were not paid have been added to the Chapter 428 unfunded accrued liability and will be included in future State contributions. The following chart summarizes the applicable contribution rates and the Chapter 428 contributions for the current and previous valuations:

| Chapter 428 | June 30, 2015 | June 30, 2014 |
| :--- | :---: | :---: |
| Contribution Rates: |  |  |
| $\quad$ Normal Cost | $5.177 \%$ |  |
| Accrued Liability | $\underline{12.834}$ |  |
| Total Rate | $18.011 \%$ |  |
|  |  |  |
| Contributions: |  |  |
| Normal Cost | $\$$ | 25,5905 |
| Accrued Liability |  | $\underline{63,439,528}$ |
| Total Contribution | $\$$ | $\$ 9,030,453$ |

Chapter 86, P.L. 2001
Chapter 86, P.L. 2001 amended the active death benefits provided to a beneficiary of a member who died in active duty on or after January 1, 1998 and before January 18, 2000. The law required an eligible beneficiary to apply for the increased benefits within 90 days of enactment and return the member's aggregate contributions to the System. The State is liable for all costs to the System attributable to this law, and these costs have been included in the Chapter 428 accrued liability contributions.

Chapter 318, P.L. 2001
Chapter 318, P.L. 2001 amended the active death benefits provided to a beneficiary of a member with 10 or more years of service who died in active service on or after June 1, 1995 and before January 1, 1998 and whose beneficiary had, on May 1, 2001, an appeal of a denial of a benefit related to death in the line of duty pending before the Board of Trustees. The law requires that the appeal be withdrawn or denied and that an eligible beneficiary apply for the increased benefits and return the member's aggregate contributions received. The State is liable for all costs to the System attributable to this law and these costs are also included in the Chapter 428 accrued liability contributions.

Chapter 19, P.L. 2009
Chapter 19, P.L. 2009 provides that the State Treasurer will reduce for Local employers the normal and accrued liability contributions to 50 percent of the amount certified for fiscal years 2009. The additional unfunded liability will be paid by Local employers in level annual payments over a period of 15 years, with the first payment due in the fiscal year ending June 30, 2012. The unfunded liability will be adjusted annually by the rate of return on the actuarial value of assets. The legislation also provides that a Local employer may opt to pay 100 percent of the recommended contribution for fiscal year 2009. Employers making this election will be credited with the full payment. In addition, certain employers who were eligible to defer 50\% of their fiscal year 2009 recommended contributions but instead paid 100\% of the 2009 recommended contributions are permitted to elect to defer 50\% of their recommended 2010 fiscal year contributions. The additional unfunded liability will be paid by Local employers in level annual payments over a period of 15 years, with the first payment due in the fiscal year ending June 30, 2012. The unfunded liability will be adjusted by the rate of return on the actuarial value of assets.

Chapter 1, P.L. 2010
Chapter 1, P.L. 2010 amended the definition of Compensation and Final Compensation for members hired on or after May 22, 2010. Compensation for such members is to be limited to the annual maximum wage contribution base for Social Security pursuant to the Federal Insurance Contribution Act. In addition, Final Compensation has been changed to the average annual compensation of a member for the three fiscal years providing the largest benefit.

Chapter 78, P.L. 2011
Chapter 78, P.L. 2011 increases member contributions from $8.5 \%$ to $10.0 \%$ of compensation. In addition, Chapter 78, P.L. 2011 suspends cost of living adjustments for all current and future retirees and beneficiaries until reactivated as permitted by law; however, Chapter 78, P.L. 2011 does not reduce the benefits for cost of living adjustments that were made in prior years. In addition, for members hired after June 28, 2011 the special retirement benefit is changed to $60 \%$ of final compensation at 25 years of service plus $1 \%$ of final compensation for each year of service over 25 years. The maximum retirement benefit is $65 \%$ of final compensation. Beginning with the July 1,2010 actuarial valuation, the accrued liability contribution shall be computed so that if the contribution is paid annually in level dollars, it will amortize the unfunded accrued liability over an open 30 year period. Beginning with the July 1, 2018 actuarial valuation, the accrued liability contribution shall be computed so that if the contribution is paid annually in level dollars it will amortize the unfunded accrued liability over a closed 30 year period (i.e., for each subsequent actuarial valuation, the amortization period will decrease by one year.) Beginning with the July 1, 2028 actuarial valuation when the remaining amortization period reaches 20 years, any increase or
decrease in the unfunded accrued liability as a result of actuarial losses or gains for subsequent valuation years shall serve to increase or decrease, respectively, the amortization period for the unfunded accrued liability, unless an increase in the amortization period will cause it to exceed 20 years. If an increase in the amortization period as a result of actuarial losses for a valuation year would exceed 20 years, the accrued liability contribution shall be computed for that valuation year using a 20 year amortization period.

## Section V - Level of Funding

Although the value of accrued benefits and the funding ratios shown in the previous section are required for the State's financial statements, it is instructive to also look at these values under an alternative approach. For this purpose, we are presenting liabilities determined on a Financial Accounting Standards ASC715 (formerly Statement No. 87) Accumulated Benefit Obligation (ABO) basis. This is the same approach as was used under GASB Statement No. 5 except that no assumption is made as to future salary increases and assets are at market value with receivables.

## Appendix A

## Brief Summary of the Benefit and <br> Contribution Provisions as Interpreted <br> For Valuation Purposes

## Eligibility for Membership

Enrollment is restricted to eligible policemen and firemen who are permanent and full-time and who pass the physical and mental fitness requirements. The maximum enrollment age is 35 .

## 1. Definitions

## Plan Year

The 12-month period beginning on July 1 and ending on June 30.

## Credited Service

A year of service is credited for each year an employee is a Member of the Retirement System plus service, if any, covered by a prior service liability.

## Average Final Compensation (AFC)

The average annual compensation for the three consecutive years of Service immediately preceding retirement or the highest three consecutive fiscal years of Membership Service.

## Compensation

Base salary upon which contributions by a Member to the Annuity Savings Fund were based in the last year of Service. For Accidental Death, benefits are computed at the annual rate of salary. In accordance with Chapter 1, P.L. 2010, for members hired on or after May 22, 2010 Compensation cannot exceed the annual maximum wage contribution base for Social Security pursuant to the Federal Insurance Contribution Act.

## Final Compensation (FC)

Annual compensation received by the member in the last 12 months of Credited Service preceding his retirement. In accordance with Chapter 1, P.L. 2010, for members hired on or after May 22, 2010, FC means the average annual compensation for the three fiscal years of membership providing the largest benefit.

## Accumulated Deductions

The sum of all amounts deducted from the compensation of a Member or contributed by him or on his behalf without interest.

## 2. Benefits

## Service Retirement

Eligibility means age 55 or 20 years of credited service for an employee who was a member of the Retirement System as of January 18, 2000 and age 55 for an employee who became a member of the Retirement System after January 18, 2000; mandatory at age 65 (except that a member hired prior to January 1, 1987 may remain a member of the Retirement System until the member attains the earlier of age 68 or 25 years of creditable service). Benefit is an annual retirement allowance equal to a member annuity plus an employer pension which together equals the greater of:
i. $1 / 60$ th of FC for each year of Credited Service; or
ii. $\quad 2 \%$ of FC multiplied by years of Credited Service up to 30 plus $1 \%$ of FC multiplied by years of Service over 30. (Prior to January 18, 2000, this benefit was based on AFC rather than FC. However, Policy Memorandum 4-2000, which interpreted the provisions of Chapter 428, P.L. 1999, authorized the change in the salary basis).
iii. $50 \%$ of FC if the member has 20 or more years of Credited Service.

Chapter 428 also requires that, in addition to the $50 \%$ of FC benefit, any member as of January 18, 2000 who will have 20 or more years of Credited Service and is required to retire upon attaining age 65 (except that a member hired prior to January 1, 1987 may remain a member of the System until the member attains the earlier of age 68 or 25 years of creditable service), shall receive an additional benefit equal to $3 \%$ of FC for each year of Credited Service over 20 years but not over 25 years.

## Special Retirement

After completion of 25 years of Credited Service. The annual retirement benefit is equal to a member annuity plus an employer pension which together equal $65 \%$ of FC plus $1 \%$ of FC for each year of Credited Service over 25. Effective for members hired after June 28, 2011, the annual retirement benefit is equal to a member annuity plus an employer pension which together equal $60 \%$ of FC plus $1 \%$ of FC for each year of Credited Service over 25. There is a maximum benefit of $70 \%$ of $\mathrm{FC}(65 \%$ of FC for members hired after June 28, 2011) except for those members with 30 or more years of Credited Service on June 30, 1979.

## Vested Termination

A. Eligible upon termination of service prior to age 55 and prior to 10 years of Credited Service. The benefit equals a refund of Accumulated Deductions less any outstanding loans.
B. Eligible upon termination of service prior to age 55 and after 10 years of Credited Service (but less than 20 years of Credited Service if a member on or prior to January 18, 2000 or less than 25 years of service if a member after January 18, 2000). The benefit is a deferred retirement benefit, commencing at age 55 , equal to a member annuity plus an employer pension which together provide a retirement allowance equal to $2 \%$ of FC multiplied by years of Credited Service up to 30 plus 1\% of FC multiplied by years of Credited Service over 30.

## Death Benefits

## Ordinary Death Benefit - Lump Sum

1. If a member dies prior to retirement, the benefit payable is as follows:

A lump sum amount equal to $3-1 / 2$ times FC payable to the member's beneficiary.
2. After retirement but prior to age 55, the benefit is as follows:
i. For death while a Disabled Retiree the benefit is equal to 3-1/2 times Compensation.
ii. For death while a Deferred Retiree the benefit is equal to his Accumulated Deductions.
iii. For death while a Retiree who has completed 20 years of Credited Service, the benefit is equal to $1 / 2$ times $F$.
3. After retirement and after age 55 , the benefit payable is equal to $1 / 2$ times Compensation. (Note: If a Member is not disabled, 10 years of Credited Service is required for Members enrolling after July 1, 1971.)

## Ordinary Death Benefit - Survivor Annuity

1. If a member dies prior to retirement, the benefit payable to a widow (widower) is equal to $50 \%$ of FC ( $20 \%$ of FC payable to one child, $35 \%$ of FC payable to two children or $50 \%$ of FC payable to three or more children if there is no surviving widow or widower or if the widow or widower dies or remarries or $25 \%$ of FC payable to one parent or $40 \%$ of FC payable to two parents if no surviving widow, widower or child. If no widow, widower, child or parent, the benefit payable to a beneficiary is the aggregate Accumulated Contributions at the time of death).
2. For any member who retired after December 18, 1967, the benefit payable to a widow (widower) is equal to $50 \%$ of FC plus $15 \%$ of FC for one child and $25 \%$ of FC for two or more children.

If no spouse, or spouse remarries, the benefit is equal to $20 \%$ of FC for one child, $35 \%$ for two children, and $50 \%$ for three or more children.

iii. The benefit, when there is no spouse or children, is equal to $25 \%$ of Compensation for one parent and $40 \%$ for two parents.
iv. The benefit, when there is no relation as stated above, is equal to the Accumulated Deductions and is payable to a beneficiary or to the Member's estate. This is also the minimum benefit payable under i., ii. and iii.

## Disability Benefits

RP-2000 Combined Healthy Mortality Tables projected one year using Projection Scale AA and two years using the Buck Modified 2014 Projection Scales is the base table as of the 2015 measurement date for male service retirements and will be further projected on a generational basis using the Buck Modified 2014 Projection Scales. RP-2000 Combined Healthy Mortality Tables projected thirteen-years using Projection Scale BB and then two years projected using the Buck Modified 2014 Projection Scales is the base table as of the 2015 measurement date for female service retirements and beneficiaries and will be further projected on a generational basis using the Buck Modified 2014 Projection Scales. Special mortality tables are used for the period after disability retirement. The following representative values of the assumed annual rates of mortality are effective 2015:

## Marriage

Husbands are assumed to be 3 years older than wives. Among the active population, $90 \%$ of participants are assumed married. No children are assumed.

## Valuation Method

Projected Unit Credit Method. This method essentially funds the System's benefits accrued to the valuation date. Experience gains and losses are recognized in future accrued liability contributions. In accordance with Chapter 78, P.L. 2011, beginning with the July 1, 2010 actuarial valuation, the accrued liability contribution shall be computed so that if the contribution is paid annually in level dollars, it will amortize the unfunded accrued liability over an open 30 year period. Beginning with the July 1, 2018 actuarial valuation, the accrued liability contribution shall be computed so that if the contribution is paid annually in level dollars it will amortize the unfunded accrued liability over a closed 30 year period (i.e., for each subsequent valuation, the amortization period shall decrease by one year.) Beginning with the July 1, 2028 actuarial valuation, when the remaining amortization period reaches 20 years, any increase or decrease in the unfunded accrued liability as a result of actuarial losses or gains for subsequent valuation years shall serve to increase or decrease, respectively, the amortization period for the unfunded accrued liability, unless an increase in the amortization period will cause it to exceed 20 years. If an increase in the amortization period as a result of actuarial losses for a valuation year would exceed 20 years, the accrued liability contribution shall be computed for the valuation year using a 20 year amortization period.

## Receivable Contributions

State contributions expected to be paid the June $30^{\text {th }}$ following the valuation date are discounted by the valuation interest rate of $7.90 \%$ to the valuation date.

Local contributions expected to be paid the April $1^{\text {st }}$, following the valuation are discounted by the valuation interest rate of $7.90 \%$ to the valuation date

## Asset Valuation Method

A five year average of market values with write-up was used. This method takes into account appreciation (depreciation) in investments in order to smooth asset values by averaging the excess of the actual over the expected income, on a market value basis, over a five-year period.

## Appendix D

## Additional Census Data Statistics

In response to prior requests from the Board of Trustees, we have performed additional calculations and constructed additional exhibits based on the July 1, 2015 valuation data.

## Age Breakdown

1. Average Age at Retirement - split by Special/Service Retirements

The exhibit on page 43 provides information split between Police and Firemen and by type of retirement. The average age at retirement is $53.6,52.8$ and 55.0 for service, special, and deferred retirement, respectively.
2. Average Age at Entry

The average age at entry for Contributing active participants at July 1, 2015 is 26.4. The average age at entry for Non-Contributing active participants at July 1, 2015 is 31.4. The average age at entry for all actives at July 1, 2015 is 26.5.
3. \& 4. Average Age at Death for Active participants and Retired participants.

We have assumed that all deaths between July 1, 2014 and June 30, 2015 occurred at the middle of the plan year; January 1, 2015. Based on this assumption, the average age at death for the various groups is as follows:

| Active Contributing members at July 1, 2014 | 47.5 |
| :--- | :--- |
| Active Non-Contributing members at July 1, 2014 | 52.0 |
| Retired at July 1, 2014 | 77.7 |
| Disabled at July 1, 2014 | 69.7 |
| Beneficiary at July 1, 2014 | 85.7 |
| Terminated Vested at July 1, 2014 | N/A |

5. \& 6. Average Age at Retirement for those who retired under ordinary and accidental disability.

Specific information by category is contained on page 44. The average age at retirement is 42.5 and 40.3 for ordinary and accidental disability, respectively.

Dividing the total death benefit cost of \$44,344,000 (\$8,844,000 for State location and $\$ 35,500,000$ for Local groups) by the number of active contributing members of 39,052 gives the total cost per member for insurance $\$ 1,135.51$.
2. Cost per member for Administration

Dividing the Administrative cost per member $=\$ 4,746,715 / 82,234$ members $=\$ 57.72$.
3.\&4. The normal contribution rates for State Locations and Municipalities and Local Groups are summarized in Section III(I) of this report.
5.\&6. The Accrued Liability rates for State Locations and Municipalities and Local Groups are also summarized in Section III(I) of this report.

|  | Actuarial <br> Accrued Liability | Percentage of Total <br> Accrued Liability |
| :--- | ---: | ---: |
| Service/Special Retirements | $\$ 18,435,106,524$ | $51.61 \%$ |
| Disableds | $2,395,473,034$ | $6.71 \%$ |
| Beneficiaries | $2,194,712,177$ |  |
| Deferred Terminated Vesteds | $9,199,013$ | $6.14 \%$ |
|  | $\$ 23,034,490,748$ | $0.03 \%$ |
| Total | $\$ 24.49 \%$ |  |

The percentage shown on the right is the percent attributable to each inactive piece of the total Accrued Liability of $\$ 35,722,403,468$.
